PROCEEDINGS AND DEBATES OF THE 110<sup>th</sup> CONGRESS, FIRST SESSION

Vol. 153

WASHINGTON, WEDNESDAY, FEBRUARY 28, 2007

No. 34

## Senate

The Senate met at 9:30 a.m. and was called to order by the Honorable BENJAMIN L. CARDIN, a Senator from the State of Maryland.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

O God, some of us are able to give much, yet we give little. Some of us would give more, but we have little. Inspire us today to give You our best. Help us to focus on serving You and bringing honor to Your Name.

Guide our lawmakers in their challenging work. Open their minds and hearts to be ready to do Your bidding. Use them as instruments of Your purposes, shining Your light through them to dispel the shadows in our world. Help them to live to please You, demonstrating conclusively with actions that they follow You. Empower them to live in a manner that will glorify You. Give them the wisdom to encourage and help each other in the important work of guarding our freedom.

We pray in Your holy Name. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable BENJAMIN L. CARDIN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,

PRESIDENT PRO TEMPORE,

Washington, DC, February 28, 2007.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby

appoint the Honorable BENJAMIN L. CARDIN, a Senator from the State of Maryland, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mr. CARDIN thereupon assumed the chair as Acting President pro tempore.

### RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

### SCHEDULE

Mr. REID. Mr. President, this morning the Senate will be in a period of morning business for 60 minutes. The first 30 will be controlled by the majority, and the remaining 30 minutes will be under the control of the Republicans.

Following this period of morning business, the Senate will begin consideration of S. 4, the 9/11 legislation. This is a very important piece of legislation. That is why it has a low number. It is one of the 10 that I thought we should complete as soon as possible. I am happy we are there. I thank the Republican leader for his cooperation in allowing consent to be granted for us to switch the cloture vote from the Commerce Committee-reported legislation to S. 4, which is, of course, the measure reported by the Homeland Security Committee. I hope Members will be here early to offer amendments to the legislation.

Once I have laid down the substitute amendment, which will encompass provisions from several committees—Homeland Security, Banking, and Commerce—we will be ready for the amendment process. Members should expect rollcall votes throughout the day. We could go into late evening sessions. We really need to complete this bill. As I told Members yesterday, except for Friday late in the day, because of Sen-

ator LIEBERMAN, our manager of the bill—he starts his Sabbath at sundown on Friday—we are going to move this bill. We could very likely have Friday afternoon votes. So everyone who has airplane reservations should cover themselves because we may have to be here. If progress is not sufficient to finish this bill next week, we will have to start working longer hours. I hope we can get things available Monday so that we have more than one vote Monday night. We really need to start legislating. We have had, in my mind, too much time off.

I see the distinguished Senator from Colorado. We have the first time, but we have no one here at this stage; they are on their way. If he would like to speak now, we will use part of his time now.

Mr. ALLARD. I thank the majority leader for that opportunity. I have a bill I would like to introduce briefly this morning and talk about it for a few minutes. If somebody shows up from his side, I will yield.

### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business for 60 minutes, with Senators permitted to speak therein for up to 10 minutes each. Under the previous order, the first 30 minutes will be controlled by the majority leader or his designee.

The Senator from Colorado is recognized.

(The remarks of Mr. ALLARD pertaining to the introduction of S. 699 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. ALLARD. I suggest the absence of a quorum and ask unanimous consent that time under the quorum call be charged equally to both sides.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### HEALTH CARE

Mr. DURBIN. Mr. President, if one travels across the States of Maryland or Illinois and stops at any business, large or small, and has a conversation about how the business is going, it won't take long for the conversation to move to the issue of health care. Virtually every business I have visited in Illinois in the last 10 or 20 years—or labor union, for that matter—wants to talk about health care. There is a growing concern that the cost of health insurance keeps going up and coverage keeps going down. It is affecting our competitive edge in America. It compromises the security many families want to feel when it comes to medical care necessary for their loved ones.

Yesterday, I was visited by a spokesman for the Business Roundtable. They are infrequent visitors in the offices of Democratic Senators, but it was a good, positive meeting. We talked about a number of issues and started with their concern and our growing concern about the limited availability of health care and its cost.

We now have some 47 million uninsured Americans and many who are underinsured and more and more who are vulnerable each year. There was a disturbing story in this morning's Washington Post about a young mother who lost her son because she had no way to pay for the extraction of a tooth. The child's tooth became decayed, abscessed, and led to a terrible condition which ultimately cost him his life. So for an \$80 tooth extraction, this little boy gave up his life. It is unthinkable, in a great country such as America, that such could occur. It is one small example of a life that has been lost because of a lack of concern we have about extending health care coverage.

It has been a long time since we have had a real conversation about this issue. One has to go back to the previous administration, when President Clinton came forward with a plan. It was complicated. It was controversial. I joined in the debate on the plan because I thought it was long overdue. After some months, the forces in the health care industry, which is very profitable today, came together and killed the idea. So for 10 years nothing has happened except the situation has disintegrated and we are now facing a real crisis.

Recently, President Bush put forward a health coverage proposal that claims to make health coverage more affordable, make the tax treatment of health benefits more equitable, and create incentives for people to enroll in lower cost health plans. I welcome the President's proposal as a sign that he, too, believes the status quo of health care in America is unacceptable and we need to begin the hard work to reform it. But when you take a close look at the President's proposals, some questions arise, and some concerns.

The heart of the plan is a proposal to equalize the tax treatment of health benefits, whether you obtain health coverage through an employer or purchase it yourself in the individual insurance market. On the surface, it sounds very appealing. After all, some people simply do not have access to employer-sponsored coverage. But such a change would not provide people with two equally good options for obtaining health insurance.

Employer-sponsored health coverage is far superior to the individual insurance market for the vast majority of people, even if they have access to a tax deduction. Unless you are in perfect health, individual-market insurance is often unaffordable or unavailable. To a much greater extent than employer coverage, insurers in the individual market can deny you coverage if you have a preexisting medical condition or can refuse to cover you at all. Insurers in the individual market also can charge much higher premiums if you are older or sicker. In short, if you are not in perfect health, you do not want to be in the individual market. Recognizing this, the President's proposal to equalize tax treatment is really not as appealing as it sounds unless you happen to be one of those very young, very healthy people who can go to an individual market and find a competitive rate.

The President's plan has an even more alarming implication. The way he has constructed it, equalizing the tax treatment of benefits could weaken employer-sponsored coverage, which is the bedrock of our current health coverage system. He could do it in two ways.

First, offering the same tax deduction, for either employer-provided coverage or individual coverage, could create an incentive for some employers to drop coverage. They can just basically say: Now you are on your own. We are finished providing health coverage. Use the tax deduction to buy your own plan. Given the current state of the individual insurance market, this could be terrible news for everyone but the youngest and healthiest workers. Most people losing employer coverage would likely end up with insurance that costs more and covers less—if they are lucky to find a policy at all.

The second adverse effect is that even if an employer maintains health coverage, young and healthy employees would have an incentive to leave their

employer plan for individual coverage. You know what that means: When the younger and healthier workers leave the pool, there is more risk and higher premiums for those who remain.

Another major element of the President's plan is a proposal to cap the tax deduction for health benefits at \$15,000 for families and \$7,500 for individuals. Those with health benefits above this cap would face a new tax on the health benefits exceeding this threshold. The President says capping the tax deduction would dissuade people from enrolling in "gold-plated" or "Cadillac" health plans, which the administration has fixated on as a major cause of rising health care costs. Some have gone so far as to characterize this part of the President's plan as a way to tax the rich and their expensive health benefits in order to help lower income people.

What a curious juxtaposition, that for 6 years this administration has argued for tax breaks for people at the highest income categories, saying they must be rewarded, even at the expense of middle-income and lower income families and now, when it comes to health insurance, the tables are turned and the administration is arguing that we should not be rewarding expensive health benefits, we should be, in fact, trying to help lower income people, though his approach does not achieve that.

A closer look at his plan raises even more serious questions. It rests on a shaky premise that large numbers of Americans have an overabundance of health insurance. The President believes Americans are overinsured when it comes to health care protection. There may be some people out there who fit in that category, but most of the people I talk to do not. They are very anxious about their coverage. They are anxious about the cost of their premiums, their deductibles, and their copayments. We find a lot of important health services are not covered.

We know what is happening in bankruptcy courts. Those who can make it through the new maze that has been created by this Congress and this administration usually are there primarily for medical bills. The real problem is not the overinsured but the 16 million Americans who are underinsured. Their health coverage is not adequate to protect them if they have a serious problem. Forty-seven million Americans have no coverage at all. The President's focus on the overinsured seems misplaced, to put it mildly.

Part of the problem stems from this notion of "Cadillac" health plans. The phrase suggests that buying health coverage is like buying a car: You can buy the basic model, which allows you to get to work, pick up the kids, and go to the store, or, if you have some extra money, you can buy the high-end model with lots of extras—leather seats, more horsepower, some electronics, and a fancy stereo. Health coverage just does not work that way. The

cost of health coverage typically has more to do with the characteristics of who is being covered: How old are you? Do you have a medical problem? Where do you live? These are some of the factors which are taken into consideration when people assess the cost of a health care plan.

I am concerned that the new health tax the President proposes would hit many people who are older, with chronic conditions, medical problems, those who live in high-cost coverage areas. If this is the case, the tax is highly unfair. It raises the taxes on the people who can afford to pay them the least.

It also is going to hit people who have sacrificed wage increases in the past for comprehensive health care coverage. I cannot tell you how many labor unions I visit where they say their members have to make a hard call: take-home pay or better health care protection. If they chose better health care protection, the President's approach is going to penalize them. That is not fair.

To make matters worse, the \$15,000 cap the President proposes could increase only at the rate of general inflation, even though the cost of health benefits usually rises much faster than inflation. For example, since 2000, premiums for family coverage for health insurance have increased five times faster than general inflation—a 73-percent increase in premiums for family coverage for health insurance in the last 6 years; and the overall inflation rate, up 14 percent—73 percent to 14 percent. So when the President says he is going to index the \$15,000 in health coverage, it is not going to keep up with the actual increase in health care costs.

The administration estimates that 20 percent of people would be subject to this new tax. But that number could grow considerably over time. Before long, people with below-average coverage would start to pay the tax. That approach only makes sense if the goal of the administration is actually to reduce health care coverage in America—hardly a worthy goal of this Nation.

The President's plan also misses another critical point. A tax deduction really does not help people with low or moderate incomes. The value of a tax deduction increases with income. Someone with a high income receives a large deduction under the President's plan. Someone with a lower income, even people with moderate incomes, has little to look forward to. The President should have proposed a tax credit.

The last piece of the President's health plan—called the Affordable Choices Initiative—is the part about which we know the least. Under this initiative, funds that now go to help hospitals care for low-income and uninsured patients would be taken away and used instead for the purchase of basic private insurance. The plan would snip away the existing safety net without guaranteeing health insurance for everyone. Even by the administra-

tion's own estimates, only a fraction of the uninsured would gain coverage. Already hard-pressed safety net providers would still be responsible for caring for the uninsured and underinsured, yet they would have fewer funds to do so.

It appears those who would gain private health insurance would be enrolled in health plans that may not meet their needs. The President's proposal makes reference to changing State benefit requirements and premium-setting rules, which could make health insurance more expensive or provide less coverage for those who need it.

I appreciate the President has put forward a plan. My vision of health reform differs from his. We should have a health system that covers everyone regardless of income or health status. We should make sure everyone has the health benefits they need to prevent illness and to obtain care when they get sick. We should conduct the research that tells us which medical interventions work best and create incentives for physicians to provide recommended care, and we need to do a better job of managing chronic disease.

On the insurance front, the starting point should be legislation I have introduced with Senator BLANCHE LAMBERT LINCOLN of Arkansas. Here is a radical concept: What if we established a standard across America that small businesses would be able to offer the same type of health insurance that is available to Members of Congress? How about that for a revolutionary statement?

It turns out that Members of Congress are part of the Federal Employees Health Benefits Program. In other words, we are in the same pool with 8 million Federal employees and their families all across America. Of course, that employee pool includes younger workers, older workers, workers who are healthy and those who are not, and people who live all across our Nation in large cities and small, in rural areas and urban areas. It is a plan that has worked for 40 years. For 40 years, we have pooled together Federal employees and we have asked private insurance companies to bid for their business, and they do.

We have the best deal as Federal employees. Every year, there is an open enrollment period. Think about this in your own family situation. Let's assume you are unhappy with the health insurance you have at work or what you had to buy in the individual market. Sometimes you are stuck with it, you have no choice in changing it. A Federal employee has a decision each and every year at the end of the calendar year: Did you like the way you were treated last year by your health insurance company? If you did not, chose another one.

In my State of Illinois, my wife and I have nine choices. We can choose from nine different health care plans that could protect us. Well, of course, we take a look at what the cost might

be, what the coverage might be, and pick the one best for our circumstances. If we pick a plan with more coverage, they take more out of my paycheck; lower coverage, less out of my paycheck—just as it should be.

These are private insurance companies bidding for the business of Federal employees. The Federal Government administers this plan with an overhead cost of less than 2 percent. It is widely popular. It is successful. It has worked for 40 years. Why couldn't we take the same model—that is what Senator LINCOLN and I believe—and apply it to small businesses across America and say no matter where you are, you can join a pool of small businesses, and you as a small business employer and your employees would be sought after by the same private insurance companies?

We sat down with some of the major health insurance companies and said: We don't want to write the bill like legislators. We want to write the bill like insurance companies. We want to make sure, when it is all said and done, there is some potential business for you here. Well, they helped us write the bill.

We do provide some tax incentives in the bill which I think are entirely appropriate. If you have a small business, low-income employees, you still want to have health insurance for the owners of the business and the people who work for you, and you want to offer this and provide a little toward paying those costs, I think we ought to reward you. I think the Tax Code ought to create incentives for that to happen.

Now, we have had a debate within the last year on the floor. Senator MIKE ENZI of Wyoming is my colleague and friend. He sees this issue the same as I do in terms of needing a solution. Our approaches have been different. We have sat down to speak since then about how we might merge our two approaches. I hope we can.

It would be good for us around here once in a while to cooperate, to compromise, and to come up with a bipartisan approach that says to families across America: We are just not coming to the floor to score political points; we are just not coming here to disagree; we are going to try to find areas of agreement and try to move forward so that at the end of the day we can point to a positive accomplishment.

I think this bill Senator LINCOLN and I have introduced is a good starting point. I believe if a President of the United States said to the American people: We are going to eliminate Americans being uninsured in America in just a certain number of years—4 or 5 or 10 years—that would be a positive step forward. We could set a goal, and then it would be up to us in Congress to work with the President each year to reduce the 47 million uninsured even more. I think we can do it. I think we have to do it. We cannot be competitive as a nation, we cannot have a compassionate policy when it comes to

health protection for our fellow citizens unless we show initiative and leadership in the area of health care.

Our vision differs from the President's that I described earlier, but the goal is important and affects every American. I welcome the President's interest in health care. Let's begin the debate.

Mr. President, I yield the floor.

#### VETERANS HEALTH CARE

Mrs. MURRAY. Mr. President, since this body recessed 10 days ago, I have been outraged to see report after report after report detailing this administration's complete failure to care for our troops and for our veterans. What is worse, since we returned on Monday, I have heard several of our Republican colleagues attempt to question our patriotism and our support for those troops. So I felt compelled this morning to come to the floor to speak up.

For more than 4 years, this administration has failed to plan for the true cost of the war in Iraq and Afghanistan. They have demanded blind loyalty from Congress, asking us for rubberstamps for their emergency budgets, avoiding oversight, and pursuing their own strategy in the face of criticism from Members of Congress, from generals, and the American public. Yesterday Senator MARTINEZ, I thought, encapsulated the White House position better than I ever could. He said:

At a time of war, the Congress should do only one thing, which is to support our President, to try to unite behind our troops and unite behind our effort.

I couldn't disagree more. As elected Members of Congress, and even as mere citizens of this country, we can and we must question the policies implemented by our Government. That is our job. It is our responsibility. At no time is that more important than in a time of war when the lives of our bravest men and women are on the line.

But my colleagues don't have to take my word for it. General Pace, the chairman of the Joint Chiefs of Staff, told a congressional hearing recently:

Our troops understand the need for debate back home and are sophisticated enough to know that debate does not equate to lack of support.

But that important debate, that important discussion, and all oversight was stifled for years. Unfortunately for everyone, for the first years of this war Congress was under Republican control and that led to a stunning lack of oversight, an outrageous number of rubberstamps, and an impotence from this Congress that should shame us all.

Well, those days are over.

I don't have the time this morning to outline each and every failure I have seen by the administration. I don't have the time to detail the many ways the administration has failed our

troops, our men and women who are serving us. I don't have time to detail how many ways the administration has failed the men and women who serve us when they come home and go into the VA system.

So instead I want my colleagues to know I am going to be here on this floor speaking frequently and loudly, because I think it is so important to get this administration once and for all to pay the troops and our veterans the attention they deserve 4 years into this war in Iraq. My Democratic colleagues and I are committed to supporting our troops from the battlefield all the way back to their local VA and everywhere in between. We have worked very hard to ensure they get the care they deserve, the care they have earned.

My real worry is that this administration continues to be slow to react to these problems and rarely, if ever, takes proactive measures to stop the many problems before they even begin. From sending our troops to war without the critical armor they need to protect themselves, to housing them in squalor at Walter Reed as we heard about a week ago, to leaving them to fend for themselves when they need mental health care, this administration is utterly failing our servicemembers, our veterans, and all of their families.

Nowhere is that failure more apparent than in the handling of what will one day, I believe, become known as the signature wound of this war, and that is traumatic brain injury. Right now it is estimated that 10 percent of our Iraq and Afghanistan veterans have suffered from these traumatic brain injuries because of their service. One of the big problems with traumatic brain injury, or TBI, is it is an unseen wound and too often it is misdiagnosed. Many times, unless a servicemember is involved directly in an IED incident and is bleeding, he or she won't be documented as having been involved in that explosion. Even if they are two or three tanks behind where the IED exploded, they can get the impact and be a victim of TBI and not know it. As a result, I believe the actual number of Iraq and Afghanistan veterans with TBI will be even higher than the statistics we are now seeing.

We owe it to these men and women in uniform to come on this floor and say: We are going to do everything we can to help you. We should say: We will screen for TBI, we will document TBI, and we will not fail to treat veterans suffering from the signature wound of this war. It is clear our system today is not catching all of the TBI patients this war is producing.

I hope every one of my colleagues saw the special broadcast last evening. ABC News anchor Bob Woodruff detailed his own experience with a traumatic brain injury. I was personally moved by Bob Woodruff's struggle with his injury, by his family's unrelenting hope for recovery, and their ongoing work toward triumph over this horrible situation.

While Bob Woodruff has seen a tremendous recovery from his horrendous injury, I fear the care he received has not been duplicated for thousands of other troops when they return home. He detailed several cases of soldiers who were suffering from injuries not unlike his own, and the lack of care they received was clear when they left our flagship care centers for some of the smaller local hospitals. While so many of us know this injury has become the signature wound of this war, I fear last night's program once again showed us that this administration and the VA in particular has not stepped to the plate to handle the crush of troops with brain injuries who are returning from war each and every day.

What is worse, I am very concerned that we do not even know today the real number of troops who are suffering from traumatic brain injury. The Defense and Veterans Brain Injury Center, the place that gathers all of this information on these injuries, has so far refused—refused—to release it publicly. That information is collected at taxpayer expense, and that information, I hope, could provide us with a baseline of how many of our troops have suffered from a traumatic brain injury. That is a critical and important starting point for dealing with these terrible injuries.

What we do know is that while the Department of Defense claims that less than 30,000 troops have been injured during this war, 205,000 troops have enrolled for care at the VA. Let me say that again. The Department of Defense claims that only 30,000 troops—only? That is a big number, 30,000 troops—have been injured, but 205,000 troops have enrolled for care at the VA. To me, those numbers don't add up. So yesterday I asked Defense Secretary Robert Gates to provide us with the data that has been compiled by the Defense and Veterans Brain Injury Center on the actual number of TBI victims. We don't have this information yet, but I see no reason why it shouldn't be shared with Congress and the American people.

In addition, I was heartened to hear, I have to say, yesterday that the Department of Veterans Affairs, in a long overdue step forward, finally announced they will begin screening every recent combat veteran for TBI. But we have to do a lot more. We can't simply take the Department of Veterans Affairs at their word. Their record of care and openness has left a lot to be desired. As every Member of the Senate knows, we went through that debate several years ago where they denied time and time again they were short-funded and then came and told us: Yes, they were indeed billions of dollars short, and we had to provide additional dollars in the supplemental to make sure our veterans were getting the most basic care. The lines are still long. Veterans are not getting care. We are now dealing with a high number of TBI victims of this war and we are not dealing with it realistically.

We have to develop a system to address traumatic brain injuries, from the battlefield all the way back to the VA hospitals and beyond. Screening is absolutely critical. Pre- and post-deployment screening has to be done. This signature wound has to be a top priority at each and every step along the path to recovery for these wounded members of the armed services.

The bottom line is we have not yet offered our brave men and women a real plan to take care of them when they come home. The Department of Defense and Veterans Affairs must come together to solve these problems plaguing the system. Too many of our men and women get lost in the transition between the Department of Defense and Veterans Affairs. I pledge to them and I pledge to our fighting men and women and to all of their families that this new Democratic Congress is going to hold them accountable for their inaction and finally ensure that we are going to give these men and women what they deserve when they come home.

We hear a lot in this body about who supports the troops. Well, I say to my colleagues that each and every one of us has a responsibility to support these troops, particularly those who are injured, particularly those who come home with TBI and other injuries, not just when they come home but far into the future, and we have not yet budgeted responsibly to do that. We have not provided the programs to do that. We have not done everything we can. This is one Senator who is going to keep talking until we get it done.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Georgia is recognized.

#### IRAQ

Mr. ISAKSON. Mr. President, in approximately half an hour we begin proceeding to debate on the 9/11 bill. Saturday a week ago we concluded without resolution a debate on an Iraq resolution. I come to the floor of the Senate this morning to share with my colleagues my thoughts on Iraq and where we are, and to do so in the context of 9/11.

When I collected my thoughts about what I would say this morning, I thought back to a lot of lessons I learned from a great Georgian. In fact, on Saturday of last week, the day we had that debate, it was the 75th birthday of former Senator Zell Bryan Miller of Towns County, GA. I learned a lot from Zell Miller in my lifetime. I learned humility when he beat me for Governor of Georgia in 1990. I learned respect for class in 1996 when he came back and asked me to chair the State Board of Education after he taught me a lesson in humility 6 years earlier. When I read his book, "Corps Values: Everything You Need to Know I Learned in the Marines," I learned about commitment.

Also in the final debate I had with Zell Miller in 1990, I learned about how you snatch victory when somebody else thought they had it. In the closing debate, 48 hours before the general election when the cameras went on each of us for our last 60 seconds, Zell Miller's closing remarks were simply this. He said:

You know, ladies and gentlemen, we are going to have a race for governor in 2 days and it's all up to you. But I want you to remember something. Zell Miller knows one thing. If you ever walk down a country road and you see a turtle sitting on a fence post, there is one thing you know for sure. He did not get there by himself.

In taking that remark, I would remind my colleagues we didn't get to where we are by ourselves. We got here together at least in terms of Iraq. After 9/11 happened, within days, the United States of America changed and the President announced to the Congress we would no longer as a nation have a defense policy based on reaction. We would have a defense policy based on preemption. We learned on 9/11 you can't wait to find the smoking gun in terrorism to react, because if you do, it is too late. In the case of 9/11, there were 3,000 dead citizens of this world because we didn't preempt. The United Nations, 171 countries, voted unanimously in favor of resolution 1441 which authorized or threatened military action against Saddam Hussein if he didn't cooperate with the disclosures and the inspectors that the U.N. was prompting. When the U.N. failed to act and this President, George W. Bush, wanted to act, he came to this Congress and we voted overwhelmingly to support using force to hold Saddam Hussein accountable and to go after weapons of mass destruction and to go after those sanctuaries of terrorism.

One would think, in listening to the debate in the Senate in the last few weeks, that some people have bad memories. They forgot about those votes. They forgot about the fact that George Bush didn't get there by himself. He got there with us. Now, are we disappointed in some of the things that have happened? Yes. Do we want to change some things? Yes. Do we differ? Yes, and the Senate is the place we differ. But while we differ, we should not discourage our troops. We should not discourage the people who are deployed in Iraq and Afghanistan and around the world in terms of our resolve.

So I would suggest as we go to the debate on the 9/11 bill, we consider it as a wonderful opportunity to make a simple statement, a statement that while we may differ, there is one thing we don't differ on: We don't differ on the fact that we will give our troops the support and the finances and everything they need to carry out the mission to which they are assigned. That is precisely what Senator JUDD GREGG of New Hampshire wanted to do in his resolution that never could come to the floor in that 2 weeks of debate on the Iraq resolution that failed to get

enough votes to get a final vote. It is time, with a bill as relevant as this 9/11, which is the genesis of all we deal with today, that we send that clear message. While we may differ on some policies, we do not differ on the financial support and the absolute commitment to our men and women in harm's way.

I wish to put one other thing into perspective. As much bad news as we always talk about, a lot of good things happen. While some people may differ with the President's commitment to a surge in Iraq, even in the anticipation of that surge, there are some good things that have happened. Moqtada al-Sadr left Sadr City. He saw what was coming. Prime Minister al-Maliki already called for—and there are now talks about it—a regional conference on Iraq, including all the neighbors in the region—something many in here have called for, and I support, including getting the Iranians and Syrians into dialog.

Last week, the Iraqi council approved the foundation of a hydrocarbon bill, oil revenue sharing with the people and provinces of Iraq. That is soon to go to that assembly. Think of something; the people of Iraq are on the doorstep of having equity for the very first time in their history.

There are also disappointing things that have happened. Yes, we wish we were home with a victory already. But we have accomplished a lot, and we are this close to accomplishing the ultimate goal, which is a peaceful democracy in Iraq, terrorism without a sanctuary, and a statement that people are more important than power and dictators and terror.

The United States is the country that has, in history, led and today needs to lead as well. I encourage our colleagues, as we get into this 9/11 debate, let's not forget about the debate we had on Iraq. We ought to send a clear message of support to our troops, understanding that we may differ on the policy. It should be clear and precise that this Congress and this country will see to it that our men and women have the finances and resources to carry out the orders to which they are responsible and they take on without any reservation.

I began my remarks by acknowledging my friend, Zell Miller, and his 75th birthday and all of the lessons I have learned from him. He preceded me in this Senate, and I extend to him a belated birthday wish today in this speech. I also want us to be reminded of Zell Miller's many speeches on the U.S. Marine Corps, service to our country, patriotism, and commitment. Zell Miller knew as a soldier, he knew as the Governor of a State commanding the National Guard, and as a member of the Senate that while there may be political differences on the end result, there should be no difference in the support for the men and women who defend us and fight for freedom every day.

As this debate unfolds, it is my hope we will have the opportunity to bring the Gregg amendment to the floor and vote to send a clear message to our men and women in harm's way that we support them, the funding will be there, and we will stay with them as they pursue the cause on behalf of peace, liberty, freedom, and democracy in Iraq, Afghanistan, and around the world.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CHAMBLISS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CHAMBLISS. Mr. President, I recently came to the Senate floor to express my views relative to the deliberations this body was undertaking approving and disapproving of the President's way forward in Iraq. I am strongly in favor of this body debating the U.S. policy relative to Iraq and believe all my colleagues are as well.

However, as I stated in my earlier speech, it is not appropriate to allow the majority party to completely dictate the terms of that debate, as they have tried to do over the last several weeks. That is why I voted against cloture on the motion to proceed to the Reid resolution on February 17, along with a vast majority of my Republican colleagues.

Mr. President, since that time, a new strategy relative to this debate has come forward. The strategy is essentially an attempt to deauthorize or restrict U.S. military action in Iraq by revoking or altering the Iraq war resolution, which passed this body by a vote of 77 to 23 on October 11, 2002. I don't agree with this tactic.

On January 26, the Senate unanimously approved GEN David Petraeus for his fourth star and to be commander of the multinational forces, Iraq. No Senator opposed his nomination. General Petraeus supports President Bush's plan and new strategy in Iraq and has embarked on the mission for which President Bush chose him and for which this body unanimously confirmed him. Once again, now we are being asked to disapprove and deauthorize the very mission we have unanimously confirmed him to execute. Hopefully, my colleagues can see the irony, as well as the inconsistency, in the choice they are presenting before this body.

As I have said before, we need to give the new strategy in Iraq a chance to work. If General Petraeus comes and says it is not working, then I am prepared to change course. President Bush's current strategy is not guaranteed to work. However, no approach I have seen or heard discussed in the past several months has any greater

chance of success than the course we are now taking. Therefore, this strategy deserves a chance.

In talking with some of my colleagues, on the Republican side as well as the Democratic side, who recently returned from Iraq, I am very hopeful that based on the comments they have made, per their visual inspection of what is going on in Iraq today, based upon their conversations with General Petraeus, we are seeing some successes, even though they are minimal at this point. But there is now hope and encouragement that this strategy is going to work.

If Members of Congress truly don't support our efforts in Iraq and believe we should withdraw troops, they should vote to cut off funds for the war, which is the primary authority Congress has in this area. However, having refused to allow the Senate to vote on protecting funding for our troops serving in harm's way, the Democrats are now proposing another symbolic resolution.

This is the fourth resolution that the Senate Democratic leadership has backed to address the troop increase, and the Democrats still insist on avoiding the fundamental issue of whether they will cut off funds for troops serving in Iraq.

As the Wall Street Journal wrote in an editorial:

Democrats don't want to leave their fingerprints on defeat in Iraq by actually voting to bring the troops home. So instead, they're hoping to put restrictions on troop deployments that will make it impossible for the Iraq commander, General David Petraeus, to fulfill his mission.

This is essentially an attempt to ensure the policy does not succeed. Logically, the Senate should be giving General Petraeus everything he needs to succeed, both in terms of financial as well as political support. But that is not what the majority party is trying to do.

Democrats in the House of Representatives have undertaken a plan that would tie war funding in a supplemental spending bill to strict new standards for resetting, equipping, and training troops. This strategy to choke off resources and the Senate plan to revise the use of force authorization are attempts to make the war in Iraq unwinnable while avoiding political responsibility.

As Charles Krauthammer has said:

Slowly bleeding our forces by defunding what our commanders think they need to win or rewording the authorization of the use of force so that lawyers decide what operations are to be launched is no way to fight a war. It is no way to end a war. It is a way to complicate the war and make it inherently unwinnable—and to shirk the political responsibility for doing so.

There is nothing easy or pretty about war, and this war is no exception. Not a day passes that I don't consider the human cost of our attempt to defeat the terrorists and eradicate extremism in Iraq and replace it with a self-reliant and representative government.

The debate, as we move forward, should focus on how we can most

quickly and effectively achieve the victory that all of us desire. It is not about political posturing. It is about what Congress can do to support our young men and women in Iraq and help them accomplish this critical mission.

Losing the global war on terrorism is not an option. Failure in Iraq would be devastating to our national security, entangling the Middle East in a web of chaos that breeds terror and extremism. The Iraq Study Group and countless expert witnesses have testified that simply leaving Iraq, without stabilizing the country, would be disastrous.

As the senior Senator from my State, my support of our mission and our troops includes a responsibility to examine the tactics and question the steps that we take to reach our goal. I will continue to do that in a very deliberate way, but I intend to be constructive in my approach and criticism in order to do everything we can to ensure that our troops and our mission succeed, rather than doing whatever I can to make sure they fail.

When this motion to deauthorize or micromanage the war in Iraq comes to the floor of the Senate, I urge my colleagues to oppose it.

I yield the floor. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. WHITEHOUSE). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LIEBERMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

#### IMPROVING AMERICA'S SECURITY ACT OF 2007

The PRESIDING OFFICER. Under the previous order, the Senate will now proceed to the consideration of S. 4, which the clerk will report.

##### SEC. 1302. SENSE OF THE SENATE REGARDING COMBATING DOMESTIC RADICALIZATION.

(a) FINDINGS.—The Senate finds the following:

(1) The United States is engaged in a struggle against a transnational terrorist movement of radical extremists seeking to exploit the religion of Islam through violent means to achieve ideological ends.

(2) The radical jihadist movement transcends borders and has been identified as a potential threat within the United States.

(3) Radicalization has been identified as a precursor to terrorism.

(4) Countering the threat of violent extremists domestically, as well as internationally, is a critical element of the plan of the United States for success in the war on terror.

(5) United States law enforcement agencies have identified radicalization as an emerging threat and have in recent years identified cases of “homegrown” extremists operating inside the United States with the intent to provide support for, or directly commit, a terrorist attack.

(6) The alienation of Muslim populations in the Western world has been identified as a factor in the spread of radicalization.

(7) Radicalization cannot be prevented solely through law enforcement and intelligence measures.

(b) SENSE OF SENATE.—It is the sense of the Senate that the Secretary, in consultation with other relevant Federal agencies, should make a priority of countering domestic radicalization and extremism by—

(1) using intelligence analysts and other experts to better understand the process of radicalization from sympathizer to activist to terrorist;

(2) recruiting employees with diverse worldviews, skills, languages, and cultural backgrounds and expertise;

(3) consulting with experts to ensure that the lexicon used within public statements is precise and appropriate and does not aid extremists by offending the American Muslim community;

(4) developing and implementing, in concert with the Attorney General and State and local corrections officials, a program to address prisoner radicalization and post-sentence reintegration;

(5) pursuing broader avenues of dialogue with the Muslim community to foster mutual respect, understanding, and trust; and

(6) working directly with State, local, and community leaders to—

(A) educate these leaders on the threat of radicalization and the necessity of taking preventative action at the local level; and

(B) facilitate the sharing of best practices from other countries and communities to encourage outreach to the American Muslim community and develop partnerships between all faiths, including Islam.

**SEC. 1303. SENSE OF THE SENATE REGARDING OVERSIGHT OF HOMELAND SECURITY.**

(a) *FINDINGS.*—The Senate finds the following:

(1) The Senate recognizes the importance and need to implement the recommendations offered by the National Commission on Terrorist Attacks Upon the United States (in this section referred to as the “Commission”).

(2) Congress considered and passed the National Security Intelligence Reform Act of 2004 (Public Law 108-458; 118 Stat. 3643) to implement the recommendations of the Commission.

(3) Representatives of the Department testified at 165 Congressional hearings in calendar year 2004, and 166 Congressional hearings in calendar year 2005.

(4) The Department had 268 representatives testify before 15 committees and 35 subcommittees of the House of Representatives and 9 committees and 12 subcommittees of the Senate at 206 congressional hearings in calendar year 2006.

(5) The Senate has been unwilling to reform itself in accordance with the recommendation of the Commission to provide better and more streamlined oversight of the Department.

(b) *SENSE OF SENATE.*—It is the sense of the Senate that the Senate should implement the recommendation of the Commission to “create a single, principal point of oversight and review for homeland security.”.

**SEC. 1304. REPORT REGARDING BORDER SECURITY.**

(a) *IN GENERAL.*—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit a report to Congress regarding ongoing initiatives of the Department to improve security along the northern border of the United States.

(b) *CONTENTS.*—The report submitted under subsection (a) shall—

(1) address the vulnerabilities along the northern border of the United States; and

(2) provide recommendations to address such vulnerabilities, including required resources needed to protect the northern border of the United States.

(c) *GOVERNMENT ACCOUNTABILITY OFFICE.*—Not later than 270 days after the date of the submission of the report under subsection (a), the Comptroller General of the United States shall submit a report to Congress that—

(1) reviews and comments on the report under subsection (a); and

(2) provides recommendations regarding any additional actions necessary to protect the northern border of the United States.

Mr. LIEBERMAN. Mr. President, with the authority of the Homeland Security and the Governmental Affairs Committee—that is, the consent of a majority of the Members—I now withdraw the committee-reported substitute amendment.

The PRESIDING OFFICER. The Senator has that right. The amendment is withdrawn.

The majority leader is recognized.

AMENDMENT NO. 275

Mr. REID. Mr. President, I send a substitute amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID], for himself, Mr. LIEBERMAN, Ms. COLLINS, Mr.

INOUE, and Mr. DODD, proposes an amendment numbered 275.

Mr. REID. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The amendment is printed in today’s RECORD under “Text of Amendments.”)

Mr. REID. Mr. President, the substitute I have just offered encompasses the provisions of S. 4, also legislation on surface transportation security, aviation security, and rail security from the Commerce Committee, as well as transit security legislation from the Banking Committee.

As I said yesterday, I deeply appreciate, as does the distinguished Republican leader, the work done by the two committee managers. Senator LIEBERMAN and Senator COLLINS have worked together for a number of years, and they work well together. This is an extremely important piece of legislation, and so we ask Members if there is something about the bill that has just been laid down that they don’t like, they should come and try to change it and not wait around because they will be disappointed. We have to move through this bill.

We have been told there are a number of amendments people have to offer, and we want them to do that. I asked the Democratic manager, Chairman LIEBERMAN, if people offer amendments, to have a reasonable debate. We are not going to mess around here for a long time. With appropriate debate, Senator LIEBERMAN is going to move to table if it is something we don’t like, and I think it is important that Members know that.

I have been told there are a lot of amendments on both sides. It is our goal to finish this legislation as soon as we can next week. That is going to be difficult. We could have some late nights, and as I indicated this morning, we might have to work into Friday sometime. Monday night, I hope we can stack votes so that we have a number of votes. As I have indicated, we will not have votes starting before 5:30, but I hope we can have a number of votes at 5:30 so we can dispose of them that night.

This is what we do. We are legislating now, and I look forward to a good piece of legislation when we finish.

Mr. MCCONNELL. Mr. President, let me echo the remarks of the majority leader. We have a number of amendments on this side, and we are prepared to offer them in the next few hours. I believe the first amendment is going to come from the Democratic side. Senator COLLINS is either here or on her way, and she is certainly going to manage the bill on our side, but then we will follow the Democratic amendment with an amendment on our side.

I also want to remind everyone that at 2 p.m. this afternoon the Transportation Security Administration will hold an all-Members briefing related to

the provisions of S. 4, the bill we are now discussing, which will be pending today. A notice was sent to all offices, and Senators should be made aware that this briefing will be held in S407 of the Capitol.

Mr. REID. Mr. President, I would also say this: We are going to alternate back and forth. If there is not a Democrat here, a Republican will offer two amendments in a row, and vice versa. In other words, we need expedition. There are a number of amendments, and we are not going to wait while somebody is coming from their office to offer an amendment. If somebody is here ahead of someone, then they will proceed.

Our first amendment, if she is here on time, will be from Senator FEINSTEIN; otherwise, Senator COLLINS, I understand, has an amendment.

Mr. LIEBERMAN. Mr. President, while the two leaders are here, I want to thank Senator REID for designating this urgent legislation which would implement the previously unimplemented or inadequately implemented recommendations of the 9/11 Commission. I also thank Senator MCCONNELL, the Republican leader, for his cooperation and consent to moving this forward quickly on the Senate floor.

This bipartisan cooperation, obviously, is justified by the subject matter, homeland security, and in that regard I want to thank, again, Senator COLLINS. We switched titles in this session of Congress, but as I said to her when that happened, nothing else will change but our titles. She has been a wonderful partner and coworker on this measure once again, and it is in that spirit that we invite amendments, as Senator REID said, from our colleagues who may think that, as good as the bill is, it could be better, and we urge them to come forward quickly.

In our committee, only one amendment was divided on a party-line vote. The rest were totally nonpartisan, and I hope that is generally the way things will go on the Senate floor as we consider the amendments brought forth.

Yesterday, to expedite matters, Senator COLLINS and I both made our opening statements, so we do not have those opening statements now. Therefore, we look forward to the Senator from California coming to the floor as soon as she can to offer an amendment, which I note will concern visa waiver sections of the measure. Senator COLLINS has another amendment which we will go to if Senator FEINSTEIN does not come soon.

I thank the Chair and, for the moment, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LIEBERMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 271 TO AMENDMENT NO. 275

Mr. LIEBERMAN. Mr. President, on behalf of the Senator from California, Mrs. FEINSTEIN, I call up amendment No. 271.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Connecticut [Mr. LIEBERMAN], for Mrs. FEINSTEIN, proposes an amendment numbered 271 to amendment No. 275.

Mr. LIEBERMAN. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To prohibit a foreign country with a visa refusal rate of more than 10 percent or that exceeds the maximum visa overstay rate from participating in the visa waiver program)

Strike subsection (c) of section 401 and insert the following:

(c) DISCRETIONARY VISA WAIVER PROGRAM EXPANSION.—Section 217(c) of the Immigration and Nationality Act (8 U.S.C. 1187(c)) is amended by adding at the end the following:

“(8) NONIMMIGRANT VISA REFUSAL RATE FLEXIBILITY.—

“(A) CERTIFICATION.—On the date on which an air exit system is in place that can verify the departure of not less than 97 percent of foreign nationals that exit through airports of the United States, the Secretary of Homeland Security shall certify to Congress that such air exit system is in place.

“(B) WAIVER.—After certification by the Secretary under subparagraph (A), the Secretary of Homeland Security, in consultation with the Secretary of State, may waive the application of paragraph (2)(A) for a country—

“(i) if the country meets all security requirements of this section;

“(ii) if the Secretary of Homeland Security determines that the totality of the country's security risk mitigation measures provide assurance that the country's participation in the program would not compromise the law enforcement, security interests, or enforcement of the immigration laws of the United States;

“(iii) if there has been a sustained reduction in the rate of refusals for nonimmigrant visitor visas for nationals of the country and conditions exist to continue such reduction;

“(iv) the country cooperated with the Government of the United States on counterterrorism initiatives and information sharing before the date of its designation as a program country, and the Secretary of Homeland Security and the Secretary of State expect such cooperation will continue; and

“(v)(I) if the rate of refusals for nonimmigrant visitor visas for nationals of the country during the previous full fiscal year was not more than 10 percent; or

“(II) if the visa overstay rate for the country for the previous full fiscal year does not exceed the maximum visa overstay rate, once it is established under subparagraph (C).

“(C) MAXIMUM VISA OVERSTAY RATE.—

“(i) REQUIREMENT TO ESTABLISH.—After certification by the Secretary under subparagraph (A), the Secretary of Homeland Security and the Secretary of State jointly shall use information from the air exit system referred to in subparagraph (A) to establish a maximum visa overstay rate for countries participating in the program pursuant to a waiver under subparagraph (B).

“(ii) VISA OVERSTAY RATE DEFINED.—In this paragraph the term ‘visa overstay rate’ means, with respect to a country, the ratio of—

“(I) the total number of nationals of that country who were admitted to the United States on the basis of a nonimmigrant visitor visa for which the period of stay authorized by such visa ended during a fiscal year and who remained in the United States unlawfully beyond the such period of stay; to

“(II) the total number of nationals of that country who were admitted to the United States on the basis of a nonimmigrant visitor visa for which the period of stay authorized by such visa ended during such fiscal year.

“(iii) REPORT AND PUBLICATION.—Secretary of Homeland Security shall submit to Congress and publish in the Federal Register a notice of the maximum visa overstay rate proposed to be established under clause (i). Not less than 60 days after the date such notice is submitted and published, the Secretary shall issue a final maximum visa overstay rate.

“(9) DISCRETIONARY SECURITY-RELATED CONSIDERATIONS.—In determining whether to waive the application of paragraph (2)(A) for a country, pursuant to paragraph (8), the Secretary of Homeland Security, in consultation with the Secretary of State, shall take into consideration other factors affecting the security of the United States, including—

“(A) airport security standards in the country;

“(B) whether the country assists in the operation of an effective air marshal program;

“(C) the standards of passports and travel documents issued by the country; and

“(D) other security-related factors.”.

Mrs. FEINSTEIN. Mr. President, I rise today to voice my concern about the efforts to expand the Visa Waiver Program in the 9/11 commission report bill and to offer an amendment that will cap the unlimited expansion of this program.

I believe the bill as offered on the floor will make us less safe, not more safe with respect to this huge program called Visa Waiver.

The bill would allow the Department of Homeland Security and the Department of State to expand the Visa Waiver Program without limits. My amendment would limit this discretion based on a 10 percent visa refusal rate or on the actual visa overstay rate.

The Visa Waiver Program provides an extraordinary exception to our immigration laws. It allows the citizens of 27 nations to visit this country by merely showing up on the day of departure with a passport from their home country. In 2004, the State Department reported that 15.6 million people came to this country as part of this program. I am told that in 2005, unofficially, the number was at least 15.5 million and in 2006, the number was at least 15.6 million.

We have no way of knowing how many left because we do not have an exit system.

The bill on the floor today changes the Visa Waiver Program in a number of key ways.

First, it adds some good security measures, such as the expedited reporting of lost and stolen travel docu-

ments; and the exchange of information on terrorist watchlist. It also authorizes the Department of Homeland Security to develop an electronic travel authorization program so that all persons entering the U.S. will have to apply for clearance to enter the U.S. in advance of their trip. And it requires the Department of Homeland Security to develop a system to track all the foreign visitors who leave the U.S. via our airports—but not our seaports or land ports. This has been an unmet goal, however, year after year.

I welcome and support the enhanced security measures included in the bill. They are long overdue.

Second—and here is the problem—the bill allows the Department of Homeland Security and the Department of State to fundamentally change the way countries are admitted into the visa waiver program, and thus, who can come into the U.S. without getting a visa.

Under current law, a country is eligible for this program so long as the vast majority—at least 97 percent—of its nationals can get a visa when they apply for one. The percentage of people who are rejected when they apply for a visa is called the ‘visa refusal rate’ and that percentage must be under 3 percent for a country to participate in the program.

The rationale is that if the overwhelming majority of visitors satisfy requirements for a U.S. visa when they apply, we should not waste our resources and the time of U.S. consular officers to evaluate every single visa application. The 3 percent rate means that 97 percent of these applicants will return to their home country for one reason or another. They have family and earn a satisfactory living.

But even with a 3 percent rejection rate, the Visa Waiver Program is a security problem.

Convicted terrorist Zacarias Moussaoui from France and ‘shoe bomber’ Richard Reid from Great Britain both boarded flights to the United States with passports issued by Visa Waiver Program countries.

On August 10 of this past year, British police charged 17 suspects with a terrorist plot to detonate liquid explosives carried on board several airliners traveling from the United Kingdom to the United States. The key suspects were reported to be British-born Muslims, eligible to travel to the U.S. with just a passport in hand.

For that reason, I believe that the current Visa Waiver Program is the soft underbelly of our national security.

But this bill undermines even the scant protection afforded by our current laws in that it allows the administration to admit new countries into the program with complete disregard for how many people were previously rejected when they applied for a U.S. visa. My amendment would provide a meaningful limit to that discretion.

This bill does not affect just a handful of countries. It would affect any

and every country whose nationals travel to the United States.

As a matter of fact, the “roadmap” countries—or countries that the administration is currently talking to about inclusion in the Visa Waiver Program—total 19. So the Departments of State and Homeland Security are actively talking with 19 countries for acceptance into this Program.

A significant number of these 19 countries have visa rejection rates that are well above 3 percent. They are marked with an asterisk, and total 13 of the 19. I ask unanimous consent to have printed in the RECORD a chart showing by country the rejection rates.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Country Name	2006 Refusal Rate (Percent)

Mrs. FEINSTEIN. Mr. President, today, 544 million people are eligible to travel into the U.S. without a visa as part of the Visa Waiver Program. If we add these “roadmap” countries to the program, we will add 162 million more people who can travel into the United States without a visa—a 30 percent increase.

And if these 19 additional “roadmap” countries can come into the program, what is to preclude any other country from coming into the program? How do we say “no” to India, also a good ally, when its refusal rate—19.5 percent—is lower than 4 of the roadmap countries? The rejection rate for China—24.5 percent—is lower than those coming from Romania. Indonesia, at 35.1 percent just exceeds Romania. So this bill will likely set up some real conflicts and create additional problems.

The administration has argued that the expansion of the visa waiver countries should be limited to our allies. But what does it mean to be an ally? According to this administration, when we invaded Iraq we counted Colombia with a 33.3 percent visa rejection rate, and Nicaragua, with a 48 percent rejection rate among our allies because they had provided some assistance in war.

Do we, in Congress, really want to give the administration unfettered flexibility to allow nationals from any country to travel to the U.S. without a visa, simply because their governments have cooperated with ours?

Does that mean that those nationals should be allowed to come to the

United States with no advance screening?

We can only assume that we will also significantly increase the number of people who will not leave the United States after their visa expires. In this manner, this bill, if enacted into law, will likely add many thousands, if not millions, to the undocumented or illegal population.

Remember, today, 30 to 40 percent of the illegal population are, in fact, visa overstays—people who come with temporary or visitor visas and do not return to their countries.

I believe we should not expand this program without a good hard look at how it will compromise our national security, law enforcement, and immigration goals and without ensuring that safety measures are in place to make the program strong.

First, whenever the United States adds new countries to the program, it increases the demand for, and the availability of, fraudulent travel documents.

The value of lost, stolen or fraudulent Visa Waiver Program documents is enormous. A person carrying a visa waiver country passport has virtually unlimited access into and out of the United States.

No doubt, the expansion of the program will increase the use of fraudulent border documents which are sold on the black market in the tens of thousands: passports, international driver's licenses, and other forms of identification from new visa waiver countries will flood the market.

According to the July 2006 GAO report on improving the security of the Visa Waiver Program, visa waiver travel documents have been used by criminals and terrorists seeking to disguise their true identity.

In 2004, more than 15 million people from 27 countries traveled in and out of the United States with no visa.

And from January through June 2005—a 6-month period—the Department of Homeland Security reported that it confiscated 298 fraudulent or altered passports issued by Visa Waiver Program countries that travelers were attempting to use to enter the United States. And these are just the ones who got caught.

In fact, Interpol reports that they have records of more than 12 million stolen and lost travel documents in their database, but that there are 30 to 40 million travel documents have been stolen worldwide.

We can extrapolate that tens of thousands of those documents are from visa waiver countries.

As the 9/11 Commission report demonstrates, individuals with fraudulent documents pose a far greater threat to our national security than those traveling with no documents at all.

For that reason, Senator SESSIONS and I have introduced a bill this Congress to crack down on people who traffic in lost and stolen travel documents.

The second problem is that some countries have very weak policies on

who can become a citizen—and therefore legally obtain travel documents. Not every country has the same strict controls on who can become a citizen as the U.S. does.

For example, Romania, one of the “road map” countries, extends citizenship to many citizens of Ukraine or Moldova as a matter of course without prior residency requirements. Ukraine and Moldova are not slated to participate in the visa waiver program, and in fact, have visa rejection rates of 38.7 percent and 34.2 percent, respectively. Adding Romania is like adding Ukraine and Moldova. How would their inclusion impact national security?

Finally, this bill does not go far enough to protect U.S. borders.

The bill requires the development of an air exit system, but it does nothing to track who comes and goes by way of our land and sea ports.

It also requires the Department of Homeland Security to track how many people overstay their visas, but it does not require them to use this information to determine who can participate in the program.

For example, even if we learn that one out of four Lithuanian visitors never returns to Lithuania when their visa expires, Lithuania could still participate in the Visa Waiver Program.

Again, experts estimate that between 30 percent and 40 percent of those undocumented people living in the U.S. today are here because they ignored the time limits on their visa and just never went back home.

At a time when this country is torn about how to handle the 12 million undocumented people currently living here, we must consider who plays by the rules when we talk about who participates in the program.

If a high number of travelers from countries overstay their visas, then those countries should not be allowed the benefit of permitting their nationals to enter the U.S. without a background check and a consular interview.

The amendment I am proposing today offers a way to limit the expansion of the Visa Waiver Program in light of our immigration and national security concerns.

The amendment I am offering would increase the visa rejection rate under the current law from 3 percent to 10 percent for countries that agree to these enhanced security measures.

The result is that countries such as South Korea, 3.6 percent, Taiwan, 3.1 percent, Estonia, 7.1 percent, and the Czech Republic, 9.4 percent could be eligible to participate in the program provided they pass the security requirements this bill imposes.

Then, once the U.S. has statistics on which foreign nationals regularly overstay their visa, the government should use those statistics to decide who can participate in the program.

My amendment would require the Departments of Homeland Security and State, in consultation and with the approval of Congress, to set a meaningful

overstay rate once they have that data. Then countries with a proven track record—those with nationals who go home when they are supposed to go home—could be eligible for the program.

The answer is not to entirely remove the visa rejection rate, 3 percent, as this bill does with no suitable replacement, but to enact a fair system across the board that recognizes that the screening of those who wish to come to our country is important, both for the security of the country, as well as to ensure that visitors do what their “visa waiver” provides—and that is to return to their country of origin at the end of the 90-day period.

Mr. LIEBERMAN. Mr. President, there are discussions going on between the Senator from California and others to answer a question or two about the amendment, so for the moment we are going to leave it pending, and I yield for my colleague from Maine.

Ms. COLLINS. Mr. President, I have only had a brief time to look at the amendment offered by the Senator from California, but it would, in my judgment, enhance certain provisions in the underlying bill on the visa waiver program. There are discussions going on with key Senators on our side of the aisle, such as Senator KYL of Arizona, who has also a great interest in this area.

We are not prepared on this side to proceed with a full discussion of the amendment at this time or to dispose of it at this time, but I would inform my colleagues that I am optimistic that the discussions will produce a fruitful result. At this time, we cannot proceed to disposing of the amendment, however.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LIEBERMAN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LIEBERMAN. Mr. President, Parliamentary inquiry: Am I correct that the Feinstein amendment, No. 271, is the pending business?

The PRESIDING OFFICER. The Senator is correct.

Mr. LIEBERMAN. I have been informed the questions one Member was raising about the amendment of Senator FEINSTEIN have been resolved. I now urge we adopt the amendment.

The PRESIDING OFFICER. Is there further debate? The Senator from Maine.

Ms. COLLINS. Mr. President, to clarify for our colleagues, the objection or the clarification I mentioned earlier has been resolved on this side of the aisle. I know of no objection to adopting the amendment of Senator FEINSTEIN. I believe it strengthens the provisions in the underlying bill and I urge its adoption.

The PRESIDING OFFICER. If there is no further debate on the amendment, the question is on agreeing to the amendment.

The amendment (No. 271) was agreed to.

Mr. LIEBERMAN. Mr. President, I move to reconsider the vote.

Ms. COLLINS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. LIEBERMAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Ms. COLLINS. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AMENDMENT NO. 277

Ms. COLLINS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

(d) ENHANCED DRIVER'S LICENSE.—

Ms. COLLINS. Mr. President, I rise today to introduce an amendment to address the growing concern among States regarding the implementation of the REAL ID Act of 2005. This law requires States to meet minimum security standards before citizens can use their driver's licenses for Federal purposes, such as boarding an airplane. I am very pleased to have several cosponsors of this amendment, including Senator ALEXANDER, Senator CARPER, Senator CANTWELL, Senator SNOWE, and Senator MIKULSKI. All of them have expressed concerns about the impact on their States. I particularly wish to single out Senator ALEXANDER,

who has long been a leading voice in raising concerns about the costs imposed upon States by the REAL ID Act.

As the deadline for compliance for the REAL ID Act rapidly approaches, States are beginning to send a very clear message that they are deeply concerned they simply will not be able to meet these standards. The amendment I introduce today recognizes those concerns by allowing more time to devise a way to make driver's licenses more secure without unduly burdening State governments and without threatening privacy and civil liberties.

To begin with, perhaps some background information would be useful. The 9/11 Commission's investigation found that all but one of the 9/11 terrorists had acquired some form of U.S. identification—in most cases a State driver's licenses. The Commission recommended that the Federal Government should set standards for the issuance of driver's licenses to make them more secure, to ensure the person was, in fact, entitled to a driver's license, and to make certain the driver's license has certain security features to ensure the individual is who he or she claims to be.

To implement that recommendation, which was indeed in response to a very real concern identified by the 9/11 Commission, I worked with a bipartisan group of Senators, most notably my colleague, Senator LIEBERMAN, to craft a provision in the 2004 Intelligence Reform Act that would accomplish the goal of the Commission. It called for the creation of a committee of experts from the Federal Government, from State governments, from privacy groups, from technology information organizations, to come together in a negotiated rulemaking process and to develop a means of providing secure identification, while protecting privacy and civil liberty rights, and also respecting the role of the States, which have always had the primary responsibility in this area.

The language we came up with also provided for some grants that would help the States bear this cost—not the whole cost but to help them out.

This committee was indeed appointed—indeed, at my recommendation, Maine's secretary of state was one of the members—and they began diligently working on this task. Unfortunately, before the committee could complete its work, the House of Representatives attached the REAL ID Act of 2005 to an emergency war supplemental, a bill that was truly urgent. There was not a lot of consideration in the Senate nor debate over this provision. It was inserted into the emergency war appropriations bill.

The effect of that was to repeal the negotiated rulemaking provisions that we had worked so hard to craft and to put into the Intelligence Reform Act of 2004. The further effect, therefore, was to halt the very productive and worthwhile progress this committee was making in devising standards to im-

prove security without imposing unnecessary burdens and costs on State governments.

Unlike our Intelligence Reform Act, the REAL ID Act of 2005 did not include States and other interested parties, whether privacy advocates or technological experts, in the rule-making process. Instead, the REAL ID Act simply instructed the Department of Homeland Security to write its own regulations. It has been almost 2 years since the REAL ID Act was passed, and the Department has yet to issue the detailed guidance the States need to comply with the law. We expect these regulations are just about to be published, that they are about to be issued under the formal notice and comment period later this week.

The problem is, the States are facing this looming May of 2008 deadline for being in full compliance with the REAL ID Act. That is an enormously constricted period for the States to comply, when the regulations have not yet been issued.

As States begin work this year on their 2008 budgets, they still have no idea what the final regulations will require of them, but they do know that the costs are likely to be substantial based on a study released in 2006 by the National Governors Association. The NGA estimated that the costs to States to implement the REAL ID Act could total more than \$11 billion over the next 5 years. This is a substantial amount. Perhaps the cost will be less than that, but the point is, we don't know because the regulations with the detailed guidance have still not been issued, even as we speak.

The State of Maine reports that the costs of implementation of the REAL ID Act could total \$158 million. The Secretary of State tells me that is more than six times the normal operating budget of the Maine Bureau of Motor Vehicles.

The result has been an increasing rebellion by States over this unfunded, very difficult mandate. Some States, including my home State of Maine, have passed resolutions that have sent the message to Washington that they cannot and will not implement the REAL ID Act by the May 2008 deadline. So what do we do?

Here is what my amendment proposes. I have had extensive consultations with the National Governors Association, the National Council of State Legislatures, and other experts on this issue.

My amendment has two primary objectives. The first is to give the Federal Government and States the time and flexibility they need to come up with an effective but practical system to provide secure driver's licenses.

Second, my amendment would ensure the involvement of experts from the States, from the technology industry, and privacy and civil liberties advocates, by bringing them back to the table and giving them a chance to review these regulations and make them work.

There are three major provisions in the amendment we are offering. First, the amendment provides that States would not have to be in full compliance with the REAL ID Act until 2 years after the final regulations are promulgated. That is reasonable. This is a difficult task, and it is important that we get it right. It is important for our security, but it is also important for the States that have been burdened with the task. That means no matter how long it takes for the Department of Homeland Security to finish these regulations, States will have a full 2 years to implement them. Most likely, the impact of that is to delay from May of next year to May of 2010 the compliance date. That is the likely timeframe about which we are talking.

Second, the amendment would give the Secretary of Homeland Security more flexibility to waive certain requirements of REAL ID, if an aspect of the program proves to be technically difficult to implement. I have talked with some technology experts. Some of them say it can be done. Some of them say this is an enormous task because we are talking about having interlocking databases so that States can check with other States on whether an individual is licensed there. That is a very complex project because, not surprisingly, each State has its own system. So there are questions about the technology and the feasibility of all of the requirements of the REAL ID Act. We want to give the Secretary some flexibility in that area.

It is possible that some of the technological links necessary for REAL ID may not be fully in place at the time that compliance is required. On the other hand, if the technology is there and the systems are up and running, it will be easier for the States to proceed. That is another advantage of the extension in time. The technology is only going to get better and become more effective.

This also gives us more time to address privacy concerns because there are a lot of questions, if you have people throughout the country working in motor vehicle bureaus who are now going to have access to databases and are going to need training in evaluating the underlying documents, whether they are birth certificates or visas, in determining their validity. So this is a complicated task.

Third, the amendment reconstitutes the committee that we created in 2004, and that was making such good progress in its deliberations before these provisions were repealed by the REAL ID Act. This committee would be required to look at the regulations published by the Department of Homeland Security and to make suggestions for modifications to meet the concerns of States, privacy advocates, and other interested parties. Within 120 days of convening, the committee would report its recommendations to the Department of Homeland Security and to Congress. So we are not throwing out

the work that has already been done by the Department of Homeland Security. It doesn't make sense to go back to square one, to go back to scratch, as the 2004 bill had proposed. Instead, we create this committee, bringing all the stakeholders to the table. They would take a rigorous look at the regulations that are issued, and they would make recommendations to the Department and to us so that we could exercise our oversight.

The Department of Homeland Security would then either have to make the recommendations recommended by this committee or explain why it chose not to. So we would have much more transparency and accountability in the process.

In addition, the committee could recommend to Congress, if they believed that statutory changes are needed to mitigate concerns that could not be addressed by modifications to the regulations. That is an important safeguard as well.

The amendment we are offering would give us time, the information that Congress and the Department of Homeland Security need to better implement the recommendations of the 9/11 Commission in order to make our driver's licenses secure so that they cannot again be used to facilitate a plot to attack our country.

There is a real problem. The 9/11 Commission was correct in identifying the ease with which the hijackers were able to secure driver's licenses. But let's come up with not only an effective solution to the problem identified but also a practical one. We don't have to choose one versus the other. We can come up with a cost-effective, efficient, effective way to achieve this goal. This bill does so in a way that does not rewind the clock 3 years but instead keeps us moving to a more secure America.

I look forward to working with my colleagues on both sides of the aisle to address REAL ID and to put us back on the right track to protect our country, to protect our privacy, to protect our liberty, and to do so in a practical way.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Ms. COLLINS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Ms. KLOBUCHAR). Without objection, it is so ordered.

Ms. COLLINS. Madam President, what is the pending business?

The PRESIDING OFFICER. The pending amendment is the Collins amendment.

Ms. COLLINS. Madam President, it is actually a Collins-Alexander amendment, along with several of our colleagues. I am very pleased to note the Senator from Tennessee, who has been such a leader and such an early voice raising concerns about the implica-

tions of the REAL ID Act for State governments, is here on the floor. As a former Governor, he has a better appreciation than many of us of the burden this act imposes on the States. So I am very pleased the Senator is here and I yield to him such time as he may need.

The PRESIDING OFFICER. The Senator from Tennessee, the coauthor of the amendment, is recognized.

Mr. ALEXANDER. Madam President, I thank the Senator from Maine and I salute the Senator from Maine. She is paying close attention not just to the security of our country but the fact that we need strong States and cities in our country at the same time. She, obviously, is in tune with the people in Maine because they, like people in Tennessee and other States, have taken a look at the so-called REAL ID law and wondered what we are doing up here.

She has made a very thoughtful and sensible suggestion, which is that we delay for 2 years the implementation of the so-called REAL ID law, and let's make sure we know what we are doing.

Senator COLLINS, because she is ranking member of the committee that deals with homeland security and a former chairman, and because she served in State government, is more sensitive to this issue than perhaps some of our colleagues. But she understands it is very easy for those of us in Washington to stand up here and come up with a big idea and think it might be a good idea, and then turn it into a law and hold a press conference and take credit for it, and then send the bill to the Governor and the legislature and say: You pay for it.

Senator COLLINS is more polite about this than I might be. Nothing used to make me madder when I was Governor than for legislators and Congressmen to do just that: to pass a big bill, take credit for it, and send the bill to the State. Then that same Congressman would usually be back in Tennessee making a Lincoln Day speech or a Jefferson Day speech or a Jackson Day speech about local control and saying how we need strong States and strong cities, but they dumped a big unfunded mandate on top of us.

So let me see if I can be in support of Senator COLLINS, who has made a very reasonable, sensible amendment: First, to think about what we are doing with REAL ID and to make sure if we want to continue down this path, we do it in a way that respects the privacy of Americans. We are, after all, for the first time in our history actually creating a national identification card with all the ramifications of that. That is what the REAL ID law did. Second, to make sure that we don't create an unfunded mandate. The Republican Congress in 1994 was ushered in claiming no more unfunded mandates. The Congressmen stood on the steps over there in the House and said: If we break our promise, throw us out. Well, they threw us out this past election, so why would we persist with unfunded mandates?

This is an \$11 billion unfunded mandate on State governments over the next 5 years. What does that mean? Higher property taxes, higher tuition costs, less funding for higher education so we can stay competitive with China and India, less money for lower classroom sizes, and less money for rewarding outstanding teachers. That is what unfunded mandates will mean, so we shouldn't do that.

Then the third thing that is unfortunate about this REAL ID law that passed is we didn't have the opportunity to say anything about it over here in the Senate. Now, we are not always the wisest people in Washington, DC, but we have half the say. The REAL ID Act came up in the House of Representatives. It was stuffed into the supplemental appropriations bill for Katrina and the troops in Iraq. So of course we had to vote for the bill. We had no chance to amend it, no debate, no hearings, and no consideration of other alternatives. Yet we impose on every State in this country a total of \$11 billion worth of unfunded mandates, and we create for the first time in the history of a liberty-loving nation a national identification card. I would say we wouldn't be doing our job if we didn't stop and think about what we have done. Fortunately, we have time to stop and think about it, because while the law has been passed, it is not implemented yet.

Here is what Senator COLLINS has done, and I give her great credit for this. For her to introduce this amendment is especially useful because of her position as former chairman of the affected committee and now its ranking member. She has quickly attracted several cosponsors, Republicans and Democrats. She would extend the deadline for compliance with REAL ID to 2 years after final regulations are issued by the Department of Homeland Security.

Now, from the point of view of a Governor, that makes sense. If I were sitting back in Nashville, I would say: Well, now, Madam Congressman or Mr. Congressman, you are not going to expect me to take 3 or 4 million Tennesseans and run them through the State driver's license offices and find out if they are terrorists or if they are illegally here, or send them back home to grandma's attic and dig up their birth certificates, are you? I mean how many Tennesseans have their birth certificates handy? How many want to go back to the driver's license office and stand in line? That is a lot of people, 3 or 4 million people, and that is only Tennessee. There are over 196 million people with driver's licenses in the United States.

There is another section or two in Senator COLLINS' amendment. She gives a little more discretion to the Secretary of DHS to waive State deadlines. That is a reasonable approach. She reestablishes the negotiated rule-making committee that was created as part of the National Intelligence Reform Act of 2004. That means in plain

English that States that have the job of implementing this law will have a chance to come to the Federal Government and say: Well, in Minnesota, we have longer lines during this part of the year because it snows and shorter lines during that part of the year because there is ice. And in other times of the year people are fishing on their lakes, and so we have some local conditions here. This gives more time to take into consideration the local conditions.

Also, it requires figuring out what a fair system of reimbursement is. Here are the figures I have seen: Apparently we have appropriated \$40 million for this. The Senator from Maine is nodding her head. Yet, the Governors tell us it is going to cost \$11 billion. We have appropriated \$40 million. They say it is going to cost \$11 billion. We have a 60-vote point of order against unfunded Federal mandates. We couldn't even raise that when this went through like a freight train in the middle of a Katrina and troops-in-Iraq bill. There would have to be 60 votes in order to impose on the States this kind of financial burden.

So that is basically it. This amendment says let's stop and think about this since this is the first national identification card we have ever had in this country. And since it is a massive unfunded mandate that would have the effect, if the Governors are right, of raising State taxes, raising tuition, cutting the amount of money available for colleges and competitiveness, cutting money for reducing classroom size, and cutting money for State health care plans.

Then the third thing is we had no discussion—I don't believe there was a single hearing anywhere in the Senate—about this bill. I am delighted to have a chance to be a cosponsor of this legislation that Senator COLLINS has introduced.

I will say one other thing about this idea of a national identification card. I have lived long enough to have changed my mind a few times on important issues. When I was Governor of Tennessee, I vetoed twice the photo identification card I now carry in my billfold because I thought it was an infringement on civil liberties and I didn't think it was anybody's business to have my picture on the identification card. Well, the retailers wanted it for check cashing, and law enforcement people wanted it so they could catch more criminals. So the legislature overrode me. Plus, when I tried to get into the White House one time as Governor, they wouldn't let me in because I didn't have a photo identification card and I said: Well, I vetoed it, and they didn't think that was a good reason. The Governor of Georgia had to vouch for me, and after that indignity, Tennessee finally got a photo identification card.

We have a right in America to be skeptical of national identification cards. We love liberty more than any-

thing in this country, and that could infringe on our liberty. We have seen what happened in South Africa when people carried around passports and they were classified based on race, and their lives, their activities, everything about them was regulated that way. We can think back on Nazi Germany and other totalitarian countries where so much information was on a single card that it gave the Government a good chance to keep up with every single person.

I have changed my mind after 9/11. I believe we need a national identification card of some kind, and we, in fact, have one now. It is a de facto identification card. We call it the driver's license, but it is completely ineffective. It gets stolen. It gets copied. We show it when we go through the line at an airport. For a long time, mine said on the front that it expired in the year 2000, but if you turn it over, it said 2005. Well, at the airport they never turned it over so it is not a very effective identification card, and that is the impetus for the REAL ID. I understand that.

The first thought was let's take all of these 196 million driver's licenses and turn them into identification cards, but that might not be the best thought. There are other options. For example, we might need a work card in the United States. A lot of the impetus for this came from immigration problems. Since many of the immigration problems are the result of people wanting to come here and work, maybe one way to think about identity theft is to say: Let's have a Social Security card that is biometric and let people apply for that; let people who get new cards get that, and let's have a work card. Or maybe we need a travel card for people who want to travel on airplanes, and they would have a travel card. Maybe we need to expand the number of passports. Twenty-five percent of us have passports. I am not sure what the right answer is. My instinct is that probably a work card would be a good card to have. Maybe we ought to have two or three cards that meet certain Federal requirements, any of which could be used for other identification purposes. That way we would technically avoid having the national identification card, but for convenience, people could have a work card, a travel card, and a passport. All of those are just ideas. But I wouldn't suggest that the Senate wait until midnight and take Senator ALEXANDER's ideas, ram them through, and send them to the House and tell them to pass them with the next Iraq supplemental bill just because we thought of it.

I think it would be better to let Senator LIEBERMAN and Senator COLLINS and others consider all of these options very carefully. I think it might be best when we get to the immigration bill and we talk about having an employer identification system, because that is going to be an essential part of the comprehensive immigration bill. Well,

if that is the case, then we are probably going to need some kind of work card. If that is the case, we might end up with a secure Social Security card. If that is the case, we might not need REAL ID at all.

So that is an even better reason to adopt the Collins amendment, because between now and the expiration of 2 years, we should pass a comprehensive immigration bill here in Congress. In fact, if we don't, we should all be severely criticized, because it is our job to do it. So I urge my colleagues respectfully to look at the Collins amendment and see it as a reasonable approach. It says: Let's delay 2 years. Let's hold some hearings. Let's ask the States to be more involved in what the cost is. Let's think about any privacy issues that might result from a de facto national identification card, and let's even make sure, if we are going to have an identification card, that the idea of using driver's licenses is the best way to do it.

As my last comment, I would underscore the fact that there are a number of States already considering taking the action Maine has already taken, the Senator's State, in passing a resolution rejecting the REAL ID card. Those are Hawaii, Georgia, Massachusetts, New Mexico, Oklahoma, Vermont, and Washington State. If the REAL ID card were to go into effect in those States in May, next spring, and they didn't have the REAL ID card, according to the law they can't fly on a commercial airplane. Well, that is going to create a situation I don't think any Member of this Senate wants to see.

So I am here to salute the Senator from Maine for being diligent in protecting our liberty and in protecting the rights of State and local governments, and making sure that if we are going to have some kind of more secure card, whether it is a driver's license or a work card, a travel card, or even a passport, that we do it right after we have suitable hearings.

I am proud to be a cosponsor of the Collins amendment, and I thank the Senator for yielding time to me.

The PRESIDING OFFICER. The Senator from Maine is recognized.

Ms. COLLINS. Madam President, I thank the Senator from Tennessee for his excellent statement. He outlined the issue very well.

I emphasize two points the Senator made. First is the cost. The National Governors Association has estimated that compliance with the requirements of the REAL ID card will impose \$11 billion of costs on State governments over the next 5 years. Yet we have appropriated only \$40 million to be used toward that cost, and of that amount the Department of Homeland Security has only allocated \$6 million, so only a tiny fraction of the expected cost.

The second point I emphasize is the Department of Homeland Security has yet to issue the regulations detailing how States are to comply with the law.

So to expect the States to comply by May of next year with regulations that have yet to be issued is simply unfair and will add another layer of costs because of the short time for compliance. This 2 years will allow a more careful review. It will allow more input by the States when DHS does issue the regulations, and it will allow us to devise a cost-effective way of achieving a goal all of us have, and that is to make driver's licenses more secure.

I am very grateful for the insights of the Senator from Tennessee, for his support, and for his very early leadership on this issue.

Madam President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. INOUE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. Madam President, the provisions included in the Commerce Committee title, title 13 of the substitute amendment, reflect the Commerce Committee's relentless efforts to tackle emerging issues and building upon existing security transportation legislation. The provisions included in the Commerce title improve and enhance our security efforts across all modes: rail, truck, motor carrier, pipeline, and aviation.

Senator STEVENS and I, and our colleagues on the Commerce Committee are no strangers to the issue of transportation security. In fact, the Commerce Committee responded and the Congress enacted immediately in the aftermath of the 9/11 attack landmark aviation and maritime security laws.

Last year, the Congress took its first step in 4 years, to significantly improve the Nation's transportation security system by enacting the Commerce Committee's SAFE Port Act, which strengthened the security of our Nation's ports and maritime vessels.

While significant in terms of the protections provided to our ports and maritime system, the Congress failed during conference to seize the opportunity to enact comprehensive transportation security legislation that would have addressed many of the gaps in other modes of the transportation system.

Today we begin to correct that shortcoming with the proposed legislation before us.

The Commerce title to the substitute amendment before the Senate addresses transportation security for our rail, motor carrier, and pipeline industries. The economic importance of these three industries can not be overstated.

While 95 percent of the Nation's cargo comes through our ports, our rail system and our motor carriers move these goods from our coasts and borders, through the interior of this country, to their final destinations. Together, these systems are the backbone that sustains our economy.

In terms of rail security, the Nation's 560-plus freight railroads own more than 140,000 miles of track over which nearly 30 million carloads are transported annually. This network transports 42 percent of all domestic intercity freight, the majority of coal used in electricity generation, more than 12 million trailers and containers, and two million carloads of chemicals. Meanwhile, U.S. trucking hauled 9.1 billion tons of freight and employed 5.6 million people in trucking related fields in 2003.

Equally important is the contribution that these modes make in moving passengers throughout our Nation. Approximately 24 million passengers ride Amtrak annually, and there are nearly 3.4 billion passenger and commuter rail trips in this country each year. Similarly, over-the-road buses transport approximately 600 million passengers annually and are the only viable means of public transportation for many people throughout the country.

The recent attacks on the passenger trains and transit systems in Madrid, London, and Mumbai all demonstrate that railroads and surface transportation systems are vulnerable targets for terrorists, and are a constant reminder of what can happen in our communities.

We must address the risks facing our essential surface and rail transportation systems here at home in a comprehensive and coordinated way before we become the next victim of a successful attack.

Toward this goal, Senator STEVENS and I, along with Senators LAUTENBERG, ROCKEFELLER, KERRY, BOXER, SNOWE, PRYOR, CARPER, DORGAN, HUTCHISON, KLOBUCHAR, CANTWELL, and others, introduced the Surface Transportation and Rail Security Act of 2007, or STARS Act. This bill has 22 cosponsors to date.

The STARS Act incorporates updated versions of provisions within the Rail Security Act of 2004, which the Senate passed by unanimous consent in the 108th Congress, and the Senate version of the SAFE Port Act which we passed in the 109th Congress.

The Commerce Committee unanimously reported this bill along with S. 509, the Aviation Security Improvement Act, and S. 385, the Interoperable Emergency Communication Act, on February 13, 2007, and these provisions are included in the substitute amendment before us today as title 13.

The surface and rail provisions in title 13 require the Department of Homeland Security and the Transportation Security Administration to expand existing security initiatives and develop grant programs to assist private-sector surface transportation security efforts. The title authorizes \$1.1 billion over fiscal years 2008 through 2011.

The rail title of the substitute amendment requires railroad risk assessments and plans for improving rail security. It also authorizes grants to

Amtrak, freight railroads and others to upgrade passenger and freight rail security, undertake research and development, and improve tunnel security.

Additionally, the title encourages the deployment of rail car tracking equipment for high-hazard material shipments, requires railroads to create a railroad worker security-training program, and provides whistleblower protection for rail workers who report security concerns.

The surface transportation security provisions in title 13 of the substitute amendment promotes tracking technology for truck shipments of high-hazard materials and requires new guidance and assessments pertaining to hazardous materials truck routing.

The title also establishes programs for reviewing and enforcing hazardous materials and pipeline security plans and requires the TSA to develop pipeline incident recovery plans.

Additionally, the title authorizes the existing grant program for improving intercity bus and bus terminal security.

Finally, the title clarifies, at the TSA's request, the Secretary of Homeland Security's legal authority for initiating an administrative enforcement proceeding for violations of security regulations relating to nonaviation modes of transportation.

Regarding aviation security, title 13 addresses all the recommendations in the 9/11 Commission's report, including cargo and baggage screening, explosive detection at airport checkpoints, passenger prescreening, airport access controls, and general aviation security. The title requires the TSA to provide for the screening of all cargo being carried on commercial passenger aircraft within 3 years. The system must allow for a level of screening "comparable" to that of checked baggage screening and ensure the security of all cargo that is shipped on passenger aircraft.

The aviation provisions in title 13 advance the deployment of electronic Explosive Detection Systems, EDS, at airports across the nation by extending the Aviation Security Capital Fund that is used to integrate such machines into the baggage conveyor process.

The title also bolsters the existing grant program through changes in funding allocation requirements requiring a prioritized schedule for such projects that will increase flexibility for funding options.

Our legislation recognizes the threat presented by passengers transporting explosives through security checkpoints and promotes key changes to address this risk.

Title 13 requires the TSA to produce a strategic plan to deploy explosive detection equipment at airport checkpoints and fully implement that plan within 1 year of its submission. They must also provide specialized training to the screener workforce in the areas of behavior observation, and explosives detection. To address ongoing problems in developing an advanced passenger

prescreening system, the aviation provisions in title 13 would ensure a system is in place to coordinate passenger redress for those individuals misidentified against the “no-fly” or “selectee” watchlists. The TSA must also submit a strategic plan to Congress for the testing and implementation of its advanced passenger prescreening system.

To increase General Aviation, GA, security, the title will require a threat assessment program that is standardized and focused on GA facilities. It will further require foreign based GA aircraft entering U.S. airspace to have their passengers checked against appropriate watchlists to determine if there are any potential threats on board.

Title 13 of the substitute amendment includes a number of additional provisions that will take significant steps toward strengthening aviation security generally.

Title 13 will also authorize research and development spending for aviation security technology, remove the arbitrary cap of 45,000 full-time equivalent—FTE—employees currently imposed on the TSA’s screener workforce, and mandate security rules for foreign aircraft repair stations.

In addition, this title will require the TSA to develop a system by which the Administrator will provide blast-resistant cargo containers to commercial passenger air carriers for use on a random or risk-assessed basis, implement a sterile area access system that will grant flight deck and cabin crews expedited access to secure areas through screening checkpoints, and require a doubling of the DHS’s existing dog team capacity used for explosive detection across the Nation’s transportation network.

In addition to transportation security, title 13 also includes the text of S. 385, the Interoperable Emergency Communications Act, which I introduced earlier this year with Senators STEVENS, KERRY, SMITH, and SNOWE. Under the foresight and leadership of Senator STEVENS, during the Deficit Reduction Act, the Commerce Committee created a new \$1 billion fund administered by the National Telecommunications and Information Administration—NTIA—to support state and local first responders in their efforts to talk to one another during emergencies.

The interoperable provisions in title 13 provide congressional direction on the implementation of that fund.

Since its creation, NTIA has served as the principal telecommunications policy advisor to the Secretary of Commerce and the President, and manages the Federal Government’s use of the radio spectrum.

In this capacity, NTIA has historically played an important role in assisting public safety personnel in improving communications interoperability and recognizing that effective solutions involve attention to issues of spectrum and government coordination as well as funding.

Today, our first responders continue to struggle in their efforts to improve the interoperability of their systems. The statutory guidance provided to NTIA in this legislation will help them in these efforts.

First, the provision would make clear that proposals to improve interoperable communications are not solely limited to systems or equipment that utilize new public safety spectrum that will be vacated following the digital television transition.

In a letter to the majority leader earlier this year, Mayor Bloomberg of New York City noted the significant efforts of his city to improve communications interoperability for first responders utilizing systems in other public safety spectrum bands, and urged Congress to eliminate the apparent eligibility restriction in current law. As a result, our provisions make clear that if the project will improve public safety interoperability, it is eligible for funding.

In addition, the provisions provide the NTIA Administrator to direct up to \$100 million of these funds for the creation of State and Federal strategic technology reserves of communications equipment that can be readily deployed in the event that terrestrial networks fail in times of disaster.

Recently, an independent panel created by FCC Chairman Kevin Martin to review the impact of Hurricane Katrina on communications networks noted the impact that limited pre-positioning of communications equipment had in slowing the recovery process. As a result, these provisions will help to ensure that our focus on interoperability also considers the importance of communications redundancy and resiliency.

Second, the provisions ensure that funding allocations among the several States result in a fair distribution by requiring a base amount of funding—.75 percent—to be distributed to all States.

On top of these minimum allocations, the provision would further require that prioritization of these funds be based upon an “all-hazards” approach that recognizes the critical need for effective emergency communications in response to natural disasters, such as tsunami, earthquakes, hurricanes, and tornadoes, in addition to terrorist attacks.

Finally, NTIA’s administration of the grant fund will not only help to integrate the disparate elements that must be a part of effective interoperability solutions, but will also ensure greater program transparency and oversight. Given the myriad of different grant programs administered by the Department of Homeland Security, it is critical that these funds—specifically allocated by Congress to speed up our efforts to improve communications interoperability for first responders—not get lost in the shuffle of other disaster and nondisaster grants.

As a result, the provisions not only devote NTIA’s attention to the success

of this program, but also require the inspector general of the Department of Commerce to annually review the administration of this program.

The terrorists that seek to do us harm are cunning, dynamic, and most of all, patient. While they have not successfully struck our homeland since September 11, 2001, it does not mean they are not preparing to do so.

They work 24 hours a day, studying every move we make, looking for some weakness to exploit. It is imperative that we stay ahead of them.

We must recruit, train, and deploy a skilled and dedicated security force. We must research and implement the most effective and cutting edge technologies to enhance the capabilities of that security force. And we must provide communications equipment to our first responders that is interoperable and accessible in the immediate aftermath of a disaster.

Simply put, our entire economy relies on a well-functioning, secure transportation system, and we must ensure that the system, and the passengers and cargo that use it, are well protected.

The steps we take in the coming months will impact our safety, security, and one of our most essential freedoms—movement—for years to come. We must commit ourselves to ensuring that our transportation security remains a priority and is as strong and effective as possible.

The provisions before the Senate this week that were reported out of the Commerce Committee make that commitment.

We have worked over the past several years with our colleagues and with the TSA and DHS and with the FCC and NTIA to address concerns, improve on initial efforts, and plan for the future. Now, it is time to act and to pass these provisions, so we can continue to move forward.

The PRESIDING OFFICER. The Senator from Connecticut is recognized.

Mr. DEMINT. Madam President, the amendment I have offered, No. 279, is very simple. It codifies the recent regulations issued by the Department of Homeland Security which bans certain criminals from gaining security access to our seaports. My amendment is needed to protect these regulations from outside groups that may challenge them in court, as well as from future administrations that may repeal or weaken them.

My amendment is also bipartisan and should not be controversial. It was unanimously adopted by this body last

year as part of the SAFE Port Act which passed 98 to 0. Unfortunately, it was gutted by the conference committee behind closed doors, and that is why I am offering it again today.

As my colleagues know, the Maritime Transportation Security Act requires the Transportation Security Agency, TSA, to develop a biometric security card for port workers at our seaports that can be used to limit access to sensitive areas within a seaport. The security card is called a transportation worker identification card or, as we sometimes call it, a TWIC.

The law requires that the Secretary issue this card to any individual requesting it unless the Secretary determines that the individual poses a terrorism security risk or if the individual has been convicted of treason, terrorism, sedition, or espionage. To clarify who poses a security risk, the Department of Homeland Security recently issued regulations that bar certain serious felons from receiving these TWICs. Specifically, the regulations permanently bar from our ports criminals convicted of espionage, sedition, treason, terrorism, crimes involving transportation security, improper transport of hazardous material, unlawful use of an explosive device, bomb threats, murder, violation of the RICO Act, where one of the above crimes is a predicate act, and conspiracy to commit any of these crimes.

The Department of Homeland Security regulations also bar recent felons—defined as those convicted within the last 7 years or incarcerated in the last 5 years—from gaining access to our ports if they have been convicted of any of the following felonies: assault with intent to murder, kidnapping or hostage-taking, rape or aggravated sexual abuse, unlawful use of a firearm, extortion, fraud, bribery, smuggling, immigration violations, racketeering, robbery, drug dealing, arson, or conspiracy to commit any of these crimes.

These regulations were developed after an extensive process that included consultation with the Department of Justice and Transportation to identify individuals who have a propensity to engage in unlawful activity, specifically activity that places our ports at risk. These regulations governing who can gain access to our seaports are nearly identical to the regulations that govern those who can gain access to our airports as well as those who can transport hazardous material in our country.

These prohibitions are crucial because individuals who engage in this type of unlawful activity have a greater likelihood to engage in these acts or in acts that put American ports and American lives at risk. Our law enforcement officials understand this risk. They understand the threat our ports face when traditional criminals, particularly organized criminals, work with terrorists. For example, the FBI recently apprehended a member of the

Russian mafia attempting to sell missiles to an FBI agent who he believed was acting as a middleman for terrorists.

Joseph Billie, Jr., the FBI's top counterterrorism official, recently commented that the FBI is continuing to look at a nexus between organized crime and terrorists, and they are looking at this very aggressively. The threat not only comes from criminals working directly with terrorists, it also comes from criminals who may look the other way when a suspect container comes from a port. Joseph King, a former Customs Service agent and now a professor at the John J. College of Criminal Justice, outlined the concern very clearly: "It is an invitation to smuggling of all kinds," he said. "Instead of bringing in 50 kilograms of heroin, what would stop them from bringing in 5 kilograms of plutonium?" The nightmare scenario here is where a criminal at one of our ports who may think he is just helping a friend smuggle in drugs inadvertently helps smuggle in a weapon of mass destruction. That is a risk we cannot take.

I offered this amendment last year to address this threat and to ensure that serious felons are kept out of our ports. My amendment codified in statute the then-proposed TWIC regulations. As I said earlier, my amendment was unanimously adopted and was included in the Senate-passed version of the SAFE Port Act that passed 98 to 0. Unfortunately, my amendment was also completely gutted behind closed doors in the conference committee. The provision went from addressing a list of 20 serious felons to a list of just 4. These 4 felonies are so rare that the conference committee made the provision almost meaningless.

I am extremely disappointed by the stealth opposition to this measure. I cannot understand who would oppose banning serious felons from gaining secure access at our American ports. While no Senator has been willing to publicly oppose this measure, the longshoremen's labor union was more than happy to take credit for gutting the provision. Late last year, the International Longshore and Warehouse Union claimed credit for killing the provision in the SAFE Port conference committee. They stated in their newsletter:

We have heard rumors that Senator DEMINT is particularly angry with the union's successful lobbying effort to strip his anti-labor provision. He may attempt to amend another piece of legislation, so the union will stay on guard to protect its members' interests.

Apparently, this union has stayed on guard because it was able to get five Senators to object to this vital homeland security measure when I tried to pass it the second time late last year.

I wish I could say that the unions would stop at fighting this legislation on the Senate floor, but they are also gearing up to mount a legal battle against Department of Homeland Security

regulations. In response to a Wall Street Journal editorial on the subject, the union stated that the TWIC security regulations were "... double jeopardy and unconstitutional." This is a clear indication that they have a legal challenge in mind. It seems clear that once longshoremen start applying for TWIC cards and some members are rejected because they are convicted felons, the labor unions are going to take the Department of Homeland Security to court and try to bog the regulations down in lengthy legal battles. The consequence will be that as we continue to fight this global war on terror, America's ports will be staffed by serious felons who cannot be trusted.

Some of my colleagues may be tempted to come to the defense of the longshoremen. They will say that the individuals in question have paid their debt to society and barring them is gutting our port workforce. They may also claim that the crimes listed in the Department of Homeland Security regulations are somehow not related to homeland security. These objections are just plain wrong.

I don't disagree that convicted felons should be given a second chance. I hope they get back on their feet and become productive members of their communities. What I disagree with is that we should give serious felons a pass, literally and figuratively, to access the most secure areas of America's port infrastructure. When they are fresh out of prison, we should not trust them with the most vulnerable areas of our ports. The stakes here are simply too high.

As for the concern that barring these individuals will empty the ranks of the port workforce, the facts don't agree. When the Department of Homeland Security issued nearly 350,000 ID cards for hazmat truckdrivers and subjected them to the same background check that is required by my amendment, only 3,100 were rejected. That is less than 1 percent. The fact is, we are talking about an isolated group of serious felons here, and the workforce in the United States is dynamic enough to supply the few thousand longshoremen who may be needed to replace those we let go.

Finally, some may say these felonies do not represent serious crimes. To that, I would ask any of my colleagues to tell me which individual he or she wants working at our ports where security is so important: Murderers? Extortionists? Drug dealers? Bomb makers? I just want to hear the rationale for trusting these criminals with our national security.

The bottom line is this: My amendment applies nearly the same protections to seaports that are already applied at our airports. It will make us safer by keeping individuals who have shown a willingness to break the law outside our ports. This is extremely important. We can spend all the money in our Treasury trying to screen cargo, but if we don't screen the people who

work at our ports, we cannot expect to be safe.

I do wish to thank several people for supporting this important policy. First, I thank the Senator from Maine, Ms. COLLINS, who was very helpful to me during the debate on the SAFE Port Act last year. I also thank the Senator from Connecticut, Mr. LIEBERMAN, for his support. I should also say that the Senator from Hawaii, Mr. INOUE, was also helpful in getting this provision into the bill.

This is a bipartisan proposal, and it should not be controversial. Americans expect us to check and verify the nature of the people who work at our sea-ports, and we have a responsibility to ensure that happens even if it upsets a labor union that feels compelled to protect the jobs of a small group of serious felons. My amendment codifies in statute these important security regulations, and I hope all of my colleagues will support it.

I appreciate the opportunity to speak on this important measure, and I will be happy to work with the bill managers to arrange a time to come back to the floor if further debate is needed.

I thank the Chair for this time, and I yield the floor.

The PRESIDING OFFICER (Mr. MENENDEZ). The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I thank our friend from South Carolina for the amendment he has offered. We worked together when last this subject came before the Senate to bring about a result that I believe was a good one and in the public interest, which was that the Secretary of Homeland Security issued regulations to create an identity card. The card has a marvelous acronym, which doesn't sound as serious as it is. The acronym is TWIC, transportation worker identification card. This is one of the necessities of the post-9/11 age, that we need to move toward some filter for people working in areas that now have become higher vulnerability areas and are more likely targets for terrorism. Unfortunately, that includes our ports and, obviously, includes our airports as well, which have a separate ID program on which they are working.

I know there is some hope within the Department of Homeland Security that we are moving toward a more common program for a similar background check and card for postal workers at a host of different transportation-related locations to protect them and us from potential terrorist attacks.

Senator DEMINT, I gather from his statement—and I appreciate his intentions here—intends by this amendment to codify in law the regulations the Department of Homeland Security has established for these identification cards for workers at our ports. I want to take a look at it. I know Senator COLLINS does as well. We want to work with Senator DEMINT.

Clearly, the intention here is one we all share, which is to do everything we

can, within reason and respectful of common sense and constitutional rights, to secure our critical transportation facilities, including our ports. I rise now to simply thank the Senator for offering his amendment, to tell him we will consider it with some thoughtfulness and look forward to working with him as we move toward a vote on this amendment.

I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. CHAMBLISS. Mr. President, what is the pending business?

The PRESIDING OFFICER. The DeMint amendment is the pending business.

Mr. CHAMBLISS. I ask unanimous consent that amendment be set aside and I be allowed to speak on the Collins amendment, No. 277, please.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AMENDMENT NO. 277

Mr. CHAMBLISS. Mr. President, I rise today in support of the amendment offered by my colleague from Maine, Senator COLLINS, relative to the issue of REAL ID. I was back in my State last week, as most of us were, and I had the opportunity to speak to our legislature and visit with members of both the State house and the State senate in Atlanta, and I cannot tell you the angst and apprehension that I saw among members of my legislature over this issue of REAL ID.

When I got back I did not understand why there would be that much concern about the issue. I was not sure how this thing came about. When I checked with my staff I found out, as Senator ALEXANDER said this morning in his comments, that this was a measure that was stuck into the Katrina appropriations bill that did not go through committee, we did not have debate on it on the floor of this body, and I don't think anybody here understood the real consequences of it.

When the 19 hijackers came to this country and carried out the horrific attack on September 11, they were in possession of 63 driver's licenses issued by various States around the country. That should never have happened, and we need to make sure it does not happen again. But the fact is, I don't think anybody understood the consequences of this REAL ID Act as it pertains to that particular issue of driver's licenses.

In 1994, when I was elected to the House of Representatives, we talked a lot about unfunded mandates. The Presiding Officer was a Member of that body. He remembers well we had a lot of conversations about unfunded mandates coming out of Washington to our State and local officials and organizations that were required to fund those mandates that we passed. There is no bigger unfunded mandate that we have passed lately that is more atrocious than this particular mandate.

I applaud Senator COLLINS for looking at this issue, for deciding that it is

a real, practical problem. It is an issue that needs to be dealt with. Her amendment makes a lot of sense. It does not repeal the law. What it does is to say that the law is not going to be implemented until 2 years following the issuance of the regulations. Here we are, with this law supposed to be implemented by our State legislatures this year, and we don't even have the regulations coming out of the Department of Homeland Security yet. They don't know how to carry out the provisions of this law.

I support the Collins amendment, No. 277. I think it makes an awful lot of sense. It allows us to go back in and take a more thorough look at this particular issue and decide how we can accomplish the results that the REAL ID Act wants to accomplish but at the same time not burden our States with a mandate that none of us intended to impose upon them.

I do support this amendment. I hope when the time comes it will receive not only passage but significant numbers to support the passage of this amendment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, I thank the Senator from Georgia for his support and his excellent comments. This is a carefully drafted amendment. It doesn't rewind the clock in terms of throwing out the work that the Department has done, but it recognizes that it is simply unreasonable to expect States to comply by May of next year with complex and costly regulations that the Department has yet to issue. The Department has yet to issue the detailed guidance that the States need.

It also recognizes that the quality of the final regulations will be improved by the formation of a committee with State officials, privacy advocates, technological experts, and Federal officials sitting down, looking at the regulations, and providing input to the Department on their proposed regulations and also providing that input to us.

The third provision of the amendment would increase the waiver authority that the Secretary can have if it proves that there are technological barriers to complying with certain provisions of the law. I think this is a reasonable approach to a real problem.

Finally, let me say to my colleagues, the estimates for the cost of compliance with this law are as high as \$11 billion over the next 5 years. This is a huge unfunded mandate on the States. My hope is through our approach we can come up with more practical, cost-effective means of achieving a goal that all of us share and that is improving the security of driver's licenses that are used for Federal identification purposes, such as boarding an airplane. There is a real need to have a secure driver's license, but let's do it in a practical, collaborative way, and let's make sure there is adequate time to comply.

I thank the Senator from Georgia for his support and for his excellent comments.

I ask unanimous consent that the Senator from Georgia, Mr. CHAMBLISS, be added as a cosponsor of the Collins amendment, No. 277.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. COLLINS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. GRASSLEY. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I ask unanimous consent to speak as in morning business for 20 minutes. I don't think I will use all that time. If I need more time, I will ask for it.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### TAXES

Mr. GRASSLEY. Mr. President, as everybody who follows Congress on a regular basis knows, when you get close to the month of March, we are in budget season. The President sent his budget to the Hill, which he does regularly, the first week of February, about a month ago. So now it is up to the Congress. In the next few days the Senate Budget Committee will be marking up our budget resolution.

For the public at large, don't confuse a budget resolution, which is a discipline for Congress on budgeting, with appropriations bills that actually give the President the authority to spend money. They come along a little bit later in the year.

At a minimum, the budget resolution will lay out the fiscal priorities of the next 5 years. As everyone knows, the American people spoke last November and sent a Democratic majority to both Houses of Congress. For the first time in 12 years, Democrats will take the initiative on the Senate budget. As ranking Republican on the Finance Committee, which deals with taxes, trade, Social Security, Medicare, and Medicaid, and also as the senior Republican on the Budget Committee, which is the committee that sends the budget to the Senate, I am eager to see the direction the new Democratic majority wants to take on fiscal policy for this year, but the budget also has long-term implications of 5 years.

There are a lot of questions I am waiting to get answered. What will be their plan on pay-go, which means pay as you go? With spending at higher-than-average levels of our economy, what kind of spending discipline will the Democratic majority show? On the revenue side of the ledger, will Democrats look to prevent a tax increase on virtually every American taxpayer a few years down the road, when the present tax policy sunsets, or will the Democratic majority, without a vote,

set in motion, then, the largest Federal tax increase of all time? This is a fact. It will happen. When we have a sunset of tax law, it is possible to have a tax increase without Congress voting it. In this particular instance, this would put in place the biggest Federal tax increase ever.

Over the next few days, I want to talk about the tax issues—I want to do it topic by topic—that are going to come up during debate on the process of the budget. There are probably many ways to do it, but this is how I split the general subject into topics: One, the importance of preventing a tax hike on virtually all American taxpaying families and individuals. That is what I want to visit about today. Next is the negative economic consequences of sunset of the bipartisan tax relief plan that will be the biggest tax increase in the history of the country without a vote of the people, if we don't do something about it. Then another time, I am going to review Democratic tax increase offset proposals with a specific focus on the limits and problems associated with those tax increases.

Next I will focus on one particular ill-defined but often mentioned offset; that is, reducing the tax gap. Everybody is for reducing the tax gap, and I am working with Senator BAUCUS to do that. He is chairman of our committee. But there has to be realism brought into that debate, and I hope to provide that realism. Then fifth and last, tax reform and simplification, its necessity and bipartisan opportunities to do so.

These discussions are meant to be about the revenue side of the budget. But before we get into the revenue side of the budget, I want to issue a challenge to my friends on the other side of the aisle. It is a challenge I have made over the last few years. It is in the context of intellectually honest budgeting. It is also in the context of the bipartisan record of the Finance Committee on tax policy over the last few years. That tax policy has been led by this Senator, when I was chairman, and by Senator BAUCUS working with me during that period of time, or Senator BAUCUS, now leading the committee and, hopefully, my always working with him as he worked with me.

That bipartisan record of the Senate Finance Committee shows about \$200 billion of revenue raisers from antitax shelter measures and corporate loophole closures, basically doing something about abuse of the Tax Code, unintended by Congress, by people who can hire very sophisticated lawyers to find ways around paying taxes. We have closed \$200 billion of those, and it has been bipartisan. So when I hear from self-styled deficit hawks, or from the media, who are sympathetic to those points of view that we need higher taxes to reduce the deficit, I believe the Finance Committee has anted up in terms of producing revenue raisers without raising general levels of taxation on the American people.

Here is my challenge, and I will ask my friends to listen up. Anyone on the other side who considers themselves a deficit hawk needs to prove it, then, on the spending side. Compared to our committee already raising revenue by \$200 billion by closing tax loopholes and tax abuse, show me, then, a spending restraint proposal for deficit reduction. I issued that challenge several years ago and have issued it repeatedly. No one from the other side has stepped up. We can look and look and look and we won't find such a proposal. All of those liberal think tanks that oppose tooth and nail any kind of tax relief are usually advocates of spending increases, all of this under the guise of fiscal responsibility. We won't find any proposals to restrain spending from these liberal think tanks.

If we look at the media sources that are sympathetic to the views of the Democratic leadership or the liberal think tanks, we will find hard-line opposition to tax relief and a lot of tax increase proposals but, likewise, no proposal reining in spending. They will claim the mantle of fiscal responsibility but won't show anything on the spending side other than spending increases. For these folks, when it comes to deficit reduction, there is only one side of the Federal ledger. That is raising taxes.

We have a Federal Government that is projected to spend \$2.7 trillion for this fiscal year alone and is projected to spend \$33.7 trillion over the next 10 years. Yet leadership on the other side of the aisle, the liberal think tanks that back them up, and the media that helps them get their message out so easily and is sympathetic to their views, can't find a dollar of savings on the spending side. To these folks, with all due respect, I want to call them out. They won in November. The Congress is in their hands. Let's see some credibility on the spending side of the ledger. Show the taxpayers the money. Show me a proposal to restrain spending and put it to deficit reduction. That is a preliminary point.

Now I will move to talk about preventing tax hikes. The same group's position on current law tax relief is radically different than its position on spending restraint. Back in 2001 and 2003, Congress approved, and the President signed, legislation that provided across-the-board tax relief to nearly every American taxpayer. The Democratic leadership, liberal think tanks, and sympathetic east coast media criticized tax relief on a couple of grounds. One charge was that the tax relief was a tax cut for the rich. The other charge was that the bipartisan tax relief was fiscally irresponsible.

Nonpartisan Joint Committee on Taxation distribution tables actually put a lie to that first charge. The record levels of revenue show that the growing economy, the expanding U.S. economy, and economic stimulus from tax relief better the Nation's fiscal situation, bringing in more tax dollars,

not depriving the Federal Treasury of dollars.

This debate on preventing tax increases is often couched only in macroeconomic terms. We will hear what it "costs" to extend bipartisan tax relief. We will hear very big numbers. For instance, the Joint Committee on Taxation projects that the revenue loss from making the bipartisan tax relief permanent is \$1.9 trillion over the next 10 years. That is the way the Democratic leadership, liberal think tanks, and sympathetic east coast media will define proposals to prevent a tax hike. We won't see them talk about the number of families who benefit from the extension of the \$1,000 child tax credit. You won't see them talk about the number of married couples who benefit or the average family benefit from marriage penalty relief.

Today I am going to take a few minutes and shed some light on the side of the debate about extending bipartisan tax relief. Lord only knows, there is not much light shed on these important facts, because everybody is talking about tax relief for the rich. I will acknowledge the critics' point on the macro cost of extending tax relief. But keep in mind, a liberal's tax relief cost is a conservative's tax hike, when we are talking about extending current law. They are the two sides of the same taxpayer's coin. I will agree to that number, but call it a \$1.9 trillion tax increase.

So I am going to follow the Democratic leadership plan and dismantle the bipartisan tax relief package bit by bit. I am also going to challenge the Democratic leadership to show us the money by indicating whether they want to scrap each piece as I move through the package. Which pieces would they scuttle? I will work through the bipartisan tax legislation piece by piece.

Let's start, then, with the basis for the 2001 bipartisan tax relief measure. That is the new 10-percent bracket. The revenue loss for this part of the package is \$299 billion over 10 years, according to the Joint Committee on Taxation. The 10-percent bracket is a huge piece of tax relief for low-income people. The 10-percent bracket does that. No wonder 100 million families and individual taxpayers benefit from the 10-percent bracket. I do not think anybody wants to dismantle that piece. But I want to hear that from the Democratic leadership because that is a compromise of their position of whether the 2001 tax increases ought to sunset.

Where do we go next, then? The marginal tax rate cuts, which include the 10-percent bracket, lose \$852 billion over 10 years, according to the Joint Committee on Taxation. That proposal reduces the taxes of approximately 100 million families and individuals across America. It appears some folks think 35 percent is too low of a top rate. Well, guess what. Repealing the marginal rate cuts hits small business—the big-

gest source of new jobs in this great country of ours—and it hits small business the hardest.

The Treasury Department estimates 33 million small business owners who are taxed on their business income at individual rates benefit from the marginal rate cuts. Repealing these cuts would cause 33 million small business owners to pay a 13-percent penalty. Do the Democratic leaders want to raise taxes on these small business taxpayers, restricting the ability of small business to create jobs?

Treasury also projects that small business gets over 80 percent of the benefits of the cuts in the top two rates. Do we want to raise the tax rates on these people—small businesses for the most part—by 13 percent? Does that make any sense? So to the Democratic leadership, what do you say?

How about the death tax relief package? The Joint Committee on Taxation scores that package at \$499 billion over 10 years. Most of the revenue loss is attributable to increasing the exemption amount and dropping the rate to 45 percent on already taxed property. Is it unreasonable to provide relief from the death tax or should we raise the death tax on small businesses and family farms? That is what will happen if the bipartisan tax relief package is not extended. So to the Democratic leadership, what is your take on that provision?

Do the opponents want to repeal the proposal to double the child tax credit, which the 2001 bill does? Mr. President, 31.6 million families benefit from the child tax credit, according to the Joint Committee on Taxation. Or how about the refundable piece that helps 16 million kids and their families? That proposal loses \$135 billion over 10 years. I do not think we would have a lot of takers on that one. They are going to want to extend that. Democratic leadership, do you agree?

How about the lower rates on capital gains and dividends? Thirty-three million Americans—a good number of them low-income seniors—benefit from the lower tax rates on capital gains and dividends, according to the Joint Committee on Taxation. Does the Democratic leadership think we should raise taxes on these 33 million Americans benefiting from these lower tax rates? That would be families and individuals.

On a side note, in another speech, I will be talking about the worrisome Goldman Sachs economic report on the adverse economic effects of failing to extend lower rates on capital gains—this line right here, as shown on the chart—when it expires.

There are consequences to what Congress does. When you have a booming economy, there could be very detrimental consequences to the country when you take away the incentives that have had this economy exploding like not any time since the early 1990s.

Let's take a look at the marriage penalty piece. It is the first marriage

penalty relief we delivered in over 30 years. The Joint Committee on Taxation scores this proposal at \$52 billion over 10 years, and Treasury estimates that in 2004, nearly 33 million married couples benefited from this tax relief. Again, I do not think many folks would want to raise taxes on people because they decided to be married. I hope the Democratic leadership would agree with that statement.

Another proposal is expensing for small businesses; in other words, writing everything off in 1 year instead of stretching it out over 10 years. This is a commonsense, bipartisan proposal and directed specifically to small business—the engine that creates new jobs. According to IRS Statistics of Income, 6.7 million small businesses across the country benefited from this expensing provision in 2004. If we do not make it permanent, small businesses face a tax increase of \$19 billion over 10 years and probably sputtering the engine that creates so many jobs in America. Does the Democratic leadership think small business expensing is an unwise tax policy?

Continuing on through the bipartisan tax relief package, let's take a look at education tax relief. This package, which will help Americans deal with college education costs, scores at \$12 billion over 10 years by the Joint Committee on Taxation. IRS Statistics of Income show nearly 16 million families and students benefited from this tax relief in 2004.

In this era of rising higher education costs, should we gut tax benefits for families to send their kids off to college? Does the Democratic leadership think that is the way to go, which would be the way we would go if Congress does nothing and you let this tax law sunset?

Finally, families where both parents work have to deal with childcare expenses. The tax relief package includes enhanced incentives for childcare expenses. Mr. President, 5.9 million families across America benefit, according to the Joint Committee on Taxation. Does the Democratic leadership think we ought to take away these childcare benefits? That is what would happen if the tax cuts of 2001 were sunset. It would happen without a vote of the Congress either.

Now, I have taken you through about \$1.9 trillion of tax relief. It sounds like a lot in abstraction, but it provides relief to every American who pays income tax. I would ask any of those who want to adjust or restructure—and those are words that are used around here about this tax relief package passed in 2001—do you want to adjust it or restructure it? Where would you cut in this package?

Would you hit the 10-percent bracket, driving up the taxes of low-income people? Would you hit small business tax relief and sputter the growth machine, the job machine of America; or the now refundable child tax credit, and hurt low-income people; or the death tax relief; or the marriage penalty relief;

dividends and capital gains relief; education tax relief; or childcare tax relief? I hope not. Because in a recovering economy, with above-average levels of individual income tax, as a percentage of GDP, even with the tax relief package in place, which areas would you adjust, which areas would you restructure?

Why, then, undo bipartisan—with emphasis upon “bipartisan”—tax cuts that make the Tax Code actually more progressive? Now get that, not regressive; it is more progressive now than before the tax bill of 2001.

As folks on both sides of the aisle say, budgets are about priorities. As the Democratic leadership draws up its budget, we will hear a lot of talk about a big number for extending tax relief. It is a big number. It is the biggest tax increase ever. It is going to affect nearly every American taxpayer.

If leadership now in the majority of this body, because of the results of the last election, decides to propose the biggest tax increase in history in the name of deficit reduction, I will be looking for that one, single dollar of spending restraint I never see. Now, maybe we will see it, but I will bet we would not. Only time will tell, and it will be within the next 2 or 3 weeks.

Mr. President, I yield the floor. I do not think I see any colleagues who wish to speak, so I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of Florida. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### SPACE STATION SAFETY REPORT

Mr. NELSON of Florida. Mr. President, there was a space station task force safety report released yesterday which points out a number of hazards as we are now in the process of completing the space station. Remember that we have this multibillion-dollar structure about 300 miles above the Earth, with a crew of three, and eventually it will have more of a complement, of five or six, which will have the ongoing, full-time responsibility of scientific experiments. Right now it is about two football fields long. During the completion, which will occur over the next 3 years, it will have all the additional appendages, including the international laboratory we need to conduct all of the experiments that we want. Yet the task force that released its report yesterday says there are certain inherent hazards that we have always known about, such as meteorites striking and/or space debris.

The U.S. Air Force catalogs all of the space debris. Therefore, we have the ability, if something really got in the way, to actually maneuver the space station out of the way of that debris—if we know where that debris is. The same is true with weather and reconnaissance satellites. I don't need to say anything about weather satellites here. Everybody knows because it is obvious what technology we have today to see the approaching storms, and if you live on the coast and it is during the summer, it is all the more important, because of an inbound hurricane, that everybody is prepared.

Well, what is preparing us? It is not only that airplane that is flying into the hurricane, it is those satellites that are constantly tracking the position of that hurricane. Those are threatened by this space debris, which brings me to share with my colleagues: Isn't it interesting that there has almost been a strange silence throughout the world for the last 6 weeks after the Chinese tested their antisatellite missile, which created a debris field that is 100 times more than any debris that has been created, and because of its altitude, some 500 miles, it is going to be years before all of that debris is pulled back to Earth by the gravitational pull of the Earth?

It is that debris field of thousands of particles, as a result of the Chinese rocket destroying a Chinese satellite by hitting it and exploding all of the kinetic energy in parts into the vacuum of space, that now we have a new threat not only to our space station but also to all of our weather satellites and our reconnaissance satellites. So my colleagues can imagine the headache now for the U.S. Air Force of trying to track all of that Chinese debris, much more so I think just from that one explosion, more debris than all the other debris that is up there. It is going to take several years before it ever comes down because of the altitude where the kinetic energy occurred when the vehicle slammed into the target, which was an old Chinese weather satellite.

So as we are looking at the future of NASA and the completion of the space station and the saving of the Hubble space telescope, which has opened vast vistas of new knowledge to us about the heavens and about the origin of the universe, thanks to the Chinese, as we do this we now have to worry about something that could be lethal to our astronauts and cosmonauts who are on-board the space station.

Some of the things they are talking about in this report released yesterday include some kind of special curtains they put over the windows that would give extra protection to the glass of the space station windows. Others are talking about protective blankets they might put over very sensitive areas of the space station that could be hit by debris. This debris could be coming at

a velocity of 10,000 miles per hour because, if it is in a different orbit and suddenly it crosses the orbit of the space station and hits it—remember, going around the Earth in orbital velocity is 17,500 miles an hour. If that debris hits at right angles, you are going to have a velocity of 17,500 miles an hour. With the space station going at a different orbit, you start to see the kind of kinetic energy that could rain from such a collision. So it complicates it, and it complicates it not only for the American space program but for every space program on planet Earth, and that is the problem.

That is what the Chinese have done for us. Yet there has been a suspicious silence of anybody speaking out in the world community about what the Chinese have done in space. There was an intellectual discussion about China having shown they have the capability of targeting an antisatellite to hit a satellite, which is a significant feat. But in the process, they ignored the threats now to all of the human and nonmanned assets that are up there, not just for our country but for every country in the world that depends on a satellite or a spacecraft of some kind.

That is what we are facing. That is what we have to figure a plan for. I hope the Chinese who have had singular success—and this Senator has invited their Chinese astronaut to come here and visit, and he did. This Senator has congratulated them on their space accomplishments. But this time China has done something in accomplishing something technologically that has endangered the other nations of the world with the manned and the unmanned programs.

That is what is facing us. This is only the first the Chinese have heard from this Senator about how they have endangered the interests of planet Earth.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. LIEBERMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. PRYOR). Without objection, it is so ordered.

Mr. LIEBERMAN. Mr. President, I rise to speak about two parts of the bill that is before us, the Improving America's Security Act, which is really the attempt by our committee and the Senate to finish the job the 9/11 Commission gave us to protect the security of the American people from terrorist attack and also to adopt for the first time a national all-hazards defense strategy that would set up a system that would not only be aimed at preventing and, if, God forbid, necessary, responding to a terrorist attack but

also being ready and preparing every level of government to be ready to respond to a natural disaster.

The amendment offered by the Senator from South Carolina is pending. I wanted, in the interim, hoping others will come to the floor to offer other amendments or speak on that pending amendment, to speak about these two parts of the bill.

The first is about what is one of the most significant changes the bill would make; that is, to establish for the first time a dedicated grant program to assist States and localities in creating interoperable communications systems to be used to protect the American people in time of emergency. The ability of first responders to communicate with one another is fundamental at a time of disaster. Yet time and time again over the years, disasters have occurred, and police, firefighters, and emergency medical workers are unable to exchange critical information with one another, even indications of their location. Sometimes, as we saw in Katrina, certainly, not only is this a problem of their not being able to communicate with one another, it is a problem of their not being able to communicate at all. There is a painful and tragic cost to this failure to communicate or to interoperate with others in law enforcement, and that is that lives are lost.

This is a problem which was intensely made clear to all of us on September 11, 2001 and again during Katrina, but it is not new. In 1982, the record shows, communications difficulties frustrated the recovery efforts in response to the crash of the Air Florida plane right here in Washington, DC. In 1995, again the record shows communications difficulties complicated the response to the terrorist bombing of the Alfred P. Murrah Federal Building in Oklahoma City, OK. In 1999, communications difficulties again slowed the response to the shootings at Columbine High School near Littleton, CO.

Then came 9/11. The story of the communication breakdown among New York City's first responders is well known. It is well known because it cost the lives of some of the bravest Americans, some on duty and some off duty, who rushed to the aid of their fellow citizens and fellow first responders. But there were other communications breakdowns on September 11, 2001, as well—less well known but also breakdowns that hampered the response at the Pentagon and in Shanksville, PA.

After an in-depth look at the three incidents I have described—the Pentagon, the World Trade Center, and the plane that went down in Pennsylvania on 9/11—the 9/11 Commission wrote:

The occurrence of this problem at three very different sites is strong evidence that compatible and adequate communications among public safety organizations at the local, State, and Federal level remains an important problem.

That was the 9/11 Report which came out in 2004. We are now at the end of

February 2007, and that problem remains as real and intense as ever.

The Commission recommended expediting and increasing the assignment of radio spectrum for public safety purposes. In 2005, as part of the Deficit Reduction Act, Congress set February 2009 as the deadline for broadcasters to transition to digital signals, which will free up much-needed spectrum for first responders. A lot of us, including myself, believed that delay to February 2009 was too long. The occupant of the chair remembers that well; we stood together on that. But so be it, that is what it is.

Since that time, Hurricane Katrina devastated the gulf coast, particularly the great city of New Orleans, and reminded us again how much more needs to be done to improve communications operability, to sustain the very operation of an emergency communications system, and interoperability, the ability of different first responders to communicate with one another.

The communications infrastructure in Louisiana and Mississippi at the time of Hurricane Katrina was decimated. Once again, difficulties in communicating among officials and first responders significantly impeded rescue and relief efforts. Mississippi Governor Haley Barbour drove the point home when he said the chief of the National Guard in Mississippi "might as well have been a Civil War general for the first 2 or 3 days" because in order to get information, he had to use runners. His runners had helicopters instead of horses, but the point was clear. The lack of operable or interoperable communications equipment put first responders in that disaster back about a century and a half.

The Homeland Security and Governmental Affairs Committee, which is proud to claim the Presiding Officer as a member, investigated the preparations for and response to Hurricane Katrina, a 9-month investigation that produced a 700-page report and almost 90 recommendations. We enacted some of those recommendations last fall as part of the Post-Katrina Emergency Management Reform Act. That legislation, which I am proud has largely become law, included ways to improve planning and coordination, establish a much needed national emergency communications plan, and strengthen technical guidance and assistance to local first responders. The newly created Office of Emergency Communications, which was created therein, will be responsible for carrying out many of those responsibilities. Like many of the homeland security challenges we face, achieving nationwide operability and interoperability of communications will require significant resources, a lot of money. One estimate from our Government several years ago put the figure at \$15 billion. Testimony before the Senate Commerce Committee this past month estimated that the cost may be as high as \$50 billion to create a genuinely interoperable, disaster-re-

sistant communications system for our country. We don't know the exact price tag, but we do know the costs will be significant. We do know they are beyond the ability of State and local government themselves to provide. That is why title III of the legislation before the Senate, the Improving America's Security Act, establishes a dedicated interoperability grant program for first responders which will put us on the path to nationwide operability and interoperability, capable of surviving and helping America survive a potential terrorist attack or a natural disaster.

This is an important investment, a kind of leverage for the Federal Government to create in partnership with the States and local governments. Of course, part of the reason there is not only financial need but programmatic policy justification for this. The kinds of attacks, the kinds of natural disasters we are talking about, as we saw most painfully in Katrina, have national consequences. The Federal Government needs to be there to make some additional investments on which the State and local governments will build.

The legislation, S. 4, before the Senate today authorizes \$3.5 billion over 5 years, beginning in the coming fiscal year. That is on top of the \$1 billion interoperability grant program to be administered by the Department of Commerce during this fiscal year, the result of previous legislation. This is the beginning of moving toward a genuine national system, if we can adopt this and fund it, a call to the States and localities to match that money, each in their own way, so we can build this survivable network of communications.

Individual States will be able to apply for grants under this new program, which will be administered by FEMA, with assistance from the Office of Emergency Communications. The committee was very anxious, as the Presiding Officer knows, to not only create a fund of money and throw it out there for every local official who had some idea about how to create interoperable communications—all applications will have to be consistent with each State's communications plan and the national emergency communication plan which is being developed and expanded by the new Office of Emergency Communications. In other words, to get money, you have to prove you are going to fit into a statewide and national plan for interoperability of communications.

Incidentally, the national element of this is pretty obvious. In Katrina, you had a lot of first responders streaming into the gulf coast, and New Orleans particularly, when local first responders were overwhelmed. They were all bringing their own communications systems with them. A similar response occurred—a really moving patriotic response—after 9/11 to New York City, with first responders from all over the country coming in.

What do we want at that point? A Tower of Babel, where people cannot communicate with one another, or the ability, easily, as part of a national communications plan, to do so? Obviously, the latter is what we want.

States, incidentally, which would be the recipients of this money, would be required to pass at least 80 percent of the grant funding to local and tribal governments. The money could then be used for a range of activities: planning, system design, engineering, training, exercises, procurement, and installation.

We also include a minimum amount of funding for each State because interoperability is an all-hazards concern. In other words, we are having a well-intentioned, good-faith debate about homeland security grants and to what extent—as some would say—should they all be distributed based on risk or be distributed with a minimum amount going to each State?

In this case of interoperability of communications, it seems to me the argument is compelling there ought to be some element that gives a minimum to each State because what we are trying to establish is a national emergency communications system that will be ready to respond not just to a potential terrorist attack, but to natural disasters which, obviously, can occur anywhere in the country. In other words, the ability for first responders and other emergency responders to communicate with one another, either by voice or through data sharing, is necessary regardless of the nature of the emergency.

In short, we owe it to the memory of the firefighters and police officers who gave their lives on 9/11, some of whom lost their lives because of the absence of interoperable communications, and to the commitment of first responders who struggled under such adverse circumstances to do their jobs in the aftermath of Hurricane Katrina, and to first responders and emergency managers today all across our country who are ready to respond in the time of our need to pass this legislation, to provide the funding necessary for this critical effort, and to move the Nation's first responders toward real 21st century operable and interoperable communications in the face of disaster.

I have one more topic I want to discuss at this time. The one I have just talked about—a dedicated fund for interoperable communications—I think is one of the most significant parts of the bill. It is the beginning of a transformational partnership between the Federal, State, local, and tribal governments that I am convinced will have a measurable, significant effect on the security of the American people.

This next topic I want to talk about has to do with a provision in the committee bill which extends employee rights and protections to airport screeners who work for the Transportation Security Administration. Frankly, I do not consider this to be a

major part of the bill. To me, it is correcting an inequity that exists in current law. I honestly do not know why anybody would oppose it. I will listen to the arguments, but I want to contrast it with the section I just described, because if the last 24 hours are any indication, this section may receive more attention than any other section of the bill. The White House has indicated it will veto the bill if this section is in it. I respectfully do not understand that.

Colleagues, I know, are preparing to come to the floor to try to strike this section from the bill. I think this section is an act of elemental fairness, granting quite limited employee rights to airport screeners who are now denied—I am using this term beyond its judicial meaning—equal protection that is enjoyed by most every other Federal employee, including most every other Federal employee involved in security.

So I hope, one, we do not spend a disproportionate amount of time on this section; and, two, we do not allow it to get in the way of us fulfilling our urgent responsibility to finish the job of enacting the recommendations of the 9/11 Commission, which S. 4, the legislation before us, would do.

I wish to spend a few moments talking about this section of the bill. The fact is, since the Transportation Security Administration was created in 2001, TSA screeners have been denied the same employment rights and protections as almost all of their fellow workers in TSA. In fact, they have been denied the same rights and protections that are enjoyed by most of their fellow employees at the Department of Homeland Security, such as the Border Patrol and Customs and Immigration officers.

TSA screeners—often also known as TSOs, transportation security officers—are familiar to most Americans because we see them at every airport across our country. Thanks, in part, I believe to their hard work and diligence, we have been spared a repeat of September 11, and air travel generally is safer than it was before that day.

They deserve to be treated equally in their employment rights. It is long past time to provide the same protections to TSA screeners as are enjoyed by their colleagues.

I wish to take just a moment to review the history of how this inequality came to exist. Shortly after the September 11 attacks, Congress federalized the work of passenger and baggage screeners at U.S. airports. TSA was created within the Department of Transportation. It was subject generally to the same personnel rules as the Federal Aviation Administration. Responding to the sense of emergency at the time, however—remember, this was right after 9/11—Congress gave the head of TSA broad authority to set personnel rules at his own discretion for airport screeners.

In 2002, when Congress established the Department of Homeland Security

to coordinate and strengthen our defenses against manmade and natural disasters, TSA was removed from the Department of Transportation and put into the Department of Homeland Security.

At that time, Congress engaged in extensive debate with quite serious partisan and political overtones about how to apply civil service law to employees at the new Department. This was an amalgam of 22 different agencies, almost 180,000 employees, most of whom were coming already with their own employee rights—their own rights—most particularly, to join a union.

Ultimately, and contrary to my own position, Congress authorized the Department of Homeland Security Secretary to waive certain provisions of civil service law which Congress and the President believed were necessary for national security purposes.

Meanwhile, since 2001, TSA has declared itself exempt from laws enforcing the most basic employee protections, including the Whistleblower Protection Act, the Rehabilitation Act protecting Federal employees with disabilities, the Federal Sector Labor-Management Relations statute, appeal of adverse personnel actions to the Merit Systems Protection Board, and veterans preference laws.

In each case, the Transportation Security Agency has devised its own version of these fundamental employee protections substantially below the standard that Congress and the President decided were appropriate generally for DHS employees.

So now you have this anomaly because of this unusual statutory history where TSA screeners have a much lower level of employee protection than most of the other employees at the Department of Homeland Security.

It is now 5 years after the agency was established, and TSA screeners still lack those basic rights that are available to their colleagues at DHS and throughout the Federal Government. That is exactly the inequity this small provision in this bill, S. 4, aims to overcome.

For example, TSA screeners have no individual right to appeal to the Merit Systems Protection Board when they believe they have been subject to unlawful retaliation for protected whistleblowing activity. OK, this is exactly what we want employees of the Federal Government to do. They are our representatives. We are paying them. If they see something wrong going on, we want them to blow the whistle, and we do not want them to be punished as a result.

But under the current state of the law, TSA screeners do not have any right to an outside appeal when they believe they have been subject to unlawful retaliation because they blew the whistle on something or someone else they saw doing something they thought was wrong.

Second, TSA is not bound and the screeners are not protected by the Rehabilitation Act. So TSA is not bound

to make reasonable accommodations for a disabled screener still able to perform his duties. This is the basic mindset we have overcome in recent decades, that somebody who may be disabled in one way is—if I can make up a word—abled in many other ways and perhaps, therefore, able to carry out the responsibilities of a screener at one of the security checkpoints we have all gone through. We have all gone through them, so we know there are a number of those functions that could be performed by somebody who may have a disability. But there is no right to appeal if an employee, a screener, thinks they have been discriminated against based on that.

TSOs—that is, screeners—are allowed to join a union, but they cannot collectively bargain as other security forces at DHS and throughout the Federal Government can do. Nor can TSOs claim an unfair labor practice with the independent Federal Labor Relations Authority.

I want to stress something. Screeners at TSA can join a union. They cannot strike. There is nothing in this small provision in S. 4 that will give them the right to strike. There is nothing in this provision that will give them the right to strike. I fear people hearing about this provision may think we want to extend some employee rights to TSA screeners and may think, oh, my God, at a time of crisis these people will just walk off their jobs and strike. It is illegal. They cannot do it. It is the same limitation that is on Federal employees who have collective bargaining rights generally. It is just that these screeners have much less, many fewer rights than others do. They cannot claim an unfair labor practice with the independent Federal Labor Relations Authority.

Finally, unlike the rest of the Federal Government, TSA limits the veterans preference in hiring and other personnel decisions to veterans who retired from the Armed Services, and denies the preference to those who were honorably discharged. Of course, it is the vast majority of men and women who have served our country in uniform who are honorably discharged as opposed to serving until the time of their retirement. But they do not get any veterans preference in hiring and other personnel decisions at the TSA. Is that a big deal? It is if you are a veteran. One of the things this provision in this bill would say is that, the full veterans preference should apply for TSA screeners.

So that is the amendment we adopted, the literal effect of which is to instruct the Secretary of Homeland Security to include TSA screeners, either under the departmentwide human resources management system or under the specialized system that now applies to TSA employees other than the screeners, in the most specific way, which leaves no ground—no gaps for misunderstanding. Although there are people, I fear, who are misunder-

standing or misstating it, this amendment simply and directly says that TSA screeners have to be included under the departmentwide DHS human resources management system, or under the specialized system that applies to TSA employees other than the screeners.

I know critics of this provision are arguing right now that TSA needs flexibility to manage the screener workforce in a way that provides security when, where, and how it is needed, such as when the threat level is raised, or when a new threat becomes evident, or when unexpected problems arise at a particular location so the Administrator of TSA would want to move screeners from one airport to another. This argument is not based on fact. The concerns are misplaced. The committee bill, in this small section, retains flexibility for the TSA Administrator to promptly redeploy employees, change their assignments, or otherwise respond to problems as they arise. The bill recognizes this is a department which has to have the flexibility, the management flexibility, to respond to emergencies. In granting these TSA screeners the same employee rights most everybody else within the Department, including people involved in border patrol, for instance, and other security functions, we retain nonetheless the flexibility of the administrator to redeploy his forces at a time of crisis.

There is another reason to do this, I believe, apart from equity, and that goes to the effectiveness of the TSA screeners and the Department of Homeland Security employees generally. Personnel management at TSA, the record will show, has been troubled since its inception. The record will show the agency has experienced unusually high rates of attrition—people leaving, unusually high rates of workplace injury, high rates of absenteeism, and other indications of low employee morale. Anybody in the private sector will tell you if you have high attrition, high workplace injury, absenteeism, and low morale, you have a problem, and the problem is going to mean the service you are intending to provide is not going to be what you want it to be.

I would say those problems interfere with establishing and maintaining the core of experienced and professional screeners we need, that the American people need to ensure aviation security. From conversations I have had with screeners, simply taking a step to put them on an equal plane with everybody else in TSA or DHS in terms of their employee rights will go a long way toward creating the kind of morale, devotion to work, and avoidance of workplace injury that will better serve our Nation. I know the Administrator of TSA, Kip Holley, has recently made some efforts to improve personnel management, but I believe they haven't gone far enough, and this amendment will take them a large step forward.

I want to say finally that when the Homeland Security and Government

Affairs Committee marked up the bill, there was apparently a Transportation Security Agency screener by the name of A.J. Castilla who was there in the public section of the room. Later he wrote a note of thanks in which he said:

We TSOs aren't asking for special treatment, merely to be made whole and equal again in the eyes of the law.

A.J. Castilla is committed to his job, is as committed as any other employee of the Department of Homeland Security or the Transportation Security Administration, and it is time to give him and every other TSA screener parity with those other Federal employees so that they may better do the critical work we ask and need them to do.

I appreciate the opportunity to speak at some length about these two provisions. Both are, I think, important. One is a dedicated grant program for interoperable communications that, as I said, I think will have a critical effect and I hope we will discuss the positive effect. The second, I am afraid, will be discussed more than it deserves. That provision is fair. It is simple equity. It treats working people with the fairness they deserve, and in fact will improve our security, not hamper it, as its critics say. I urge my colleagues to look at both carefully, and particularly when an amendment is offered, as I fear it will be, to strike the section that would correct the inequity now suffered by transportation screeners, when it comes to the floor, that my colleagues will come, will listen, and ultimately will vote to reject that amendment.

I thank the Chair, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. SANDERS). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 269

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent to set aside the pending amendment and call up amendment No. 269.

The PRESIDING OFFICER. Is there objection?

Mr. LIEBERMAN. Mr. President, for the moment I am going to object on behalf of Senator COLLINS who is co-managing the bill with me because no one has looked at the amendment.

The PRESIDING OFFICER. Objection is heard.

The Senator from California has the floor.

Mrs. FEINSTEIN. Thank you very much, Mr. President. The amendment I am seeking to bring up is a bill that has been reported out of the Judiciary Committee, and essentially what it would do is ensure the confirmation of all U.S. attorneys by the Senate.

What happened was that in 2006, an amendment went into the PATRIOT

Act that allowed the administration to appoint an interim U.S. attorney indefinitely without confirmation. In the early part of this year, I believe it was on January 6, I learned that six U.S. attorneys had been called and summarily told they were to resign effective a specific date in January. I was told by the person who gave me the information that there was something suspicious about that. I didn't know, so I began to look into it.

Well, I received a new story today about one of those U.S. attorneys, and if I might, I will read it to this body. It is an article by Marisa Taylor of the McClatchy Newspapers:

The U.S. Attorney from New Mexico who was recently fired by the Bush administration said Wednesday that he believes he was forced out because he refused to rush an indictment in an ongoing probe of local Democrats a month before November's congressional elections.

David Iglesias said two Members of Congress separately called in mid October to inquire about the timing of an ongoing probe of a kickback scheme and appeared eager for an indictment to be issued on the eve of the elections in order to benefit the Republicans. He refused to name the Members of Congress because he said he feared retaliation.

Two months later, on December 7, Iglesias became one of six U.S. Attorneys ordered to step down for what administration officials have termed "performance-related issues." Two other U.S. Attorneys also have been asked to resign.

Iglesias, who received a positive performance review before he was fired, said he suspected he was forced out because of his refusal to be pressured to hand down an indictment on the ongoing probe:

I believe that because I didn't play ball, so to speak, I was asked to resign, said Iglesias, who officially stepped down on Wednesday.

Iglesias acknowledged that he had no proof that the pressure from the congressional members prompted his forced resignation, but he said the contact in and of itself violated one of the most important tenets of a U.S. Attorney's Office: Don't mix politics with prosecutions. The article goes on.

Now this is only one element of this story. The matter has been the subject of a hearing in the Judiciary Committee. Legislation is ready to come before the floor. I have introduced it as an amendment. We approved it in the Judiciary Committee with a bipartisan vote. I think the time has come to do two things. One would be for the Judiciary Committee—and I hope it will, and I believe the chairman of the Subcommittee on Administrative Oversight and The Courts, Senator SCHUMER, is interested in doing this—to issue subpoenas to have these U.S. attorneys come before the Committee to answer questions about how their demanded resignations took place.

Generally, a U.S. attorney is appointed for a term of four years, but serves at the pleasure of the President. If he wants to fire them he can. However, U.S. attorneys have very complicated and very difficult cases and I believe they must have some level of independence. The FBI, as we have heard in our oversight hearings, has raised the level of public corruption in their investigations.

So if the FBI investigates a case and comes up with the evidence, a U.S. attorney is obviously bound to prosecute that case. How this affects David Iglesias, I don't know. But the fact that these people all had very good performance reviews causes me a great concern. I wish to read from those performance reviews.

The performance review for John McKay of the Western District of Washington says:

"McKay is an effective, well-regarded and capable leader of the [U.S. attorney's office] and the District's law enforcement community," according to the team of 27 Justice Department officials.

David Iglesias, about whom I read the news story, of the District of New Mexico, got this performance review:

The [U.S. Attorney] had a highly effective firearms violence initiative and active and effective program to address drug trafficking.

Daniel Bogden, District of Nevada:

United States Attorney Bogden was highly regarded by the federal judiciary, the law enforcement and civil client agencies, and the staff of the United States Attorney's Office. He was a capable leader of the [office].

Bud Cummins, who many of us know, in the Eastern District of Arkansas:

The U.S. Attorney had an active, well managed anti-terrorism program . . . The Project Safe Neighborhoods initiatives were being effectively implemented and successfully managed.

Carol Lam, Southern District of California, including San Diego, whom I am very familiar with:

Carol Lam was an effective manager and respected leader in the District . . . Appropriate management procedures and practices were in place to ensure a quality written work product.

These are some of the snippets from the reviews. But clearly, the performance of these U.S. attorneys was not a reason to fire them.

I truly believe what the Department of Justice intended to do was what they did in the Eastern District of Arkansas—bring in bright, young Republican political operatives to assume these roles to give them a leg up and fire or require the resignation of these U.S. attorneys.

When I began to inquire into it, I asked whether interviews for replacements were taking place within these offices, particularly in San Diego. At that time, no one in the office was being interviewed as a replacement. Since these hearings have begun, individuals within the office have been interviewed. In fact, one has been appointed to fill in for former U.S. Attorney Carol Lam.

I truly believe there was an effort to use this section of the PATRIOT Act reauthorization to bring political operatives into these offices, and I think it is a matter of urgency for us to pass the legislation that was marked up by the Judiciary Committee. Absent that, there is no recourse, other than to issue subpoenas, to have these former U.S. attorneys come before the

committee and be able to ask them some hard questions.

I think when a U.S. attorney who has served, and served well, is summarily dismissed for no real reason, it is a problem. We all know the U.S. attorney in San Diego brought the prosecution of a Member of the House of Representatives who is serving consequential time for major felonies and had subpoenas outstanding for other Members of the House and was summarily told in December that she should resign—in this case—by the end of January. That is not right.

So the only way I know to right the wrong is to restore the law to where it was before the PATRIOT Act reauthorization. That law is this amendment and the amendment is very simple. It simply says that the Attorney General may appoint an interim U.S. attorney to a vacancy for 120 days. After 120 days, if a nominee has not been confirmed by the Senate, the district court in the district where the vacancy exists can make an appointment. This provides the incentive for the administration to move a nominee. I should say there are 13 vacancies, of which only 3 nominees have presently been sent to the Senate. If you combine those 13 vacancies with the seven new vacancies, then over 20 percent of the U.S. attorney positions could be filled without Senate confirmation if we assume the intent was not to send a nominee to the Senate. Of course, the administration will decry this and say that is not the case. Nonetheless, there were 13 vacancies and now seven new vacancies with only 3 nominees before the Judiciary Committee for review and for approval by the full Senate.

If the law is left as it is, any Attorney General or President could essentially appoint every single U.S. attorney as an interim U.S. attorney, not subject to confirmation. If you consider the work of the U.S. attorneys—the public corruption, the major narcotics cases, the immigration cases, the complicated Federal law they carry out—I think every Member of this body would believe that confirmation by the Senate for every U.S. attorney should be assured. This amendment will carry that forward.

I was shocked to read about David Iglesias. I don't know whether it is accurate. I know it appeared in the news. Based on that, he has said he believes he was forced out for a political reason. There is only one way to find out, and that is for the Judiciary Committee to issue subpoenas, have these U.S. attorneys come before us, and ask a number of hard questions.

I am hopeful this body will see fit to pass this amendment. It is simple, short, direct, and it solves the problem.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maine is recognized.

Ms. COLLINS. Mr. President, knowing the Senator from California as I do, I am certain a lot of the issues she has raised are serious ones, deserving of

scrutiny. They are, however, under the jurisdiction of the Judiciary Committee and not the Homeland Security Committee. As such, I don't feel that I, at this time, have the expertise or the knowledge to evaluate the amendment that has been filed by the Senator from California. That is why I am objecting to the amendment. It is not because of its merits but because it is not relevant to this debate. I have not had a chance to look at it, and it is not in the jurisdiction of the Homeland Security Committee.

I will say to my colleagues that the Senator from Connecticut and I have been working very hard in a bipartisan way to try to keep the focus of this bill on issues to improve our homeland security. We were very pleased that, despite the overwhelming importance of the debate on Iraq, there had been an agreement by our leaders to try to keep that debate for the next issue to come before the Senate, rather than having it tied in with this bill. Similarly, the families of the victims of 9/11 have made a plea to all of us to focus on this bill and to keep extraneous issues off this bill and rather focus on issues the 9/11 Commission raised. That is what we are attempting to do. I have no doubt this is an important issue, an issue that is worthy of debate, an issue that is worthy of scrutiny by the Judiciary Committee, based on the explanation of the Senator from California, for whom I have a great deal of respect. But it is an issue that is completely outside the jurisdiction of the Homeland Security Committee.

For that reason, my hope is the Senator from California will look at this as an opportunity to educate us on the issue but will not proceed with this amendment because it is not at all relevant to the bill before us.

The PRESIDING OFFICER. The Senator from New York is recognized.

Mr. SCHUMER. Mr. President, I rise to follow up on the comments of my friend from California, who has legislation I am proud to cosponsor on the general issue of the fired U.S. attorneys.

Mr. President, it is said that "where there is smoke there is fire." As we look at the case of the U.S. attorneys, that is more and more likely to be true.

Today, according to the McClatchy Newspapers, one of the fired U.S. attorneys from New Mexico said that "two Members of Congress separately called in mid-October to inquire about the timing of an ongoing probe of a kick-back scheme and appeared eager for an indictment to be issued on the eve of the elections in order to benefit the Republicans."

That is a quote in an article by Marisa Taylor of the McClatchy Newspapers. Frankly, it comes as no surprise to me. That is because David Iglesias, the U.S. attorney, told my staff the same thing the day before. He asked, in fact, that he be brought to Washington—was willing, rather, to be

brought to Washington, under the power of subpoena, to tell his story. We have inquired of the fired U.S. attorneys. The overwhelming majority of them want to tell more but feel honor-bound not to do it, except if they were brought under the power of subpoena to Washington.

So I join certainly in the request of my colleague from California and others. I have already spoken to Senator LEAHY, and we are examining how that can be accomplished. Senator LEAHY is very mindful of the fact that the Judiciary Committee doesn't issue subpoenas willy-nilly. But given the fact that some of the U.S. attorneys expressed a desire to testify, and others said they would be willing to testify, and now with these new revelations, the fear many of us had that these U.S. attorneys were summarily fired not for no reason and not for a good reason but for a bad reason is coming closer to reality.

Mr. President, we must get to the bottom of this issue. The U.S. attorney is the lead enforcer of the law in his or her jurisdiction. Fortunately, for decades, the U.S. attorneys, almost without exception, have been insulated from the political process, even though they are chosen in part by the political process. So when six were fired in one evening, and when it later became clear in hearings I held that at least one, by the admission of the Deputy Attorney General, was fired for no reason, and a call from the White House to suggest a replacement who was someone with very little legal experience but someone who had worked for both Karl Rove and the RNC, I believe it was, you can imagine the concern that not only the Senator from California and I had but the concern throughout the country in law enforcement—non-political, simply a desire to protect the integrity of the U.S. attorneys. So we must do two things now.

These new revelations are extremely troubling. They would show politics at its worst—the long hand of the Justice Department reaching out to fire U.S. attorneys who would not do what was politically asked. At least that is a very real suspicion. So we must get to the bottom of this. The only way to do that is to call before us the fired U.S. attorneys and hear their side of the story.

I remind my colleagues that we did have a briefing—the Senator from California was there, the Senator from Rhode Island was there—and then were shown the evaluation reports, the EARS reports, and almost to a person the fired U.S. attorneys received very good evaluations from their peers and from everybody else. If you read those evaluations, you would say: Oh, they will keep that person in office for as long as he or she wants to stay. But instead, they were fired.

In private conversations my staff has had with them, they have grave suspicions as to why—some of them more than grave suspicions. Today, Mr.

Iglesias said publicly what he told my staff privately, that he has a very troubling view that he may well have been fired because he refused to bend his U.S. attorney's office to politics of the worst sort.

So there are two imperatives here. One, as I said, is to get to the bottom of this and get to the bottom of it quickly. The second is to pass legislation that restores the appointment of U.S. attorneys away or at least removes it somewhat from the political realm because when the Senate must confirm or when an independent judge must temporarily appoint, there is a check, there is a balance that was removed, unbeknownst to almost all of us, in the PATRIOT Act. The minute that passed, people were surprised and wondered: Why did it happen? The explanation from the administration didn't quite ring true. Then, on the evening of December 7, when six U.S. attorneys were called at once and fired and not given any reason, suspicions went further. The investigations my subcommittee has had, with the help of our chairman, the Senator from Vermont, and the Senator from California, who has taken a keen interest in this issue and is lead sponsor of the legislation, have gotten worse every day.

As I said at the beginning of my remarks, the expression goes: Where there is smoke, there is fire. Every day, not only is there more smoke in this investigation of the firing of the U.S. attorneys, but there seems to be, unfortunately, a real fire. We will not rest until we get to the bottom of this matter, to see what happened, to see if possibly any rules, regulations, or even laws were broken. By bringing it to light, it will importune this body, the other body, and the White House to pass legislation so that it cannot happen again.

Mr. President, in sum, this is serious stuff. When U.S. attorneys are fired for political reasons, fired to stand in the way of justice rather than promote justice, it puts a dagger into the heart of the faith Americans have in their Government and in their system of justice. That faith, fortunately, is long and deep, but if we don't get to the bottom of this, if we don't change the law to make sure it doesn't happen again, we will be weakening permanently our system of justice and the faith the public has in it.

We will move forward in whatever way we can. Hopefully, we will find it is possible to subpoena these attorneys and subpoena them quickly and then take the necessary action in these cases and prevent future cases from occurring, which justice and the faith the people have in the American system demand.

I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. WHITEHOUSE. Mr. President, the remarks the Senator from California and the Senator from New York

have made today are very well taken, and I rise to express my shared concern with them and my support for their initiative to get to the bottom of what took place. In May of 1994 I had the honor to be sworn in as Rhode Island's U.S. attorney. It was one of the great honors of my life, equivalent to the great honor of being sworn in with you, Mr. President, into this extraordinary body. I knew when I took that oath that I would be forced to make very hard decisions and that my independence and my integrity would be my strongest allies as I discharged the extraordinarily difficult and powerful responsibilities of a U.S. attorney.

Last December, seven U.S. attorneys were fired by the Department of Justice, all on the very same day. That is unprecedented. Never, to my knowledge, in the history of the Department have so many heads of U.S. attorneys rolled all on the same day. These men and women had been confirmed in this great Chamber. By all indications, they were well qualified and performing well in their jobs. Several of them were involved in ongoing public corruption investigations. Yet in this unprecedented step, this administration showed them all the door. It suggests to us all the question: why might such an extraordinary act have taken place; why were they told their services were no longer required?

The Attorney General, Alberto Gonzales, told us this:

What we do is make an evaluation about the performance of individuals, and I have a responsibility to the people in your district that we have the best possible people in these positions.

Deputy Attorney General Paul McNulty testified that "turnover in the position of U.S. attorney is not uncommon."

So the two suggestions that were made were that this was performance related, that a performance evaluation had been done of these individuals and they had not measured up, and that it was just turnover. It is hard to accommodate both of those stories, but when one looks into each of them, it makes even less sense.

The committee, through Senator SCHUMER and Senator FEINSTEIN, asked to see the Evaluation and Review Staff reports, what is called an EARS evaluation. When I was a U.S. attorney in Rhode Island, I lived through an EARS evaluation. All the local agencies were interviewed by career U.S. attorney services staff, detailed to Rhode Island just for the purpose of doing these evaluations. They happen in every office every 3 years. They are a significant part of the oversight and management practice of the Department of Justice, and they are extremely thorough.

We asked to see the reports. When it was clear that we were going to ask to see these performance evaluations, the Department began to back down. Mr. McNULTY told the committee:

We are ready to stipulate that the removal of the U.S. attorneys may or may not be

something supported by an EARS report because it may be something performance related that isn't the subject of what the evaluators saw or when they saw it or how it came up, and so forth.

There isn't much that an EARS evaluation doesn't look at, and contrary views began to emerge from the Department very shortly.

In an article published February 4, the Washington Post reported that:

[O]ne administration official, who spoke on the condition of anonymity in discussing personnel issues, said the spate of firings was the result of "pressure from people who make personnel decisions outside of Justice who wanted to make some things happen in those places."

Let's look at some of those places. In Arkansas, H.E. Bud Cummins III was a 5-year veteran U.S. attorney serving in Arkansas's Eastern District. Last June, he was asked to resign. The man chosen to replace the well-respected Mr. Cummins was Tim Griffin. Mr. Griffin is 37 years old. He served as Special Assistant to Assistant Attorney General Michael Chertoff in the Criminal Division of the Department of Justice, where he was sent as a detailee to the Arkansas U.S. Attorney's Office.

What Mr. Griffin lacked in prosecutorial experience, he more than made up for in political experience. Mr. Griffin is a former aide to Presidential adviser Karl Rove. He is also a former Republican National Committee research director. As those of us who have been through this sort of thing know, "research director" is not about looking up old statutes; it is about prying into personal lives of other candidates in order to try to dig up dirt on them.

A more partisan choice could not have been made to replace Mr. Cummins. Remember, Mr. McNULTY said:

The Department is committed to having the best person possible for discharging the responsibilities of that office at all times in every district.

It is just hard to believe that Mr. Tim Griffin was the best person possible, at least not as we ordinarily define those terms. At the end of our Judiciary hearing, Mr. McNULTY admitted that Mr. Cummins, the Government's chief prosecutor in Little Rock, Arkansas, was fired to give Mr. Griffin the opportunity to have the appointment.

In San Diego, U.S. attorney Carol Lam successfully prosecuted Duke Cunningham, who pled guilty and resigned in 2005. She subpoenaed the House Armed Services, Appropriations, and Intelligence Committees in connection with a probe into Defense Department contracts. Her office indicted Kyle "Dusty" Foggo, the CIA's former Executive Director, and Brent Wilkes, a defense contractor and top Republican fundraiser.

In her district, former Reagan U.S. attorney Peter Nunez—another Republican political appointee familiar with the world of U.S. attorneys because he served there himself; he served from 1982 to 1988—said this:

It's just like nothing I have ever seen before in 35-plus years. To be asked to resign and to be publicly humiliated by leaking this to the press is beyond any bounds of decency and behavior. It shocks me. It is really outrageous.

San Diego's top-ranking FBI official, Dan Dzwilewski, also commented on Lam's firing. Bear in mind, this is the Director of the FBI office that is operating as lead agency in these public corruption investigations. His quote:

I guarantee politics is involved . . . It will be a huge loss from my perspective.

Other U.S. attorneys, such as David Iglesias of New Mexico and John McKay of Seattle, said they had no idea why they were being asked to step down.

That changed recently. Today was posted a story from which I will quote:

The U.S. attorney from New Mexico who was recently fired by the Bush administration said Wednesday that he believes he was forced out because he refused to rush an indictment in an ongoing probe of local Democrats a month before November's Congressional elections.

David Iglesias said two members of Congress separately called in mid October to inquire about the timing of an ongoing probe of a kickback scheme and appeared eager for an indictment to be issued on the eve of the elections in order to benefit the Republicans. He refused to name the members of Congress because he said he feared retaliation. . . .

"U.S. Attorney Daniel Bogden, who also stepped down Wednesday after being asked to leave in December" had it recently reported in the Wall Street Journal that the FBI was investigating in his district allegations "whether Nevada Governor Jim Gibbons performed any official acts on behalf of a contract in exchange for gifts or payments. Gibbons, a Republican, has denied any wrongdoing."

Bogden said he hoped that the ongoing case did not have anything to do with his ouster.

This is his quote:

You would like to think that the reason you're put in the position as U.S. attorney is because you are willing to step up to the plate and take on big cases, Bogden said.

It's not a good thing if you begin to wonder whether you'll lose your job if you pursue them.

Last month, a Las Vegas newspaper reported:

a GOP source said . . . the decision to remove U.S. attorneys, primarily in the West, was part of a plan to "give somebody else that experience" to build up the back bench of Republicans by giving them high-profile jobs.

These are extremely troubling facts. The New York Times has recently editorialized on this subject and hypothesized three reasons for why these well-qualified attorneys were fired. As the New York Times said, "all political and all disturbing." The first reason: helping friends; the second, candidate recruitment; the third, Presidential politics.

The newspaper concluded that the politicization of Government over the last 6 years has had tragic consequences in New Orleans, in Iraq, and elsewhere, but allowing politics to infect U.S. Attorney's Offices takes it to

a whole new level. Congress should continue to pursue the case of the fired U.S. attorneys vigorously, both to find out what really happened and to make sure that it does not happen again.

I would like to highlight two further concerns that come from my experience as a U.S. attorney. One concern is how this alters the balance between U.S. Attorney's Offices and what we used to call main Justice, and the second concern is the chilling effect on prosecutions of public corruption.

There is constant tension between the U.S. attorneys in the field and main Justice. The U.S. attorneys know their districts, they have practiced before those judges, they know their office's capabilities very well, and they have their own local priorities. Of course, the Department of Justice also has its own priorities, its national priorities set by the President, and the tension between those two is healthy and is constant. In getting its message out to the U.S. attorneys, the Department has a wide array of ways to send its signals and make its wishes known, but to take six or seven well-performing U.S. attorneys and sack them all at once ends that dialogue. It brings the blunt instrument of, not even persuasion any longer, but brute force, to bear.

Now, there can very well be policy differences between the Department of Justice and local offices, but this would be a first for the Department of Justice, to say: You haven't emphasized this enough so we are going to have your head. It will squash the healthy tension between U.S. attorneys and between the Department, and at least in my experience, the greater wisdom of the Department of Justice versus that of all the U.S. attorneys in the field was not such that it justifies this level of force in emphasis and enforcement and in the demand for conformity with its policy positions.

I submit there is long-term damage to the capabilities of the Department of Justice as this tension is disrupted. We live in a country of checks and balances, and tensions like these are very often the best things for the public we serve when they are allowed to be maintained in a healthy fashion.

The second point I would make is the chilling effect on prosecutions of public corruption. This applies particularly with respect to Ms. Lam in California. In many respects, she had become the leading edge of the Federal Government's sword point on public corruption investigation because of the investigations that I mentioned earlier in my remarks. Her office was leading the biggest public corruption cases in the Nation, with more to come it appears. U.S. Attorney Lam was personally at the helm of these investigations, and she was well qualified for that role. Her unceremonious expulsion from office will send a shockwave through the offices of her fellow U.S. attorneys, and that shockwave will carry a very unfortunate message because these cases are not easy ones.

Public corruption cases are resource intensive for the office involved. They are extraordinarily challenging. Witnesses are scarce and difficult, significant agent expertise is required, internal procedures governing the investigation itself are complex and onerous, and launching one's office at established political figures is a decision with potentially serious consequences not only for the U.S. attorney but for the career people in that office. Someone who has come through all of that and moved out onto the leading edge of public corruption investigation for this country, I believe, merits the active support of the Department of Justice not just for the good work done but as a message and a signal to U.S. attorneys around the country that when they step out into that public corruption arena, we will back them up.

The signal to the contrary is a dangerous one. When a U.S. attorney gets fired, and one who was deep into a public corruption investigation and is leading it so well that their termination draws a public rebuke from the FBI chief, antennae will go up across the country.

Madam President, I ask unanimous consent to have printed in the RECORD at the conclusion of my remarks a letter that the Attorney General has received from the National Association of Former United States Attorneys.

The PRESIDING OFFICER (Mrs. CLINTON). Without objection, it is so ordered.

(See exhibit 1.)

Mr. WHITEHOUSE. Madam President, the sentence in that letter which strikes me as the most significant is:

We are concerned that the role of the United States Attorneys may have been undermined by what may have been political considerations which run counter to the proper administration of justice and the traditions of the Department of Justice.

This is not a good day. This is not the sort of thing that we need to be discussing. This is not the sort of thing that we should be discussing. As Senator SCHUMER earlier said, there is a lot of smoke in the air right now, and it looks as if there is actually some fire. It is truly incumbent on this body, the body which confirmed these individuals to their offices and which has oversight responsibility with the Department of Justice, to look into what is happening and to reestablish the procedures to prevent this from happening again.

I yield the floor, and I thank the Chair.

#### EXHIBIT 1

THE NATIONAL ASSOCIATION OF  
FORMER UNITED STATES ATTOR-  
NEYS,

February 14, 2007.

Hon. ALBERTO R. GONZALES,  
*Attorney General of the United States, United  
States Department of Justice, Washington,  
DC.*

Re: Media Reports of Termination of United  
States Attorneys

DEAR ATTORNEY GENERAL GONZALES, We  
are the President and Executive Director of

the National Association of Former United States Attorneys ("NAFUSA"). NAFUSA was founded in March 1979 to promote, defend and further the integrity and the preservation of the litigating authority and independence of the Office of the United States Attorney. Our membership includes United States Attorneys from every administration back to President Kennedy and includes former United States Attorneys from every state in the union. It is with this mission and with our cumulative experience as United States Attorneys that we write.

We are very troubled with recent press accounts concerning the termination of a sizable number of United States Attorneys. Historically, United States Attorneys have had a certain degree of independence because of the unique and integral role the United States Attorneys play in federal law enforcement. Among other things, the United States Attorney establishes and maintains working and trusting relationships with key federal, state and local law enforcement agencies. In many respects, while the United States Attorney is a representative of the Department of Justice in each district, the United States Attorney also brings to bear his or her experience and knowledge of the law enforcement needs of the district in establishing priorities and allocating resources. Most importantly, United States Attorneys have maintained a strong tradition of insuring that the laws of the United States are faithfully executed, without favor to anyone and without regard to any political consideration. It is for these reasons that the usual practice has been for United States Attorneys to be permitted to serve for the duration of the administration that appointed them.

We are concerned that the role of the United States Attorneys may have been undermined by what may have been political considerations which run counter to the proper administration of justice and the tradition of the Department of Justice. While we certainly recognize that the United States Attorneys serve at the pleasure of the President, we would vigorously oppose any effort by any Attorney General to remove a United States Attorney as a result of political displeasure or for political reward. Any such effort would undermine the confidence of the federal judiciary, federal and local law enforcement agencies, the public, and the thousands of Assistant United States Attorneys working in those offices.

We do not mean to suggest that we know the reasons for each of the terminations or, for that matter, all of the relevant facts. Indeed, we encourage the Department of Justice and Congress to make as full and as complete a disclosure of the facts surrounding these firings as is permissible. Still, the reported facts are troubling, perhaps unique in the annals of the Department of Justice, and certainly raise questions as to whether political considerations prompted the decision to terminate so many United States Attorneys. It may well be that legislative attention or a written policy of the Department of Justice is necessary to deal with this and similar situations in the future to afford continuity and protection to United States Attorneys. We will be happy to assist the Department or Congress in any such effort.

Sincerely yours,  
ATLEE W. WAMPLER III,  
*President.*  
B. MAHLON BROWN,  
*Executive Director.*

(2) by inserting after paragraph (1) the following:

“(2) The term ‘economic disruption’ does not include a work stoppage or other employee-related action not related to terrorism and resulting from an employer-employee dispute.”

Mr. DEMINT. Madam President, if I can make a couple of comments about the modification, many will recall that this amendment is focused on our ports and the security of our ports. I think all of us are well aware that as a nation we see that our ports of entry, whether they be in Seattle, New York, or Charleston, SC, could be our most vulnerable points when it comes to smuggling in a weapon of mass destruction. We have committed many resources and lots of technology to try to detect radiation and other types of weapons that might be smuggled into our country that could hurt Americans and destroy American cities, and we are making some progress. But there is a lot more to be done.

All the spending, all the technology, all the equipment in the world will make no difference at all if we don't have the right people working in the secure areas of our ports. We need to make sure those people are the most trusted we have, just as we do in our airports. Our responsibility, whether it is homeland security as an administration or we as the Congress, is to make sure these people are screened and that we have the best and the most trusted individuals working in our secure areas. This is very important.

My amendment focuses on just that subject. It prohibits convicted felons

from working in the secure areas of our ports. This is common sense to most Americans, and I think it is common sense to most in this Senate because when this exact same amendment was offered last year, when we were dealing with port security specifically, everyone voted for this amendment in the Senate. Unfortunately, that amendment was stripped out when we had a conference with the House.

Many of my colleagues have encouraged me to reintroduce this amendment, Republicans and Democrats alike, and that is exactly what I have done. I understand the Senator from Hawaii is considering introducing a modification that would allow the Secretary to eliminate some of these felonies that we have listed in our amendment. Please keep in mind that the listed felonies are the exact same ones that homeland security has listed in the regulation that they have put in force at their agency. So this amendment puts in law what homeland security has already put into regulation.

The importance of putting it in law is that we already suspect this legislation will be contested; that there will be delays, there will be challenges, and we need to make sure that our ports are secure. The modification of my amendment would allow the Secretary to add felonies in the future which may become important but that are not now listed. We think it would be a huge mistake if we put in law something that allowed future administrations to eliminate felonies that are specifically laid out in regulation and in this amendment I am offering.

If anyone in the Senate would like to eliminate some of the felonies that we have listed, I would encourage them to come to the Senate floor and let's discuss those that they would like to eliminate. Maybe they would like to have some of these folks working in the secure areas of our ports, folks who have committed espionage, sedition, treason, terrorism, crimes involving transportation security, improper transport of hazardous material, unlawful use of an explosive device, bomb threats, or murder. These are specifically listed. If there are some of these that we think should be eliminated, let's discuss them.

Homeland Security has evaluated this and has listed these, just like we have for our airports, to keep our ports secure.

I am offering this modification that would allow our Secretary to add felonies but prohibit the elimination of these felonies which we think are so important to our security.

I thank the Chair for the opportunity to offer this modification, and I yield the floor.

Mr. LIEBERMAN. Madam President, I thank the Senator from South Carolina for his modification. We talked about this briefly. I think he is heading in the right direction. We are taking a look at the amendment as it is offered, and we look forward to working to-

gether. I think the purposes are very important.

I thank the Chair, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. COLLINS. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. COLLINS. Madam President, I ask unanimous consent to add Ms. MURKOWSKI, a Senator from Alaska, as a cosponsor to the Collins amendment No. 277.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AMENDMENT NO. 277

Ms. COLLINS. Madam President, speaking of the Collins amendment on REAL ID, cosponsored by Senators ALEXANDER, MIKULSKI, CARPER, CANTWELL, SNOWE, CHAMBLISS, and MURKOWSKI, I bring to my colleagues' attention the several groups representing Governors, State legislatures, and others who are now speaking in favor of passage of this amendment. In addition, as the Presiding Officer so ably represents the State of New York, there was a *Newsday* editorial today also endorsing the amendment with its 2-year delay.

The National Governors Association has also issued a statement that says:

Senator Collins' bipartisan amendment recognizes the need to give state officials and other interested parties the right to review regulations and suggest modifications.

It goes on to say:

This proposal would provide states a more workable time frame to comply with federal standards, ensure necessary systems are operational and enhance the input states and other stakeholders have in the implementation process.

We have also heard from the American Federation of State, County and Municipal Employees, a union that is affiliated with the AFL-CIO, which has written a letter as well. It says:

It is clear that the states do not have the capacity to comply with the REAL ID Act by the 2008 deadline and that a number of serious concerns related to privacy must be addressed. The Collins amendment provides the opportunity to address these matters.

Similarly, another group with whom we have worked closely is the National Conference of State Legislatures. In fact, it was a high-ranking official of the NCSL who sat next to me on a plane going to Maine some time ago and suggested that what States needed most was a delay in the compliance time. I worked very closely with the NCSL in drafting our amendment. I am very grateful for their advice.

I ask unanimous consent that the letters and editorials I have mentioned be printed in the RECORD so we may share them with our colleagues.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the National Governors Association, Feb. 28, 2007]

#### NGA PRAISES CONGRESSIONAL MOVEMENT TO CORRECT REAL ID

WASHINGTON.—On behalf of the nation's governors, the National Governors Association (NGA) issued the following statement regarding the introduction of an amendment to delay implementation of Real ID.

"Governors praise Senator Susan Collins, ranking member of the Senate Homeland Security Committee, for introducing an amendment to address the issues raised by the Real ID Act of 2005. This proposal would provide states a more workable time frame to comply with federal standards, ensure necessary systems are operational and enhance the input states and other stakeholders have in the implementation process.

"Improving the security and integrity of their drivers' license systems is vital; however, the substantial costs and looming implementation deadline make Real ID unworkable and unreasonable. NGA has called on the Department of Homeland Security and Congress to fix the law by providing additional time, resources and flexibility for states to enhance their systems.

"Senator Collins' bipartisan amendment recognizes the need to give state officials and other interested parties the right to review regulations and suggest modifications. This allows governors and state legislators to help create reasonable standards and ensure the act is implemented in a cost-effective and feasible manner with maximum safety and minimum inconvenience for all Americans."

AMERICAN FEDERATION OF STATE,  
COUNTY AND MUNICIPAL EMPLOY-  
EES, AFL-CIO,

Washington, DC, February 27, 2007.

DEAR SENATOR: On behalf of the 1.4 million members of the American Federation of State, County and Municipal Employees (AFSCME), I am writing with respect to the Senate debate over S. 4, legislation to implement 9/11 Commission recommendations.

We understand that an amendment may be offered, possibly by Senator DeMint, to strike or weaken a provision in the bill that gives Transportation Security Administration (TSA) screeners collective bargaining and other civil service protections. We strongly urge you to oppose this amendment. In addition, we urge you to support an amendment to be offered by Senator Collins that would delay implementation of requirements under the REAL ID Act and to reopen negotiated rulemaking of the Act.

With respect to the DeMint amendment, it is important to highlight that civil service protections, backed up by collective bargaining, ensure that federal employment is efficient, fair, open to all, free from political interference and staffed by honest, competent and dedicated employees. Civil service protections and collective bargaining rights ensure that federal employees are able to fulfill their assignments with professional integrity and a commitment to the public interest. The decision to take away civil service protections and collective bargaining rights has resulted in a demoralized workforce, with injury and illness rates that are six times higher than the federal average and an attrition rate that is more than ten times higher than the federal employee average. Clearly, the removal of civil service protections and collective bargaining rights has jeopardized the public, not made it safer.

With respect to the Collins amendment, we have previously expressed our concern over the costs to the states to implement the requirements under the REAL ID Act. It is clear that states do not have the capacity to

comply with the Act by the 2008 deadline and that a number of serious concerns related to privacy must be addressed. The Collins amendment provides the opportunity to address these matters.

Sincerely,

CHARLES M. LOVELESS,  
*Director of Legislation.*

#### STATE LAWMAKERS ENCOURAGED BY REAL ID ACTIVITY IN U.S. SENATE

SENATOR COLLINS' MEASURE TO PROVIDE EXTRA TIME, STATE INPUT INTO THE REGULATORY PROCESS

WASHINGTON, DC.—The National Conference of State Legislatures praises Maine Senator Susan Collins for introducing legislation (S. 563) to address state concerns over the Real ID Act, a measure which creates national standards for state-issued drivers licenses and identification cards.

S. 563 addresses some of the recommendations for change called for by NCSL, governors and motor vehicle administrators in a September 2006 report—The REAL ID: National Impact Analysis. Legislators throughout the country support REAL ID's goal of making drivers licenses more secure, but are frustrated by the rigidity of the law's approach, the high costs it imposes on states and the inordinately long time it has taken the Department of Homeland Security to issue the regulations needed to implement REAL ID.

NCSL is encouraged that Senator Collins, ranking member of the Senate Homeland Security and Governmental Affairs Committee, and other members of Congress are taking steps to correct the problems associated with the law. S. 563 provides a longer time frame to comply with the federal standards and to ensure that necessary systems are operational. Senator Collins' legislation also establishes a committee of state officials and other interested parties to review the draft DHS regulations and to submit recommendations for regulatory and legislative changes.

NCSL's official policy statement calls for repeal of Real ID if, by December 31 of this year, Congress fails to adopt the necessary changes as outlined in the September 2006 report and if they fail to provide full funding for the law. Senator Collins' legislation, therefore, is especially timely and NCSL looks forward to working with her and her colleagues to fix and fund the law.

NCSL is the bipartisan organization that serves the legislators and staff of the states, commonwealths and territories. It provides research, technical assistance and opportunities for policymakers to exchange ideas on the most pressing state issues and is an effective and respected advocate for the interests of the states in the American federal system.

[From Kennebec Journal Morning Sentinel]  
ADDRESSING THE REAL PROBLEMS OF REAL ID

The REAL ID Act was passed by Congress in 2005. Part of a suite of measures to beef up homeland security, the act requires that by mid-2008, Americans must have a federally approved ID card—most likely an enhanced driver's license—to travel on airplanes, collect government payments or use government services and open a bank account. The national ID cards would have to be machine-readable.

As the deadline approaches for compliance with the act, opposition to the mandate has grown. Late last month, the Maine Legislature became the first in the nation to pass a measure against the requirement, unequivocally refusing to implement the act and urg-

ing Congress to repeal it. Too expensive, too fast, too much of an invasion of privacy and too burdensome to administer, said a bipartisan coalition of Maine lawmakers. Estimate of the cost of compliance in Maine alone is \$185 million.

The Legislature's rejection made news around the nation. What Maine started threatened to become a tidal wave of state opposition. In an effort to stem the momentum and salvage what she considers good about the requirement, U.S. Sen. Susan Collins Friday announced she's introducing legislation to delay implementation of the act and provide states with a more reasonable time frame for complying with its new standards for drivers' licenses. "The costs of complying with REAL ID are enormous and overly burdensome to states, including Maine," said Collins.

We agree. Collins' legislation puts the brakes on a mandate that raises significant concerns, as well as the broader question of whether the REAL ID would ultimately be effective.

Her bill would give the Department of Homeland Security the ability to delay or waive REAL ID requirements if states don't have the technical capability to comply with it, or the money.

It furthermore calls to the discussion table the right group of people to hammer out an alternative: federal and state officials, privacy advocates and others with a stake in the matter. We're encouraged that this senator, who has made her name as an advocate of effective and real security measures, has focused on finding a solution to the real problems posed by REAL ID.

[From the Bangor Daily News]  
NEEDED ID DELAY

By introducing a bill to slow the pace of new federal identification rules, Sen. SUSAN COLLINS today is expected to offer a way out of a growing confrontation between Washington and the states. The bill would extend the deadline for REAL ID by two years and recognize the cost burden currently imposed on states. Additionally, it reopens the question of how much information the federal government should centralize.

This pause is needed. Last week, for instance, Georgia looked at REAL ID's expected price tag of between \$30 million and \$60 million and declined to fund it. That follows Maine's resolution to reject the program and likely precedes work in about a dozen states that have legislation against REAL ID before their legislatures. The Collins bill would reconvene the panel that made recommendations on this issue and review problems raised by the states, the standards for protecting constitutional rights and civil liberties and the security of the electronic information, among other issues.

Under the current regulations, all Americans would have a federally approved ID card by the end of next year. Usually seen as a machine-readable driver's license, the card would be needed not only for driving but all the standard uses—to board airplanes, do business with the federal government, open a bank account. One estimate put the cost to states for transitioning to these new IDs at \$11 billion.

Besides cost, opponents of the standardized identification program fear that REAL ID will result in a national database, which the federal government may not be equipped to protect. In particular, one provision would require states to verify all documents required for the issuance of a driver's license or identification card. That would require each state to have agreements with all other states or, more likely, have a single national agreement.

Given the government's track record on securing private information, states are reasonably worried. Not long ago, the House Government Reform Committee looked at 19 agencies going back to 2003 and found 788 separate cases of confidential data being either lost or stolen. Most of the lost data, the report concluded, was due to "unauthorized use of data by employees."

The extended deadline proposed by the Collins legislation would give officials an opportunity to improve security at both federal and state levels. And it should find ways for Washington to help pay for this expensive program.

#### REAL ID PROGRAM IS A REAL MESS; HOW CAN STATES STANDARDIZE DRIVER'S LICENSES BY 2008 WHEN STANDARDS HAVEN'T BEEN SET?

Maine's "revolt" against a federal mandate to create an expensive, high-tech driver's license that meets new standards set by the federal government is catching on.

Since state legislators overwhelmingly approved a resolution objecting to the Real ID Act of 2005 in late January, lawmakers in Vermont, Georgia, Wyoming, Montana, New Mexico and Washington state have followed suit.

The Real ID Act was an effort to enhance and standardize the information on state driver's licenses so they could double as a national identification card.

Such a sensitive federal-state issue ought to have been the subject of negotiations including the states. But the House of Representatives forged ahead with the Real ID Act, which simply ordered the Department of Homeland Security to write its own requirements. The measure passed the Senate attached to a supplemental spending bill.

A very real set of concerns revolve around the security of the machine-readable personal information that will be included in the high-tech card, as well as the security of the linked national database that will house this information. One recent study found more than 700 instances of confidential data being stolen from the federal government since 2003.

Also problematic is the notion that state transportation workers will be essentially conscripted to the front line of this federal program.

Across the country, states will begin working on their 2008 budgets this year. A 2006 study by the National Governors Association tabbed the cost of compliance at \$11 billion over five years. Secretary of State Matt Dunlap estimates Maine's share will be \$185 million.

Yet despite Real ID's looming May 2008 deadline for compliance, states still haven't seen the law's requirements.

On Monday, Sen. SUSAN COLLINS introduced a bill that would delay the compliance date for two years to 2010 so the federal government can get its act straightened out.

Her bill would convene a panel of federal and state stakeholders to examine issues raised by the states around cost, privacy and feasibility.

Rep. TOM ALLEN intends to offer a bill that would repeal the law entirely.

If Congress feels homeland security requires that all Americans carry an internal passport, then it ought to administer the program.

It ought to pay for it as well.

#### GO SLOW ON NEW DRIVER'S LICENSES U.S. SHOULD TAKE TIME TO GET IT RIGHT

It's a sad sign of the times, but a national identification card, a new gold standard for

proof of identity, may be needed in the battle against terrorism. The 9/11 Commission urged tighter security for driver's licenses and Congress has asked the Department of Homeland Security to develop rules for standardizing licenses and other state issued identification into what would be, essentially, a national ID card.

But establishing a system that will make it appreciably harder for terrorists to operate without exacerbating the problem of identity theft or compromising what's left of privacy in the digital age won't be quick or easy. The current May 2008 implementation date is unrealistic. And there's the question state officials are already asking: Who will pay?

Washington hasn't gotten off to a very promising start in dealing with these concerns. In 2004, Congress established a committee of state and federal officials and others to craft regulations for making licenses more uniform and secure. It preempted that process in 2005 when it tacked the Real ID Act to a spending bill, giving the rule-making job to the Department of Homeland Security. It's been almost two years and no rules have been announced, although officials say they may come as soon as this week.

But creating a secure, standardized national ID card involves more than deciding on such things as digital photographs and bar codes. Clerks everywhere would need ready access to nationwide databases to verify vital records such as birth certificates, immigration status and driver's license records in all 50 states. Integrating that data, securing it, controlling access and correcting errors will be no small task.

Sen. SUSAN COLLINS (R-Maine) wants to give states more time to comply. That's advisable and probably inevitable.

Ms. COLLINS. I thank the Chair.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. INOUE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 285 TO AMENDMENT NO. 275

Mr. INOUE. Madam President, I rise today to offer an amendment that incorporates Senator DEMINT's amendment No. 279 regarding the Transportation Worker Identification Credential, known as TWIC.

I am pleased to advise my colleagues of this amendment. It is cosponsored by Senator STEVENS, Senator LIEBERMAN, and Senator MURRAY.

The amendment offered by Senator DEMINT codifies in statute the list of permanent and interim disqualifying offenses for individuals applying for a TWIC that the Department of Homeland Security has already codified in final regulations this January.

While I understand Senator DEMINT's desire to ensure we do not allow individuals who could pose a terrorism security risk to have access to our ports, Senator DEMINT's language restricts the authority of the Secretary to identify, adopt, and modify criminal offenses that may pose a terrorist security threat.

We are all aware of the fact the war on terrorism continues to evolve with

emerging threats. We need to ensure the Department has the flexibility to adjust their procedures accordingly. I, along with my fellow cosponsors, believe such a responsibility is best left to the intelligence, terrorist, and law enforcement experts at the Department of Homeland Security rather than Members of Congress. Therefore, this amendment preserves the authority of the Secretary to modify the offenses accordingly.

I ask my colleagues to support our amendment and help ensure we improve the security of our port facilities in a fair and effective manner.

Madam President, I call up my amendment.

The PRESIDING OFFICER. Without objection, the clerk will report.

The bill clerk read as follows:

The Senator from Hawaii [Mr. INOUE], for himself, Mr. STEVENS, Mr. LIEBERMAN, and Mrs. MURRAY, proposes an amendment numbered 285 to amendment No. 275.

The PRESIDING OFFICER (Mr. OBAMA). Without objection, it is so ordered.

#### U.S. ECONOMIC SOVEREIGNTY

Mrs. CLINTON. Mr. President, we are in the middle of an ongoing discussion

and debate over our homeland security, and certainly, as all of us know, this remains a matter of grave concern. Homeland security means many things, and it certainly does mean that we fully and appropriately fund our police and our fire. It means we guard our ports and our infrastructure such as our tunnels and bridges, all of which are going to be the subject of the authorization legislation brought forward by the chairman and ranking member. But it also means we have to remain strong at home and we have to have the economic resources to spend on protecting ourselves.

Yesterday, the Dow Jones Industrial Average plummeted 416 points—the largest single drop since the markets reopened after the September 11 attacks. While our markets were reeling, alarm bells were ringing once again over the irresponsible fiscal and economic policies of this administration that continue to surrender the economic sovereignty of our country to foreign banks, investors, and governments piece by piece.

Yesterday's stock market disruption came on the heels of pessimistic economic news on the homefront and ominous comments about recession by former Fed Reserve Chairman Alan Greenspan. So while it can and will be debated whether yesterday's market fluctuation was a blip or a larger indicator of our economy's vulnerabilities, it is clear that what happened underscores the exposure of our economy to a combination of economic developments in countries such as China and economic policies here at home. A scare in the Chinese stock market, based on rumors within that country, sent economic reverberations around the world.

In terms of our fiscal stability, we are in uncharted waters. Markets, to a certain degree, will always be volatile and, to a great extent, we are fortunate that our domestic markets are deep enough to absorb certain shocks. But there is no precedent in U.S. history for an economy as large as ours to be as heavily in debt to its trading partners as the United States is to countries such as China, Japan, and others.

When it comes to the fiscal recklessness and economic fatalism of the current administration, the writing may not be on the wall, but yesterday the writing was on the “Big Board.” In the face of this challenge, the economic policies of the last 6 years have contributed to an erosion of U.S. economic sovereignty and have made us more dependent on the economic decisions of other nations. As I have proposed, and continue to support, we need to take steps to restore fiscal responsibility and sound economic policies based on the facts, not ideology.

I will continue to support legislative steps to require that the Bush administration address mounting fiscal and trade imbalances. Today I sent letters to Treasury Secretary Hank Paulson and Federal Reserve Chairman Ben

Bernanke urging them to address many of our underlying economic vulnerabilities resulting from our debt and deficits.

Our Nation has been running record deficits and digging a massive fiscal hole of nearly \$3.8 trillion as foreign countries have been buying our debt and in essence becoming our bankers. According to the most recent Treasury statistics, foreign nations now hold more than \$2.2 trillion, or 44 percent, of all publicly held U.S. debt. Japan and China alone hold nearly \$1 trillion. To put it plainly: 16 percent of our entire economy is being loaned to us by the Central Banks of other nations. I know other Members of this Chamber, such as Senator CONRAD, the chairman of our Budget Committee, share my concern over the implications of this massive foreign debt.

While the foundations of our fiscal house are eroded by our fiscal policies, our failure to pursue smart economic policies has added strain on our economy. Every single year since President Bush took office we have had a record trade deficit. Last year the deficit was \$764 billion. One of the ramifications of that trade deficit to foreign interests is the control by foreign interests of more and more of our assets.

How can we negotiate fair, pro-American trade agreements and ensure foreign countries uphold these agreements when we sit across the negotiating table not only from our competitor but from our banker as well? While ceding our economic sovereignty, we also sow the seeds of economic vulnerability. Precipitous decisions by any country holding our debt could create much graver economic problems than what we saw yesterday.

I believe in smart, pro-American trade, and globalization does hold incredible promise to continue to improve our standard of living and to create economic growth. But for too long, the choices have been painted far too starkly and with a broad political brush. In fact, we can protect our economic interests while promoting trade. We can secure our economic sovereignty while promoting policies that secure our global economic position. Trade does not have to be a zero sum game.

The choice is not between fatalism and protectionism. The choice is between policies that work and policies that are not working. We have to curb these deficits and ensure foreign governments do not own too much of our Government debt. We need a firewall that keeps our economic future more in our own hands.

In years past I have worked with other Members of Congress who share my concerns. For example, during the last session of Congress I supported legislation by Senator DORGAN and then-Congressman Cardin that rings an alarm bell when U.S. foreign-owned debt reaches 25 percent of GDP or the trade deficit reaches 5 percent of GDP. It would require the administration to

develop a plan of action to address these conditions and report their findings to Congress. At the very least this proposal would compel our Government to deal with these economic issues while they are problems but before they become crises. I believe proposals such as these need to be considered in order to put our economic house in order, as we can too easily be held hostage to the economic policies that are being made not in Washington and not in the markets of New York but in Beijing, Shanghai, Tokyo, and elsewhere.

Yesterday it was the selloff of foreign stocks that had reverberations in U.S. markets. But if China or Japan made a decision to decrease their massive holdings of U.S. dollars, there could be a currency crisis and the United States would have to raise interest rates and invite conditions for a recession. Precipitous decisions by any country holding our debt could create far graver economic consequences than what we witnessed yesterday.

While it is clear we should take reasonable steps now to ensure that the economic problems of today do not become the crises of tomorrow, we are awaiting some action by the administration that gives us a clear signal that we can begin to restore responsibility. This is a long-term problem, but it is one that I think we must respond to. We ignore it at our peril. As we saw yesterday, the United States is interconnected with globalized markets. They are not going to leave anyone out. We will all be impacted by decisions that we have nothing to do with making, even if they are rumors or quickly reversed.

It is my hope what happened yesterday, which gave us headlines across the world, will open our eyes to what we need to do to take action to put ourselves in a much more competitive position and to begin to move away from the loss of economic sovereignty we have seen over the last years.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Kentucky is recognized.

Mr. BUNNING. Mr. President, what is the pending business?

The PRESIDING OFFICER. The Inouye amendment to S. 4 is pending.

Mr. BUNNING. Mr. President, I ask unanimous consent to speak as in morning business for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. BUNNING are printed in today's RECORD under "Morning Business.")

Ms. COLLINS. Mr. President, I ask unanimous consent that at 5:20 today, the Senate proceed to a vote in relation to the Inouye amendment No. 285, to be followed by a vote in relation to the DeMint amendment No. 279, as modified; with the time until then for debate to run concurrently on both amendments, with the time equally divided and controlled between Senators Inouye and DeMint or their designees; that no amendments be in order to ei-

ther amendment prior to the vote and that there be 2 minutes of debate equally divided between the votes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Ms. COLLINS. Thank you, Mr. President.

The PRESIDING OFFICER. Who yields time? The Senator from Hawaii is recognized.

Mr. INOUE. Mr. President, I concur with the statement just issued, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DEMINT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AMENDMENT NO. 285

Mr. DEMINT. Mr. President, I wish to comment on the second-degree amendment that has been offered by my colleague from Hawaii, Senator INOUE.

The PRESIDING OFFICER. All time has expired under the previous agreement.

Mr. DEMINT. I ask unanimous consent—

Ms. COLLINS. Mr. President, to clarify the unanimous consent request, I believe there were 2 minutes between the votes, am I correct, for debate?

The PRESIDING OFFICER. The Senator is correct. The Senator from South Carolina may proceed.

Mr. LIEBERMAN. Mr. President, may I ask the Senator through the Chair, how much time does the Senator from South Carolina need?

Mr. DEMINT. Three or 4 minutes.

Mr. LIEBERMAN. Mr. President, I ask unanimous consent that the Senator be given 4 minutes to speak.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DEMINT. I thank the Senator. I appreciate the Senator fitting me in. Again, I am speaking on the second degree to my amendment that is related to port security.

As we talked about here several times on the floor, and actually passed last year, it is important that the people who are working at our ports are people we can trust to use the equipment and technology they are given to keep the people of America safe.

The amendment I have offered is consistent with—in fact, it is identical to—the regulations that the Secretary and the homeland defense agency have put together so that we will not have convicted felons working in our ports around this country, so that we know the people who are operating our most secure areas are people who have not proven to be susceptible to crimes.

Senator INOUE is offering a second degree to my amendment that would allow the Secretary to change some of these crimes or felony convictions or to modify the rules. The Secretary of Homeland Security has not asked for

this. In fact, he is supporting the amendment we have. I cannot imagine any future Secretary or future administration wanting to eliminate some of these felonies. The whole point of having this amendment and putting it into law is so that our agencies are not subject to lawsuits and constant harassment to change the criteria for working in the secure areas of our ports.

So I appeal to my fellow colleagues, a vote for this second-degree amendment is a vote to gut my amendment. It is a vote to allow in the future any administration or this administration to eliminate certain felonies that would keep convicted criminals from working in our ports. I encourage my colleagues not to vote for this second degree. Vote for my amendment, which everybody in this body has voted for unanimously in the past.

Again, I thank the Senator from Connecticut and Senator COLLINS for the opportunity to speak.

I yield the floor.

The PRESIDING OFFICER. The Senator from Hawaii is recognized.

Mr. INOUE. Mr. President, the amendment I introduced is not a second-degree amendment. However, it incorporates Senator DEMINT's amendment.

It doesn't in any way minimize the matter of security. It just says the Secretary shall have flexibility with changing times. As we all concur, times do change.

Thirdly, in the other areas where security threats are common, such as airports, the Department of Transportation has not asked for anything like this, with no flexibility.

Fourth, if rules are to be made to differ from the present rules as set forth in the DeMint amendment and the Inouye amendment, it will have to go through the rulemaking process. I can assure my colleagues that we will not let felons be in charge of our security.

I thank the Chair.

Mr. DEMINT. Mr. President, may I have an additional 60 seconds?

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. DEMINT. I thank the Senator from Hawaii. I need to make an important point. The whole point of my amendment is to put a regulation in law so it cannot be changed and contested. The amendment offered by Senator INOUE basically guts the amendment and eliminates the reason for the amendment. It moves from being a law to something that is subject to the whims of any future administration or Secretary.

Our job here is certainly to be fair to workers, but our first priority is to protect the American people. Please, let's not allow convicted felons to work in our ports. Our job is to protect our ports. The second degree completely guts the whole idea of an amendment that makes this law.

I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to amendment No. 285.

Mr. LIEBERMAN. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Delaware (Mr. BIDEN), the Senator from South Dakota (Mr. JOHNSON), and the Senator from Rhode Island (Mr. REED) are necessarily absent.

Mr. LOTT. The following Senators were necessarily absent: the Senator from Kansas (Mr. BROWNBACK) and the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 58, nays 37, as follows:

#### AMENDMENT NO. 279, AS MODIFIED

The PRESIDING OFFICER. Under a previous order, there will now be 2 minutes of debate equally divided on the DeMint amendment No. 279.

Who yields time?

Mr. LIEBERMAN. Mr. President, I am prepared to yield back the time on our side and go right to the vote.

Mr. BYRD. Let's hear something about the amendment.

Mr. LIEBERMAN. The proponent of the amendment is the Senator from South Carolina, and he has 1 minute to describe it, if he so chooses.

Ms. COLLINS. Mr. President, if the Senator from West Virginia is seeking an explanation of the amendment, I believe I can provide that.

The amendment offered by the Senator from South Carolina would give authority to the Secretary of the Department of Homeland Security to add certain advances to the list of disqualifying crimes that would prevent someone from working at our seaports.

Mr. BYRD. I thank the Senator from Maine.

#### NOT VOTING—4

The amendment (No. 279), as modified, was agreed to.

Mr. REID. I move to reconsider the vote and to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Madam President, because of these two votes coming together as they did, there was some confusion. That is why this vote took longer. Everyone should understand, we will not make a habit of this. We have been very strict in enforcing the 20-minute rule, and we will continue to do so.

For the benefit of all Senators, we had a productive day today but, in my opinion, not as productive as it should have been. For Senators who have amendments, tomorrow is Thursday. We are not having votes until 5:30 on Monday night. We are going to have some amendments offered or I am going to get the idea there are not any amendments to offer, and we will have to either move to third reading or move to cloture or something. If Members have amendments, we said this would be an open process. This is a very important piece of legislation. I hope they are not waiting until the last minute because the last minute may arrive more quickly than they think. It is important legislation. In our cloakroom, we sent out a hotline today to find out what amendments my caucus has. I hope the Republicans will follow up on that so we may have a list of amendments so we know whom to call.

We have had a lot of dead time today. If this bill is open to amendment and people have concerns with it, they should offer those amendments.

The PRESIDING OFFICER. The Senator from New Mexico.

#### AMENDMENT NO. 281 TO AMENDMENT NO. 275

Mr. BINGAMAN. Madam President, I call up amendment No. 281 and ask for its immediate consideration.

The PRESIDING OFFICER. Is there objection to setting aside the pending amendment?

Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

The Senator from New Mexico [Mr. BINGAMAN], for himself and Mr. DOMENICI, proposes an amendment numbered 281 to amendment No. 275.

Mr. BINGAMAN. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide financial aid to local law enforcement officials along the Nation's borders, and for other purposes)

At the appropriate place, insert the following:

#### TITLE \_\_\_\_.—BORDER LAW ENFORCEMENT RELIEF ACT

##### SEC. \_\_\_\_ 01. SHORT TITLE.

This title may be cited as the "Border Law Enforcement Relief Act of 2007".

##### SEC. \_\_\_\_ 02. FINDINGS.

Congress finds the following:

(1) It is the obligation of the Federal Government of the United States to adequately secure the Nation's borders and prevent the flow of undocumented persons and illegal drugs into the United States.

(2) Despite the fact that the United States Border Patrol apprehends over 1,000,000 people each year trying to illegally enter the United States, according to the Congressional Research Service, the net growth in the number of unauthorized aliens has increased by approximately 500,000 each year. The Southwest border accounts for approximately 94 percent of all migrant apprehensions each year. Currently, there are an estimated 11,000,000 unauthorized aliens in the United States.

(3) The border region is also a major corridor for the shipment of drugs. According to the El Paso Intelligence Center, 65 percent of the narcotics that are sold in the markets of the United States enter the country through the Southwest Border.

(4) Border communities continue to incur significant costs due to the lack of adequate border security. A 2001 study by the United States-Mexico Border Counties Coalition found that law enforcement and criminal justice expenses associated with illegal immigration exceed \$89,000,000 annually for the Southwest border counties.

(5) In August 2005, the States of New Mexico and Arizona declared states of emergency in order to provide local law enforcement immediate assistance in addressing criminal activity along the Southwest border.

(6) While the Federal Government provides States and localities assistance in covering costs related to the detention of certain criminal aliens and the prosecution of Federal drug cases, local law enforcement along the border are provided no assistance in covering such expenses and must use their limited resources to combat drug trafficking, human smuggling, kidnappings, the destruction of private property, and other border-related crimes.

(7) The United States shares 5,525 miles of border with Canada and 1,989 miles with Mexico. Many of the local law enforcement agencies located along the border are small, rural departments charged with patrolling large areas of land. Counties along the Southwest United States-Mexico border are some of the poorest in the country and lack the financial resources to cover the additional costs associated with illegal immigration, drug trafficking, and other border-related crimes.

(8) Federal assistance is required to help local law enforcement operating along the border address the unique challenges that arise as a result of their proximity to an international border and the lack of overall border security in the region

#### SEC. 03. BORDER RELIEF GRANT PROGRAM.

##### (a) GRANTS AUTHORIZED.—

(1) IN GENERAL.—The Secretary is authorized to award grants, subject to the availability of appropriations, to an eligible law enforcement agency to provide assistance to such agency to address—

(A) criminal activity that occurs in the jurisdiction of such agency by virtue of such agency's proximity to the United States border; and

(B) the impact of any lack of security along the United States border.

(2) DURATION.—Grants may be awarded under this subsection during fiscal years 2007 through 2011.

(3) COMPETITIVE BASIS.—The Secretary shall award grants under this subsection on a competitive basis, except that the Secretary shall give priority to applications from any eligible law enforcement agency serving a community—

(B) located no more than 100 miles from a United States border with—

(i) Canada; or

(ii) Mexico.

(b) USE OF FUNDS.—Grants awarded pursuant to subsection (a) may only be used to provide additional resources for an eligible law enforcement agency to address criminal activity occurring along any such border, including—

(1) to obtain equipment;

(2) to hire additional personnel;

(3) to upgrade and maintain law enforcement technology;

(4) to cover operational costs, including overtime and transportation costs; and

(5) such other resources as are available to assist that agency.

##### (c) APPLICATION.—

(1) IN GENERAL.—Each eligible law enforcement agency seeking a grant under this section shall submit an application to the Secretary at such time, in such manner, and accompanied by such information as the Secretary may reasonably require.

(2) CONTENTS.—Each application submitted pursuant to paragraph (1) shall—

(A) describe the activities for which assistance under this section is sought; and

(B) provide such additional assurances as the Secretary determines to be essential to ensure compliance with the requirements of this section.

(d) DEFINITIONS.—For the purposes of this section:

(1) ELIGIBLE LAW ENFORCEMENT AGENCY.—The term “eligible law enforcement agency” means a tribal, State, or local law enforcement agency—

(A) located in a county no more than 100 miles from a United States border with—

(i) Canada; or

(ii) Mexico; or

(B) located in a county more than 100 miles from any such border, but where such county has been certified by the Secretary as a High Impact Area.

(2) HIGH IMPACT AREA.—The term “High Impact Area” means any county designated by the Secretary as such, taking into consideration—

(A) whether local law enforcement agencies in that county have the resources to protect the lives, property, safety, or welfare of the residents of that county;

(C) any other unique challenges that local law enforcement face due to a lack of security along the United States border.

(3) SECRETARY.—The term “Secretary” means the Secretary of the Department of Homeland Security.

##### (e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated \$50,000,000 for each of fiscal years 2007 through 2011 to carry out the provisions of this section.

(2) DIVISION OF AUTHORIZED FUNDS.—Of the amounts authorized under paragraph (1)—

(A)  $\frac{2}{3}$  shall be set aside for eligible law enforcement agencies located in the 6 States with the largest number of undocumented alien apprehensions; and

(B)  $\frac{1}{3}$  shall be set aside for areas designated as a High Impact Area under subsection (d).

(f) SUPPLEMENT NOT SUPPLANT.—Amounts appropriated for grants under this section shall be used to supplement and not supplant other State and local public funds obligated for the purposes provided under this title.

#### SEC. 04. ENFORCEMENT OF FEDERAL IMMIGRATION LAW.

Nothing in this title shall be construed to authorize State or local law enforcement agencies or their officers to exercise Federal immigration law enforcement authority.

Mr. BINGAMAN. Madam President, this is an amendment I am offering on behalf of myself and Senator DOMENICI, my colleague. It is to provide funds to local law enforcement agencies along our very substantial borders with Canada and Mexico to assist them with criminal activity, problems of enforcement of the laws, and dealing with criminal activity in those border communities. This is an amendment that sets up a \$50 million-a-year grant program. It is an amendment we have passed twice in the Senate, but it has not become law as yet.

It calls upon the Department of Homeland Security to establish a competitive grant program to assist local law enforcement located along the border or other local law enforcement agencies that are determined by the Homeland Security Department to be heavily impacted, high-impact areas elsewhere in the country.

The border with Canada is 5,525 miles long. Our border with Mexico is nearly 2,000 miles long. We have had serious problems on the New Mexico-Mexico border, as has the State of Arizona. In fact, last year the States of Arizona and New Mexico declared states of emergency in order to provide local law enforcement with immediate assistance in dealing with criminal activity along the border. The Federal Government needs to step up and do its part in helping these local law enforcement agencies. This amendment helps to do that.

I hope when the time comes for a vote on the amendment, my colleagues will agree to support it, and we can pass it with a unanimous vote.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. MENENDEZ. Madam President, the Improving America's Security Act is not only about unfinished business, it is not only about doing what others have failed to do, it is about living up to the responsibilities we have as a Congress and a government to protect our Nation and its people and to do everything possible to prevent what was once unthinkable from happening again.

As a Senator from New Jersey, I take that responsibility as a solemn promise to the 700 New Jerseyans who lost their lives on September 11 and their families who survived them.

More than 5 years ago, it became painfully clear that we, as a Nation that believed it was the most secure in the world, were unprotected. In the glimpse of a few minutes and over the course of a few short horrific hours, our Nation and the security we thought we had was changed forever. We entered into the stark reality of a post-September 11 world.

On that day, glaring gaps in our security were exploited, lax systems were taken advantage of, and a trusting nation paid the price. Thousands of innocent lives, everyday Americans whom this Nation has grieved every day

since, were lost. We can never go back to rectify past mistakes that could have prevented that day, but we can work to better secure our Nation moving forward.

We have a roadmap of how to get there. The 9/11 Commission laid out a plan, provided guidance, and delivered 41 specific and wide-ranging recommendations. Yet more than 2 years after the Commission issued those recommendations, many of them remain just that—recommendations that have not been acted on or fully implemented.

This legislation already comes before this body far later than it should. But the fact that it is on the floor of this Chamber just 2 short months into a new Congress speaks boldly of our new leadership and how important finishing the 9/11 Commission's work is to our leadership. I commend both Majority Leader REID and Chairman LIEBERMAN for making this a top priority for this Congress, as well as Chairman INOUE and Chairman DODD for their roles in crafting this legislation.

Many of us have been pushing for a long time to see all 41 recommendations fully implemented and to make significant improvements to our Nation's security that have been under the radar screen for far too long.

As a former Member of the House of Representatives, I fought to see that all 41 recommendations were fully implemented in the 2004 intelligence reform legislation. I was proud to serve as the lead Democratic negotiator in the House on the conference committee that created the final intelligence bill. While that legislation made essential and urgently needed reforms to our Nation's intelligence, unfortunately, it fell far short on implementing all of the recommendations.

I have also since introduced legislation that ensures that all of these recommendations will be fully implemented and to hold the executive branch accountable for implementing each recommendation. It is my hope that with the bill we are working on now before the Senate, and with the vigorous oversight under the leadership of Chairman LIEBERMAN and Ranking Member COLLINS, we will be able to see all these recommendations enacted and implemented.

It was just over a year ago the 9/11 Public Discourse Project, led by former members of the 9/11 Commission, published its disturbing report card, giving far more Fs than As on the implementation of those 41 recommendations.

There is no excuse left for Congress, the White House, or our Federal agencies for not finishing what is so direly needed: improving the security of our Nation. Yes, we have made some great steps forward. Yes, we have made some significant improvements that have likely saved lives and stopped terrorists in their tracks. But no one—no one—should use the lack of another catastrophic attack on our soil as proof that we have succeeded in fully meeting our goals.

The fact is, so long as we do not heed the advice of the 9/11 Commissioners who spent months examining how we could improve our Nation's security, so long as we do not make dramatic improvements to our security—at our Nation's ports, on our trains and buses, around our chemical plants, and in how we allocate homeland security funding—we continue to leave our Nation at risk.

I cannot imagine talking about the security of our Nation without the 41 recommendations of the 9/11 Commission. The Commission's findings and recommendations are integral to understanding our deepest flaws, the complexity of our intelligence and security networks, the obstacles that lie ahead and, most of all, what needs to be done.

Yet if some in our Government had had their way, there would have been no Commission, there would have been no digging into the secrecy and ineffectiveness of our Nation's security, no poring over thousands upon thousands of documents, no reviewing of every action Federal agencies took or did not take to prevent and respond to the attacks of September 11, no asking of some of the toughest questions our Nation has had to bear.

So once we pass this final legislation, have it signed into law and implemented, we will come to the day—I hope sooner rather than later—when our Nation's security funding is based more on risk, when our ports are fully secure because of 100 percent scanning, when we are making the necessary investments in mass transit security, and when our first responders have a strong emergency communications system that works in interoperable ways, so that those who are sworn to protect us can speak to each other effectively.

These are only a few of the dimensions in this fight. Unfortunately, this is a fight that would not have taken place without the commitment and strength of the families of the victims of September 11.

When the loved ones of those who were lost on September 11 have to become full-time advocates, spending every possible hour lobbying Congress, when they have to be the constant reminder for our Government to do its job, we know we have failed them. Many of them are here and have been here today watching this body, waiting to finally see this legislation become law, hoping that all their suffering, their work, and their tireless advocacy will not be in vain.

Let us not only fulfill their wishes but the wishes of all Americans to have a nation as secure as possible for their families and neighbors. Let's work to pass this legislation and make sure it is fully enacted. Let's finally accomplish what should have been finished several years ago.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. WHITEHOUSE). Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that there now be a period for the transaction of morning business, with Senators allowed to speak therein for 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### TRIBUTE TO MARION "GENE" SNYDER

Mr. BUNNING. Mr. President, on February 16, the Commonwealth of Kentucky lost a favorite son. Marian "Gene" Snyder was born on January 26, 1928 in Louisville, KY, to a working-class family. He would often say he was "a poor boy from the other side of the tracks in a cold-water flat." His upbringing during the Great Depression and the work ethic taught to him by his mother and father would serve Gene well in future years.

Gene worked his way through college and law school and earned a law degree from the University of Louisville at the ripe young age of 26. He was appointed to his first political post as Jeffersonton city attorney.

In 1962, Louisville Republican leaders saw they had a great young candidate and backed him for his first race for Congress. Gene won that race and represented the people of Kentucky's third congressional district for the next 2 years. Gene unfortunately lost reelection in 1964, but as he did all of his life, he bounced back and in 1966 he won the fourth congressional seat. He would serve and hold that seat with distinction for the next 20 years.

Gene was instrumental in bringing a number of important infrastructure projects back to Kentucky while serving on the Public Works Committee. One of his greatest achievements is a freeway that bears his name in Louisville, KY.

Gene Snyder worked hard to make sure Kentucky got its fair share from the Federal Government. But I think the most important thing he did was to validate conservatism in the Commonwealth of Kentucky. Back in the early 1960s, you couldn't count on one hand the number of Republicans in Kentucky. Gene Snyder was the first brick in the foundation of what the Republican Party is today in Kentucky.

Gene had something lacking in today's world of weekly polls and political consultants. Gene had conservative principles and never wavered from those principles. Gene Snyder actually stood for something. That is why I consider Gene Snyder one of my political mentors. I would not be standing here in the well of this great Senate if it were not for Gene Snyder.

My wife Mary and I extend our thoughts and prayers to Pat, Gene's beloved wife, and the entire Snyder family. Gene was a true patriot and a great American who loved the Commonwealth of Kentucky and the citizens he represented.

#### AMERICAN ASSOCIATION OF INTELLECTUAL & DEVELOPMENTAL DISABILITIES

Mr. DURBIN. Mr. President, I am pleased today to join the Illinois chapter of the American Association of Intellectual & Developmental Disabilities in recognizing the recipients of the 2007 Direct Service Professional Award. These individuals are being honored for their outstanding efforts to enrich the lives of people with developmental disabilities in Illinois.

These recipients have displayed a strong sense of humanity and professionalism in their work with persons with disabilities. Their efforts have inspired the lives of those for whom they care, and they are an inspiration to me as well. They have set a fine example of community service for all Americans to follow.

These honorees spend more than 50 percent of their time at work in direct, personal involvement with their clients. They are not primarily managers or supervisors. They are direct service workers at the forefront of America's effort to care for people with special needs. They do their work every day with little public recognition, providing valued care and assistance that is unknown except to those with whom they work.

It is my honor and privilege to recognize the Illinois recipients of AAIDD's 2007 Direct Service Professional Award: Rachel Bailey, Chuck Biggs, Bonnie Brunk, Dave Davis, Debra Jargstorf, Vanessa Kochevar, Carolyn Linnert, Nikki Miller, Donzetta Ragsdale, John Ramos, Tony Rogers, Ylanza Stockweather, Jill Tysko, and Yvonne Wright.

I know my fellow Senators will join me in congratulating the winners of the 2007 Direct Service Professional Award. I applaud their dedication and thank them for their service.

#### SUBCOMMITTEE ON OVERSIGHT OF GOVERNMENT MANAGEMENT, THE FEDERAL WORKFORCE, AND THE DISTRICT OF COLUMBIA RULES OF PROCEDURE

Mr. LIEBERMAN. Mr. President, Senate standing rules XXVI requires each committee to adopt rules to govern the procedure of the committee and to publish those rules in the CONGRESSIONAL RECORD not later than March 1 of the first year of each Congress. Mr. LIEBERMAN. Mr. President, Senate standing rule XXVI requires each committee to adopt rules to govern the procedure of the committee and to publish those rules in the CONGRESSIONAL RECORD not later than March 1 of the first year of each Congress. On February 16, 2007, a majority of the members of the Committee on Homeland Security and Governmental Affairs' Permanent Subcommittee on Investigations adopted subcommittee rules of procedure.

Consistent with standing rule XXVI, I ask unanimous consent to have printed in the CONGRESSIONAL RECORD a copy of the rules of the Permanent Subcommittee on Investigations.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### 110TH CONGRESS—RULES OF PROCEDURE FOR THE SENATE PERMANENT SUBCOMMITTEE ON INVESTIGATIONS OF THE COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS AS ADOPTED FEBRUARY 16, 2007

(1) No public hearing connected with an investigation may be held without the approval of either the Chairman and the Ranking Minority Member or the approval of a Majority of the Members of the Subcommittee. In all cases, notification to all Members of the intent to hold hearings must be given at least 7 days in advance to the date of the hearing. The Ranking Minority Member should be kept fully apprised of preliminary inquiries, investigations, and hearings. Preliminary inquiries may be initiated by the Subcommittee Majority staff upon the approval of the Chairman and notice of such approval to the Ranking Minority Member or the Minority counsel. Preliminary inquiries may be undertaken by the Minority staff upon the approval of the Ranking Minority Member and notice of such approval to the Chairman or Chief Counsel. Investigations may be undertaken upon the approval of the Chairman of the Subcommittee and the Ranking Minority Member with notice of such approval to all Members.

No public hearing shall be held if the Minority Members unanimously object, unless the full Committee on Homeland Security and Governmental Affairs by a majority vote approves of such public hearing.

Senate Rules will govern all closed sessions convened by the Subcommittee (Rule XXVI, Sec. 5(b), Standing Rules of the Senate).

(2) Subpoenas for witnesses, as well as documents and records, may be authorized and issued by the Chairman, or any other Member of the Subcommittee designated by him or her, with notice to the Ranking Minority Member. A written notice of intent to issue a subpoena shall be provided to the Chairman and Ranking Minority Member of the Committee, or staff officers designated by them, by the Subcommittee Chairman or a staff officer designated by him or her, immediately upon such authorization, and no subpoena shall be issued for at least 48 hours, excluding Saturdays and Sundays, from delivery to the appropriate offices, unless the Chairman and Ranking Minority Member waive the 48 hour waiting period or unless the Subcommittee Chairman certifies in writing to the Chairman and Ranking Minority Member that, in his or her opinion, it is necessary to issue a subpoena immediately.

(3) The Chairman shall have the authority to call meetings of the Subcommittee. This authority may be delegated by the Chairman to any other Member of the Subcommittee when necessary.

(4) If at least three Members of the Subcommittee desire the Chairman to call a special meeting, they may file in the office of the Subcommittee, a written request therefor, addressed to the Chairman. Immediately thereafter, the clerk of the Subcommittee shall notify the Chairman of such request. If, within 3 calendar days after the filing of such request, the Chairman fails to call the requested special meeting, which is to be held within 7 calendar days after the filing of such request, a majority of the Subcommittee Members may file in the office of the Subcommittee their written notice that a special Subcommittee meeting will be held, specifying the date and hour thereof, and the Subcommittee shall meet on that date and hour. Immediately upon the filing of such notice, the Subcommittee clerk shall notify all Subcommittee Members that such special meeting will be held and inform them of its date and hour. If the Chairman is not present at any regular, additional or special meeting, the Ranking Majority Member present shall preside.

(5) For public or executive sessions, one Member of the Subcommittee shall constitute a quorum for the administering of oaths and the taking of testimony in any given case or subject matter.

One-third of the Members of the Subcommittee shall constitute a quorum for the transaction of Subcommittee business other than the administering of oaths and the taking of testimony, provided that one member of the minority is present.

(6) All witnesses at public or executive hearings who testify to matters of fact shall be sworn.

(7) If, during public or executive sessions, a witness, his or her counsel, or any spectator conducts himself or herself in such a manner as to prevent, impede, disrupt, obstruct, or interfere with the orderly administration of such hearing, the Chairman or presiding Member of the Subcommittee present during such hearing may request the Sergeant at Arms of the Senate, his or her representative or any law enforcement official to eject said person from the hearing room.

(8) Counsel retained by any witness and accompanying such witness shall be permitted to be present during the testimony of such witness at any public or executive hearing, and to advise such witness while he or she is testifying, of his or her legal rights; provided, however, that in the case of any witness who is an officer or employee of the gov-

ernment, or of a corporation or association, the Subcommittee Chairman may rule that representation by counsel from the government, corporation, or association, or by counsel representing other witnesses, creates a conflict of interest, and that the witness may only be represented during interrogation by staff or during testimony before the Subcommittee by personal counsel not from the government, corporation, or association, or by personal counsel not representing other witnesses. This rule shall not be construed to excuse a witness from testifying in the event his or her counsel is ejected for conducting himself or herself in such a manner so as to prevent, impede, disrupt, obstruct, or interfere with the orderly administration of the hearings; nor shall this rule be construed as authorizing counsel to coach the witness or answer for the witness. The failure of any witness to secure counsel shall not excuse such witness from complying with a subpoena or deposition notice.

#### (9) DEPOSITIONS.—

(9.1) NOTICE.—Notices for the taking of depositions in an investigation authorized by the Subcommittee shall be authorized and issued by the Chairman. The Chairman of the full Committee and the Ranking Minority Member of the Subcommittee shall be kept fully apprised of the authorization for the taking of depositions. Such notices shall specify a time and place of examination, and the name of the Subcommittee Member or Members or staff officer or officers who will take the deposition. The deposition shall be in private. The Subcommittee shall not initiate procedures leading to criminal or civil enforcement proceedings for a witness's failure to appear unless the deposition notice was accompanied by a Subcommittee subpoena.

(9.2) COUNSEL.—Witnesses may be accompanied at a deposition by counsel to advise them of their legal rights, subject to the provisions of Rule 8.

(9.3) PROCEDURE.—Witnesses shall be examined upon oath administered by an individual authorized by local law to administer oaths. Questions shall be propounded orally by Subcommittee Members or staff. Objections by the witness as to the form of questions shall be noted for the record. If a witness objects to a question and refuses to testify on the basis of relevance or privilege, the Subcommittee Members or staff may proceed with the deposition, or may, at that time or at a subsequent time, seek a ruling by telephone or otherwise on the objection from the Chairman or such Subcommittee Member as designated by him or her. If the Chairman or designated Member overrules the objection, he or she may refer the matter to the Subcommittee or he or she may order and direct the witness to answer the question, but the Subcommittee shall not initiate procedures leading to civil or criminal enforcement unless the witness refuses to testify after he or she has been ordered and directed to answer by a Member of the Subcommittee.

(9.4) FILING.—The Subcommittee staff shall see that the testimony is transcribed or electronically recorded. If it is transcribed, the witness shall be furnished with a copy for review pursuant to the provisions of Rule 12. The individual administering the oath shall certify on the transcript that the witness was duly sworn in his or her presence, the transcriber shall certify that the transcript is a true record of the testimony, and the transcript shall then be filed with the Subcommittee clerk. Subcommittee staff may stipulate with the witness to changes in this procedure; deviations from this procedure which do not substantially impair the reliability of the record shall not relieve the witness from his or her obligation to testify truthfully.

(10) Any witness desiring to read a prepared or written statement in executive or public hearings shall file a copy of such statement with the Chief Counsel or Chairman of the Subcommittee 48 hours in advance of the hearings at which the statement is to be presented unless the Chairman and the Ranking Minority Member waive this requirement. The Subcommittee shall determine whether such statement may be read or placed in the record of the hearing.

(11) A witness may request, on grounds of distraction, harassment, personal safety, or physical discomfort, that during the testimony, television, motion picture, and other cameras and lights, shall not be directed at him or her. Such requests shall be ruled on by the Subcommittee Members present at the hearing.

(12) An accurate stenographic record shall be kept of the testimony of all witnesses in executive and public hearings. The record of his or her own testimony, whether in public or executive session, shall be made available for inspection by witness or his or her counsel under Subcommittee supervision; a copy of any testimony given in public session or that part of the testimony given by the witness in executive session and subsequently quoted or made part of the record in a public session shall be made available to any witness at his or her expense if he or she so requests.

(13) Interrogation of witnesses at Subcommittee hearings shall be conducted on behalf of the Subcommittee by Members and authorized Subcommittee staff personnel only.

(14) Any person who is the subject of an investigation in public hearings may submit to the Chairman of the Subcommittee questions in writing for the cross-examination of other witnesses called by the Subcommittee. With the consent of a majority of the Members of the Subcommittee present and voting, these questions, or paraphrased versions of them, shall be put to the witness by the Chairman, by a Member of the Subcommittee, or by counsel of the Subcommittee.

(15) Any person whose name is mentioned or who is specifically identified, and who believes that testimony or other evidence presented at a public hearing, or comment made by a Subcommittee Member or counsel, tends to defame him or her or otherwise adversely affect his or her reputation, may (a) request to appear personally before the Subcommittee to testify in his or her own behalf, or, in the alternative, (b) file a sworn statement of facts relevant to the testimony or other evidence or comment complained of. Such request and such statement shall be submitted to the Subcommittee for its consideration and action.

If a person requests to appear personally before the Subcommittee pursuant to alternative (a) referred to herein, said request shall be considered untimely if it is not received by the Chairman of the Subcommittee or its counsel in writing on or before thirty (30) days subsequent to the day on which said person's name was mentioned or otherwise specifically identified during a public hearing held before the Subcommittee, unless the Chairman and the Ranking Minority Member waive this requirement.

If a person requests the filing of his or her sworn statement pursuant to alternative (b) referred to herein, the Subcommittee may condition the filing of said sworn statement upon said person agreeing to appear personally before the Subcommittee and to testify concerning the matters contained in his or her sworn statement, as well as any other matters related to the subject of the investigation before the Subcommittee.

(16) All testimony taken in executive session shall be kept secret and will not be re-

leased for public information without the approval of a majority of the Subcommittee.

(17) No Subcommittee report shall be released to the public unless approved by a majority of the Subcommittee and after no less than 10 days' notice and opportunity for comment by the Members of the Subcommittee unless the need for such notice and opportunity to comment has been waived in writing by a majority of the Minority Members.

(18) The Ranking Minority Member may select for appointment to the Subcommittee staff a Chief Counsel for the Minority and such other professional staff members and clerical assistants as he or she deems advisable. The total compensation allocated to such Minority staff members shall be not less than one-third the total amount allocated for all Subcommittee staff salaries during any given year. The Minority staff members shall work under the direction and supervision of the Ranking Minority Member. The Chief Counsel for the Minority shall be kept fully informed as to preliminary inquiries, investigations, and hearings, and shall have access to all material in the files of the Subcommittee.

(19) When it is determined by the Chairman and Ranking Minority Member, or by a majority of the Subcommittee, that there is reasonable cause to believe that a violation of law may have occurred, the Chairman and Ranking Minority Member by letter, or the Subcommittee by resolution, are authorized to report such violation to the proper State, local and/or Federal authorities. Such letter or report may recite the basis for the determination of reasonable cause. This rule is not authority for release of documents or testimony.

#### LOCAL LAW ENFORCEMENT ENHANCEMENT ACT OF 2005

Mr. SMITH. Mr. President, I rise today to speak about the need for hate crimes legislation. Each Congress, Senator KENNEDY and I introduce hate crimes legislation that would add new categories to current hate crimes law, sending a signal that violence of any kind is unacceptable in our society. Likewise, each Congress I have come to the floor to highlight a separate hate crime that has occurred in our country.

On February 21, 2007, in Boulder, CO, a Naropa University lesbian student was attacked by two men. These two men made sexual advances towards the student. When she informed them that she was a lesbian, they attacked her. She was kicked and punched several times and had to be treated for serious body injuries at a nearby hospital. The police are investigating this as a possible hate crime.

I believe that the Government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act is a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

#### TRIBUTE TO HENRY WADSWORTH LONGFELLOW

Mr. KENNEDY. Mr. President, yesterday, February 27 marked the 200th

anniversary of the birth of one of America's greatest and best loved poets, Henry Wadsworth Longfellow. His magnificent poems portray the unique character of the Nation and its history and are an essential part of our cultural legacy.

He is especially beloved in Massachusetts. He was a member of the Harvard faculty for many years, and the beautiful Longfellow House and the Longfellow National Historic site are among the most popular sites in our State for residents and tourists alike.

He was famed throughout the world for his extraordinary narrative poems, and in his later years he was known as "the grand old man of American letters." One of his classic poems in the genre was "The Building of the Ship," which drew on his love of the sea and knowledge of ship building from his early years in Portland, ME. Two lines near the end are some of his most famous "Thou, too, sail on, O Ship of State! Sail on, O Union, strong and great!" which President Abraham Lincoln found immensely inspiring.

Another of his most famous narrative poems is "Paul Revere's Ride," which has always been a special favorite of mine. It tells the remarkable story of that early American patriot and his dramatic ride from Boston to Lexington and Concord at the beginning of the Revolutionary War. It is one of the most well-known poems in America, which students have memorized for generations.

On this bicentennial anniversary of his birth, I would like to share that poem with my colleagues. I ask unanimous consent that it be printed in the RECORD.

#### PAUL REVERE'S RIDE

Listen my children and you shall hear  
Of the midnight ride of Paul Revere,  
On the eighteenth of April, in Seventy-five;  
Hardly a man is now alive  
Who remembers that famous day and year.  
He said to his friend, "If the British march  
By land or sea from the town to-night,  
Hang a lantern aloft in the belfry arch  
Of the North Church tower as a signal light,—  
One if by land, and two if by sea;  
And I on the opposite shore will be,  
Ready to ride and spread the alarm  
Through every Middlesex village and farm,  
For the country folk to be up and to arm."  
Then he said "Good-night!" and with muffled oar  
Silently rowed to the Charlestown shore,  
Just as the moon rose over the bay,  
Where swinging wide at her moorings lay  
The Somerset, British man-of-war;  
A phantom ship, with each mast and spar  
Across the moon like a prison bar,  
And a huge black hulk, that was magnified  
By its own reflection in the tide.  
Meanwhile, his friend through alley and street  
Wanders and watches, with eager ears,  
Till in the silence around him he hears  
The muster of men at the barrack door,  
The sound of arms, and the tramp of feet,  
And the measured tread of the grenadiers,  
Marching down to their boats on the shore.  
Then he climbed the tower of the Old North Church,  
By the wooden stairs, with stealthy tread,

To the belfry chamber overhead,  
And startled the pigeons from their perch  
On the sombre rafters, that round him made  
Masses and moving shapes of shade,—  
By the trembling ladder, steep and tall,  
To the highest window in the wall,  
Where he paused to listen and look down  
A moment on the roofs of the town  
And the moonlight flowing over all.

Beneath, in the churchyard, lay the dead,  
In their night encampment on the hill,  
Wrapped in silence so deep and still  
That he could hear, like a sentinel's tread,  
The watchful night-wind, as it went  
Creeping along from tent to tent,  
And seeming to whisper, "All is well!"  
A moment only he feels the spell  
Of the place and the hour, and the secret  
dread

Of the lonely belfry and the dead;  
For suddenly all his thoughts are bent  
On a shadowy something far away,  
Where the river widens to meet the bay,—  
A line of black that bends and floats  
On the rising tide like a bridge of boats.

Meanwhile, impatient to mount and ride,  
Booted and spurred, with a heavy stride  
On the opposite shore walked Paul Revere.  
Now he patted his horse's side,  
Now he gazed at the landscape far and near,  
Then, impetuous, stamped the earth,  
And turned and tightened his saddle girth;  
But mostly he watched with eager search  
The belfry tower of the Old North Church,  
As it rose above the graves on the hill,  
Lonely and spectral and sombre and still.  
And lo! as he looks, on the belfry's height  
A glimmer, and then a gleam of light!  
He springs to the saddle, the bridle he turns,  
But lingers and gazes, till full on his sight  
A second lamp in the belfry burns.

A hurry of hoofs in a village street,  
A shape in the moonlight, a bulk in the dark,  
And beneath, from the pebbles, in passing, a  
spark

Struck out by a steed flying fearless and  
fleet;

That was all! And yet, through the gloom  
and the light,

The fate of a nation was riding that night;  
And the spark struck out by that steed, in  
his flight,

Kindled the land into flame with its heat.  
He has left the village and mounted the  
steep,  
And beneath him, tranquil and broad and  
deep,

Is the Mystic, meeting the ocean tides;  
And under the alders that skirt its edge,  
Now soft on the sand, now loud on the ledge,  
Is heard the tramp of his steed as he rides.

It was twelve by the village clock  
When he crossed the bridge into Medford  
town.

He heard the crowing of the cock,  
And the barking of the farmer's dog,  
And felt the damp of the river fog,  
That rises after the sun goes down.

It was one by the village clock,  
When he galloped into Lexington.  
He saw the gilded weathercock  
Swim in the moonlight as he passed,  
And the meeting-house windows, black and  
bare,

Gaze at him with a spectral glare,  
As if they already stood aghast  
At the bloody work they would look upon.

It was two by the village clock,  
When he came to the bridge in Concord town.  
He heard the bleating of the flock,  
And the twitter of birds among the trees,  
And felt the breath of the morning breeze  
Blowing over the meadow brown.  
And one was safe and asleep in his bed  
Who at the bridge would be first to fall,  
Who that day would be lying dead,

Pierced by a British musket ball.

You know the rest. In the books you have  
read

How the British Regulars fired and fled,—  
How the farmers gave them ball for ball,  
From behind each fence and farmyard wall,  
Chasing the redcoats down the lane,  
Then crossing the fields to emerge again  
Under the trees at the turn of the road,  
And only pausing to fire and load.

So through the night rode Paul Revere;  
And so through the night went his cry of  
alarm

To every Middlesex village and farm,—  
A cry of defiance, and not of fear,  
A voice in the darkness, a knock at the door,  
And a word that shall echo for evermore!  
For, borne on the night-wind of the Past,  
Through all our history, to the last,  
In the hour of darkness and peril and need,  
The people will waken and listen to hear  
The hurrying hoof-beats of that steed,  
And the midnight message of Paul Revere.

—Henry Wadsworth Longfellow.

#### ADDITIONAL STATEMENTS

##### WE THE PEOPLE NATIONAL FINALISTS

• Mrs. LINCOLN. Mr. President, from April 28 to 30, 2007, more than 1,200 students from across the country will visit Washington, DC, to take part in the national finals of We the People: The Citizen and the Constitution, the most extensive educational program in the country developed to educate young people about the U.S. Constitution and Bill of Rights. Administered by the Center for Civic Education, the We the People Program is funded by the U.S. Department of Education by act of Congress.

I am proud to announce that the State of Arkansas will be represented by a class from Pottsville High School at this prestigious national event. These outstanding students, through their knowledge of the U.S. Constitution, won their statewide competition and earned the chance to come to our Nation's Capital and compete at the national level.

While in Washington, the students will participate in a 3-day academic competition that simulates a congressional hearing in which they "testify" before a panel of judges. Students demonstrate their knowledge and understanding of constitutional principles as they evaluate, take, and defend positions on relevant historical and contemporary issues. It is important to note that results of independent studies of this nationally acclaimed program reveal that We the People students have knowledge gains that are superior to students who have not participated in the program. Students also display a greater political tolerance and commitment to the principles and values of the Constitution and Bill of Rights than do students using traditional textbooks and approaches. With many reports and surveys indicating a lack of civic knowledge and civic participation, I am pleased to support such a superb program that is pro-

ducing an enlightened and engaged citizenry.

The names of these outstanding students from Pottsville High School are Jimmy Freeman, Amber Fuentes, Dustin Harrell, Zach Murdoch, Brent Pless, James Schell, Hannah Walker, Hannah Williamson, and Tyler Winchell.

I also wish to commend the teacher of the class, James Wagner, who is responsible for preparing these young constitutional experts for the national finals. Also worthy of special recognition is Jeff Wittingham, the State coordinator, and Marilyn Friga, the district coordinator, who are among those responsible for implementing the We the People Program in my State.

I wish these students much success as they prepare to compete at the We the People national finals and applaud their exceptional achievement.●

#### COMMENDING DICK MUNSON

• Mr. REED. Mr. President, on behalf of the 29 members of the Northeast-Midwest Senate Coalition, I commend Richard Munson for his distinguished service as the director of the Northeast-Midwest Institute. For more than two decades through four Presidential administrations, 10 Congresses, and dramatic changes in our Nation's political landscape—Mr. Munson's leadership has kept the institute at the forefront of policy innovations to benefit our region.

Formed in the mid-1970s, the institute works with the bipartisan Northeast-Midwest Senate and Congressional Coalitions to develop and implement policies that promote the economic vitality and environmental quality of the region's 18 States. As the institute's lead strategist, Mr. Munson has collaborated with the coalitions' leaders and task forces to identify the region's pressing concerns, deliver high quality research about policies to address them, and provide information that made a compelling case for legislation.

Mr. Munson brought to the institute an unparalleled grasp of the internal workings of Congress. In 1993, he authored the Cardinals of Capitol Hill, a story about the men and women who control government spending which former House Budget Committee Chairman James Jones said "should be required reading for those who want to understand our government." Mr. Munson also provided expertise in energy efficiency and utility regulation, demonstrated in his book, "The Power Makers," and more recently, "From Edison to Enron: The Business of Power and What It Means for the Future of Electricity."

To complement his own skills and knowledge, Mr. Munson enlisted a staff of seasoned policy entrepreneurs, affording them the flexibility and latitude to launch groundbreaking initiatives from Great Lakes restoration to brownfields revitalization to community-based agriculture. Much of the institute's success has been rooted in Mr.

Munson's conviction that economic progress and environmental enhancement are inextricably linked.

His extensive legacy includes the institute's work to help craft the Nation's first pollution prevention law instituting the paradigm shift to acknowledge that waste generation not only pollutes the environment but also exacts economic costs. In 1991 the Institute held the first national conference on salvaging the Nation's abandoned and underused brownfield sites. The conference spurred a decade of research and education that paved the way for passage of the Brownfield Revitalization and Environmental Restoration Act in 2002.

Under Mr. Munson's leadership, the institute also concentrated relentlessly on Great Lakes restoration, leading to passage of the Great Lakes Legacy Act. He was instrumental in launching the Great Lakes Cities Initiative, enabling the region's mayors to share best practices and obtain a seat at the policy-making table. And in direct response to the critical threat of invasive species to the Great Lakes, the Institute created the Great Ships Initiative to engage ports, shipping companies, and shippers in combating the problem.

With the 2002 farm bill, the institute began collaborating with states and policy partners to promote entrepreneurial agriculture, private lands conservation, and community-based approaches to reducing hunger and improving public health. The institute continues advancing these principles by facilitating the Farm and Food Policy Project, a collaborative effort working toward a more sustainable food and agricultural system for the United States.

In addition to advancing policy initiatives, Mr. Munson has helped the coalitions resist pressure from other regions to cut funding for programs that are most important to the Northeast and Midwest—and oversaw the institute's hallmark reports that reveal the flow of Federal funds to States. His leadership in the perennial fight for the Low-Income Home Energy Assistance Program, LIHEAP, helped the coalitions sustain funding for the program and add an extra \$1 billion for LIHEAP in 2006. Working with the coalitions and Senate and House manufacturing task forces, the institute helped rescue the Manufacturing Extension Partnership from elimination preserving a program that boosts manufacturing capacity throughout our region.

Mr. Munson came to the institute from the Center for Renewable Resources and Solar Lobby, where he served as executive director from 1979 to 1983. With his departure from the institute, I wish him luck on his new endeavor as a cofounder of a new company—Recycled Energy Development—that seeks to bring to fruition many of the ideas that have been his passion for 30 years.●

#### REPORT ON THE CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO CERTAIN ACTIONS AND POLICIES INTENDED TO UNDERMINE ZIMBABWE'S DEMOCRATIC PROCESSES OR INSTITUTIONS—PM 8

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

*To the Congress of the United States:*

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice to the *Federal Register* for publication, stating that the national emergency with respect to the actions and policies of certain members of the Government of Zimbabwe and other persons to undermine Zimbabwe's democratic processes or institutions is to continue in effect beyond March 6, 2007.

The crisis constituted by the actions and policies of certain members of the Government of Zimbabwe and other persons to undermine Zimbabwe's democratic processes or institutions has not been resolved. These actions and policies pose a continuing unusual and extraordinary threat to the foreign policy of the United States. For these reasons, I have determined that it is necessary to continue this national emergency and to maintain in force the sanctions to respond to this threat.

GEORGE W. BUSH.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ALLARD:

S. 699. A bill to prevent the fraudulent use of social security account numbers by allowing the sharing of social security data among agencies of the United States for identity theft prevention and immigration enforcement purposes, and for other purposes; to the Committee on the Judiciary.

Mr. ALLARD. Mr. President, I will be introducing a piece of legislation today which is a bill to cut at the heart of a rampant problem in this country; that is, identity theft.

Last month, a bipartisan group of Senators and I met with Secretary Chertoff on this very issue. Secretary Chertoff explained that under current law, Government agencies are prevented from sharing information with one another that, if shared, could expose cases of identity theft. My bill tears down the wall that prevents the sharing of existing information among Government agencies. It permits the Commissioner of Social Security to secure information with the Secretary of Homeland Security where such information is likely to assist in discovering identity theft, Social Security number misuse, or violations of immigration law.

Specifically, it requires the Commissioner to inform the Secretary of Homeland Security upon discovery of a Social Security account number being used with multiple names or where an individual has more than one person reporting earnings for him or her during a single tax year. It seems logical that we would already be doing this, but we are not. In the meantime, identity theft is plaguing innocent victims all across the country. We were reminded of the pervasiveness of this

problem by the recent ICE raids of six Swift and Company meat-packing plants across the country last December. In total, agents apprehended 1,282 illegal alien workers on administrative immigration violations. Of these, 65 have also been charged with criminal violations related to identity theft or other violations.

Unfortunately, for the victims of identity theft, by the time the identity theft is discovered, the damage has already been done. Ranked fifth in the Nation for identity theft, citizens of Colorado are no strangers to identity theft. For instance, an 84-year-old Grand Junction woman was deemed ineligible for Federal housing assistance because her Social Security number was being used at a variety of jobs in Denver, making her income too high to qualify. A 10-year-old child in Douglas County had his identity stolen, and his Social Security number was being used at 17 different jobs. Others get stuck with big tax bills for wages they never earned.

Clearly, identity theft is an issue that affects people of all ages and walks of life. Yet when the Social Security Administration has reason to believe that a Social Security number is being used fraudulently, they are prevented from sharing it with the Department of Homeland Security. Withholding this information effectively enables thieves to continue to perpetrate the crime of identity theft against innocent victims. By simply sharing this information, cases of identity theft could be discovered much sooner. Victims of identity theft deserve to have this existing information acted on, and my bill allows for this to happen. I urge colleagues to support this commonsense legislation.

Later on, when we are on S. 4, called Improving America's Security Act, which deals with implementation of more of the 9/11 Commission recommendations, I plan on offering an amendment that has similar language to this bill. This is an issue which is extremely important to victims. It is something we should address. I will give the Senate plenty of opportunity to deal with this issue.

By Mr. CRAPO (for himself, Mrs. LINCOLN, Mr. BAUCUS, Mr. GRASSLEY, Mr. ALLARD, Mr. SALAZAR, Mr. SMITH, Mr. REID, Mr. LIEBERMAN, Mr. BENNETT, Mr. ENZI, Mr. PRYOR, Mr. CRAIG, Mr. NELSON of Nebraska, Ms. COLLINS, Mr. COCHRAN, and Mr. BROWNBACK):

S. 700. A bill to amend the Internal Revenue Code to provide a tax credit to individuals who enter into agreements to protect the habitats of endangered and threatened species, and for other purposes; to the Committee on Finance.

Mr. CRAPO. Mr. President, I rise today with my colleagues, 16 bipartisan

cosponsors, to introduce the S. 700. Approximately 1 year ago, Senator LINCOLN and I introduced the Collaboration for the Recovery of the Endangered Species Act, or CRESA, an earlier bill to amend the Endangered Species Act or ESA. S. 700 is an updated version of the Endangered Species Recovery Act or ESRA, which we introduced on December 6, 2006. Like ESRA, S. 700 does not amend the current ESA, but builds on ideas set forth in the original CRESA. It creates policies that finance the recovery of endangered species by private landowners. S. 700 makes it simpler for landowners to get involved in conservation and reduces the conflict that often emanates from the ESA. It will be an important codification of much-needed incentives to help recover endangered species. And, since the introduction of CRESA 1 year ago, I'm proud to count over 100 different species and landowner organizations and advocates that have partnered with us in support of this important tax legislation.

Over 80 percent of endangered species live on private property. Under the current law, however, there are too few incentives and too many obstacles for private landowners to participate in conservation agreements to help recover species. S. 700, like the voluntary farm bill conservation programs that inspired its creation, will make it more attractive for private landowners to contribute to the recovery of species under the ESA.

This bill resulted from effective and inclusive collaboration among key stakeholders most affected by the implementation of the ESA. Landowner interests include farmers, ranchers, and those from the natural resource-using communities. For example, some current supporters of S. 700 who contributed invaluable advice are the American Farm Bureau and the Society of American Foresters. This could not rightly be called a collaborative project without the vital and necessary input received from the Defenders of Wildlife, Environmental Defense and the National Wildlife Federation—key environmental groups that made significant contributions. They understand that landowner must be treated as allies to ensure success in the long-run for the conservation of habitat and species. Finally, while the genesis of this bill has many roots, a passionate catalyst was James Cummins of Mississippi Fish and Wildlife Foundation, whose great concern for the outdoors provided inspiration to move these ideas forward.

These experts worked together to craft S. 700, which provides new tax incentives for private landowners who voluntarily contribute to the recovery of endangered species. The tax credits will reimburse landowners for property rights affected by agreements that include conservation easements and costs incurred by species management plans.

For landowners who limit their property rights through conservation ease-

ments, there will be 100 percent compensation of all costs. That percentage declines to 75 percent for 30-year easements and 50 percent for cost-share agreements.

It is worth noting that this is the same formula that works successfully for farm bill programs such as the Wetlands Reserve Program. Private property owners are appropriately rewarded for crucial ecological services that they provide on their property. The public benefits from these services, which ensure biodiversity. While the primary returns from this investment are protection and recovery of endangered species, the public will also undoubtedly gain additional benefits such as aesthetically pleasing open space, a reduction in the number of invasive species and enhanced water quality.

The legislation provides a list of options that give landowners a choice—a crucial element for the success of this proposal. For some landowners, a conservation easement will be the most attractive option. Easements are flexible tools that can be tailored to each landowner and species' interests. An easement restricts certain activities, but it still works well with traditional rural activities such as ranching and farming. For agreements without easements, there is flexibility to do what is necessary for the concerned species without the need to sacrifice property rights into perpetuity.

The tax credits provide essential funding that is necessary to respect private property rights. Wildlife should be an asset rather than a liability, which is how it has sometimes been viewed under the ESA. With wildlife becoming valuable to a landowner, those who may have been reluctant to participate in recovery efforts in the past will be more likely to contribute with these new incentives. When people want to take part in the process and do not fear it, the likelihood of conflict and litigation is reduced. For years, this type of conflict has proven costly not only financially to individuals and the government, but also in terms of relationships between people who share the land and natural resources. With a new trust and new model for finding conservation solutions, we can improve and expand our conservation work.

Provisions have been made to accommodate landowners whose taxes may be less than the tax credit provides. Partnerships in the agreements will allow any party to an agreement to receive a credit as long as they pay or incur costs as a result of the agreement. This language will allow creative collaboration among governments, landowners, taxpayers and environmentalists, further increasing the number of people involved in finding new solutions for conservation.

Furthermore, this bill also expands tax deductions for any landowner who takes part in the recovery plans approved under the ESA, and allows landowners to exclude from taxable income certain Federal payments under con-

servation cost-share programs. This will allow both individuals and businesses to deduct the cost of recovery work without bureaucratic obstacles.

This bill not only sets forth the financing for private landowners, but it also makes it easier to implement the agreements. Landowners will receive technical assistance to implement the agreements. Also, to remove some legal disincentives to recover species, liability protection may be provided to protect the landowners from penalties under the ESA. This removes the fear of trying to help endangered species. Currently, more species usually just means more liability for a landowner.

As a result of these incentives, I expect to see a phenomenal increase in the number of success stories. These stories will sound familiar to those creative collaborators working on the ground now where we have learned that the types of tools provided in this bill can work if offered consistently.

The Endangered Species Recovery Act is very exciting to those of us who value protecting our natural resources. It provides collaborative, creative ways to balance conservation with economic uses of our natural resources. It also preserves rural ways of life. I look forward to working with my colleagues in the Senate and House to move ahead with this legislation which will provide a new model for conservation to do better work. I look forward to working with my colleagues in the Senate and House to move ahead with this legislation.

I am deeply grateful to my colleagues from Arkansas, Iowa and Montana for their essential expertise and support to create S. 700. I ask unanimous consent that the text of the bill be printed in the RECORD.

By Mr. KOHL (for himself, Mr. KENNEDY, and Mr. DURBIN):

S. 702. A bill to authorize the Attorney General to award grants to State courts to develop and implement State courts interpreter programs; to the Committee on the Judiciary.

Mr. KOHL. Mr. President, I rise today, with Senator KENNEDY and Senator DURBIN, to introduce the State Court Interpreter Grant Program Act of 2007. This legislation would create a modest grant program to provide much needed financial assistance to States for developing and implementing effective State court interpreter programs, helping to ensure fair trials for individuals with limited English proficiency.

States are already legally required, under Title VI of the Civil Rights Act of 1964, to take reasonable steps to provide meaningful access to court proceedings for individuals with limited English proficiency. Unfortunately, however, court interpreting services vary greatly by State. Some States have highly developed programs. Others are trying to get programs up and running, but lack adequate funds. Still others have no certification program at all. It is critical that we protect the

constitutional right to a fair trial by adequately funding State court interpreter programs.

Our States are finding themselves in an impossible position. Qualified interpreters are in short supply because it is difficult to find individuals who are both bilingual and well-versed in legal terminology. The skills required of a court interpreter differ significantly from those required of other interpreters or translators. Legal English is a highly particularized area of the language, and requires special training. Although anyone with fluency in a foreign language could attempt to translate a court proceeding, the best interpreters are those that have been tested and certified as official court interpreters.

Making the problem worse, States continue to fall further behind as the number of Americans with limited English proficiency—and therefore the demand for court interpreter services—continues to grow. According to the most recent Census data, 19 percent of the population over age five speaks a language other than English at home. In 2000, the number of people in this country who spoke English less than “very well” was more than 21 million, approaching twice what the number was ten years earlier. Illinois had more than 1 million. Texas had nearly 2.7 million. California had more than 6.2 million.

The shortage of qualified interpreters has become a national problem, and it has serious consequences. In Pennsylvania, a committee established by the Supreme Court called the State’s interpreter program “backward,” and said that the lack of qualified interpreters “undermines the ability of the . . . court system to determine facts accurately and to dispense justice fairly.” When interpreters are unqualified, or untrained, mistakes are made. The result is that the fundamental right to due process is too often lost in translation, and because the lawyers and judges are not interpreters, these mistakes often go unnoticed.

Some of the stories associated with this problem are simply unbelievable. In Pennsylvania, for instance, a husband accused of abusing his wife was asked to translate as his wife testified in court. In recent testimony before the Judiciary Committee, Justice Kennedy described a particularly alarming situation where bilingual jurors can understand what the witness is saying and then interrupt the proceeding when an interpreter has not accurately represented the witness’s testimony. Justice Kennedy agrees that the lack of qualified court interpreters poses a significant threat to our judicial system and emphasized the importance of addressing the issue.

This legislation does just that by authorizing \$15 million per year, over five years, for a State Court Interpreter Grant Program. Those States that apply would be eligible for a \$100,000 base grant allotment. In addition, \$5

million would be set aside for states that demonstrate extraordinary need. The remainder of the money would be distributed on a formula basis, determined by the percentage of persons in that State over the age of five who speak a language other than English at home.

Some will undoubtedly question whether this modest amount can make a difference. It can, and my home State of Wisconsin is a perfect example of that. When Wisconsin’s program got off the ground in 2004, using State money and a \$250,000 Federal grant, certified interpreters were scarce. Now, just two years later, it has 43 certified interpreters. Most of those are Spanish, where the greatest need exists. However, the State also has interpreters certified in sign language and Russian. The list of provisional interpreters—those who have received training and passed written tests—is much longer and includes individuals trained in Arabic, Hmong, Korean, and other languages. All of this progress in only two years, and with only \$250,000 of federal assistance.

This legislation has the strong support of state court administrators and state supreme court justices around the country.

Our States are facing this difficult challenge, and Federal law requires them to meet it. Despite their noble efforts, many of them have been unable to keep up with the demand. It is time we lend them a helping hand. This is an access issue, and no one should be denied justice or access to our courts merely because of a language barrier, so I strongly urge my colleagues to support this critical legislation.

I ask unanimous consent that the text of the legislation be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

By Mr. KOHL (for himself and Mr. KENNEDY):

S. 703. A bill to expand the definition of immediate relative for purposes of the Immigration and Nationality Act; to the Committee on the Judiciary.

Mr. KOHL. Mr. President, I rise today with Senator KENNEDY to introduce the Family Reunification Act, a measure designed to remedy a regrettable injustice in our immigration laws. A minor oversight in the law has led to an unfortunate, and likely unintended, consequence. Parents of U.S. citizens are currently able to enter the country as legal permanent residents, but our laws do not permit their minor children to join them. Simply put, the Family Reunification Act will close this loophole by including the minor siblings of U.S. citizens in the legal definition of “immediate relative.” This legislation will ensure that our immigration laws can better accomplish one of the most important policy goals behind them—the goal of strengthening the family unit.

Congress took an important first step in promoting family reunification when it enacted the Immigration and Nationality Act. By qualifying as “immediate relatives,” this law currently offers parents, spouses and children of U.S. citizens the ability to obtain an immigrant visas to enter the country.

We can all agree that this is good immigration policy. Unfortunately, an oversight in this law has undermined the effectiveness of the important principle of family reunification. Each year, a number of families—in Wisconsin and across the country—are finding that they cannot take advantage of this family reunification provision.

Today, U.S. citizens often petition for their parents to be admitted to the United States as “immediate relatives.” As I have said, that is clearly allowed under current law. It is not always quite that simple, though. In a small number of cases, a problem arises when these U.S. citizens have minor siblings. Since they do not qualify as an “immediate relative,” the minor siblings are denied admission. So, a young man or woman can bring his parents into the country, but not his or her five year old brother or sister. Because the parents are unable to leave a young child behind, the child is not the only family member who does not come to the United States. The parents—forced to choose between their children—are effectively prevented from coming to this country as well. The result, then, is that we are unnecessarily keeping families apart by excluding minor siblings from the definition of immediate relative.

For example, one family in my home State of Wisconsin is truly a textbook example of what is wrong with this law. Effiong and Ekom Okon, both U.S. citizens by birth, requested that their parents, who were living in Nigeria, be admitted to as “immediate relatives.” The law clearly allows for this. Their father, Leo, had already joined them in Wisconsin, and their mother, Grace, was in possession of a visa, ready to join the rest of her family. However, Grace was unable to join her husband and sons in the United States because their six-year-old daughter, Daramfon, did not qualify as an “immediate relative.” Because it would be unthinkable for her to abandon her small child, Grace was forced to stay behind in Nigeria, separated from the rest of her family. That is not what this law was intended to accomplish.

It is difficult to determine the full extent of this problem. Because minor siblings do not qualify for visas, the Department of Homeland Security (DHS) does not keep track of how many families have been adversely affected. What we do know, however, is that the cases in my home State are not unique. Though the number is admittedly not large, DHS has notified us that they run into this problem regularly, with the number reaching into the hundreds each year. So, this change will not lead to an influx of many immigrants, but it will reunite a number of families who have unnecessarily been kept apart.

If only one family suffers because of this loophole, I would suggest that changes should be made. The fact that there have been numerous cases, prob-

ably in the hundreds, demands that we address this issue now.

Many parts of our immigration laws are outdated and in need of repair. The definition of “immediate relative” is no different. Congress’s intent when it granted “immediate relatives” the right to obtain immigrant visas was to promote family reunification, but the unfortunate oversight which Senator KENNEDY and I have highlighted has interfered with many families’ opportunity to do just that. The legislation introduced today would expand the definition of “immediate relative” to include the minor siblings of U.S. citizens. By doing so, we can truly provide our fellow citizens with the ability to reunite with their family members. This is a simple and modest solution to an unfortunate problem that too many families have already had to face. I urge my colleagues to support this important legislation.

I ask unanimous consent that the text of the legislation be printed in the RECORD.

#### SECTION 1. DEFINITION OF IMMEDIATE RELATIVE.

Section 201(b)(2)(A)(i) of the Immigration and Nationality Act (8 U.S.C. 1151(b)(2)(A)(i)) is amended by inserting “For purposes of this subsection, a child of a parent of a citizen of the United States shall be considered an immediate relative if the child is accompanying or following to join the parent.” after “at least 21 years of age.”

By Mr. NELSON of Florida (for himself and Ms. SNOWE):

S. 704. A bill to amend the Communications Act of 1934 to prohibit manipulation of caller identification information; to the Committee on Commerce, Science, and Transportation.

Mr. NELSON of Florida. Mr. President, American consumers and public safety officials increasingly find themselves confronted by scams in the digital age. The latest scam is known as caller I.D. “spoofing.” Today, I am introducing a bipartisan bill with Senator SNOWE—The Truth in Caller I.D. Act of 2007—to put an end to fraudulent caller I.D. spoofing.

It seems like every week we hear of new threats to our privacy and new ways to use telecommunications networks to endanger consumers’ financial security and physical safety. For several years now, I have been fighting back against these threats, pushing legislation to combat frauds such as identity theft, the unauthorized sale of consumer telephone records and spyware. It’s now time to put an end to the practice of caller I.D. spoofing.

What is caller I.D. spoofing? It’s a technique that allows a telephone caller to alter the phone number that appears on the recipient’s caller I.D. system. In other words, spoofing allows

someone to hide behind a misleading telephone number to try to scam consumers or trick law enforcement officers.

Let me give you a few shocking examples of how caller I.D. spoofing has been exploited during the past two years:

In one very dangerous hoax, a sharpshooting SWAT team was forced to shut down a neighborhood in New Brunswick, NJ, after receiving what they believed was a legitimate distress call. But what really happened was a caller used spoofing to trick law enforcement into thinking that the emergency call was coming from a certain apartment in that neighborhood. It was all a cruel trick perpetrated with a deceptive telephone number.

In another example, identity thieves bought a number of stolen credit card numbers. They then called Western Union, set up caller I.D. information to make it look like the call originated from the credit card holder's phone line, and used the credit card numbers to order cash transfers, which the thieves then picked up.

In other instances, callers have used spoofing to pose as government officials. In recent months, there have been numerous instances of fraudsters using caller I.D. fraud to pose as court officers calling to say that a person has missed jury duty. The caller then says that a warrant will be issued for their arrest, unless a fine is paid during the call. The victim is then induced to provide credit card or bank information over the phone to pay the "fine."

Furthermore, while these examples are serious enough, think about what would happen if a stalker used caller I.D. spoofing to trick his victim into answering the telephone, giving out personal information, or telling the person on the other end of the line about their current whereabouts. The results could be tragic.

According to experts, there are a number of Internet websites—with names like Tricktel.com and Spoofel.com—that sell their services to criminal and identity thieves. Any person can go to one of these websites, pay money to order a spoofed telephone number, tell the website which phone number to reach, and then place the call through a toll-free line. The recipient is then tricked when he or she sees the misleading phone number on his or her caller I.D. screen.

In essence, these websites provide the high-tech tools that identity thieves need to do their dirty work. Armed with a misleading phone number, an identity thief can call a consumer pretending to be a representative of the consumer's credit card company or bank. The thief can then ask the consumer to authenticate a request for personal account information. Once a thief gets hold of this sensitive personal information, he can access a consumer's bank account, credit card account, health information, and who knows what else.

Furthermore, even if a consumer does not become a victim of stalking or identity theft, there is a simple concept at work here. Consumers pay money for their caller I.D. service. Consumers expect caller I.D. to be accurate because it helps them decide whether to answer a phone call and trust the person on the other end of the line.

If the caller I.D. says that my wife is calling me, when I pick up the phone I expect my wife to actually be on the other end of the line. Instead, we have fraudsters and others who want to abuse the system and disguise their true identities. That defeats the whole purpose of caller I.D.

Unfortunately, the Federal Communications Commission and the Federal Trade Commission have been slow to act on this latest scam. In the meantime, many spoofing companies and the fraudsters that use them believe their activities are, in fact, legal. Well, it's time to make it crystal clear that spoofing is a scam and is not legal.

How does the bipartisan Truth in Caller I.D. Act of 2007 address the problem of caller I.D. spoofing?

Quite simply, this bill plugs the hole in the current law and prohibits fraudsters from using caller identification services to transmit misleading or inaccurate caller I.D. information. This prohibition covers both traditional telephone calls and calls made using Voice-Over-Internet (VoIP) service.

Anyone who violates this anti-spoofing law would be subject to a penalty of \$10,000 per violation or up to one year in jail, as set out in the Communications Act. Additionally, this bill empowers States to help the Federal Government track down and punish these fraudsters.

I invite my colleagues to join Senator SNOWE and myself in supporting the Truth in Caller I.D. Act of 2007. We should waste no time in protecting consumers and law enforcement authorities against caller I.D. spoofing.

I ask unanimous consent that the text of the Truth in Caller I.D. Act of 2007 be printed in the RECORD.

S. 705. A bill to amend the Office of Federal Procurement Policy Act to establish a governmentwide policy requiring competition in certain executive agency procurements, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. LEVIN. Mr. President, I am pleased to join with Senators CRAIG THOMAS, DEBBIE STABENOW, CHUCK GRASSLEY and TOM HARKIN in introducing the Federal Prison Industries Competition in Contracting Act. Our bill is based on a straightforward premise: it is unfair for Federal Prison Industries to deny businesses in the private sector an opportunity to compete for sales to their own government.

We have made immeasurable progress on this issue since I first introduced a similar bill ten years ago. It may seem incredible, but at that time, Federal Prison Industries (FPI) could bar private sector companies from competing for a Federal contract. Under the law establishing Federal Prison Industries, if Federal Prison Industries said that it wanted a contract, it would get that contract, regardless whether a company in the private sector could provide the product better, cheaper, or faster.

Six years ago, the Senate took a giant step toward addressing this inequity when we voted 74-24 to end Federal Prison Industries’ monopoly on Department of Defense contracts. Not only was that provision enacted into law, we were able to strengthen it with a second provision a year later. In 2004, we took another important step, enacting an appropriations provision which extends the DOD rules to other Federal agencies. This means that, for the first time, private sector companies should be able to compete against for contracts awarded by all Federal agencies.

Despite this progress, work remains to be done. We have heard reports from Federal procurement officials and from small businesses that FPI continues to claim that it retains the mandatory source status that protected it from competition for so long. This kind of misleading statement may undermine the right to compete that we have fought so hard for so long to establish.

In addition, FPI continues to sell its services into interstate commerce on an unlimited basis. I am concerned that the sale of prison labor into commerce could have the effect of undermining companies and work forces that are already in a weakened position as a result of foreign competition. We have long taken the position as a Nation that prison-made goods should not be sold into commerce, where prison wages of a few cents per hour could too easily undercut private sector competition. It is hard for me to understand why the sale of services should be treated any differently than the sale of products.

The bill that we are introducing today would address these issues by making it absolutely clear that FPI no longer has a mandatory source status, by reaffirming the critical requirement that FPI must compete for its contracts, and by carefully limiting the circumstances under which prison services may be sold into the private sector economy.

I look forward to working with my colleagues on these important issues.

S. 707. A bill to provide all low-income students with the same opportunity to receive a Pell Grant by suspending the tuition sensitivity provision in the Pell Grant program; to the Committee on Health, Education, Labor, and Pensions.

Mrs. FEINSTEIN. Mr. President, I am pleased to join Senator BOXER as a co-sponsor of the “Pell Grant Equity Act of 2007” that would provide all low-income students with the same opportunity to receive a Federal Pell Grant by eliminating the current tuition sensitivity provision in the Pell Grant Program.

Federal Pell Grants are the cornerstone of our need-based financial aid system ensuring that all students have access to higher education.

However, the Pell Grant program’s eligibility formula penalizes low-income students who attend very low-cost colleges by reducing the amount of the Pell Grant they can receive.

The formula bases eligibility for Pell Grant awards on the amount of tuition charged by the college and provides a lower “alternate” amount for low tuition colleges, known as the “tuition sensitivity” provision.

Community college students are significantly impacted by the tuition sensitivity provision because of low student tuition fees.

In California, due to a drop in tuition fees from \$26 per unit to \$20 unit, community college students enrolling this spring will otherwise be penalized with a \$56 reduction in their 2007 Pell Grants and will endure another \$112 hit in the 2007–2008 academic year if the tuition sensitivity provision is not eliminated.

Community college students represent approximately 46 percent of higher education students in California

receiving Pell Grants and are the only ones negatively impacted by this provision.

Any reduction of these vital grants to our lowest income students would have a major impact in their ability to afford college and continue their education, and we cannot allow this to happen.

This bill would ensure that our nation's community college students are not unduly penalized for receiving an affordable education at a low-cost college.

We must continue to do all we can to make a college education more accessible and affordable for all of our Nation's students.

I urge my colleagues to join Senator BOXER and I in supporting this important legislation.

S. 710. A bill to reauthorize the programs for the Department of Housing and Urban Development for housing assistance for Native Hawaiians; to the Committee on Indian Affairs.

Mr. INOUE. Mr. President, I rise to introduce a bill to reauthorize Title VIII of the Native American Housing Assistance and Self-Determination Act. Senator AKAKA joins me in sponsoring this measure. Title VIII provides authority for the appropriation of funds for the construction of low-income housing for Native Hawaiians and further provides authority for access to loan guarantees associated with the construction of housing to serve Native Hawaiians.

Three studies have documented the acute housing needs of Native Hawaiians—which include the highest rates of overcrowding and homelessness in the State of Hawaii. Those same studies indicate that inadequate housing rates for Native Hawaiians are amongst the highest in the Nation.

The reauthorization of Title VIII will support the continuation of efforts to assure that the native people of Hawaii may one day have access to housing opportunities that are comparable to those now enjoyed by other Americans.

S. 713. A bill to ensure dignity in care for members of the Armed Forces recovering from injuries; to the Committee on Armed Services.

Mr. OBAMA. Mr. President, I rise today to speak about the “Dignity for Wounded Warriors Act,” which I am

proud to introduce with Senator MCCASKILL.

Last week, the Nation learned of the serious problems at Walter Reed Army Medical Center including decaying, cockroach-infested facilities and an overwhelmed patient-care bureaucracy. As described in a series of articles in the Washington Post by Dana Priest and Anne Hull, wounded soldiers are returning home from the battle in Iraq only to face a new battle to get the care and benefits they have earned.

These stories should not have come as a complete surprise to those who have followed the issue closely. We have long known that troops returning from battle face numerous bureaucratic hurdles when they get home. That's why I introduced legislation last year to smooth the transition from active duty to civilian life. The Lane Evans Bill expands and improves electronic medical records, face-to-face physical exams, better tracking of veterans, and other approaches to make life easier for returning veterans.

However, the stories out of Walter Reed last week did shock my conscience because, like many Senators, I have made the half-hour trek from the Capitol to visit Walter Reed. And I saw what the Army wanted the world to see: a shining world-class facility where the wounded can heal with state-of-the-art care. I never saw mold growing on the walls, or broken elevators, or the lack of adequate support for soldiers and their families. Walter Reed was supposed to be the flagship of military health care. Instead it has become an emblem of much that is wrong with the system, and a harbinger of more severe problems that may be hiding at other military hospitals and facilities that are not in the spotlight.

The problems at Walter Reed stem from complex causes, the most important of which is that the military and VA have not yet prepared for the growing flood of casualties from the Iraq war. Our injured troops did not hesitate to fight for us on the battlefield—we shouldn't make them fight again at home in order to receive the care they deserve. That is why Senator MCCASKILL and I are introducing the bipartisan Dignity for Wounded Warriors Act today. The bill will fix the problems at Walter Reed and improve care at our military hospitals and facilities.

Our bill would fix deplorable conditions at outpatient residence facilities by setting high standards and increasing accountability. Under this bipartisan measure, the standards will be clear. First, recovering soldiers' rooms will be as good or better as the best standard rooms for active-duty troops. Second, our injured heroes will not have to wait more than two weeks for maintenance problems to be repaired. Third, we will have zero tolerance for pest infestations. And finally, emergency medical personnel and crisis counselors will be available to recovering troops 24 hours a day.

The bill also tackles accountability problems. In the days following the Post stories, the Army vice chief of staff, and the Assistant Secretary of Defense for Health Affairs both said they were surprised by conditions at Walter Reed and directed blame on lower-ranking officers and noncommissioned officers. I also read in the *Army Times* that soldiers at Walter Reed have been warned not to talk to the media. Under our bill, we won't have to rely on the media to inform the Congress and the American people of the conditions at military hospitals. It requires that the Inspector General inspect facilities twice a year and report conditions to high-level officials and the public. Under our bill, military leaders will no longer be able to use the excuse that they didn't know conditions on the ground.

When injured servicemembers return home, they along with their family members face a mountain of paperwork and bureaucracy. From the moment a doctor determines a soldier may be unable to return to duty, it takes an average of 209 days for the military to figure out what to do with the soldier. The system is broken, and soldiers and their families are the ones who pay the price. Our bill addresses this problem by bringing the far flung parts of the military's Physical Disability Evaluation System (PDES) under one roof in each branch of the military. It also puts much of the system online so that caseworkers and servicemembers can manage their documents electronically. Today, students can apply to go to law school or business school online, without ever having to touch a piece of paper. Navigating the Pentagon bureaucracy should be that easy.

Our bill also calls for injury-specific procedures so that the most severely injured servicemembers can skip unnecessary steps. There's no reason why a soldier with a gunshot injury to the spine should face the same procedural hurdles in order to prove his injury was service-related as a soldier with less severe injuries. At the same time, nothing in our bill will prevent those servicemembers who wish to stay in the military from appealing decisions. Our bill also helps soldiers and their families navigate the PDES system with new hotlines, manuals, and an ombudsman to help answer questions.

Another problem at Walter Reed is casework. The caseworkers are doing amazing work helping soldiers schedule medical appointments, prepare paperwork, and obtain their everyday needs. However, the caseworkers are overwhelmed. Some have to care for 50 or more recovering soldiers at a time, more than double the ideal ratio. The Dignity for Wounded Warriors Act fixes this problem by forcing the Pentagon to work with each military hospital to set the ideal ratio of caseworkers to patients based on the particular needs of that facility. In the interim, our bill requires a temporary ratio of 1 caseworker for every 20 recovering service-

members. This will push the Pentagon to begin hiring and training caseworkers right away.

This legislation also provides important new support for family members who often have to endure economic and emotional hardship to accompany their loved one through the recovery process and the currently flawed PDES process. It clarifies that non-medical attendees and family members on invitational orders may receive medical care and mental health counseling while caring for injured loved ones at military facilities. It extends employment and job placement training services to family members. And most important, this bipartisan legislation provides federal protections against a family member on invitational orders being fired. I think we can all agree that a mother should never have to choose between caring for a wounded son or daughter and keeping her job.

Secretary Gates promised a thorough investigation by outside experts and accountability for those responsible. Our bill builds on that model by establishing an Oversight Board of outside experts to review the Pentagon's progress in implementing this bill. The Board would be appointed by Congress and the executive branch and be made up of veterans, wounded soldiers, family members and experts on military medicine. The Oversight Board will be an important check to make sure the Defense Department is following through to care for recovering troops.

We cannot move fast enough to make sure our wounded troops are getting the care they need. No cost is too great. We must pass the Dignity for Wounded Warriors Act quickly and follow up with the adequate resources to ensure the men and women recovering at military hospitals across the world get the best care we can offer.

Mrs. McCASKILL. Mr. President, it is my honor to join my distinguished colleague from Illinois, Senator OBAMA, today in introducing the Dignity for Wounded Warriors Act, a bill that serves to better the experience so many recovering military servicemembers and their families have in dealing with the military healthcare system and its bureaucracy.

It is not often that you read something in the paper that makes you sick, but this is precisely the feeling I had just over a week ago as I read a Washington Post article that spoke of awful living conditions and an interminable bureaucracy being experienced by our war wounded who are receiving outpatient care at Walter Reed Army Medical Center.

I will not stand aside as those who have fought for our country come home to fight new battles against a crippling bureaucracy just to get the compensation they have more than earned. They shouldn't have to live in substandard conditions while they are recovering from their injuries.

Our legislation directly tackles these problems. The principle is simple: our

wounded and recovering servicemembers must receive the best treatment. They can't live in substandard housing as they recover. And they must have a user-friendly system to help them apply for the appropriate disability and benefits compensation. It's the least we can do for all they have done for us.

For example, each military department has a standard for their dormitories and barracks. I know that not every dormitory or barracks meets the highest standard that the service sets, but that each service is steadily working to reach this standard across their facilities. It is my belief, and this bill serves to establish, that the lowest standard acceptable for a returning wounded servicemember should be the highest existing standard in each military service. Facing the daunting challenge of recovering from war wounds—both psychological and physical—our returning servicemembers should not be living among vermin and mold. They should not be placed in temporary, cramped, makeshift, ancient or transient quarters. We're not demanding the Taj Mahal. We are demanding decent living conditions to help these injured men and women.

Further, when problems exist in the living quarters of our recovering servicemembers, they should be identified and repaired quickly. This bill establishes strict measures to facilitate reporting of unsatisfactory living conditions and to mandate timely repair. It also establishes measures to ensure that independent parties are inspecting living quarters in order to prevent any syndrome whereby those closely engaged in dealing with these facilities are overly focused on completing the mission with what they have as opposed to what they should have.

I was also appalled to learn of the extensive, confusing bureaucracy that greeted our recovering servicemembers in the outpatient care process. With numerous commands, organizations, advocates, doctors, commanders and any number of others involved in the process, recovering servicemembers found themselves navigating a complicated process and often without a map. They also have to fill out numerous forms, request records, check off bureaucratic blocks, get the right language in their doctor's evaluations, document their illnesses, capture the symptoms they are experiencing and more. It is safe to say that the process poses a daunting challenge to even a fully healthy individual—but imagine the challenge for someone far from home and facing the realities of the wounds of war.

Complicating the challenges, those tasked to provide these servicemembers and their families with assistance have been faced with large caseloads and insufficient resources. This legislation requires responsible caseloads for military leaders and caseworkers—and it requires that those providing this assistance not just have

a caseload that guarantees a recovering servicemember the attention they need and deserve, but that these caseworkers are well trained.

I also learned that those who come to military treatment facilities like Walter Reed to help their loved ones often face uphill battles. I am proud that this legislation reaches out to protect those loved ones who risk their livelihood to care for our recovering servicemembers by providing them medical care as well as protections to secure the jobs they leave behind.

Today, I visited Walter Reed, talked with our recovering servicemembers, toured the facilities and discussed these issues with Walter Reed's leaders. I can confidently say that those treating our servicemembers are with me—they want the very best for our recovering servicemembers and for their families. I know that the quality of care being provided at Walter Reed and at many other military hospitals is exceptional and I applaud the caregivers.

But I also know that we have all failed to provide the best service and support to many during the outpatient care process. Their living quarters were not the best. The Physical Disability Evaluation System they experience is too bureaucratic. It is time to deliver the best. This legislation seeks to provide it.

This is fair legislation. It balances requiring immediate changes with letting the Department of Defense study what is necessary and to subsequently implement incremental change. It empowers our physicians by not requiring random timelines for medical processing or medical care, but it requires that care and processing happen with manageable, understandable and streamlined procedures that equally empowers the servicemember. And this bill requires that trained, professional and caring providers be available to recovering servicemembers and their families in sufficient numbers and in the appropriate places throughout the care process.

In closing, I want to thank Senator OBAMA for his efforts in teaming with me to produce this important legislation. But mostly I want to thank all those serving our nation in uniform today. Their sense of duty is remarkable. Their sacrifice is great. Their heroism unmatched. They have given their best to our country and our country is committed to giving them the best in return.

By Mr. AKAKA:

S. 714. A bill to amend the Animal Welfare Act to ensure that all dogs and cats used by research facilities are obtained legally; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. AKAKA. Mr. President, I rise today to introduce the Pet Protection Act of 2007. In 1966, Congress passed the Animal Welfare Act to prevent the abuse and mistreatment of animals and to provide assurance that family pets would not be sold for laboratory experi-

ments. Although the Animal Welfare Act provides a solid foundation to stop the mistreatment of animals, more needs to be done to protect pets and pet owners from the actions of Class B animal dealers, also known as "random source" dealers.

Across the Nation, random source animal dealers acquire tens of thousands of dogs and cats, many of them family pets, through deceit and fraud. Some of their tactics include tricking animals owners into giving away their dogs and cats by posing as someone interested in pet adoption and the outright theft of family pets left unattended. The treatment of the animals captured and sold by random source dealers is often shocking and cruel. Hundreds of animals are kept in squalid conditions with just enough food and water to keep them alive until sold.

This bill does not address the larger issue of whether animals should or should not be used in research facilities. Medical research is one of our primary weapons in the discovery of new drugs and surgical techniques that help develop cures for life-threatening diseases and animal research has been, and continues to be, a fundamental part of scientific advances. Instead, this legislation targets the unethical practice of selling stolen pets and stray animals to research facilities. While I do not believe that research laboratories intentionally seek out fraudulently obtained animals, it does happen. And it does need to be stopped.

My bill will strengthen the Animal Welfare Act by prohibiting the use of random source animal dealers as suppliers of dogs and cats to research laboratories by making funds unavailable to research facilities that purchase animals from a dealer that holds a Class B license under the Animal Welfare Act. In doing so, it also simultaneously encourages the use of legitimate sources such as USDA-licensed Class A dealers. I urge my colleagues to join me in my efforts to curb the abusive practices of random source dealers by supporting this bill.

S. 715. A bill to amend the Small Business Act to provide expedited disaster assistance, and for other purposes; to the Committee on Small Business and Entrepreneurship.

Ms. LANDRIEU. Mr. President, as we all know, there was a tremendous amount of criticism of the Federal Government's response to Hurricanes Katrina and Rita last year. Things are better now and the region is slowly recovering. But, having luckily survived the 2006 hurricane season with no major storms, and with the 2007 season a few months away, we must be sure that if we have another disaster, the Federal Government's response will be better this time around. Disaster response agencies have to be better organized, more efficient, and more respon-

sive in order to avoid the problems, the delays, mismanagement, and the seeming incompetence that occurred in 2005.

Today, I am proud to sponsor legislation to improve the disaster response of one agency that had a great deal of problems last year, the Small Business Administration (SBA). This bill, the "Small Business Disaster Recovery Improvement Act," makes a major improvement to the SBA's disaster response and provides them with an essential tool to ensure that they are more efficient and better prepared for future disasters—big and small. I should note that this bill is a result of intensive bipartisan work over the past couple of months on a larger SBA Disaster Reforms bill, S. 137, the "Small Business Disaster Response and Loan Improvements Act," which was introduced early in the 110th Congress. I feel strongly that this provision, an Expedited Disaster Assistance Loan Program for businesses, should be passed during this session of Congress, therefore I wanted to also introduce it in separate legislation for the 110th Congress. That said, I will continue to work with my colleagues on the Small Business Committee, Senators KERRY and SNOWE, respectively Chair and Ranking Member of the Senate Small Business Committee, as well as with my colleague Senator VITTER to include this provision along with more comprehensive SBA Disaster Assistance reforms that we hope to enact in the coming months.

After Hurricanes Katrina and Rita hit, our businesses and homeowners had to wait months for loan approvals. I do not know how many businesses we lost because help did not come in time. What these businesses needed was immediate, short-term assistance to hold them over until SBA was ready to process the tens of thousands of loan applications it received.

That is why this legislation provides the SBA Administrator with the ability to set up an expedited disaster assistance business loan program to make short-term, low-interest loans to keep them afloat. These loans will allow businesses to make payroll, begin making repairs, and address other immediate needs while they are awaiting insurance payouts or regular SBA Disaster Loans. However, I realize that every disaster is different and could range from a disaster on the scale of Hurricanes Katrina or Rita or 9-11, to an ice storm or drought. This legislation gives the SBA additional options and flexibility in the kinds of relief they can offer a community. When a tornado destroys 20 businesses in a small town in the Midwest, SBA can get the regular disaster program up and running fairly quickly. You may not need short-term loans in this instance. But if you know that SBA's resources would be overwhelmed by a storm—just as they were initially with the storms of 2005—these expedited business loans would be very helpful.

The Small Business Disaster Recovery Improvement Act will provide an

essential tool to make the SBA more proactive, flexible, and most important, more efficient during future disasters. If SBA is not in the business of short-term assistance for future disasters, I feel that we will again see businesses fail while waiting for SBA to get its act together. The agency has implemented some major changes to its Disaster Assistance Program but, if the storms of 2005 taught us anything it was that the best laid plans can fail. This Expedited Disaster Assistance Loan Program would ensure that SBA has a backup tool to provide immediate assistance to impacted businesses. Again, I look forward to working with both Senator SNOWE and Senator KERRY during the coming weeks to ensure that the SBA has everything it needs to respond to future disasters.

I ask unanimous consent that the text of the legislation be printed in the RECORD.

Mr. REED. Mr. President, I am pleased to join my colleagues, Senator COLEMAN, and Representatives ESHOO and RAMSTAD, in reintroducing the Consortium on the Impact of Technology in Health Services Act.

We face a challenging and exciting time in the evolution of America's health care system. Today, roughly 45 million men and women are over age 65. A full doubling of the elderly population is predicted to occur by the year 2030—with the first of the baby boom generation turning 65 in the year 2011—only four years from now.

Nowhere is the aging of the population more apparent than in my home State of Rhode Island. We exceed the national average in terms of citizens over the age of 65 as well as those over the age of 85. In a State of slightly more than a million people, almost 15 percent of the population is over the age of 65 today. According to Census Bureau estimates, the number of elderly is expected to increase to 18.8 percent of Rhode Island's population by 2025.

Dramatic increases in life expectancy over the last century can be attributed to tremendous advances in health and medical research. These demographic changes also pose new challenges to our health care system that require creative and innovative solutions.

In addition to Americans living longer, keeping up with advancements in medical science poses unique burdens and challenges for our health care system. We are facing shortages in a number of critical health care fields—nurses, primary care physicians, and geriatricians—to name a few. These workforce issues further hinder our ability to keep up with the health care needs of aging Americans.

Greater use of technology has the potential to enhance the quality of care to our aging population and enable seniors to remain healthy and live independently longer. The overwhelming

majority of seniors in my State and across the Nation want to “age in place”—in their homes—close to their loved ones. Indeed, a growing number of the baby boom generation support funding aging services technology research, and believe technology will allow them to live longer and more independently.

The application of technology in the aging health care services field would also help mitigate the burden on providers, by allowing physicians, home health care workers, and family members to keep in regular contact with patients and loved ones. Better monitoring of elderly patients would also serve to identify changes in their health condition before a serious problem arises.

The bill we are introducing today would build on groundbreaking research and public-private partnerships to find evidence-based approaches to behavioral assessment and non-intrusive health monitoring. Improving in-home monitoring technologies and remote diagnostics will provide seniors and their caregivers with greater independence and flexibility. A recent study found that Americans, particularly those with chronic conditions, are already utilizing the Internet and online tools to better manage their health. Using technology to enhance health care professionals ability to access vital health information will not only improve diagnosis and treatment, but it will also inform the health decisions of seniors and their families.

Smarter applications of technology in caring for the aged could also address some of the growing concerns with skyrocketing budget deficits. As we grapple with Medicare and Medicaid taking up a growing proportion of overall federal spending, we need to carefully balance health care expenditures while also improving the quality of care. We need to use precious health care dollars wisely and prudently as we seek creative ways to continue to provide quality health services to the elderly.

The Consortium on the Impact of Technology in Health Services Act will bring together experts from the medical, aging, and technology fields to build a vision and a framework for the development and implementation of a 21st century health care system able to meet the needs of our burgeoning aging population.

We need to change the way we think about health care for our Nation's seniors. We need a model that is oriented toward health promotion and disease prevention. This legislation gives us a jumpstart on developing and implementing the tools and strategies to serve the senior population of America more effectively and with greater cost savings.

I am pleased to join with my colleagues in introducing this important initiative and hope the Senate will give it careful consideration.

By Mr. AKAKA (for himself, Mr. SUNUNU, Mr. LEAHY, and Mr. TESTER):

S. 717. A bill to repeal title II of the REAL ID Act of 2005, to restore section 7212 of the Intelligence Reform and Terrorism Prevention Act of 2004, which provides States additional regulatory flexibility and funding authorization to more rapidly produce tamper- and counterfeit-resistant driver's licenses, and to protect privacy and civil liberties by providing interested stakeholders on a negotiated rulemaking with guidance to achieve improved 21st century licenses to improve national security; to the Committee on the Judiciary.

Mr. AKAKA. Mr. President, I rise today with my colleagues from New Hampshire, Vermont, and Montana, Senators SUNUNU, LEAHY and TESTER, to reintroduce legislation to address problems with the REAL ID Act of 2005.

Last year, Senator SUNUNU and I introduced S. 4117, the Identity Security Enhancement Act, which would repeal the REAL ID Act and reinstitute the shared rulemaking process and more reasonable guidelines established in the Intelligence Reform and Terrorism Prevention Act of 2004. We joined together to convey our concerns with REAL ID to the Department of Homeland Security (DHS) and to urge the Department to ensure that the forthcoming regulations implementing REAL ID addressed our concerns. Now, on the eve of DHS releasing the proposed REAL ID regulations, we once again introduce our legislation as a placeholder as Congress and the American people review how DHS proposes to implement this costly and controversial law.

I plan to hold a hearing on the REAL ID regulations in the Oversight of Government Management Subcommittee shortly, and I will develop comprehensive legislation to address any privacy and civil liberties issues arising under the Act and any unrealistic burdens placed on the states.

From the time the REAL ID Act became law nearly two years ago, hundreds of organizations—ranging from the National Governor's Association (NGA) to the American Civil Liberties Union (ACLU)—have voice their strong opposition to REAL ID. None of these groups were heard by Congress before the bill was passed in May 2005 as there were no hearings to understand the repercussions of such sweeping legislation.

Rather, the REAL ID Act was attached to the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief Act (P.L. 109-13) in Conference. It was wrong to include the legislation that has such a massive impact on State and local governments without their input. Not having a full debate on the measure to determine its impact has led an increasing number of State legislatures to introduce and pass legislation to condemn REAL ID and, in

some cases, prohibit the state from spending money to implement the Act.

My two primary concerns with REAL ID are that the law places an unrealistic and unfunded burden on state governments and erodes Americans' civil liberties and privacy rights.

There is nothing realistic about REAL ID. The extremely costly and complex set of electronic systems that will be required to connect the thousands of local Departments of Motor Vehicles (DMVs) to one another and to a host of Federal agencies as required under REAL ID may not be practical. This would cost \$1.42 billion according to a September 2006 report issued by the NGA, the National Conference of State Legislatures (NCSL), and the American Association of Motor Vehicle Administrators (AAMVA). In addition, the costs to re-issue every current driver's license under the new screening process is estimated to cost approximately \$8 billion over five years. Combined with the other requirements imposed on states by REAL ID, such as new design requirements for the ID cards and on-site security, REAL ID will cost over \$11 billion. Congress has appropriated only \$40 million for REAL ID implementation, which leaves a hefty price tag for the states, especially for legislation that was passed with no review.

In addition to the unrealistic burden REAL ID places on states, REAL ID is a serious threat to our privacy rights and civil liberties.

As I said last year, the REAL ID Act will require every driver's licensing agency to collect and store substantial numbers of records containing licensees' most sensitive personally identifiable information, including one's social security number, proof of residence, and biometric identifiers such as a digital photograph and signature. If the state databases are compromised, they will provide one-stop access to virtually all information necessary to commit identity theft.

Moreover, the sharing of the aggregated personally identifiable information of licensees between and amongst various government agencies and employees at the federal, state, and local level, as contemplated by the REAL ID Act, potentially allows millions of individuals access to that information without protections or safeguards.

Despite these obvious threats to Americans' privacy, the REAL ID Act fails to mandate privacy protections for individuals' information nor does it provide states with the means to implement data security and anti-hacking protections that will be required to safeguard the new databases mandated by the Act.

REAL ID exacerbates the threat of identity theft which threatens our security by giving us a false sense of security.

Unfunded mandates and the lack of privacy and security requirements are real problems that deserve real consideration and real solutions. Congress

has a responsibility to ensure that driver's licenses and ID cards issued in the United States are secure—both from would-be terrorists and identity thieves—affordable, and practical.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

There are authorized to be appropriated to the Secretary \$300,000,000 for each of the fiscal years 2007 through 2013 to carry out this Act.

By Mr. DURBIN (for himself and Mr. CRAPO):

S. 718. A bill to optimize the delivery of critical care medicine and expand the critical care workforce; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBIN. Mr. President, why hold off for tomorrow what we can do today? The current healthcare crisis in our Nation did not happen overnight. It has been accumulating as a result of a lack of serious attention to the most pressing healthcare issues, including healthcare workforce shortages. As a husband and a parent, I pray every day that my wife and children will have access to the quality healthcare they deserve when they need it. As a public official, I believe that it is my responsibility to help make that care available for not only my own family, but also for the families in the State of Illinois and across the Nation.

The growing shortage of critical care physicians undermines the quality and availability of health care services in the United States. This shortage can be expected to disproportionately impact rural and other areas of the United States that already often suffer from a sub-optimal level of critical care services. When a loved one needs a critical care doctor, would we not want one to be available? If research tells us that their recovery may be better and their recovery time faster, would we not want our loved one to have access to a critical care doctor?

The Leap Frog Group has clearly documented that significant improvement in outcomes—in both quality and cost—result when a critically ill or injured patient is seen by an intensivist. With a greater use of intensivists, an estimated 54,000 deaths that currently occur in ICUs could be avoided. Unfortunately, only one-third of our critically ill citizens are treated by physicians and nurses specifically trained to manage their complex health issues.

In June 2003, Congress asked the Health Resources and Services Administration—HRSA—to examine the healthcare needs of a growing population and the availability of pulmonary and critical care physicians. In its May 2006 report to Congress entitled “The Critical Care Workforce: A Study of the Supply and Demand for Critical Care Physicians,” HRSA found that the country does not have enough physicians trained in critical care medicine to treat all those in need of the care. The report projected future demand for these services and found that, as a result of having to staff ICUs with critical care doctors, a total of 4,300 intensivist physicians will be needed when only 2,800 are available. The HRSA report recognized that the demand in the United States for critical care medical services is rising sharply and will continue to do so.

To proactively address the healthcare needs of our nation, I am pleased to join with my colleague Senator CRAPO today to introduce legisla-

tion to address the looming shortage of critical care providers. Our bill, The Patient-Focused Critical Care Enhancement Act authorizes a series of modest and sensible measures that—if enacted now instead of waiting for this shortage to worsen—can help to obviate the problem.

First, the Patient-Focused Critical Care Enhancement Act would direct the Agency for Health Research and Quality to assess the current state of and recommend “best practices” for critical care medicine. The authorization of demonstration projects on innovations in ICU services and on family-centered, multi-disciplinary approaches to critical care services are important for determining how to improve the quality of the care delivered and how to best make use of our existing resources of critical care doctors.

Our bill would also expand telemedicine opportunities for critical care physicians to promote efforts relating to critical care and ensure that all communities have greater access to this important, lifesaving care. For our rural communities and medically underserved areas, the need for critical care doctors is exacerbated. This bill will hopefully expand the effectiveness of existing critical care providers in environments where intensivists are in short supply.

Finally, to address the supply problem, the bill would allow for the National Health Service Corps to support and encourage critical care providers to practice in medically underserved areas.

The Patient-Focused Critical Care Enhancement Act is strongly endorsed by the key medical specialty societies and patient groups involved in critical care medicine, including the American College of Chest Physicians, the American Thoracic Society, the Society for Critical Care Medicine, the Association of Critical Care Nurses and the Acute Respiratory Distress Syndrome Foundation.

This multipronged approach is to look at both short term and long term solutions to a growing concern. But in today’s complex healthcare situation, multiple solutions are a necessity. We do not want to face this shortage in the future in a direr situation as the nursing shortage currently is.

The answer to the opening question is simple. We must not hold off for tomorrow what we can do today, and we must not wait for our healthcare crisis to worsen. Our country will face a critical care workforce shortage. I want my family to have access to the best quality care when they need it, and this includes having access to a critical care doctor. Passage of the Patient-Focused Critical Care Enhancement Act is a step in that direction.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 718

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### **SECTION 1. SHORT TITLE.**

This Act may be cited as the “Patient-Focused Critical Care Enhancement Act”.

#### **SEC. 2. PURPOSE.**

The purpose of this Act is to optimize the delivery of critical care medicine and expand the critical care workforce.

#### **SEC. 3. FINDINGS.**

Based on the Health Resources and Services Administration’s May 2006 Report to Congress, *The Critical Care Workforce: A Study of the Supply and Demand for Critical Care Physicians*, the Senate makes the following findings:

(1) In 2000, an estimated 18,000,000 inpatient days of ICU care were provided in the United States through approximately 59,000 ICU beds in 3,200 hospitals.

(2) Patient outcomes and the quality of care in the ICU are related to who delivers that care and how care is organized.

(3) The demand in the United States for critical care medical services is rising sharply and will continue to rise sharply largely as a result of the following 3 factors:

(A) There is strong evidence demonstrating improvements in outcomes and efficiency when intensive care services are provided by nurses and intensivist physicians who have advanced specialty training in critical care medicine.

(B) The Leapfrog Group, health care payors, and providers are encouraging greater use of such personnel in intensive care settings.

(C) Critical care services are overwhelmingly consumed by patients over the age of 65 and the aging of the United States population is driving demand for these services.

(4) The future growth in the number of critical care physicians in ICU settings will be insufficient to keep pace with growing demand.

(5) This growing shortage of critical care physicians presents a serious threat to the quality and availability of health care services in the United States.

(6) This shortage will disproportionately impact rural and other areas of the United States that already often suffer from a sub-optimal level of critical care services.

#### **SEC. 4. RESEARCH.**

(A) IN GENERAL.—The Secretary of Health and Human Services shall solicit proposals and make an award to support a consortium consisting of 1 or more providers of inpatient critical care services and a medical specialty society involved in the education and training of critical care providers.

(B) MEASUREMENT AND EVALUATION.—A provider that receives support under subparagraph (A) shall measure and evaluate outcomes derived from a "family-centered" approach to the provision of inpatient critical care services that includes direct and sustained communication and contact with beneficiary family members, involvement of family members in the critical care decision-making process, and responsiveness of critical care providers to family requests. Such project shall evaluate the impact of a family-centered, multiprofessional team approach on, and the correlation between—

(a) AMENDMENT TO RURAL UTILITIES SERVICE DISTANCE LEARNING AND TELEMEDICINE PROGRAM.—Chapter 1 of subtitle D of title XXIII of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 950aaa et seq.) is amended by adding at the end the following:

##### "SEC. 2335B. ADDITIONAL AUTHORIZATION OF APPROPRIATIONS FOR TELEMEDICINE CRITICAL CARE INITIATIVES.

"In addition to amounts authorized under section 2335A, there is authorized to be appropriated \$5,000,000 in each of fiscal years 2008 through 2013 to carry out telemedicine initiatives under this chapter whereby 1 or more rural providers of inpatient critical care services propose, through collaboration with other providers, to augment the delivery of critical care services in the rural inpatient setting through the use of tele-

"(2) CLARIFYING AMENDMENT.—The initiative described in paragraph (1) shall be undertaken pursuant to the authority of this section, and for purposes of the initiative—

"(A) the term 'primary health services' as used in subsection (a) shall be understood to include critical care services; and

"(B) 'an approved graduate training program' as that term is used in subsection (b)(1)(B) shall be limited to pulmonary fellowships or critical care fellowships, or both, for physicians."

By Mr. LAUTENBERG (for himself, Mr. MENENDEZ, Mr. KENNEDY, and Mr. REED):

S. 719. A bill to amend section 10501 of title 49, United States Code, to exclude solid waste disposal from the jurisdiction of the Surface Transportation Board; to the Committee on Commerce, Science, and Transportation.

Mr. LAUTENBERG. Mr. President, I rise today to re-introduce legislation that will close an egregious loophole in federal law. Currently, this loophole permits solid waste management facilities operated near railroads to go unregulated—free from meeting any minimum level of safety, health, and environmental standards. Basically, this loophole prevents state or local law from regulating the operation of these facilities on property owned or controlled by railroads.

In fact, just last week, a United States District Court judge declared this loophole alive and well. By shutting down the State of New Jersey's efforts to regulate solid waste rail facilities, this ruling allows the continuing proliferation of these unregulated facilities—which are already spreading quickly throughout the Northeast United States.

These unregulated facilities present an imminent threat to public health and the environment. My bill, the

Clean Railroads Act of 2007, will close this loophole once and for all. Almost 2 years ago, I first introduced legislation to address this problem, and I renew that effort today.

This problem could easily be solved by proper interpretation of current federal law. Such an interpretation could be made by the federal Surface Transportation Board (STB), an independent board charged with economic regulation of railroads. However, despite several opportunities, the STB has chosen not to define a clear position on this issue. I have urged the Board members to address this problem, as the loophole in federal law has allowed even more of these unregulated facilities to operate.

Last week's court ruling has highlighted the need to find a solution to this problem immediately, and my bill would do just that.

Let me be clear that my concern is not the transport of solid waste by rail. Railroads provide a vital role in commerce in the United States and the benefits of rail transportation are numerous, as we in New Jersey know. Further, the transportation of waste via rail is not at issue here, and I am not opposed to the operation of solid waste management facilities on property owned or controlled by railroads.

My chief concern is the lawful management of solid waste facilities. If a solid waste management facility is to be operated on rail property, it must be regulated like any other such facility. That is not happening today.

The threats posed by unregulated waste management facilities operating on property owned or controlled by railroads are so great that a broad and diverse coalition of public and private sector entities have been formed to oppose these rogue operations. I thank these coalition members for their continued efforts, and will be looking forward to the day in which their fears over this issue can be permanently assuaged.

Responsible management of solid waste requires safeguards to protect public health and the environment. As Chairman of the Commerce Committee's Subcommittee on Surface Transportation and Merchant Marine Infrastructure, Safety, and Security, which has jurisdiction over railroads and the Surface Transportation Board, I will work to ensure this loophole does not continue to let the hazards of unregulated solid waste rail facilities affect the lives of New Jerseyans and other Americans.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 719

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Clean Railroads Act of 2007".

## SEC. 2. AMENDMENTS TO EXCLUDE SOLID WASTE FACILITIES FROM THE JURISDICTION OF THE BOARD.

Section 10501 of title 49, United States Code, is amended—

(1) by striking “facilities,” in subsection (b)(2) and inserting “facilities (except solid waste management facilities (as defined in section 1004 of the Solid Waste Disposal Act (42 U.S.C. 6903))),”; and

(2) by striking “over mass transportation provided by a local governmental authority,” in subsection (c)(2) and inserting “over—

“(A) mass transportation provided by a local governmental authority; or

“(B) the processing or sorting of solid waste.”.

## SUBMITTED RESOLUTIONS

### SENATE RESOLUTION 88—HONORING THE EXTRAORDINARY ACHIEVEMENTS OF MASSACHUSETTS GOVERNOR DEVAL PATRICK

Mr. KERRY (for himself and Mr. KENNEDY) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 88

Whereas February is widely recognized as Black History Month;

Whereas Deval Patrick was born in Chicago, Illinois but, after receiving what he has described as a life-changing education at Milton Academy, has made Milton, Massachusetts his home;

Whereas Deval Patrick is the second African American elected Governor in the history of the United States;

Whereas Deval Patrick has been a pioneer his entire life and was the first member of his family to attend college;

Whereas Deval Patrick graduated with honors from Harvard College in 1978;

Whereas Deval Patrick was elected president of the Legal Aid Bureau while attending Harvard Law School and worked to defend poor families in Middlesex County, Massachusetts during law school;

Whereas Deval Patrick spent many successful years at the National Association for the Advancement of Colored People Legal Defense Fund, devoting his efforts to anti-discrimination and voting rights cases;

Whereas Deval Patrick served as a partner at the Boston law firm of Hill & Barlow and took on many pro bono cases, including a landmark lending scam case filed on behalf of the Commonwealth of Massachusetts;

Whereas Deval Patrick was appointed Assistant Attorney General for Civil Rights, the Nation's top civil rights enforcement post, by President Bill Clinton;

Whereas Deval Patrick served with distinction as Assistant Attorney General for Civil Rights, investigating church burnings, prosecuting hate crimes and abortion clinic violence, holding public employers accountable for job discrimination, ensuring access to housing free of discrimination, protecting the right to vote, and enforcing the Americans with Disabilities Act (42 U.S.C. 12101 et seq.) and other important civil rights laws;

Whereas Deval Patrick returned to private practice with the Boston law firm Day, Berry, and Howard in 1997;

Whereas Deval Patrick was appointed by a Federal district court in 1997 to serve as the first chairperson of Texaco's Equality and Fairness Task Force, and was charged with rebuilding the company's system of employment practices following the settlement of a

significant race discrimination case against the company;

Whereas, beginning in 1999, Deval Patrick served as president and general counsel of Texaco and subsequently executive vice president and general counsel of Coca-Cola before returning to Massachusetts to run for Governor;

Whereas Deval Patrick shows great promise as the Commonwealth's new Governor; and

Whereas Deval Patrick is aided in his service to Massachusetts by his loving wife Diane and his daughters Sarah and Katherine: Now, therefore, be it

*Resolved*, That the Senate—

(1) honors the extraordinary achievements of Massachusetts Governor Deval Patrick;

(2) offers its appreciation for Deval Patrick's continuing devotion to the people of Massachusetts; and

(3) congratulates Deval Patrick on his historic election as Governor of Massachusetts and becoming the second African-American Governor in the history of the United States.

Mr. KERRY. Mr. President, I would like to take a moment to honor an extraordinary man, a dedicated public servant, and, now, the Governor of my home State, Massachusetts: Deval Patrick. It is particularly fitting that we honor Deval today—during Black History Month—because not only is Deval an outstanding choice to lead our State, but he is only the second African American to be elected governor in American History.

Think about that: the second African American to be elected governor in any of the 50 States of our great Nation. That is pretty amazing. But what is more amazing is that the people of Massachusetts did not elect him because they wanted to make history, they elected him because they knew he was the best man for the job. They recognized that “Together We Can” was more than just a catchy campaign slogan—it's a philosophy about how to treat people and how to lead them. And it embodies the kind of leadership our State and our Nation are crying out for at this time.

Throughout his entire life, Deval Patrick has been pushing the envelope, striving to achieve what many thought was impossible, overcoming obstacles that might have made others of lesser conviction or determination turn back. After all, this is a man who went from the South Side of Chicago to the Harvard Law Review.

This is a man who was elected President of the Legal Aid Bureau while attending Harvard Law School and who defended poor families in Middlesex County, MA prior to graduation. Let me tell you something, I attended law school, and I worked in the DA's office prior to my graduation. It is no easy task to balance these competing demands, to work with families day in and day out on issues that their lives depend on. It is a truly remarkable achievement.

Yet, Deval's commitment to public service did not end there. In fact, it was just beginning. Deval went on to spend many successful years at the NAACP Legal Defense Fund, devoting his efforts to discrimination and voting

rights cases. Then, after serving as a Partner at the Boston law firm of Hill & Barlow, he was appointed Assistant Attorney General for Civil Rights by President Bill Clinton.

At the Justice Department, Deval served with distinction in this—the Nation's top civil rights post—investigating church burnings, prosecuting hate crimes and abortion clinic violence; holding public employers accountable for job discrimination; ensuring access to housing free of discrimination; protecting the right to vote; and enforcing the Americans with Disabilities Act, and other important civil rights laws.

During his time at Justice, Deval proved that he would fight for justice, that he would fight for individual rights, and that he was not afraid to hold people accountable, even if others found it politically difficult or distasteful.

These are just a few of Deval Patrick's tremendous career accomplishments that lead him to this point in time as my state's newest Governor.

For generations, too many young Americans have grown up with a gnawing sense of doubt: that maybe the best that America has to offer doesn't really apply to them. That's why I am so happy that a generation of children will see men like Deval Patrick in great positions of leadership. And it is my great hope that positive examples like his will lead a new generation of people of color to push this country to ever greater heights.

#### SENATE CONCURRENT RESOLUTION 14—COMMEMORATING THE 85TH ANNIVERSARY OF THE FOUNDING OF THE AMERICAN HELLENIC EDUCATIONAL PROGRESSIVE ASSOCIATION, A LEADING ASSOCIATION FOR THE 1,300,000 UNITED STATES CITIZENS OF GREEK ANCESTRY AND PHILHELLENES IN THE UNITED STATES

Ms. SNOWE (for herself and Mr. MENENDEZ) submitted the following concurrent resolution; which was referred to the Committee on the Judiciary:

##### S. CON. RES. 14

Whereas the American Hellenic Educational Progressive Association (AHEPA) was founded on July 26, 1922, in Atlanta, Georgia, by 8 visionary Greek immigrants to help unify, organize, and protect against the bigotry, discrimination, and defamation faced by people of all ethnic, racial, and religious backgrounds perpetrated predominantly by the Ku Klux Klan;

Whereas the mission of AHEPA is to promote the ideals of ancient Greece, which include philanthropy, education, civic responsibility, and family and individual excellence

through community service and volunteerism;

Whereas, since its inception, AHEPA has instilled in its members an understanding of their Hellenic heritage and an awareness of the contributions made by Greece to the development of democratic principles and governance in the United States and throughout the world;

Whereas AHEPA has done much throughout its history to foster patriotism in the United States;

Whereas members of AHEPA have served in the Armed Forces to protect the freedom of the United States and to preserve the democratic ideals that are part of the Hellenic legacy;

Whereas, in World War II, members of AHEPA were parachuted behind enemy lines in Nazi-occupied Greece to help liberate the country;

Whereas AHEPA raised more than \$253,000,000 for United States war bonds during World War II, for which AHEPA was named an official Issuing Agent for United States War Bonds by the Department of Treasury, an honor that no other civic organization was able to achieve at the time;

Whereas the members of AHEPA donated \$612,000 for the restoration of the Statue of Liberty and Ellis Island, New York, for which AHEPA received special recognition by the Department of the Interior;

Whereas the AHEPA National Housing Program was awarded \$500,000,000 by the Department of Housing and Urban Development for its Section 202 Program, which has yielded 4,370 units in 80 properties across 21 States and 49 cities and has provided dignified, affordable housing to senior citizens;

Whereas AHEPA was recognized by the Department of State as an organization that has engaged in “Track Two Diplomacy” to foster reconciliation and rapprochement in the Eastern Mediterranean, which is in the best interest of the United States;

Whereas members of AHEPA raised \$110,000 for the George C. Marshall Statue to be erected on the grounds of the United States Embassy in Athens, Greece, in celebration of the historic relationship between the United States and Greece, and in tribute to an outstanding statesman and Philhellene, General Marshall;

Whereas AHEPA financially supports scholarships, educational chairs, medical research, and countless other charitable and philanthropic causes by contributing more than \$2,000,000 annually from its national, district, and local levels collectively;

Whereas, in the spirit of their Hellenic heritage and in commemoration of the Centennial Olympic Games held in Atlanta, Georgia, members of AHEPA raised \$775,000 for the Tribute to Olympism Sculpture, the fanlike structure of which helped to save lives during the bombing at Centennial Olympic Park;

Whereas members of AHEPA have been Presidents and Vice Presidents of the United States, United States Senators and Representatives, and United States Ambassadors, and have served honorably as elected officials at the local and State levels throughout the United States; and

Whereas President George H.W. Bush cited AHEPA as one of the “thousand points of light”: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring)*, That the Congress—

(1) recognizes the significant contributions of United States citizens of Hellenic heritage to the United States;

(2) commemorates the 85th anniversary of the founding of the American Hellenic Educational Progressive Association (AHEPA), applauds its mission, and commends the

many charitable contributions of its members to communities around the world; and

(3) encourages the people of the United States to observe the 85th anniversary of the founding of AHEPA and celebrate its many accomplishments.

Ms. SNOWE. Mr. President, this year marks the 85th anniversary of the founding of the American Hellenic Educational Progressive Association, AHEPA. I rise today to submit with my colleague, Senator MENENDEZ, a concurrent resolution honoring AHEPA's history of service, not only to Americans of Greek descent, but to Americans of all backgrounds and to the United States itself.

AHEPA was founded in 1922 to combat the bigotry encountered by Greek immigrants to this country, and to assist these new Americans with building and protecting their livelihoods in our great Nation. Eighty-five years later—decades in which generations of Greek-Americans worked tirelessly in commerce and fought patriotically on the battlefield to make the United States the prosperous and peaceful land it is today—AHEPA continues its mission to promote the shared Hellenic and American values of education, philanthropy, civic responsibility, and family and individual excellence.

This is more than a mission statement, it is a commitment to action that has been fulfilled time and again. AHEPA today awards more than half a million dollars in academic scholarships annually. Its philanthropic efforts have contributed to the restoration of the Statue of Liberty and Ellis Island. It has enhanced the civic participation of its members and other U.S. citizens through seminars and conferences on key domestic and international policy issues. And, together with three affiliated organizations—the Daughters of Penelope, the Sons of Pericles and the Maids of Athena—AHEPA has contributed to over a billion dollars in funding for youth- and family-focused projects across the country.

As the first Greek-American woman elected to both the House and Senate, I am often reminded that the connection between the U.S. Congress and the Greek people is not limited to the Greek Americans who have served as members, or the foreign policy issues debated in its halls. Rather, the very inspiration for the Congress as a legislative body are the democratic chambers of ancient Greece.

The myriad ties between our two countries—be they cultural, economic or geopolitical—comprise a bond that can and should only strengthen. AHEPA's long record of service to Greek-Americans and their countrymen are both a testament and critical component of that historical bond. It is accordingly an honor and a pleasure to submit this concurrent resolution recognizing the accomplishments of AHEPA's first 85 years. May there be many, many more.

“(iii) if there has been a sustained reduction in the rate of refusals for nonimmigrant visitor visas for nationals of the country and conditions exist to continue such reduction;

“(iv) the country cooperated with the Government of the United States on counterterrorism initiatives and information sharing before the date of its designation as a program country, and the Secretary of Homeland Security and the Secretary of State expect such cooperation will continue; and

“(v)(I) if the rate of refusals for nonimmigrant visitor visas for nationals of the country during the previous full fiscal year was not more than 10 percent; or

(2) The radical jihadist movement transcends borders and has been identified as a potential threat within the United States.

(3) Radicalization has been identified as a precursor to terrorism.

(4) Countering the threat of violent extremists domestically, as well as internationally, is a critical element of the plan of the United States for success in the war on terror.

(6) The alienation of Muslim populations in the Western world has been identified as a factor in the spread of radicalization.

(7) Radicalization cannot be prevented solely through law enforcement and intelligence measures.

(b) SENSE OF SENATE.—It is the sense of the Senate that the Secretary, in consultation with other relevant Federal agencies, should make a priority of countering domestic radicalization and extremism by—

(1) using intelligence analysts and other experts to better understand the process of radicalization from sympathizer to activist to terrorist;

(2) recruiting employees with diverse worldviews, skills, languages, and cultural backgrounds and expertise;

(3) consulting with experts to ensure that the lexicon used within public statements is precise and appropriate and does not aid extremists by offending the American Muslim community;

(4) developing and implementing, in concert with the Attorney General and State and local corrections officials, a program to address prisoner radicalization and post-sentence reintegration;

(5) pursuing broader avenues of dialogue with the Muslim community to foster mutual respect, understanding, and trust; and

(6) working directly with State, local, and community leaders to—

(A) educate these leaders on the threat of radicalization and the necessity of taking preventative action at the local level; and

(5) The Senate has been unwilling to reform itself in accordance with the recommendation of the Commission to provide better and more streamlined oversight of the Department.

(b) SENSE OF SENATE.—It is the sense of the Senate that the Senate should implement the recommendation of the Commission to “create a single, principal point of oversight and review for homeland security.”.

**TITLE —BORDER LAW ENFORCEMENT RELIEF ACT**

**SEC. 01. SHORT TITLE.**

This title may be cited as the “Border Law Enforcement Relief Act of 2007”.

**SEC. 02. FINDINGS.**

Congress finds the following:

(1) It is the obligation of the Federal Government of the United States to adequately secure the Nation’s borders and prevent the flow of undocumented persons and illegal drugs into the United States.

(2) Despite the fact that the United States Border Patrol apprehends over 1,000,000 people each year trying to illegally enter the United States, according to the Congressional Research Service, the net growth in the number of unauthorized aliens has increased by approximately 500,000 each year. The Southwest border accounts for approximately 94 percent of all migrant apprehensions each year. Currently, there are an estimated 11,000,000 unauthorized aliens in the United States.

(3) The border region is also a major corridor for the shipment of drugs. According to the El Paso Intelligence Center, 65 percent of the narcotics that are sold in the markets of the United States enter the country through the Southwest Border.

(4) Border communities continue to incur significant costs due to the lack of adequate border security. A 2001 study by the United States-Mexico Border Counties Coalition found that law enforcement and criminal justice expenses associated with illegal immigration exceed \$89,000,000 annually for the Southwest border counties.

(5) In August 2005, the States of New Mexico and Arizona declared states of emergency in order to provide local law enforcement immediate assistance in addressing criminal activity along the Southwest border.

(6) While the Federal Government provides States and localities assistance in covering costs related to the detention of certain criminal aliens and the prosecution of Federal drug cases, local law enforcement along the border are provided no assistance in covering such expenses and must use their limited resources to combat drug trafficking, human smuggling, kidnappings, the destruction of private property, and other border-related crimes.

(7) The United States shares 5,525 miles of border with Canada and 1,989 miles with Mexico. Many of the local law enforcement agencies located along the border are small, rural departments charged with patrolling large areas of land. Counties along the Southwest United States-Mexico border are some of the poorest in the country and lack the financial resources to cover the additional costs associated with illegal immigration, drug trafficking, and other border-related crimes.

(8) Federal assistance is required to help local law enforcement operating along the border address the unique challenges that arise as a result of their proximity to an international border and the lack of overall border security in the region

**SEC. 03. BORDER RELIEF GRANT PROGRAM.**
