# Congressional Record

PROCEEDINGS AND DEBATES OF THE 114<sup>th</sup> CONGRESS, FIRST SESSION

Vol. 161

WASHINGTON, MONDAY, JANUARY 26, 2015

No. 12

## Senate

The Senate met at 4:30 p.m. and was called to order by the President pro tempore (Mr. HATCH).

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, thank You for Your un-failing love. Purify our hearts, making us fit vessels for Your use.

Lord, You know the many challenges that confront this legislative body, so guide our Senators with Your wisdom. Encourage them to live worthy of Your Name. Remind them that ultimately they will be judged by their productivity, for Your Word declares, "By their fruits You will know them." Today let Your presence continue to be felt on Capitol Hill.

We pray in Your Holy Name. Amen.

### PLEDGE OF ALLEGIANCE

The President pro tempore led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### RECOGNITION OF THE MAJORITY LEADER

The PRESIDING OFFICER (Mrs. ERNST). The majority leader is recognized.

### KEYSTONE XL PIPELINE

Mr. McCONNELL. This weekend President Obama's Chief of Staff lamented that the Senate has taken several weeks to debate an infrastructure project, the Keystone jobs bill. I agree it is about time to bring the Keystone debate to a positive conclusion, and we will do that soon. We have had a lot of floor discussion. We have considered Democratic and Republican amend-

ments. All in all, the last few weeks have been time well spent. The debate has been good for our country. But tonight is our chance to notch another win for the middle class by supporting cloture and then actually passing this bipartisan jobs bill.

We have heard rumors that some in the Democratic leadership are pressuring rank-and-file Democrats—even Democrats who cosponsored this bill—to block Keystone's jobs with a filibuster instead. This is really disappointing when you consider all that our friends on the other side have been saying about the filibuster for so many years.

What is most disappointing, though, is the apparent reasoning for the Keystone filibuster. The Democratic leadership is claiming that there haven't been enough opportunities to consider amendments. Yet nine current Senate Democrats voted for the Keystone project just a few weeks ago without having the opportunity to offer or debate even a single amendment. Nine current Senate Democrats just a couple of months ago voted for the Keystone project without having the opportunity to offer or debate even a single amendment.

This time around, the new Republican majority allowed more amendment rollcall votes on just this one bill—this one bill—than the previous leadership allowed on every single bill from last year combined. Altogether, there were more rollcall votes on this bill than we got on amendments on the Senate floor all of last year combined.

I would also note that a majority of amendments we have taken rollcall votes on were also offered by the minority, by the Democrats. We also offered our friends on the other side an opportunity to consider more amendments just a few days ago. They objected to it at the time. Even so, it is still my hope that we will be able to consider more amendments from both sides of the aisle. Instead of filibus-

tering this bill or blocking their own amendments, which we experienced the other night, I am asking my Democratic friends to work with the bill manager, Senator MURKOWSKI—who has done a fantastic job on this bill—to get amendments lined up.

Let's keep up the positive momentum generated by a more open legislative process that actually clearly has benefited both parties. A Keystone filibuster cannot succeed without the support of Democrats who voted for a Keystone bill just a few weeks ago without any amendments—any amendments—and who are cosponsoring the jobs bill today. I truly hope these Democrats won't vote to block Keystone jobs now just because a different party controls the Senate. The American people voted decisively against this type of partisan gridlock back in November. They want us to work together to get things done. Why don't we just continue to do that?

The debate over this bipartisan bill has already had so many positive effects on the Senate as an institution. It has shown Senators the benefits of a more open process, it has given a real voice to the minority, and it represents a decisive change from the broken Senate of recent years.

Here is how the assistant Democratic leader put it just a few days ago:

We are in a healthy environment on the floor of the Senate where we are pursuing amendments and active debate.

It is "great to see" this happening, he said. I couldn't agree more. That is exactly the way we ought to operate.

I would urge the Senate not to fall into the old partisan habits. Let's keep working together. Let's cooperate to get this important infrastructure project over the finish line and onto the President's desk.

I am calling on all of my colleagues—especially the cosponsors of this bipartisan bill, especially those who have supported Keystone without any amendments in the past—to vote for jobs and progress tonight, not the kind

S447

of gridlock American voters rejected so emphatically.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### RECOGNITION OF THE ACTING MINORITY LEADER

The PRESIDING OFFICER. The assistant Democratic leader is recognized.

#### KEYSTONE PIPELINE

Mr. DURBIN. Madam President, in a short period of time, less than an hour, the Senate is going to vote on whether to end the debate on Senate bill 1.

Senate bill 1 is the Republican's No. 1 priority this year. They are new to the majority in the Senate, and they got to choose the first and most important bill to call, and they chose this bill, Senate bill 1.

This bill will override the President's authority when it comes to making a decision on building the Keystone Canadian pipeline—Canadian pipeline. You see, Keystone is a Canadian corporation, and the Republicans in the Senate decided the highest priority when it comes to America's economy is to help this Canadian corporation.

There will certainly be construction jobs involved in the construction of this pipeline, but there will only be 35 permanent jobs that come out of this. The No. 1 priority for the Senate Republican majority is 35 permanent jobs. Most McDonald's hamburger franchises have more than that number of jobs.

But, having said that, let's talk about where we are on the floor of the Senate at this moment. In their new role as majority party, the Republicans asked us to take up this legislation, and they said: We want to go to the point we have made over and over during the past several years—we should have an open amendment process.

I am here to tell you that we have cooperated. I was quoted—I am honored, flattered—by the majority leader on the floor as saying I think it is healthy. I have said that for a long time. What changed in the Senate is not just the new majority but the new minority. Our feeling on our side is we need to be constructive, offer amendments, offer different points of view, offer different approaches, debate them on the floor, accept the will of the Senate, and move forward on legislation. That is what we have tried to do on this Keystone XL bill, and we have really offered amendments on the Democratic side that we think get to the heart of this debate.

My Republican friends and Senators like to characterize this as the Keystone jobs bill.

We started off by saying: Here is an idea. Let's say that the Canadian tar sands brought in through this pipeline and refined in the United States—the ultimate products, the oil products that come out of this refinery, are going to be there for Americans first, that Americans can use the gasoline and diesel fuel and jet fuel. In other words, it is going to stay in America.

The Republicans said no. We have to be prepared, after we go through all of this and build this Canadian pipeline, that ultimately none of the products will be used in the United States.

Then we said: OK, if we can't use the ultimate products coming out of this pipeline to help the American economy, then let's at least agree that we will build this Canadian pipeline in the United States with American-made steel. Let's put our steelworkers and foundries to work fabricating the steel to build the pipelines so we will create good-paying American jobs supplying the materials.

The Republicans voted no.

Then we said: Well, at the end of the day, these refineries, after they have processed Canadian tar sands, end up with a miserable byproduct called petcoke. It has some positive applications, but sadly, in many instances it is piled up stories high—even in the city of Chicago, within our city limits—and blows all over the neighborhood and into the lungs of children and elderly people. So let's at least have standards for the storage and handling of this byproduct that is going to come out of this Canadian pipeline.

The Republicans voted no.

Then we had a vote on whether we should be concerned with the environment. Using Canadian tar sands to make oil products puts more greenhouse gases in the air, more carbon dioxide, and should we be mindful of this.

If you read the votes that took place last week, it is unclear, uncertain as to where the Republicans stand on this issue. In fact, one Senator from North Dakota offered what I thought was a good amendment acknowledging this issue and then at the very end voted against his own amendment, which is rare in the Senate annals, but it shows you how conflicted many Republican Members were on the basic environmental issues.

Now let's get to the procedure and where we stand. Last Thursday night was troubling. After the constructive consideration of over a dozen different amendments on both sides of the aisle, the Republican majority leader said: Now bring out the next group of amendments. And we did. The Democrats cooperated. We produced six amendments we wanted up next, and the Republicans produced six amendments they wanted up next. An hour later, within an hour after producing the list, the Senate majority leader came to floor and said: That is it; we are not going to get this done as I wanted to get it done. We are going to start tabling the Democratic amendments, one after the other.

So the Members who offered the amendments, who had worked on the amendments stood at their desks as each amendment came up and said: I would like 60 seconds to just explain the amendment I wrote that we are about to vote on. Each and every time, the Republicans objected to 60 seconds of debate.

This is considered the world's greatest deliberative body. Yet the sponsors, the authors of the amendments were denied 60 seconds to even explain their amendments. It didn't leave a very good taste in the mouths of many Democrats—not even those who were supporting this Keystone Canadian Pipeline. Many of them think this is unfair.

If we are going to have a good-faith, bipartisan environment to consider amendments, let's go back and forth—Democrat, Republican—and let's consider the major issues before us. There are still major unresolved issues, health and safety issues, with pending amendments.

I approached the majority leader as he was leaving the floor and I said: Even if we do not invoke cloture this evening, let's work together on a bipartisan basis. Let's come up with these lists of amendments. Let's do this in a conscientious, good-faith effort to complete this bill.

I think we can achieve it. My hat is off to Senator LISA MURKOWSKI, Republican Senator, who has come to the floor, leading this effort on the floor with the debate, but I have a special place in my heart for the Democratic side, where two other Senators have been outstanding in bringing us to this point on the issue. Senator MARIA CANTWELL from Washington is leading our effort on the Democratic side in full partnership with Senator BARBARA BOXER of California, and many others.

As was suggested by a Senator last week, it is time for the boys to get off the stage and let the ladies come back in and consider these amendments and bring us to the right conclusion of thoughtful debate, important issues considered, and a vote in the U.S. Senate on this legislation.

#### REMEMBERING ERNIE BANKS

Mr. DURBIN. Madam President, last week America lost a hero and Chicago lost one of its greatest. Cubs Hall of Famer Ernie Banks passed away Friday night.

He was known as Mr. Cub. His love for the game of baseball was matched only by his passion for the city of Chicago.

He was a Hall of Famer in every sense of the word. He won the hearts of not just Cubs fans but baseball fans across the Nation with his power hitting and Golden Glove performances, and he endeared himself to everyone he ever met with his humble approach to the game of baseball and the game of life.

Before Hall of Famer Ernie Banks became Mr. Cub, he was 17 years old playing in a sandlot in Dallas, TX. That is where Cool Papa Bell, one of the legendary leaders in the Negro League, discovered this young man and signed him to play for the Kansas City Monarchs for \$7 a game.

While playing for the Monarchs, Ernie Banks was managed by another legend, Buck O'Neil.

Playing for the Negro League legend had a profound impact on young Ernie Banks. Buck had so much love for everybody that Ernie decided to model his life after him. It was with the Monarchs that Ernie learned to play with boundless energy and enthusiasm. He learned to express his joy for the game and took to heart the message Buck O'Neil, the manager, would often shout at him: "You gotta love this game to play it!" Ernie Banks loved it, and it showed.

Years later, O'Neil reunited with Ernie Banks when O'Neil agreed to manage the Cubs in 1962. Incidentally, he was the first African-American manager in Major League Baseball.

As one of the first African-American baseball players in the Major Leagues, Ernie Banks helped break down the color barriers. The Hall of Fame slugger and two-time MVP made his Major League debut at Wrigley Field in 1953, and he became the first African American to suit up for the Chicago Cubs.

He was only 180 pounds. He was not the most intimidating batter at the plate, but he had powerful wrists that generated tremendous bat speed. He whipped the bat through the ball, hitting 512 home runs in his career, with 2,583 hits, 1,636 RBIs, and having a career batting average of .274.

From 1955 to 1960, he was the most prolific home run hitter in the game, hitting more home runs than either Hank Aaron, Willie Mays, or Mickey Mantle during those years.

In 1958 and 1959, he was named the most valuable player in the National League. He was the first ever to win the award in consecutive years.

He was also the first player to have his jersey number retired by the Cubs, and on game days his number 14 flies proudly over the left field foul pole at the friendly confines of Wrigley Field.

Not surprisingly, Ernie Banks was inducted into Cooperstown the first year he was eligible. But it wasn't the numbers on the back of the baseball card that made Mr. Cub a beloved member of Chicago and the community. It was his passion for the game and the appreciation he showed to everyone he encountered.

Over the last several days, I have heard from baseball fans sharing their stories of meeting Mr. Cub. Nearly all were humbled by the opportunity to meet their hero, but even more impressed to find that Ernie was just as appreciative of his fans as they were of him.

It is an understatement to say that the Chicago Cubs had some tough sea-

sons during Ernie's 19-year career. The Cubs had not won a World Series since 1908 or a National League title since 1945. But every day, win or lose, Ernie would lace up his cleats, step on the field, and smile for the whole world to see. You could not help but love watching him play.

And for Ernie Banks, the eternal optimist, he always believed this was going to be the year for the Cubs. Every spring he predicted, without fail, the Cubs were going to win the pennant.

Well, Ernie never got to play in the post season. But his love of the game never wavered despite this. He became famous for his contagiously positive attitude. He often remarked: "It's a great day for baseball. Let's play two." That was the charm of Mr. Cub.

An 11-time All-Star, first-ballot Hall of Famer, selected to baseball's All-Century team in 1999, it was never about accolades or money for Ernie. He played for the pure joy of the game.

After hitting his 500th home run, becoming only the 9th player to achieve that feat, he summed up his feelings by saying: "The riches of the game are in the thrills, not the money." That is an inspiring message.

In 2013, I contacted some friends in the White House and asked President Obama to consider a Medal of Freedom for Ernie Banks. I felt that his impressive career with the Cubs and his courage in breaking down the color barrier in baseball were reason enough. But more than these amazing achievements, Ernie's spirit set him apart.

It was a special moment to be there at the White House when Ernie Banks received the Presidential Medal of Freedom. I was honored to see it and experience it.

After being awarded the Presidential Medal of Freedom, we held a reception for him in my office up here. I don't know if there have ever been so many humbled politicians coming by my office looking for an autograph. He happened to sign this photo for me that day that I have in the Chamber. I remember JOHNNY ISAKSON from Georgia—a faithful Atlanta Braves fan—made a point of being there to meet Ernie Banks. And I remember HARRY REID, when he met Ernie Banks, said: "I used to play a little baseball." Ernie Banks said to him: "Well, Senator REID, what position did you play?" He said: "I was a catcher." Ernie Banks said: "If you were truly a catcher, get down in that catcher's position." Somehow or another, HARRY REID got down in that catcher's position right in my office to prove it to Ernie Banks.

Ernie could not have been more gracious with his time, signing autographs for everybody who showed up. He made time for everybody.

The North Side of Chicago and Wrigley Field will not be the same without Ernie. "Let's play two" will echo off the bricks and ivy for generations to come. His positive, hopeful, Cub view of life filled every room and

every baseball diamond he ever touched.

And now it would seem they need to find a new roster spot on the Field of Dreams—and everyone better be ready for daytime double-headers too.

Ernie Banks, your spirit, passion, and sunny outlook on life will be missed.

I yield the floor.

#### RESERVATION OF LEADER TIME

The PRESIDING OFFICER. Under the previous order, the leadership time is reserved.

#### KEYSTONE XL PIPELINE ACT

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of S. 1, which the clerk will report.

The assistant bill clerk read as follows:

A bill (S. 1) to approve the Keystone XL Pipeline.

Pending:

Murkowski amendment No. 2, in the nature of a substitute.

Vitter/Cassidy modified amendment No. 80 (to amendment No. 2), to provide for the distribution of revenues from certain areas of the Outer Continental Shelf.

Murkowski (for Sullivan) amendment No. 67 (to amendment No. 2), to restrict the authority of the Environmental Protection Agency to arm agency personnel.

Cardin amendment No. 75 (to amendment No. 2), to provide communities that rely on drinking water from a source that may be affected by a tar sands spill from the Keystone XL pipeline an analysis of the potential risks to public health and the environment from a leak or rupture of the pipeline.

Murkowski amendment No. 98 (to amendment No. 2), to express the sense of Congress relating to adaptation projects in the United States Arctic region and rural communities.

Flake amendment No. 103 (to amendment No. 2), to require the evaluation and consolidation of duplicative green building programs.

Cruz amendment No. 15 (to amendment No. 2), to promote economic growth and job creation by increasing exports.

Moran/Cruz amendment No. 73 (to amendment No. 2), to delist the lesser prairie-chicken as a threatened species under the Endangered Species Act of 1973.

Daines amendment No. 132 (to amendment No. 2), to express the sense of Congress regarding the designation of National Monuments.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. COATS. Madam President, I came to the floor to speak about a measure that is supported by Members of both sides. I was listening to the remarks by the minority whip on who commemorated the life of Ernie Banks.

#### REMEMBERING ERNIE BANKS

I began school in Chicago in the early 1960s, when Ernie Banks was playing, and it is to be noted for the record that my grade point average would have been higher had I not spent so many afternoons at Wrigley Field watching the Cubs play. During that time all the games were played during the day, and

as such I missed a few classes to watch our beloved Cubs.

But our beloved player—perhaps the most beloved player in baseball history—Ernie Banks was a true delight.

I wish I had time to speak more on that particular issue, but what I would like to direct my attention to is a bipartisan-supported measure, S. 1. The American people, in November, said: Get back to Washington. Work together, and get things done. And one of which was the Keystone Pipeline. It has bipartisan support. In fact, on the motion to proceed to this measure, 10 Democrats joined Republicans in this effort. And that is what we are debating here.

MEDICAL DEVICE ACCESS AND INNOVATION  
PROTECTION ACT

But I am here to talk about a second bill that certainly deserves to be in the top five of pieces of legislation that have bipartisan support and will hopefully result in passage and then sent to the President. And, hopefully, with a number of Democrats joining Republicans in these efforts, the President will take a second look at his veto threats on measures that have bipartisan support.

It was Winston Churchill who said that a nation trying to tax itself into prosperity “is like a man standing in a bucket and trying to lift himself up by the handle.”

Unfortunately, one of Indiana’s most vibrant, growing industries is stuck in the bottom of the bucket because of a small provision tucked away in the 2,000-page ObamaCare law, which imposes on them an excise tax, a 2.3-percent excise tax on every sale they make of medical devices, hindering innovation and job creation.

Medical device manufacturers in my State directly employ over 20,000 Hoosiers and indirectly support thousands of additional jobs. These are jobs that pay well above the average—56 percent higher wages than the average wage rate in Indiana. So these are top-quality jobs, providing significant employment for a significant number of Hoosiers.

We have more than 300 FDA-registered medical device manufacturers in our State, and this is true of many other States. This industry is boosting our State’s economy, our Nation’s economy, and producing technologies that are changing and saving lives.

Products ranging from wheelchair van lifts to artificial knees, hips, and shoulders, to catheters used in heart procedures, have improved or saved the lives of many Hoosiers and countless others not only in my State, not only in America, but across the globe.

Since the implementation of this excise tax—passed in the ObamaCare Act in 2010, imposed in 2013—this destructive tax has caused companies to freeze hiring, lay off workers, and shelve plans to expand and build new facilities.

A survey by the Advanced Medical Technology Association found that the

device tax forced manufacturers to let go of or avoid hiring 33,000 workers in 2013.

Look, I thought we were trying to get people back to work. I thought we were working to pass bipartisan legislation that would benefit this country and benefit those who are seeking employment.

Cook Medical of Bloomington was forced to table plans for a major expansion because of the device tax.

In 2013 testimony before the Senate Budget Committee, Cook Medical chairman Steve Ferguson stated:

Cook has made the difficult decision that without repeal [of the medical device tax], we will move important new product lines outside of the U.S. Our previous plans to open up five new manufacturing facilities in American towns are now on hold as we use capital intended for these projects to pay the device tax.

The negative impact of this tax is not only felt by large employers such as Cook Medical, it also hurts gross sales of companies that are not making a profit but are developing innovative new ways to find benefits for the health and safety, and even the life, in many cases, of those who need these medical devices.

As a result, these companies are not profitable because they are having to pay the tax. They are struggling to launch new innovations to save and improve lives. For instance, a small Warsaw, Indiana-based manufacturer, which develops and sells orthopedic implants for children, had to shelve two important projects simply because it had to use its resources to pay the medical device tax.

After the tax was implemented, an employee of that company shared his story with me. Because of this tax, he said, the manufacturer is now largely inhibited from working on important new products, such as a device that reduces a wheelchair-bound child’s discomfort.

How ironic that ObamaCare, which the President said would increase the health benefits for Americans in coverage, is actually a barrier to improving lives and health outcomes.

Last week, I joined nine of my Senate colleagues, including five Democrats, to introduce the Medical Device Access and Innovation Protection Act. Our legislation would eliminate this tax and has strong bipartisan support.

During the last session of Congress, 79 Senators voted to pass a bipartisan amendment to the fiscal year 2014 Senate budget resolution that called for the repeal of this device tax—79 Members, 34 Democrats and 45 Republicans. It does not get much more bipartisan than that.

So we are hoping that while this may not be labeled S. 2, it certainly stands in the top three or four issues that have strong support and will respond to the call of the American people in November to get back to Washington, get together, work on things with bipartisan support that are going to improve

our economy and get people back to work, and get it up to the President.

I hope my colleagues will see that this egregious, harmful tax, tucked away in the Affordable Care Act, will force us to move forward, repeal it, and result in the kind of improvements the American people are asking us to address. It is long past time for Washington to stop punishing medical device innovators in Indiana and across the country. I am urging my colleagues to support this bill.

I yield the floor.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Madam President, we are trying to figure out how to do a fair division of the time that remains. I ask unanimous consent that Senators STABENOW and PETERS have 5 minutes between them to discuss an amendment they have been working on, followed by Senator CARDIN, who would have 3 minutes to explain his, followed by myself having 2½ minutes to discuss my amendment, then Senator HEITKAMP would have 5 minutes after that, and then the remaining time for Senator SESSIONS. Because that would be equal. That would add to our having as much time as Senators SESSIONS or MURKOWSKI, whoever at that point wants to speak.

The PRESIDING OFFICER. Is there objection?

Ms. MURKOWSKI. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Alaska.

Ms. MURKOWSKI. Madam President, I am seeking clarification. Is the Senator from California asking that these respective Members have an opportunity to speak to amendments or to get their amendments pending?

Mrs. BOXER. Well, some will ask for amendments to be pending. I know I will. Some will not ask that; they just want to be heard. But there is 30 minutes left in the debate. Your side just finished. Obviously, if we do not want to be fair, somebody could grab the time on our side now and talk for 30 minutes. We do not think that is right. We are trying to divide it up between our side and your side. So I have divided about 15 minutes on our side and given 15 minutes to Senator SESSIONS, who wanted to be heard on the matter.

The PRESIDING OFFICER (Mr. COATS). The Senator from Alaska.

Ms. MURKOWSKI. Mr. President, again, I am seeking clarification here, because up until this point in time, what we have done, in order to get amendments pending, is the ranking member and I have kind of worked back and forth in terms of what it was that would come up as far as pending.

As far as Members just seeking to speak to amendments, I certainly do not have a problem with what the Senator from California has proposed. I am trying to get some other understanding. I was also—my understanding is that I had the time beginning at 5:15 p.m. reserved. I think there is a little bit of confusion here.

Mrs. BOXER. Reclaiming my time, we have already wasted 4 minutes of the 15. The Senator can object if she does not want to allow us to have an amendment pending, but I am going to start off here. Is the Senator still objecting? Instead of Senator SESSIONS, I will give—now it is about 12 minutes to you at the end. Is that all right with the Senator?

Ms. MURKOWSKI. Mr. President, again, I am trying to understand. If Members just want to speak to their amendments, there is not a problem with what the Senator has suggested. It is just the question of whether we are getting amendments pending, because we have been going back and forth, side to side, up to this point in time.

I will be happy to put the microphone down and let the Senator from California speak to her amendment while Senator CANTWELL and I talk about how we get more amendments pending. That way she can get talking.

Mrs. BOXER. Well, if I might say this: Every Senator has a right to ask unanimous consent on anything. If the Senator does not like it, she can say, "I object." I do intend to—I cannot speak for anybody else. I want to make my amendment pending because it is germane. I want to make sure it is heard. It is about public health. So if my friend does not want to agree to this unanimous consent, then I think what we will do is I will hold the floor and I will yield to colleagues for questions and they can make their points.

I do not understand my friend's objection to the way we have it laid out.

The PRESIDING OFFICER. Is there objection?

Ms. MURKOWSKI. There continues to be objection. I would like to meet with the ranking member to continue a process of back-and-forth to make amendments pending. I have no objection to the Senator from California speaking to her amendment at this time.

The PRESIDING OFFICER. Objection is heard.

Mrs. BOXER. Well, I am going to take the time now—the entire time—and yield to colleagues for them to ask me questions. So I will speak for 2 minutes or less and then I am going to ask unanimous consent on my amendment.

We want to have a study of the significant human health impacts of the Keystone Canadian XL tar sands pipeline. I do not believe they were adequately addressed in the supplemental environmental impact report or completely analyzed.

I held a press conference with doctors from Canada who spoke about the adverse impact on the health of people living near the pipeline. We have had spills along the pipeline in Michigan, in Arkansas. Those spills are not adequately cleaned up as we speak.

As Senator CANTWELL informed me, there have been an additional two spills since the new Congress came into session. From extraction to transpor-

tation to refining to waste storage, misery follows the tar sands. We know there are dangerous air pollutants and carcinogens that have been documented from tar sands refining—all of this to help a Canadian private company make a whole bunch of money, and we cannot even keep the oil in this country.

Are you kidding me? Thirty-five permanent jobs. The least we can do is have an in-depth health impact study before we approve this pipeline.

I am very sad to say—you know, we still have this kind of gag-athon going on from the other side. They would not even let people speak for 1 minute on their amendment. That is why I am grabbing the floor here. I could not even get agreement to divide up the time, so I am taking the time.

I will be happy to yield to my friend from Michigan, through the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Thank you very much to my friend and colleague and leader from California.

I first want to say thank you to Senators MURKOWSKI and CANTWELL who have worked so hard with Senator BOXER moving forward a process that, until Thursday night, was working very well going back and forth.

Before we authorize the building of a new oil pipeline in America, it is important for us to consider the safety of pipelines we already have.

In 2010, a pipeline that runs from Canada through Michigan spilled nearly a million gallons of tar sands oil into the Kalamazoo River, causing the largest inland oil spill in U.S. history. That cleanup cost \$1.2 billion.

Nine days ago, another pipeline broke in Montana, and for the second time in 4 years, tens of thousands of gallons of oil emptied into the Yellowstone River, making that water unsafe to drink.

Right now in Michigan, we have a 61-year-old pipeline which runs along environmentally sensitive areas and goes beneath the Straits of Mackinac and our magnificent Great Lakes.

That pipeline carries 1.2 million gallons of tar sands oil per day and has undergone only a few upgrades since it was first installed in 1953. A spill would be devastating, not only to the region but to all Americans—because the Great Lakes are a vital source of our Nation's fresh water supply.

Yet none of the companies transporting heavy tar sands crude are required to pay into the Oil Spill Liability Trust Fund, which would ensure that taxpayers are not footing the bill.

When we offered an amendment to fix that, the Republicans said no.

America's economy is only as strong as our natural resources, and those resources are threatened every time a pipeline breaks.

Making matters worse, Republicans said no to amendments that would keep the oil in America, guarantee the pipeline be built with American steel and use American workers.

So Americans take all of the risks with very few, if any, rewards.

Because Republicans refuse to make this Canadian oil company pay into the oil spill fund, American taxpayers may have to bailout the company if the pipeline breaks.

So, before our Colleagues vote on behalf of the oil companies to approve the construction of the Keystone XL Pipeline, it is critical that we pass the amendment that my friend and partner from Michigan and I have introduced.

This amendment ensures that we address the safety of the pipelines that we have now—before beginning construction on Keystone. And it would ensure that the heightened safety standards being applied to Keystone exist in pipelines around the Great Lakes.

The Republican majority has promised an open amendment process, so I certainly hope that when my colleague from Michigan offers this amendment in a few moments, the Republican majority will allow a vote on this critical pipeline safety amendment—even though Big Oil may not like it.

Again, the American people are taking all of the risks when the oil will not even stay in America. The least Congress can do is guarantee the pipelines are safe.

I would ask my friends to join with Senator PETERS and me in saying that before we authorize the building of a new oil pipeline in America that we have to consider and strengthen the safety of pipelines, the pipelines we already have. In 2010, a pipeline that runs from Canada through Michigan spilled nearly 1 million gallons of tar sands oil into the Kalamazoo River—this has been talked about before—causing the largest inland oil spill in U.S. history.

So we need to vote on Senator PETERS' and my amendment. The cleanup itself cost \$1.2 billion. Nine days ago, another pipeline broke in Montana. For the second time in 4 years, tens of thousands of gallons of oil emptied into the Yellowstone River, making that water unsafe to drink. So would my friend from California agree with me and share concerns that under the Straits of Mackinac—and our gorgeous, beautiful Great Lakes—we have a 61-year old pipeline that runs through environmentally sensitive areas, goes right under the water, and has only been upgraded a couple of times since 1953?

Before we pass this Keystone Pipeline bill, we should make sure our Great Lakes have the pipeline safety we need, as well as all of our pipelines across the country.

Would my colleague agree with that?

Mrs. BOXER. I could not agree more with my friend. Her question is pertinent and to the point of this debate. We are giving permission to a Canadian company to come through and use America as a passthrough. They are going to leave behind petcoke, leave behind spills—they have already done it before with the tar sands pipeline. This is the hardest oil to clean up.

I absolutely know that my friend Senator PETERS has a question as well.

Without losing my right to the floor, I ask unanimous consent to set aside the pending amendment so that I may call up my amendment. I will wait for the objection to be heard. I am not going to plow through this.

The PRESIDING OFFICER. Is there objection?

Ms. MURKOWSKI. I object.

The PRESIDING OFFICER. Objection is heard.

Mrs. BOXER. That was my amendment No. 128. I am very disappointed, because what the Senator is talking about, making sure the pipelines are safe, and what I am talking about, a health study, are quite related.

I know my friend from Michigan wanted me to yield for a question. I am happy to do so.

Mr. PETERS. I appreciate the Senator from California yielding for a question, as I am listening to this debate and hearing from my colleague, the Senator from Michigan, as to the importance of pipeline safety, as we are now debating a very comprehensive bill to give approval for one specific pipeline in this country, which I think is very much an unprecedented type of vote in the Senate.

My question is: Why do we not have an opportunity, or would the Senator not agree that we should have an opportunity, to offer amendments? I know I am new to the Senate, but I was informed this would be an open amendment process. My idea of an open amendment process means you can actually offer amendments. It means you can also actually debate amendments. That is an open process, particularly something as important as protecting our Great Lakes, this incredible, immense body of freshwater, one of the largest bodies of freshwater in the world. We have a pipeline that goes through there, above the lakebed, that could potentially be catastrophic if there is a break.

As Senator STABENOW mentioned, in Michigan we have already had the most expensive pipeline break in history—4 years of cleanup of Canadian tar sands oil, oil that sinks to the bottom of the river. It is more expensive to clean up—over \$1.2 billion in cleanup. So you can imagine if we had a pipeline break in the middle of the Great Lakes. It would be catastrophic to this country, it would be catastrophic to the State of Michigan, but really catastrophic to the entire world. It is a risk we cannot take.

That is why we have authored a commonsense amendment that says we should ensure that there is adequate inspection, that PHMSA has the resources they need in order to inspect this, and if there are special requirements to protect the Great Lakes, as there were special requirements for Keystone, it should also be available to other pipelines, particularly in sensitive areas such as the Great Lakes.

That is why, in the spirit of an open amendment process, in the spirit of

this great deliberative body, where people are allowed to debate the big issues affecting our world, I ask unanimous consent to set aside the pending amendment so that I may call up my amendment No. 70.

Ms. MURKOWSKI. Objection.

The PRESIDING OFFICER. Objection is heard.

Mrs. BOXER. If I could answer the question posed to me by my friend—he asked do I think there ought to be an open amendment process. Not only do I think there should be, we were promised an open amendment process. What occurred here at midnight on Thursday night, before the Senate left—some of our colleagues who are running for President went out to my beautiful State to make their case, as they have every right to do. But instead of staying on Friday, we adjourned on Thursday night. It was anything but an open amendment process.

I see the Senator from Massachusetts on the floor. He had a critically important amendment. He asked for 60 seconds to explain his amendment. I have been here over 20 years. I have never seen a situation, ever, where five Members in a row, five great Senators representing their great States, were told: Sit down; we are gagging you. That is what happened. This is wrong. So we are going to be asked to proceed today and shut down the amendment process even further. I do not know how the Senate is going to vote. However the Senate votes, it votes. But the bottom line is, this has been anything but an open amendment process. My friend is absolutely right.

I know the Senator from Maryland wanted to ask me a question.

Mr. CARDIN. Mr. President, could I ask my colleague from California to yield for a question?

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. The question I am going to ask Senator BOXER to respond to is: What are the consequences if we invoke cloture about 15 minutes from now when that comes up for a vote on the floor?

There were many of my colleagues who had amendments they wanted to offer. They filed those amendments.

Unless those amendments become pending, it is my understanding that—and unless those amendments meet the very narrow germaneness rule—they may be relevant to debate—but the germaneness rules are pretty tough so that unless we defeat cloture, we may not have an open amendment process.

I know the majority leader talked about an open amendment process, but many of my colleagues—including this Member, who has additional amendments I would like to have considered—will not be able to get those amendments considered, if I understand it, Senator BOXER, unless the cloture motion is defeated.

Let me talk for one moment about amendment 75, which I filed and is pending, and I think is critically important.

What that amendment would do is allow our Governors and our county officials to be able to get information about the risk to their drinking water as a result of the potential spills on the aquifers. This is not a hypothetical question because the Ogallala Aquifer, which is the country's largest underground freshwater resource, is crossed by the proposed line of the Keystone. Therefore, it is of major concern to the Governors and local officials what a potential spill could have with regard to their drinking water supplies, to their communities. At some of places the aquifer is within 5 feet of the surface. So a spill could have a dramatic impact on the supply of safe drinking water.

As has already been pointed out by my colleagues in Michigan, in July 2010 there was a pipeline rupture near Marshall, MI, that released 843,000 gallons of tar sands oil. It had a horrific impact on the environment, and it is still difficult to see the end in sight because of the cleanup difficulties in this thick, tar sands oil.

On March 29, 2013, there was a pipeline rupture in Mayflower, AR, that caused an incredible challenge to the cleanup.

So my amendment is pretty simple. My amendment would allow that information to be made available to our Governors and our local officials so that they could then notify the President that they have a concern on the route and allow that to be considered before the pipeline is constructed, giving our local governments the opportunity to be heard—to have the information and then be heard on this very important issue.

My question to the Senator from California, Mrs. BOXER, is: If we are going to have an open amendment process, how can that be if the cloture motion that was filed by the majority leader were to become approved? Wouldn't that deny us that full, open amendment process that we had heard was going to be used in this Congress?

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. I thank my friend for the question.

Again, we were promised an open amendment process.

I wish to make a point to my friend who has worked so hard on the Environment and Public Works Committee. I am so appreciative of his work. Do you know, if an amendment like yours does not pass, what it means is that American companies will be treated in a much harsher fashion than a Canadian foreign oil company—in other words, because the other side is just saying: No more facts, no more information, no more environmental impact statement—even though we know there are health impacts due to the tar sands.

The Senator has pointed out the possibility of having a bad impact on drinking water. We have seen what has happened in West Virginia when we don't worry about that.

So my friend is absolutely right, and I am honored that he asked me to comment on this particular amendment. And I hope that he will ask—I know you are pending. I hope that you are going to get a vote on this amendment one way or another.

I know some other colleagues may want to ask a question.

Ms. HEITKAMP. Would the Senator from California yield for a question?

Mrs. BOXER. I am pleased to yield to the Senator.

The PRESIDING OFFICER. The Senator from North Dakota.

Ms. HEITKAMP. I thank the Senator.

From the start, let me say that Senator BOXER and I are not on the same side on the principal bill. I have long been one of the staunchest supporters of the Keystone XL Pipeline bill.

A lot of what we have heard today is about the consequences of aging infrastructure. So the question I have for Senator BOXER is: Would it not make sense, as we are talking about this Keystone XL Pipeline bill, that we find common ground that we all should agree that we need the resources to have the regulatory authority and the regulatory personnel to go out and make sure that aging infrastructure—the infrastructure underneath the Great Lakes and what happened now in the Yellowstone River—that we have a robust and very complete PHMSA organization that has the personnel to go out and follow the pipeline, test the pipeline, and review the results? But even as important to me is PHMSA's role in making sure that our transportation of oil on the railroad is actually adequate, that we have adequate regulation.

So one of my amendments—not pending but filed—is, in fact, an amendment that would address directly what I would hope would be common ground for everyone in the Senate, which is making sure we are, in fact, regulating interstate pipelines.

I also wish to talk about how we have an “all of the above” policy that everybody talks about where we somehow don't seem to get to that point.

One of the amendments I have at the desk, which I would dearly love to call up and make sure that it gets a vote, is an amendment that would provide a long-term—just 5 years—glide path for wind energy.

I think we have seen, as we have included this in the tax extenders, this stop-and-go policy that has, in fact, not only put the companies' lives on hold but also their employees' lives.

I am hopeful. We don't know how the vote is going to turn out. No one knows until the vote is done, but I am hopeful that we will be able to come back and introduce so many of these amendments that my colleagues have advanced—some of which I agree with and some of which I don't.

But that is the nature of the Senate—that we actually have a vote, because I think, as a believer, I have good ideas but my ideas should have a debate in the Senate.

But wouldn't the Senator agree that one common area that we all share is making sure that we have a robust regulatory environment to protect our waterways, to protect our farmers' soil from any leaks, and to make sure that any leaks, to the extent they are preventable, are prevented.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. I say to my colleague from North Dakota, of course, I agree with her. We don't agree on the tar sands pipeline, but we do look for common ground, and she has found it. The importance of inspecting the infrastructure can't be overstated.

I say to my friend, before she leaves the floor, this is a picture of a recent spill. Actually, it was 2013. It still has not been cleaned up in Arkansas because the pipeline burst—200,000 gallons of tar sands burst from the pipeline, and it spilled all over the streets of a subdivision. Residents were exposed to high levels of benzene, a known carcinogen, and hydrogen sulfide. They suffered from dizziness, nausea, and headaches—all classic symptoms of exposure to the chemicals found in tar sands.

Rainfall causes oil to float to the top of the soil and off gas. What is happening here is it still has not been cleaned up.

My friend has an amendment that would say: Let's inspect the infrastructure to make sure things such as this do not happen. Of course, I support it. I hope she will vote her conscience and hopefully vote to keep this amendment process open.

I know my friend from Massachusetts has a question, and I yield to him if he does.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. MARKEY. I thank the Senator from California.

Mrs. BOXER. The Senator has to ask if I would yield for a question.

Mr. MARKEY. I thank the Senator. I thank the Senator for taking the time to have this very important discussion in the Senate this afternoon.

This past Thursday night the majority leader decided they would not allow for a debate on an amendment I was propounding that would have imposed a tax on the Canadian oil as it is being transported through this proposed pipeline. In the eventuality of an oil spill, the Canadians would have to have contributed to.

The majority did not make it possible for me to speak for even 1 minute on ensuring that the Canadians had to pay the tax in the event there was an oil spill with their oil in the United States of America, while Americans would have to do so.

This is the question I am going to propound to the Senator from California. Right now we know that there is increasing carbon pollution in the atmosphere, which stacks the decks, increasing the chances that our country, our planet would draw an extreme

weather joker that would have catastrophic consequences for our country or for any other place in the world. We know that while no one storm can be attributed to climate change, scientists agree there is an increase in the intensity and the frequency of extreme weather events. In fact, in the 2013 consensus report bulletin of the American Meteorological Society said: “The number of severe regional snowstorms that occurred since 1960 was more than twice the number that occurred during the preceding 60 years” in the United States of America. So my question to the Senator from California is: Shouldn't we be debating this issue of increased frequency of snowstorms, of rain storms, of droughts, of extreme weather conditions? And isn't this something that Members should be allowed 1 minute, at least, to address, if not a full debate of these issues that have been triggered by the Republicans deciding they wanted to bring this bill onto the floor as their No. 1 priority for the year 2015? Is that not the subject we should be discussing and should it not be an open debate?

That is the question I propound to the Senator from California.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. I would say in response to my friend's question, I was so shocked when the Senator asked for 1 minute to explain his amendment and we heard multiple Republicans saying: No, no, a thousand times no.

As Senator DURBIN said, this is supposed to be the greatest deliberative body in the world. I grew up thinking that was true. I never saw this before where colleague after colleague after colleague after colleague was essentially shouted down. I haven't seen it here.

It has reached a new low with a Republican majority since. They absolutely won a huge election victory. There is no question about it. There was the promise that it would be an open process, and then we can't even have colleagues talk for 1 minute.

I know the Senator from New Jersey has a question as well. I yield to the Senator from New Jersey, because time is running out at 5:30.

Mr. BOOKER. Will the Senator yield for a question?

Mrs. BOXER. Yes, I will.

Mr. BOOKER. I am grateful that Senator BOXER will yield for a question.

This is a question I have of Senator BOXER, and I wish to get her feedback because of her years of experience, her wisdom, and her depth of understanding on this issue. I think there needs to be an amendment for critical protection.

The need for regulation requires agencies to supplement already issued environmental impact statements when significant new circumstances come about. When there is information about these new challenges to the environmental impact of a project, something really has to happen.

So this pending bill deems that the final environmental impact statement issued last January would fully satisfy the NEPA, that this would remove the obligation of permitting agencies to supplement that EIS if any new circumstance or information is discovered.

The amendment would change that and would preserve the obligation of agencies to supplement—if we had such an amendment, it could really protect that.

I was told by a lot of people that NEPA is sort of referred to as the environmental modern day Magna Carta. In other words, it is such a critical set of protections. If we have a circumstance in which there is a significant change in the pipeline—say they just decide to change the direction or move it a little bit and it goes through an entirely new area—not to be able to take into consideration new information, new circumstances where an environmental impact statement abated, seems to be wrong. It actually seems to be giving this company, this foreign company, more information, more opportunity than our current American companies.

I would love for the Senator to comment.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Senator BOOKER should be proud of this contribution to this debate and what he is doing in the environment committee.

Let me say quickly—because I know we are running out of time—here is the deal. You raised the golden standard—NEPA, the National Environmental Policy Act. The underlying bill says everything is satisfied. All you want to make sure of in your amendment is that if there is new information which shows this could harm the public—maybe cause more cancer, cause more asthma, and cause other problems—that we need a supplemental EIS, that we need a supplemental study before we approve this pipeline. Right now, they are not letting you offer that amendment.

Mr. UDALL. Mr. President, today we are voting to end debate on the Keystone Pipeline bill.

I want to be clear right from the start. I do not support this bill. I will vote against cloture and against final passage of the Keystone Pipeline bill. And I am disappointed about the way it is being jammed through to a vote.

I supported the motion to proceed to this bill for one reason and only one reason—because we were assured there would be an open amendment process.

We started that process last week. We have worked back and forth between Republican and Democratic amendments. Many of those amendments are important. And I believe we should continue until every Senator who wants to amend this bill has had a chance to make his or her case.

I have an amendment for a renewable electricity standard which would create hundreds of thousands of 21st-cen-

tury American jobs in my State and across the country. We owe it to all Americans to consider this and other amendments that would improve the bill.

The bill as it stands is not acceptable on many levels.

First, I am concerned that the new leadership chose to begin with a bill mandating a single pipeline for a foreign private company. This is a questionable use of the Senate's time and an unprecedented piece of legislation. Congress has never gotten involved in mandating a pipeline of this nature. But that is where we are. Now we are voting to cut off debate. The majority leader moved last week—late in the night—to set aside the Democratic amendments and bring an end to debate.

So we have a bill with a questionable beginning and a regrettable ending. The result is a missed opportunity to seriously address the energy needs of our country.

I said at the beginning of this debate that we are faced with a choice, a profound choice. We can deny that our climate is warming. We can fall behind our economic competitors. We can ignore the danger to our planet and to our security. That is one choice. Or we can move forward with a clean energy economy, with an energy policy that makes sense, that creates jobs, that protects the environment, and that will keep our Nation strong.

We had a good debate on climate change during this bill about whether or not humans significantly contribute to it. Many Senators made it clear where they stand. Many agree that yes humans are significantly contributing to climate change.

But while that is good for the record, it doesn't do much for the reality, because we have fallen short of taking any real action to address this great challenge. In fact, we are now compounding the problem by trying to pass this bill.

The bill lacks a comprehensive energy policy; it lacks even trying to set one. This is not a "do it all" energy bill. This isn't even a "drill, baby, drill" bill. This is a "drill, Canada" bill.

I believe we should continue working on the bill to address serious climate solutions, like a renewable electricity standard. The Keystone Pipeline is an investment in doing things the old way—importing foreign oil. Instead of doubling down on foreign oil, we should be talking about how we can move America forward by investing in the homegrown energy of the future.

A national renewable electricity standard would combat global warming, while creating hundreds of thousands of jobs across the country. It will help maximize our energy potential, while strengthening our economy and our energy security.

Let's vote on that, and let's move forward to meet the real energy needs of American families.

The PRESIDING OFFICER. All time has expired.

Mrs. BOXER. My time has expired. I thank the Chair very much for his patience.

The PRESIDING OFFICER. The Senator from Alaska.

Ms. MURKOWSKI. I ask unanimous consent that the mandatory quorum calls related to the cloture motions on Senate amendment No. 2 and S. 1 be waived.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

#### CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The assistant legislative clerk read as follows:

#### CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the Murkowski amendment No. 2: the Keystone XL pipeline approval act.

Mitch McConnell, Lisa Murkowski, Richard Burr, Jerry Moran, John Thune, Marco Rubio, Johnny Isakson, Kelly Ayotte, Ben Sasse, Deb Fischer, John Boozman, David Vitter, Tim Scott, Roger F. Wicker, Richard C. Shelby, Michael B. Enzi, Roy Blunt.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the Murkowski amendment No. 2: the Keystone XL pipeline approval act, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CORNYN. The following Senators are necessarily absent: the Senator from Illinois (Mr. KIRK), the Senator from Arizona (Mr. MCCAIN), the Senator from Kansas (Mr. MORAN), and the Senator from Florida (Mr. RUBIO).

Mr. DURBIN. I announce that the Senator from Missouri (Mrs. McCASKILL), the Senator from Maryland (Ms. MIKULSKI), the Senator from Nevada (Mr. REID), and the Senator from Virginia (Mr. WARNER) are necessarily absent.

The yeas and nays resulted—yeas 53, nays 39, as follows:

[Rollcall Vote No. 29 Leg.]

#### YEAS—53

Alexander	Crapo	Inhofe
Ayotte	Cruz	Isakson
Barrasso	Daines	Johnson
Bennet	Donnelly	Lankford
Blunt	Enzi	Lee
Boozman	Ernst	Manchin
Burr	Fischer	Murkowski
Capito	Flake	Paul
Cassidy	Gardner	Perdue
Coats	Graham	Portman
Cochran	Grassley	Risch
Collins	Hatch	Roberts
Corker	Heitkamp	Rounds
Cornyn	Heller	Sasse
Cotton	Hoeben	Scott

Sessions	Thune	Vitter
Shelby	Tillis	Wicker
Sullivan	Toomey	

[Rollcall Vote No. 30 Leg.]

YEAS—53

## NAYS—39

Baldwin	Gillibrand	Nelson
Blumenthal	Heinrich	Peters
Booker	Hirono	Reed
Boxer	Kaine	Sanders
Brown	King	Schatz
Cantwell	Klobuchar	Schumer
Cardin	Leahy	Shaheen
Carper	Markey	Stabenow
Casey	McConnell	Tester
Coons	Menendez	Udall
Durbin	Merkley	Warren
Feinstein	Murphy	Whitehouse
Franken	Murray	Wyden

## NOT VOTING—8

Kirk	Mikulski	Rubio
McCain	Moran	Warner
McCaskey	Reid	

The PRESIDING OFFICER. On this vote, the yeas are 53, the nays 39. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The majority leader.

Mr. MCCONNELL. Mr. President, I enter a motion to reconsider the cloture vote on the Murkowski substitute amendment No. 2.

The PRESIDING OFFICER. The motion is entered.

## CLOTURE MOTION

Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows:

## CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on S. 1, a bill to approve the Keystone XL pipeline.

Mitch McConnell, Lisa Murkowski, Richard Burr, Jerry Moran, John Thune, Marco Rubio, Johnny Isakson, Kelly Ayotte, Ben Sasse, Deb Fischer, John Boozman, David Vitter, Tim Scott, Roger Wicker, Richard Shelby, Michael Enzi, Roy Blunt.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on S. 1, a bill to approve the Keystone XL pipeline, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. CORNYN. The following Senators are necessarily absent: the Senator from Illinois (Mr. KIRK), the Senator from Arizona (Mr. MCCAIN), the Senator from Kansas (Mr. MORAN), and the Senator from Florida (Mr. RUBIO).

Mr. DURBIN. I announce that the Senator from Missouri (Mrs. MCCASKILL), the Senator from Maryland (Ms. MIKULSKI), the Senator from Nevada (Mr. REID), and the Senator from Virginia (Mr. WARNER) are necessarily absent.

The PRESIDING OFFICER (Mr. LANKFORD). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 53, nays 39, as follows:

Alexander	Donnelly	Murkowski
Ayotte	Enzi	Paul
Barrasso	Ernst	Perdue
Bennet	Fischer	Portman
Blunt	Flake	Risch
Boozman	Gardner	Roberts
Burr	Graham	Rounds
Capito	Grassley	Sasse
Cassidy	Hatch	Scott
Coats	Heitkamp	Sessions
Cochran	Heller	Shelby
Collins	Hoeven	Sullivan
Corker	Inhofe	Thune
Cornyn	Isakson	Tillis
Cotton	Johnson	Toomey
Crapo	Lankford	Vitter
Cruz	Lee	Wicker
Daines	Manchin	

## NAYS—39

Baldwin	Gillibrand	Nelson
Blumenthal	Heinrich	Peters
Booker	Hirono	Reed
Boxer	Kaine	Sanders
Brown	King	Schatz
Cantwell	Klobuchar	Schumer
Cardin	Leahy	Shaheen

Durbin	Merkley	Warren
Feinstein	Murphy	Whitehouse
Franken	Murray	Wyden

## NOT VOTING—8

Kirk	Mikulski	Rubio
McCain	Moran	Warner
McCaskey	Reid	

The PRESIDING OFFICER. On this vote, the yeas are 53, the nays are 39. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The majority leader.

Mr. MCCONNELL. Mr. President, I enter a motion to reconsider the cloture vote on S. 1, the Keystone XL Pipeline bill.

The PRESIDING OFFICER. The motion is entered.

The Senator from Alaska.

Ms. MURKOWSKI. Mr. President, we are here this evening, after the conclusion of two cloture votes where we have failed to get the sufficient 60 votes that are required to cut off debate and move forward on this bill.

As the floor manager, I will be working with my counterpart on the energy committee, Senator CANTWELL, to define a list of amendments and define the universe we are talking about. Perhaps we can work toward an agreement that will allow for additional amendments to be processed and ultimately allow us to get to passage of the Keystone XL Pipeline.

This measure, S. 1, is a bipartisan measure that will work to create jobs for this country and will not only help with our relationship with our friends and allies to the north but is also widely supported by the American public. I am hopeful that what we will be able to do tonight—by working with colleagues—is to again define how we will get to the final resolution of this very important bill.

Last week we saw this measure include several important energy efficiency bills—including the adoption of the measure of the Senator from Ohio—particularly the one provision that relates to water heaters, which is

very time sensitive. We were also able to add two sense-of-the Senate provisions to S. 1. One provision relates to the oil spill liability trust fund and the other provision is related to the issue of climate change.

Here we are, more than 2 weeks into debate on the Keystone XL Pipeline, and we voted on a total of 24 amendments to the bill. We voted on more amendments last week than we did in all of 2014. In fact, Thursday was a long day for all of us. We moved out 15 amendments, and that was as many as we had voted on in all of 2014. In 2014, this Senate voted on 15 amendments. This past Thursday, we voted on 15 amendments in one day on this Keystone bill. We are now up to 24 amendments, and we have made some progress.

I am very aware that not everyone is fully happy with where we are right now. We hit our first bump in the road—back to regular order—but that is the way we have to roll with some things every now and again. I hope we are at the point where we will be able to get back on track, a track that will allow for again closure of this very important measure.

I wish to remind Senators that we are in this place where we had to vote on cloture because we got to a point last week where a unanimous consent request to vote on the then-pending 12 amendments was blocked. I will also remind colleagues that invoking cloture on a bill does not end all debate. We still have up to 30 hours of additional debate time left, and during that time amendments that are germane to the underlying bill can still be called up, considered, and voted on. We have quite a few of those left.

In fact, at last count the amendments that have been filed to date—there are 143 amendments that I have on my tally today that have been filed. I don't know if that is a current, up-to-the-minute accounting. We asked Members to have their amendments in by 3 this afternoon and second-degrees filed by 5 p.m. My point to colleagues is that there is still much to be done with this bill if your interest is voting on amendments.

I wish to repeat something that the majority leader commented on when we came into session just a little bit ago. We were on this bill just 2 months ago, and at that time there was a grand total of zero amendments that we voted on—zero. So now, as I mentioned, we have at least three that have been incorporated into the bill already—two sense of the Senate, one on climate, one on the oil spill liability trust fund, and one on energy efficiency. Again, there are some 140 to 150 amendments that have been filed.

I am glad we have this process going on. I am glad to see these amendments. For those who suggest that somehow or other the majority is closing down the opportunity for debate or to offer amendments, all we need to do is look where we were 2 months ago. Two

months ago this bill had zero amendments. Fast forward to today, and we have had votes on 24 amendments to this bill. We have adopted at least 3 of those amendments, and again there are some 140-odd amendments that are out there.

I want us to get through this measure, and I wish to do so in a way that is respectful to the process, respectful to Members, and that dignifies this institution. We have a lot out there, and I recognize that.

I have had Members from both sides of the aisle ask me: How do I get my amendment pending? How do I get it to the point so it can be considered? We will be working on that issue tonight and into the morning.

I thank my colleague from Washington because I do think we have truly been trying to work in good faith.

My colleague from North Dakota has a few words on the process, and then I would like to reclaim my time for just a few more moments, if I may.

With that, I turn the floor over to the Senator from North Dakota.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. HOEVEN. Mr. President, I thank the bill manager on our side of the aisle, the good Senator from Alaska, as well as the bill manager on the Democratic side, the Senator from the State of Washington, for working together and trying to get a list of all of the amendments and do everything possible to get them scheduled for a vote.

I ask that Members on both sides of the aisle work with the bill managers to try and get a list of amendments so they can be scheduled for a vote. As the Senator from Alaska said, we have already had at least 19 amendments. We know there are more amendments that Senators would like to have a vote on, and we appreciate and understand that. There has been a real effort to try to get those votes scheduled.

Again, I thank the bill managers for their hard work and ask that Members on both sides of the aisle work with the bill managers to try and get those amendments identified where they need to have a vote and get them scheduled so we can get to the votes in a timely manner so Members can have as much information as possible ahead of time in order to consider their respective issues and have a vote.

We have to remember that in trying to go back to an open amendment process and regular order, there is some work on figuring out how to get that going and to do so in a bipartisan way, and of course we are working through it on this legislation.

A final point: At the end of the day, we will be discussing more about this legislation, but it comes down to how the individual Members of this body feel about this underlying legislation. It is about energy, jobs, economic growth, and national security at a time when energy security for our country is so very important. Again, this goes to the underlying merits.

Let's see if we can't get these amendments scheduled and vote on them and move this along as well as we can this week and get that done. It is not only important for this legislation, but we want to have that same kind of open process with other legislation as well. It is about getting the work done for the American people.

With that, I yield back to the Senator from Alaska.

The PRESIDING OFFICER. The Senator from Alaska.

Ms. MURKOWSKI. I thank the Senator from North Dakota for his leadership on this issue. He has been persistent, diligent, and very articulate as we have moved through the process, and I appreciate that a great deal.

I thought I was going to be spending the vast majority of my time this week going through each of these many amendments that Members have presented. As I mentioned, we have 140-plus amendments. But my attention on Keystone and the issues in front of us was dramatically pulled away because of an announcement by the administration which I learned of late on Friday evening, and which was the first announcement today.

The fact is I am not in a very good mood right now. I am not in a very good mood, and I think it is probably true to say that most Alaskans are not in a very good mood, because folks back home woke up Sunday morning to the news that this President effectively declared war on our economic future in the State of Alaska.

I know those are pretty hard words. It has been suggested by some in the administration that perhaps I am overreacting. Let me tell my colleagues, when our economic opportunities as a State, which lie in our natural resources, are denied us as a State and the promises that were made when we entered the Union—the compact we made—we are now not able to see those promises, then there is nothing else. There is no other way to describe it than that it is a war on our economic future.

We have winter going on in Alaska right now. In my hometown where I went to high school, I think it was about 30 below this weekend. Up on the North Slope, temperatures are about 60 degrees below zero. It is pretty cold.

The President, in his video where he made his announcement that he is moving to put the Arctic Coastal Plain in de facto wilderness, described the area in the North Slope as fragile, that the wildlife is fragile. I will tell my colleagues, the area in the coastal plain, the area in ANWR is an amazing place. It is a special place, as are so many places in Alaska. It is an amazing place. I am blessed to call it home. But the President decided on Sunday that this was the perfect day to announce his unilateral decision to manage the Arctic Coastal Plain as de facto wilderness.

Now the coastal plain—and I don't have my maps, but we are going to be

seeing a lot of maps of Alaska and ANWR coming up here. The coastal plain is the area on the very northern part of the State, and it is part of the nonwilderness portion of ANWR. People need to understand that ANWR is a huge area. It is 19.7 million acres. It is an area the size of the State of South Carolina. There are portions of ANWR that have been designated as wilderness and they were designated as wilderness back in 1980, along with other areas in the State of Alaska that were designated as wilderness. In fact, so much wilderness—close to 60 million acres of wilderness designated in 1980—so much so that there is actually a provision in the law, in ANILCA, that says, that is enough. Alaska has given enough, in the sense that more than half of the wilderness area in the United States of America is in Alaska. That is, Alaska has more than half of all of the other wilderness in all of the remaining 49 states. Alaska has more than half. So the sense was there will be no more wilderness declarations in Alaska. Yet, the President announces Sunday that, in addition to the coastal plain, effectively all of the balance of ANWR will be managed as wilderness.

So what does this mean to a State such as Alaska? Again, history is going to be important in this discussion going forward because the area in the coastal plain—the 1002 area—and it is designated as such because of a section in the law—the coastal plain was specifically set aside in 1980 for further study of its oil and gas potential. So a decision was made back in 1980 where we had more than 100 million acres in Alaska that were turned into Federal law, but it was recognized that this area—that 1.57 million acres—was unique because of its resource potential. It was identified in law as such. And it said, We are going to reserve this. We are going to study it for its oil and gas potential.

Then, in the 1980s, the Reagan administration did just that. They studied the coastal plain and they recommended that it be open to responsible energy development. Ever since then we have been seeking permission to open up just 2,000 acres on the coastal plain for that very purpose—for oil and gas exploration.

We are not talking about opening up the full coastal plain. We are not talking about touching any of the area that was designated as wilderness in 1980. We are talking about a development that would have an impact on an estimated surface area of 2,000 acres in a 1.57-million-acre area that has been set aside specifically for this.

So when we think about what that means, we learn that 2,000 acres is .1 percent of the entire 1002 area. It is .01 percent of ANWR. When we put it into context, 99.9 percent of ANWR would remain untouched if all we were seeking to do was to access the 2,000 acres.

We also know that if we were able to access this small area within the coastal plain that we can gain access to an

estimated 10.3 billion barrels of oil. If we produce oil at that rate of 1 million barrels a day, it will last almost 30 years.

Right now we have an oil pipeline in Alaska, the Trans-Alaska oil pipeline, which bisects the State 800 miles from the North Slope down to Valdez, and it has been doing a fine job of providing resource to the country in an environmentally sound and safe manner. It is an engineering miracle. It is fabulous. What it lacks right now is more oil in the pipe. We are less than half full. So the State of Alaska is being aggressive in looking for how we might not only fill up the pipe to help Alaska and to help the country and to bring about jobs and bring about revenues, but how we can do so in a responsible manner.

We think we have some pretty high standards in Alaska, and we need to. This is extreme environment. It is tough working there right now, let me tell my colleagues. They don't shut down because it is cold. In fact, this is the only time of the year they can explore out there, because the environmental safeguards are such that we can't take exploration rigs out on the tundra in the summer where it might leave a mark. No. We wait until it is the coldest, the darkest, and the ground is frozen as far as it possibly can. So this is the time of year that we are hoping to be able to do more.

But what this President is doing is not only saying no to that 2,000 acres we are seeking to access that will be bringing us a million barrels a day, potentially, for 30 years and allowing for jobs and a resource—no to that 2,000 acres—he would say no forever. He would not only say no to oil and gas development, but no to anything else. No road, no airstrip, no nothing.

The President is saying the Congress has to make this decision, and in fairness, that is true. It is only the Congress that can make that decision to convert the coastal plain to permanent wilderness. But the reality is he has made this decision, and he has made it without us. What happens under this comprehensive conservation plan—this CCP—this area is now immediately treated as wilderness, with or without our approval. So that designation may not be there, but how is it being treated? It is being treated as wilderness.

I would assert this is in clear violation of the “no more wilderness” clause—the “no more” clause in ANILCA. It is so frustrating. It is so infuriating to think that we acknowledged that some 30 years ago, when ANILCA was passed, and that recognition—when so much of the State of Alaska was put off limits to any form of development, to place it in wilderness status and to have the Federal Government agree that we had done our part, that we had contributed enough of our lands.

The Presiding Officer is from a State that has wide open spaces. What do we do as a State if we have so much of our State—66 percent of the State of Alaska

that is federally held? And we all know there are different aspects to Federal public lands. BLM lands mean something, Park Service means something, refuge status means something, and wilderness status means something else altogether. So when we acknowledged and the Federal Government acknowledged no more in Alaska, we thought that would be respected. We thought that might be respected. But, apparently, this President is going to choose to ignore it.

My colleagues can tell this is an argument and a debate I feel very strongly about, and I feel very strongly about it because I have been living with it my entire adult life. For as long as I can remember, we have been talking about how might it be possible to look into these extraordinary reserves and resources that we know are in the 1002 area. There have been highs and there have been lows. Back in 1995, when it was my father and Ted Stevens who were working this issue, they were able to successfully get it through the Congress only to have it vetoed by President Clinton. And then 10 years later, it was Senator Stevens and myself who were able to get it so close; we were one vote shy in the Senate. The House has passed ANWR, I believe Congressman YOUNG told me today, on 12 separate occasions. Now we are back yet another 10 years later. So maybe this is an issue that keeps coming back every 10 years.

This wasn't the worst part of the news I was dealing with this weekend. At the same time I was given a heads-up that the administration was going to be releasing this CCP—this comprehensive conservation plan that will treat ANWR as wilderness—I was told that we are going to see the announcement of the administration's 5-year lease/sale plan. That is substantial for us. As folks know, we have been trying to advance the leases that have been sold in the Beaufort and in the Chukchi for some period of time, and it has been a tortured process, as many people know. But what we are told is that with the lease/sale that will be announced, portions of the Beaufort Sea and the Chukchi Sea will be indefinitely withdrawn from the next 5-year plan for the Outer Continental Shelf which, again, is due to be released.

I think it is important to know we have had deferrals off of our coasts in the Beaufort and the Chukchi, but these are no longer going to be deferrals. They are going to be withdrawals, which means that not only will they not be included in this lease sale from 2017 to 2022, but they will stay in place until such time—it is an indefinite withdrawal—as the next President, whoever he or she may be, should decide to change it. It is different than a withdrawal.

What it then says to us is, okay, no, we are going to lock up ANWR permanently so that the resources that may be available to you—as much as a million barrels a day coming down

through your pipeline to supply this country—no, put that off limits, and, oh, the offshore you want to try to advance, we are going to make it a little more difficult because we are going to take these areas and we are not going to include them in this 5-year lease sale. In fact, we are going to indefinitely withdraw them.

This could have significant impact on our ability to access the estimated 23 billion barrels of oil of Alaska's North Slope. Again, when we are talking about how we are going to fill up that pipeline, we have been working toward those opportunities offshore. But there is a third gut punch to Alaska that is coming—a third.

Remember, all these were supposed to be unveiled this week. What a week.

First, close off ANWR permanently.

Second, make the offshore that much more difficult.

And third is in the area where all those who said no to wilderness, go over to the National Petroleum Reserve, that is where you should be accessing this oil. Well, okay, that is where folks are going. ConocoPhillips is trying to access some leases in the National Petroleum Reserve. These are leases that were awarded in 1998, so more than a few years to be working through all of the issues here.

What we learned was that the terms and conditions of the mitigation that are going to be required by the Department of the Interior to allow Conoco to proceed with the alternative that would allow for a short road to access the pad, those mitigation costs and other requirements are going to be so much that the project will no longer be economic.

Think about it. Years in the process and the permitting and the cost that goes into it, years to get there.

I don't think most people know—do you realize how much oil is produced on Federal lands in Alaska? It is a real easy answer because it is a big fat zero. There is none. There is no oil that is produced on Federal lands. We have been trying to make it happen.

We have been going to the National Petroleum Reserve because we have been put off limits with ANWR. It hasn't been made permanent wilderness. We haven't been able to access it because that too takes permission from Congress. So the whole area where our State has these resources—these reserves, ANWR to the east, Beaufort, Chukchi offshore, National Petroleum Reserve—Alaska—what this administration is doing is saying this “all of the above” strategy for an energy plan for America, we are starting to think in Alaska that means everybody but Alaska.

I just can't articulate the anger, the frustration. As I tried to convey my thoughts to the Secretary, I said, I am just not sure if this administration doesn't care about Alaska and its people at all or whether you even think of us. But I have come to the conclusion that they still view us as a territory, a

place where you could come in and do what you will because you are a territory. Well, we are not a territory. We are 1 of the 50 States. We are one of those stars on that flag. Last time I checked, we had just as many rights as any other star on that flag.

What is coming at my State and the arrogance with which this administration is treating us is unacceptable, and it will not stand. Everybody wants to know, what are you going to do about it? What are you going to do about it? I am going to make sure that people understand who we are, that people understand that there are human beings who live in the 1002 area. You are going to take an area and declare it wilderness. People live there. Children go to school there. Yes, we actually have a polar bear watch to make sure the kids don't leave their homes early in the morning to go to school when it is still dark, and there might be a polar bear out there.

Things are different in Alaska, but we still live there. We still want a quality of life for the people that is not unlike what we would have here. We don't want to have communities where we still have no sanitation facilities, where people are hauling their human waste in a bucket in the corner of the house and dumping it in a lagoon. We don't want to be in that situation. But you know what, it seems as though we have to get permission to do anything, and that permission is routinely denied. Or if it is denied, they delay it indefinitely so that it adds to your cost.

We pay more for our energy. We pay more to keep warm in the State of Alaska than you do anywhere else. You might say, of course, it is colder up there. You know, back here it is going to be cold in New York. There is nobody in New York who is paying \$10 a gallon for fuel like the people in Kobuk are paying. There is nobody in Massachusetts who is going to get hit by this storm and it is going to be cold and is paying \$7.50 for fuel like the people in Fort Yukon are paying.

We live there because we want to live in Alaska. It is an amazing place. We make a lot of sacrifices. But one of the sacrifices that we won't make, one of the things we will not give up, is to be treated like some second-class citizens, to be treated like a territory that has no rights. So when we are full participants and we say there are special places in Alaska that should be wilderness—and we signed off on that in 1980—then negotiate with us. Talk to us about what happens next.

But I made the statement—again, it is harsh words, but I have suggested that this administration is one that is willing to negotiate with Iran, but they are not willing to negotiate with Alaskans. Those days are over. Those days are over.

We have some issues to deal with in front of us right now as we move through the legislation in front of us. We have been focused on energy for a good couple of weeks-plus now. I am

glad of that. I am glad we are going to be able to work through a process where we can move through some of these amendments. But know that the words I have spoken tonight on the floor are words that come from my heart as an Alaskan.

This is not about politics. This is not about me being able to wield some muscle because I have the gavel in the interior appropriations committee. This is about Alaska as a State and our rights as a State. This is about a compact that was made with the State of Alaska, about how we would be able to use and access our lands, how we would be able to care for the people who call Alaska home. This is pure passion that drives my comments, and my comments will be echoed not only by the full Alaska delegation, as small as we are, but by our Governor, by our legislature, by our elected officials, by people who live all around the State, including the people who live in the coastal plain in ANWR.

This is serious, and Alaskans are going to take this very seriously. You will be hearing a lot more from us.

With that, I thank my colleagues for the indulgence of time.

I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. WHITEHOUSE. May I first inquire of the distinguished bill manager whether I may take a moment to seek to call up an amendment or whether they have present business they need to attend to on the floor?

The PRESIDING OFFICER. The Senator from Washington.

Ms. CANTWELL. I was going to give some comments in addition to my colleague from Alaska about the process and where we are and respond to some of the comments she has made. If the Senator from Rhode Island could wait a few minutes, is that possible?

Mr. WHITEHOUSE. Happily.

Ms. MURKOWSKI. Point of inquiry: Do I understand that the Senator from Rhode Island wishes to make his amendment pending or just speak to the amendment?

Mr. WHITEHOUSE. I simply wish to make my amendment pending, and at a convenient time I would like to do that. There was a bit of an aura of good feeling on the floor when the distinguished chairman of the energy committee and distinguished Senator from North Dakota were discussing an orderly approach for getting the amendments pending. Since then, we have heard a good deal about frustration and anger and a bad mood, so I am not sure—maybe a little time to revert to that previous aura might not be in order, but I am only seeking to get my amendment pending.

Ms. MURKOWSKI. Mr. President, I do know the Senator from Washington and I were hoping to get a plan and a proposal for colleagues so that they would better understand how we might proceed tomorrow. And because we haven't had that opportunity to do

that as of yet, I would like the chance to consult with Senator CANTWELL here. My concern is that if we start getting all these amendments pending right now before we reach some kind of a path forward, it could get complicated.

Mr. WHITEHOUSE. Rather than face an objection to my unanimous consent request, I will defer it until the chairman and her ranking member have a chance to go through that process, and I will come back at an appropriate time.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington.

Ms. CANTWELL. I thank the Senator from Rhode Island. We are here tonight because we haven't ended debate on the Keystone Pipeline bill. We haven't ended debate because our colleagues voted to not end debate on this important measure, and I think for good reason.

Our colleagues from both sides of the aisle got to offer amendments last week, to discuss them, and have a chance to vote on them. I would say this is a very different process from what happened in December, where basically an up-or-down vote was going to be given on a process.

So I am glad my colleagues—like from Michigan where they had a major tar sands spill in their State—who want to offer amendments on pipeline safety can do so. I want my colleagues to be able to offer amendments as it relates to security and safety, particularly when it relates to safe drinking water and the issues of the pipeline.

Since this bill has been introduced, two major pipeline spills have been discovered. So just within the time we have been on this bill, 3 million gallons of brine spilled from a pipeline in North Dakota. That was discovered on January 6, the same day we started with this bill being introduced.

On Friday North Dakota officials discovered that the contamination from the spill reached the Missouri River. So on January 17, 30,000 gallons of oil were spilled into the Yellowstone River, a different incident, from a pipeline that broke in Eastern Montana. It temporarily shut down drinking water services for 6,000 people in Glendive, MT. So you bet these issues are important to me, and they are important to my colleagues. I hope we do not have to rush through the process of having a vote on these amendments. I think all of my colleagues see the Thursday night event, where the discussion was, let's get four or five amendments or six pending amendments and then coming back 1 hour later to table them is not the kind of legislative process we are used to here.

I hope in the next couple of days my colleague and I can work on these in a much more productive fashion, with the list of amendments that Members want to offer and a timely way to debate them. Hopefully my colleague from Alaska and I could actually work

with our colleagues, and either get some of them accepted or work for a vote schedule that would actually allow us to have the vote and have the debate as opposed to tabling.

This Senator is not arguing that any side does not have a right to table an amendment. I am simply saying: I think colleagues want to know what the process is going to be and whether they can discuss this.

I ask unanimous consent to have printed in the RECORD a story that is about one of those pipeline spills. It is about the Federal Government issuing warnings to the pipeline company in November about the concerns regarding those spills.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From EnergyWire, Jan. 23, 2015]

FEDS ISSUED WARNING TO PIPELINE COMPANY  
IN NOVEMBER

(By Mike Soraghan)

Federal officials issued a warning late last year to the owner of the Montana pipeline that contaminated a city's drinking water for keeping poor records about the condition of the system.

And the owners of the Poplar pipeline have had at least seven pipeline spills since early 2008, records show, along with other spills at production facilities.

Bridger Pipeline LLC officials say the warning letter from the Pipeline and Hazardous Materials Safety Administration is unrelated to the leak of 50,000 gallons of oil into the Yellowstone River.

"I don't believe there is a link between that letter and what we're dealing with," said Bridger spokesman Bill Salvin. "That seems to be a difficult connection to make."

A thick layer of ice on the river is hampering cleanup efforts centered on Glendive, Mont., where the water treatment plant was shut down after cancer-causing benzene was detected in supplies.

Crews have recovered about 10,000 gallons of oil from the rupture directly beneath the river, about 50 feet from the south shore.

The spill's cause remains unclear, but oil sheens have been reported as far away as Williston, N.D.

The warning letter last year resulted from a 2012 inspection by federal officials. Chris Hoidal, director of PHMSA's Western Region, wrote that the company had conducted 24 inspection digs for external anomalies, but then employees failed to note the condition of the pipeline as required.

Salvin said that "steps have been taken" to address the concerns laid out in the letter.

"We take all requirements very seriously," he said.

Federal officials have undertaken another inspection in connection with the record-keeping, in addition to the spill investigation.

The warning came about six years after a spill that led to a more serious enforcement action by PHMSA. The agency said that the company failed to accurately update its reports on a May 2008 spill from the pipeline.

In the same enforcement action, PHMSA charged that Bridger failed to perform a pressure test on tubing installed at a pipeline station in 2007 and 2008.

The agency also alleged that the company was too slow to review its emergency operations manuals and failed to keep up on inspections. The company paid a \$45,000 fine.

This image was taken from a drone surveying the ice slotting oil containment

trench carved in the ice of the Yellowstone River near Crane, Mont. Photo courtesy of Unified Spill Command.

The company also paid a \$100,000 fine in an enforcement action brought in 2005 regarding the qualifications of its personnel.

PHMSA inspections also led to two other enforcement actions in September 2005 and February 2007 that did not lead to fines.

Montana records show that Bridger Pipeline had two spills in 2009, another in 2010 and a fourth in 2012. The total released in the four spills was about 3,300 gallons of crude oil.

In August, a gasket failure caused a Bridger pipeline to spill about 4,000 gallons of crude in Mountrail County, N.D.

In addition, another company's 6-inch fuel line was broken during excavation of a new pipeline by Bridger on Sept. 1, 2014, in McKenzie County, N.D. Dry natural gas was released to the atmosphere, but inspectors noted that it could have led to an explosion.

Bridger is part of Casper, Wyo.-based True Oil LLC. In May 2014, True's Belle Fourche pipeline ruptured, spilling 25,000 gallons of crude oil into an ephemeral drainage near Casper, according to federal records. The oil traveled about 3 miles in the drainage.

True Oil's production operations have had at least 16 spills since early 2009 in Montana, Wyoming, Colorado and North Dakota, according to state records. The largest was a spill of more than 30,000 gallons of oil and wastewater in 2011 in Campbell County, Wyo.

Ms. CANTWELL. To me this is an issue where we have had some debate about the pipeline and the oilspill liability trust fund. I would hope we would come back to that issue because these issues about spills and safety and security should be part of the debate. But I go back to the larger issue which is I hope we turn down this legislation overall.

To me all of the issues we are talking about, whether it is about safe drinking water, whether it is about oilspills and the requirements on these companies or if it is about whether TransCanada can take U.S. property under eminent domain or whether it is about the route itself, all of these questions in my mind are premature for us, the Congress, to decide.

Over 60 percent of the American people say they want this pipeline decided in a normal process. They want the State Department, in this instance because it crosses a border, to be the entity that determines national interest. So I do not want to predetermine that when there are so many important issues to be negotiated. The very company that wanted to negotiate with the State Department on this pipeline was negotiating some of the original routing. Yet at the very time the State Department was telling them the original routing would not work, they were here trying to persuade Members to vote for the authority to override the President and to give that routing, which we now know was flawed.

I do not want to be premature about this. I do not want to be premature about cutting off debate. I want to get to these amendments before us and get the bill done with the input of my colleagues, given that the debate was brought up to the floor.

If you ask me what I want to debate, I would be debating some other legisla-

tion because I do not think this bill is going to be signed by the President of the United States.

I would be debating energy tax policy on clean energy items. I would be debating other things that I think would be impacting more our energy strategy for the future, our economy, and job creation. I think there are a lot of those out there. I hope my colleague from Alaska and I, once this debate is over with, will be able to sit down and talk about these issues, in a bipartisan fashion, and work with the committee.

In 2007, we passed the Energy Independence and Security Act out of the energy committee on a bipartisan basis. It was landmark legislation that unleashed a lot of investment. It unleashed investment in making sure we had higher fuel efficiency cars in our country, which was good for the consumer because they got a car that got more mileage. It made investments in things such as the smart grid and other energy infrastructure.

I hope that is what we will get back to, because when I look at what is happening—I know my colleague from Alaska just talked about some of these issues as it related to Alaska. I know she means what she says when she says she is speaking from the heart and working hard for Alaskans. I visited Alaska with her and my colleague, then-Senator-from-Alaska Mark Begich. I visited many parts of Alaska.

I understand. Alaskans want to have an economic opportunity. They want their energy to be cheaper. I would say I am empathetic to the issue because we have five refineries in the State of Washington. We are the fifth largest refining State in the Nation. A lot of our oil comes from Alaska. So I can tell you that people in the Northwest are furious that even though we have those refineries—so a lot of refining capacity and the oil comes from Alaska—we still have some of the highest gas prices in the Nation. Many times we have asked for various investigations about why we have the highest gas prices in the Nation and why this issue continues to plague us.

I know my colleague, when she speaks about the Arctic National Wildlife Refuge or ideas about more drilling, that it is about getting more oil supply. But more oil supply from Alaska has not helped Washington consumers have cheaper gasoline prices.

So I want to continue to diversify our economy off of fossil fuels and onto other things. I hope we will get a chance to work on an energy bill that does that. If I could just address for a couple of minutes the issue of the President's decision to move forward on a plan that would help preserve the Arctic wildlife refuge as wilderness. My colleague from Alaska mentioned this issue is something that has been going on for some time. She is right.

The predecessors that she and I—the former chair of the energy committee, Scoop Jackson, and the former late Senator Ted Stevens—everybody has

been a part of this. I actually was here at a pretty dramatic floor debate on this issue in 2005, in which some people wanted to open the Arctic National Wildlife Refuge for drilling, even to the degree that they put that as a rider on the Defense bill. We were able to stop that. I think that was the will of Congress, that they did not want to see drilling in the Arctic National Wildlife Refuge.

But we have had this discussion since 1960, when Dwight Eisenhower set aside originally 9 million acres, and in 1980, thanks to the work of Scoop Jackson, Congress passed the Alaska National Interest Lands Conservation Act, which expanded the refuge to 19 million acres.

I have visited the refuge. I do believe it is a critical habitat for wildlife and the Gwich'in people who called this the sacred place where life begins. It is truly special. I do think we have had many discussions about this. This action probably will not be the last of them, but I do applaud the President for taking the Arctic refuge, which is habitat for 45 different species of land animals, 36 different species of fish, 180 species of birds—and has the greatest variety of plant and animal life of any park or refuge in the polar Arctic. I do believe it is an ecosystem and an ecosystem that is unlike anything else we have in the United States.

So I am proud the President has taken what has been a refuge that was lacking a plan and has now put a wilderness plan in place or the elements of what it will take to preserve those various species and animals and that very special place.

I know my colleague feels very strongly about the President's announcement. I think a refuge plan that is based on science and public comment—we have had a plan, but this is the first plan to say we are going to protect this area. It recommends 12 million acres of refuge, including the coastal plain as wilderness. It is one of the most pristine and unique public places.

I am confident America can meet our energy needs without opening the Arctic National Wildlife Refuge. I am convinced we can come up with an energy strategy that is much more compelling for the future of the United States, one in which we can lead and one in which we can help other countries, whether it is what the President did with China in getting an agreement or working with India or all the things we are doing to try to be a leader in what is energy efficiency and ways to impact the marketplace so consumers can look for cleaner, more efficient uses of fuel.

So this is going to be a continuing debate in this Congress between a 19th century view of energy policy and a 21st century view of energy policy. I would ask my colleagues to think about these countries the President has just recently visited. He went to China. No one thinks China's air standard is what we should have in the

United States. India has had its own challenges. They have hundreds of millions of people who are without electricity needs.

So the question is whether these sources of energy are going to be that solution, whether a dirty source of fossil fuel is going to be the solution or whether we can work together on cleaner energy solutions. I think we can do that.

In fact, I am excited the United States can be a leader in these technologies, which will result in more job growth, just as those previous energy bills did when we worked together for higher fuel efficiency standards, for more energy efficiency, to come up with more sources of diversified fuel. I am very confident we are going to, in the next few years, usher in a new era of aviation.

We have already proven we can fly airplanes with a 50-50 drop in jet fuel. We now have to prove we can manufacture those large sources and get planes flying on that. What a great accomplishment that will be in reducing carbon emissions and giving the flying public and those airlines something that is much more affordable than what we have been dealing with for the last 10 or 15 years.

I look forward to my colleague and I working tomorrow—some tonight and a little bit starting early tomorrow—on how we move forward with this legislation. I know my colleague and I see a path forward. Similar to any two people who are trying to manage a bill on the floor, we also know we have all of our colleagues to work with because nothing in the Senate operates unless it operates through our process and working collaboratively or, I should say, it can work, it is just going to take a very long time.

So we pledge to work in the next few days to try to get an amendment process that will not be prematurely cut off after 1 hour of a pending bill but will come to terms, and hopefully our colleagues will work with us to limit the number of those amendments and we can move forward to legislation that we think will help our economy grow.

The PRESIDING OFFICER. The Senator from Alaska.

Ms. MURKOWSKI. Mr. President, I know our colleague from Delaware is wishing to speak. If I may just proceed to do the closeout and he would be able to speak after that.

#### MORNING BUSINESS

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### CENTRAL ILLINOIS XPRESS BASKETBALL TEAM

Mr. DURBIN. Mr. President, I wish to recognize the remarkable strength and

spirit of the Central Illinois Xpress basketball team and its coach Tariq Toran.

As the only team of girls in an all-boys fifth grade basketball league in Springfield, IL, the Central Illinois Xpress has defied the odds and emerged as a powerhouse in the Illinois AAU boys' league. With an impressive record of 8 wins and 2 losses in the first half of the season, Coach Toran and the Central Illinois Xpress girls have made a name for themselves not just back at home, but across the Nation.

Strong, confident, and determined, the team comprised of nine girls ages 10 and 11 years old do not shy away from hard work and tough competition on the basketball court. With a series of two-on-one drills coupled with push-ups and sprints, these girls know how to practice hard and play hard. The Xpress girls use their summers to compete in a higher division comprised of older girls, which helps prepare them to play against tough teams during the season.

This tireless preparation and fearless attitude brought Coach Toran to sign the girls up for the all-boys' league this year. So far, the team's success has been undeniable. With their dribble drives, crisp passes, and methodical game play, the Central Illinois Xpress players have racked up more than enough wins to show the boys, and the community, that they are a force to be reckoned with this season.

These girls know what it means to push themselves for excellence, to fight for something against the odds, and to prove themselves to those, including some of the boys they are playing, who don't expect a girls team to be strong and play smart, aggressive ball.

It is my pleasure to wish these fifth-grade girls in Springfield the best of luck in the second half of this season.

#### RECOGNIZING THE VERMONT STATE POLICE

Mr. LEAHY. Mr. President, during the closing days of the 112th Congress, and for the duration of the 113th Congress, I had the privilege of serving the Senate as the President pro tempore. It of course was a great honor, and a humbling one, to serve the Senate and to represent Vermont in this position. With this designation, because of the matter of presidential succession procedures, I was assigned a security detail. I have spoken before about the outstanding work of the U.S. Capitol Police, and about how much Marcelle and I appreciate the sacrifices they made in the course of their service.

Today I want to thank the Vermont State Police for their outstanding service and steadfast support during my time as President pro tempore. With their extensive and comprehensive knowledge of Vermont's unique landscape and communities, the Vermont State Police coordinated with the U.S. Capitol Police and provided essential guidance, information and support. I

thank them for their professionalism and dedication.

I would like to thank in particular Lieutenant Garry Scott who commands the Traffic Safety Unit of the Vermont State Police Department; Corporal Owen Ballinger, who was an integral part of the everyday operations; Sergeant Teresa Randall; Sergeant Mark Perkins; Sergeant Trevor Carbo; Trooper Jerry Partin; and Trooper Dustin Robinson. These law enforcement officers were able to blend the requirement of a full security detail in unobtrusive ways that enabled us to go about our daily lives and to perform our responsibilities. These dedicated and courteous officers went above and beyond the call of duty, and for that Marcelle and I are infinitely grateful.

I also thank Colonel Thomas L'Esperance and Lieutenant Colonel Matt Birmingham for their constant support.

#### SELECTION OF HAROLD "HAL" COLSTON AS THE 2014 BURLINGTON FREE PRESS VERMONT OF THE YEAR

Mr. LEAHY. Mr. President, it is a delight to call the Senate's attention to an outstanding Vermonter who was recently recognized for his work to help Vermonters who have struggled with social and economic injustice.

Since 1997, the Burlington Free Press has invited readers to nominate a Vermont resident to be recognized as Vermonter of the Year. Those nominated are among the best doers and visionaries the Green Mountain State has to offer, and each nominee has made a difference in his or her community. Previous winners have included philanthropists, college presidents, a former Governor and a winner of the Nobel Peace Prize. On the eve of the New Year, the Burlington Free Press named Hal Colston the 2014 Vermonter of the Year.

Hal is a resident of Winooski and certainly deserves this honor. Since relocating to Vermont 25 years ago, Hal's dedication to social, economic, and racial justice has served his community well. He has maintained a steadfast voice for those unable to be heard on their own.

Hal is well known for his entrepreneurial spirit, and he has successfully created and led numerous nonprofit initiatives. In announcing Hal's selection, the Free Press aptly calls him a "serial do-gooder." He received national recognition after founding Good News Garage, which enables individuals and families to move away from poverty by providing reliable transportation. Similarly, he recognized that those in poverty are often without the support networks necessary to move beyond such vulnerable circumstances. As a result, he established NeighborKeepers, an organization that focuses on building supportive community networks that direct families toward the resources they need to suc-

ceed. Today he leads the Partnership for Change, a diverse group of community stakeholders seeking to remodel the Burlington and Winooski School Districts by establishing a student-centered learning system.

As communities work to overcome the challenges of poverty and individuals pursue more prosperous lives for themselves and their families, it is the passionate dedication to serve by leaders such as Hal Colston that makes the greatest difference.

In recognition of Hal Colston's service, I ask unanimous consent that Aki Soga's article from the December 31, 2014, edition of the Burlington Free Press be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Burlington Free Press, Dec. 31, 2014]

#### VERMONT OF THE YEAR: HAL COLSTON

You might call Hal Colston a serial do-gooder.

The Winooski resident has laid down a track record of work to improve the lives of people in the community during his 25-year tenure in Vermont.

Colston is best known as the founder of Good News Garage, the nonprofit that fixes donated vehicles for low-income people.

He also is known for launching NeighborKeepers, an initiative to help families in need build relationships with those who can provide the support they need.

He was instrumental in forcing Vermont to confront the issue of racial profiling by the police.

Colston says he sees every day as an opportunity to make a difference.

"We get them one at a time with no guarantee for tomorrow," he said. "May all of us spend our days wisely to improve the common good."

Colston's understated demeanor often belies his passion. He works to give voice to those who are unable to be heard on their own. He has shown the courage to tackle difficult issues.

Colston's quiet devotion to bringing the people together and looking out for those who find themselves in unfortunate circumstances especially stand out in a year that saw the streets of this country fill with protest—both peaceful and violent—against injustice.

For his years of service to the community in the name of social and economic justice, the Burlington Free Press editorial board names Hal Colston 2014 Vermonter of the Year.

In nominating Colston for Vermonter of the Year, Laban Hill of Winooski writes, "Hal has spent his life devoted to our community and making a difference in both small and large ways."

Colston's work with Good News Garage has earned him national recognition, including an appearance on the Oprah show. The idea is simple. For many, one of the bigger barriers to economic independence is the lack of reliable transportation. Good News Garage tackles that problem in the most direct way possible by awarding reliable cars to those in need.

Colston founded the organization in 1996 after meeting a Lutheran minister he had heard in Philadelphia shortly before moving to Vermont. That chance encounter led to developing an idea and seed funding from what he calls a pan-Lutheran organization. He launched the nonprofit under the wing of the Lutheran Social Services New England.

Nearly two decades later, Good News Garage has awarded more than 4,000 vehicles.

#### SECOND CAREER

His career in community service also includes a stint as associate director of Community Action in Burlington, now Champlain Valley Office of Economic Opportunity, as executive director of the Vermont Commission on National and Community Service and as diversity coordinator for the social services nonprofit HowardCenter.

Colston also spoke out clearly and firmly when African-Americans in the community charged that local police were using racial profiling in stops.

In an April 2007 *My Turn* piece in the Free Press, Colston wrote, "I believe that racial profiling in Vermont is an epidemic," going on to recount his own experience with "driving while black."

Colston did more than complain. He worked to open a dialogue within the community, including the police, that allowed people to talk openly about issues surrounding race.

"We're building trust," he said. "I don't believe we will ever eradicate racism, but how do we heal from the wounds?"

All this was a major shift for a man who had made a career as a chef and restaurateur in Philadelphia, and arrived in Vermont in 1989 to become the director of catering at the New England Culinary Institute in Essex.

Colston called his career change a midlife crisis, but said the work put him in touch with his core values, "truth and justice."

Today, Colston is engaged in what is perhaps his biggest challenge to date. He serves as director of Partnership for Change, a collaboration between the Burlington and Winooski school districts. The mission is to re-imagine public education to better prepare students from diverse social, economic and cultural backgrounds to succeed in school, in their careers and as members of their communities.

"The reason I love Vermont is it's got its challenges. But it's really on a human scale. You can have a conversation," he said.

For his steady faith in the ability of each person to make a difference, and putting that faith to work in the service of his community, Hal Colston is the 2014 Vermonter of the Year.

#### A NOMINATING LETTER

I would like to nominate Hal Colston for Vermonter of the Year.

Hal is director of Partnership for Change, which is remodeling Burlington and Winooski school districts by establishing a student-centered learning system that enables all learners to develop skills, knowledge, and relationships necessary to become confident, motivated, and self-sufficient learners who are successful in college and careers and are engaged in their communities.

Hal and his team are changing the way education is delivered in our communities so that it is more rigorous and more equitable.

Over the years Hal has been an integral and essential part of our community. He founded Good News Garage, which is one of the first nonprofit social enterprise car donation programs in the U.S. He also founded NeighborKeepers, which was a community nonprofit that helped the generational poor become financially secure.

Hal has spent his life devoted to our community and making a difference in both small and large ways. He seems like the ideal candidate for the Burlington Free Press's Vermonter of the Year. In addition, there has never been a person of color who has been recognized as Vermonter of the Year. It's about time.

There are so many people of color in Vermont who are making important contributions to our community. Now is the time to begin recognizing them.

LABAN HILL,

#### TRIBUTE TO LORENZO GOCO

Mrs. FEINSTEIN. Mr. President, I wish to pay tribute and thank a dedicated and capable individual, Lorenzo Goco, who retired from the Senate on Friday after 20 years of expert service.

For the past 6 years, Lorenzo has served as the deputy staff director of the Senate Select Committee on Intelligence, SSCI. He has worked on the committee since 1995, when he was brought over by Senator Bob Kerrey. He has seen the highs and the lows of Senate life, and has made a valued contribution to the committee, to the Senate, and to the national security of the United States.

Since the beginning of my chairmanship of the committee in 2009, Lorenzo has been the heart of the Democratic staff. Without drawing attention to himself, he has gotten things done—whether it meant setting the schedule and wrangling agency witnesses to attend on short notice, assisting the intelligence community to see the wisdom of the committee's approach, or bridging the divide between the majority and minority in the rare case of disagreement, Lorenzo kept the committee on track and headed in the right direction.

As the deputy staff director, Lorenzo is responsible for everything but gets the credit for nothing. He has represented the SSCI at the weekly meeting of Democratic staff directors more often than the actual staff director, and he has had my full faith in representing the committee and me countless times. Often, a line of committee staffers will build in front of his door as people seek his advice on how to handle an issue or ask a question about a program.

Classification prevents me from relating on the Senate floor most of the projects that Lorenzo has contributed to or overseen in his time on the committee staff. But they include numerous reviews of CIA covert actions, reviews of acquisition programs by the National Security Agency and the National Reconnaissance Office, and the budget review of the Defense Intelligence Agency.

Due to CIA's declassification of the underlying information, I can say that Lorenzo was part of the committee's excellent work in investigating CIA's role in a shootdown of a missionary plane in Peru. He was instrumental in the committee's report on the prewar intelligence assessments of Iraq's weapons of mass destruction, and a constant force behind the staff's work on the Study of CIA's Detention and Interrogation Program.

The committee's success in enacting six intelligence authorization bills in the past 6 years is in good measure a

result of Lorenzo's work in drafting the legislation and the classified annexes the contain, working with other committees in the Senate and the House, and negotiating provisions with the executive branch.

There are plenty of congressional staff that are passionate advocates for aggressive action for this cause or that. Other staff focus on protecting their boss and as a result are more judicious and deliberate. Some are experts on process; some are experts on substance. Lorenzo is all of the above. His depth of experience on intelligence matters is unparalleled today in the Senate. He fights strongly for what he believes in, and has at times pushed me to be stronger on a cause than I might otherwise be. But he is always cool, calm, and collected, and manages to navigate the buffeting winds and tempestuous times that we face all too often.

I am sorry to see a key part of my team go, but I wish Lorenzo the best of luck. I have no doubt that he will have more time to spend with his wonderful wife Audrey and his three boys, whom I know are the source of unending pride, and perhaps the occasional bout of parental frustration. With any luck, they'll grow up like their father.

Thank you, Lorenzo, for your steadfast service.

#### RESTORING FULL TIME TO FORTY HOURS

Mr. ALEXANDER. Mr. President, I ask unanimous consent that a copy of my remarks from last week's Senate Health, Education, Labor and Pensions Committee hearing be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

##### RESTORING FULL-TIME TO FORTY HOURS

Let me start by telling some stories of what's happening in Tennessee:

In Murfreesboro, Tennessee, Middle Tennessee State University has started limiting hours for part-time workers. This means students can no longer accept multiple on-campus work assignments. And graduate assistants might have to wait tables instead of picking up extra on-campus grant-funded research projects that would better further their careers.

From its headquarters in Knoxville, Regal Entertainment Group, the nation's largest movie theatre chain, announced last year that it was cutting employee hours from 40 to below 30 in order to comply with Obamacare. According to a news report, "One Regal theatre manager [said] the move has sparked a wave of resignations from full-time managers who have seen their hours cut by 25 percent or more."

In Johnson City, Pam Cox, the director of finance for Johnson City Public Schools, told a local news outlet about a year ago that her district will have to hire more people to work fewer hours. She said, "It'll be challenging to find people and it'll also hurt the employees because where they've been able to work as much as they wanted in these types of positions with no benefits attached to it now we're going to be saying, 'we can't let you work . . . even though you want to

and you're good at your job, we can't give you the hours, give you the pay, because we can't afford to give you the insurance.'"

So why are these things happening in Tennessee—and in every other state across the nation?

Obamacare requires businesses with 50 or more full-time employees to provide health insurance to those employees or pay a penalty at tax time. That penalty is \$2,000 for each employee whom the government says should have been covered by an employer plan and \$3,000 for every employee who receives a subsidy in the exchange.

The law, passed without any Republican support, defined full-time as an employee who works more than 30 hours a week. It is a strange definition—one that sounds more like France than the United States.

The average American between the ages of 25–49 works 8.8 hours per day, or 44 hours per week, according to the American Time of Use Survey published by the Bureau of Labor Statistics.

The Obamacare definition of full-time is nearly one-third lower.

Many businesses can't afford Obamacare's mandate and must reduce their number of full-time employees.

The result of all this is that thousands of workers are getting a pay cut. Their work schedules are being reduced to 29 hours a week and below.

This is not enough money for these workers to earn a living. Many must take second jobs.

A Hoover Institution study found the 30-hour definition puts 2.6 million working-age Americans with a median income under \$14,333 for individuals and \$30,000 for families at risk of losing jobs and hours. The study found:

89 percent of those affected don't have a college degree.

60 percent are between the ages of 19 and 34.

63 percent of those most at risk of lost hours are women, of which half have a high school diploma or less.

These are Americans who are often working one of their first jobs, trying to work their way up the economic ladder. You have to start with a lower-paying job, a job that doesn't require as many skills, and hope that someday your hard work will lead to a higher-paying one.

Many of these Americans are working in service industries, such as hospitality, retail and restaurants. But the Obamacare provision is affecting all kinds of employers.

In September 2014, Investor's Business Daily reported that at least 451 employers, county governments, public schools, community colleges and universities across the country have laid off staff or reduced employee work hours to comply with the new Obamacare definition of full time.

Our public schools can't charge higher prices to cover these mandates. They have to cut services like special education, coaches and bus drivers.

Three surveys published by Federal Reserve Banks in August found employers are increasing their proportion of part-time workers.

The Federal Reserve Banks of New York and Philadelphia specifically asked manufacturers what changes they had made because of Obamacare, and in both cities, nearly 1 in 5 respondents reported that they had increased their proportion of part-time workers.

The Federal Reserve Bank of Atlanta also surveyed businesses about changes in part-time employment and found that 25 percent of respondents currently have a higher share of part-time workers primarily because "full-time employee compensation costs

have increased relative to those of part-time employees." More troubling is that 31 percent of respondents believe they will have more part-time workers 2 years from now.

There is bipartisan support for repealing this provision. This bill has 34 cosponsors—mostly Republicans, including every Republican member of this committee—but Senator DONNELLY and Senator MANCHIN of West Virginia, also a Democrat, support it.

Republicans have talked a lot about wanting to repair the damage of Obamacare. We have also talked about wanting to get results.

This bipartisan bill should be an important step to doing both.

In fact, this reminds me of why so many of us like being on this committee—because the issues we work on affect so many Americans.

When we talk about fixing No Child Left Behind, we're talking about 50 million children in 100,000 public schools.

When we talk about making it simpler to apply for a Pell Grant to go to college, we're talking about simplifying a form that 20 million families fill out each year.

When we talk about modernizing the Food and Drug Administration and making it easier for Americans to access lifesaving drugs, we're talking about something that affects nearly every American.

But today we are focused on 2.6 million Americans who are mostly low-income and at risk of losing jobs and hours.

I look forward to hearing what our witnesses have to say.

#### TRIBUTE TO COMMEMORATE THE ANNIVERSARY OF THE RELEASE OF THE IRAN HOSTAGES

Mr. ISAKSON. Mr. President, I wish to commemorate in the RECORD the anniversary of the release of the Iran hostages on this date in 1981.

Soon the Senate will be consumed by a great debate regarding the proper strategic approach our Nation must take to ensure that Iran does not develop a nuclear weapons capability. Tomorrow, the Senate Foreign Relations Committee will hear testimony from both State Department and the U.S. Treasury about the current state of play in negotiations with Iran. Next week, the Senate Banking Committee is meeting to consider perspectives on the strategic necessity of Iran sanctions that will further the debate. I, for one, welcome that important discussion, although I recognize that some of my colleagues hold views that are different from my own on how best to contain Iran.

There is, however, yet another important policy matter related to Iran that not only deserves but also demands the unified, bipartisan support of every Senator. Thirty-four years ago today, January 20, 1981, 52 of our fellow American citizens returned home after a harrowing 444-day ordeal of being illegally held hostage in Iran. We sent these diplomats, Foreign Service personnel, along with officers and enlisted members of our Armed Forces, to Iran in service to our Nation as they were seeking only to strengthen ties between our two countries. There was even an American businessman involved. Nevertheless, they all paid dearly for this service by being forced

to endure humiliating treatment, brutal interrogations, mental and physical torture, and even mock firing squad executions while their families suffered endless waiting and genuine fear of their loved ones' imminent demise.

Although their return was a joyous occasion for our entire Nation and we celebrated as one people honoring our heroes, those 444 days took a toll not only on the hostages but also on their family members—a toll that continues for many to this day. Unfortunately, we failed to recognize both the long-term impact their incarceration experience and ill treatment would have on many of them and the support they would need. In many instances, the results have been tragic. Among the former hostages and their families, there have been suicides, advanced PTSD-type depression, divorces, alcoholism, and drug dependency. Unfortunately, Phil Ward, a communications officer from Virginia who committed suicide in the fall of 2012, was one who never fully recovered from the cruelty of those events.

We must help to ease this burden and provide these brave Americans with the same measure of justice and healing our courts have already awarded to other hostage victims and their families. While the Algiers Accords, the document which secured the release, bars the former hostages and their families from legal action against Iran for the brutality they endured, to this day they remain not only the first victims of modern hostage-taking but the only Americans barred from seeking justice from Iran. The former hostages and their families have already waited more than three decades to experience the full support of the government they so heroically served and to see some accountability by their captors. Therefore, I will soon introduce legislation to compensate the hostages and their families by assessing penalties on those who continue to do business with Iran in violation of U.S. sanctions policy. This legislation, however, represents but one solution to an issue that is three decades overdue. Another or perhaps an additional option would be to strongly recommend that as a condition of the ongoing nuclear negotiations, such compensation come directly from "frozen" assets that for more than a year now have been released to Iran at the rate of \$700 million a month.

Accordingly, I look forward to righting this injustice by working with any or all of my colleagues as we stand united in support of the former hostages and their families.

#### PENN STATE UNIVERSITY WOMEN'S VOLLEYBALL

Mr. TOOMEY. Mr. President, I wish to recognize the Penn State University Nittany Lions Women's Volleyball program for winning the 2014 National Collegiate Athletic Association, NCAA Championship.

Led by four returning starters and legendary coach Russ Rose, the Penn State University Nittany Lions concluded the 2014 season by defeating the Brigham Young University Cougars in straight sets to win the NCAA Championship. The Nittany Lions finished with a record of 36 wins and only 3 losses.

With the 2014 championship, the Nittany Lions have claimed six of the last eight NCAA Championships and seven overall in women's volleyball, setting the record for the most women's volleyball championships by a single program in history.

The 2014 Nittany Lions Women's Volleyball team brought together a group of student-athletes who excelled both on the court and in the classroom. For their efforts on the court, four Nittany Lions were selected to the AVCA Division I All-America team, with Senior Micha Hancock earning both First-Team All-American honors and becoming the fourth Nittany Lion in program history to earn AVCA DI National Player of the Year honors.

Special congratulations go to Junior Megan Courtney who was selected as the 2014 NCAA Tournament Most Outstanding Player and to Freshman Ali Frantti, who earned AVCA DI National Freshman of the Year honors.

Not to be outdone in the classroom, six Nittany Lions earned spots on the Fall Academic All-Big Ten list for their academic performances this season.

Today I want to recognize the significant contributions that the Penn State University Women's Volleyball team has made to collegiate athletics and to the Commonwealth of Pennsylvania with Coach Russ Rose at the helm. I wish them all the best as they continue to lead by example for student-athletes everywhere and set the stage for the program's continued success into the future.

Mr. KAINE. Mr. President, today the United States ranks 12th in the world in the percentage of 25-34 year olds achieving post-high school degrees. We need to make changes that help keep students engaged in their futures while also ensuring our educational programs are adequately preparing students for the jobs of the 21st century.

Career and technical education, CTE, programs are proven to help keep students more engaged in the classroom and less likely to drop out of high school, and to help meet the needs of high-growth, skill-intensive industries looking for the next generation of workers. The U.S. Department of Education announced that the average U.S. high school graduation rate is 80 percent, while the graduation rate for students in CTE concentrations is higher than 90 percent. 81 percent of high school dropouts say real-world learning opportunities would have kept them in school.

The Carl D. Perkins Career and Technical Education Act is a major source of Federal support for the development

of career and technical skills among secondary and postsecondary students. Last reauthorized in 2006, the Carl D. Perkins Career and Technical Education Act needs to be modernized to meet the demands of the 21st century workforce and ensure that students have access to the highest-quality CTE programs.

This is why I am pleased to introduce with my colleagues, Senator PORTMAN and Senator BALDWIN, the Educating Tomorrow's Workforce Act, which would amend the Carl D. Perkins Career and Technical Education Act to raise the quality of CTE programs. This legislation defines what constitutes a rigorous CTE curriculum and requires Perkins grant recipients to incorporate key high-quality elements in their programs including credit-transfer opportunities; academic and technical skills assessments; training tools that align with today's industries; CTE-focused professional development for teachers, administrators, and counselors; and CTE curriculum alignment with local, regional, and State workforce demands. Additionally, the bill improves links between high school and postsecondary education to help ease attainment of an industry recognized credential, license, apprenticeship, or postsecondary certificate to obtain a job in a high-demand career field and promotes partnerships between local businesses, and other community stakeholders to create pathways for students through work-based learning opportunities.

When I was Governor of the Commonwealth of Virginia, I worked on a number of educational issues, but one that I was most proud of was starting the Governor's Career and Technical Academies. At the start of my term as Governor we had nine academies. The Republican Governor who followed me continued the academies, and at the end of his term there were 23. The Educating Tomorrow's Workforce Act encourages these models and allows states and localities to use Perkins grant funding to establish CTE-focused academies.

I am proud to introduce this commonsense, bipartisan legislation to raise the quality of CTE programs and ensure that high-quality career and technical education helps students develop skills that meet the needs of 21st century employers.

#### ADDITIONAL STATEMENTS

##### REMEMBERING DALTON VERNON MARTIN

• Mr. CASSIDY. Mr. President, I wish to honor the memory and service of Dalton Vernon Martin, chief petty officer, U.S. Navy, Retired, and sheriff's deputy, East Baton Rouge Sheriff's Department, who passed away 4 years ago, on January 23, 2011. Mr. Martin devoted his life and career to the service of others which was evident in his com-

bined 61 years of military and civil service to our great Nation and the Baton Rouge community.

Born in St. Francisville, LA, Mr. Martin first excelled as a high school boxer, compiling a record of 63 victories in 65 bouts. He dedicated that resolve and fighting spirit towards serving and defending his country, enlisting in the U.S. Navy to fight in World War II and the Korean war, including the Pacific battles of the Gilbert and Marshall Islands, Tarawa, and Okinawa. Mr. Martin served onboard the USS *Charleston*, USS *Taswell*, and the USS *Indianapolis*.

After a distinguished 38-year career in the Armed Forces, Mr. Martin retired from active duty and embarked on a new mission of service as a deputy of the East Baton Rouge Sheriff's Office. Here, Mr. Martin spent 23 years protecting his fellow citizens and upholding the rule of law.

Mr. Martin lived a life of service, but he never sought to label himself as the hero he truly was. He spoke honestly and openly about the fear and sadness that are inseparable from the glory and honor of serving in combat. He was grateful for the opportunities afforded by his service to visit the farthest reaches of the world, but he served for no other reason than to defend his country and one day return home to his beloved Louisiana.

If the measure of a person is by what they leave behind, then Mr. Martin sets a standard to which we should all aspire. His life's story is yet another testament to the strength and legacy of the "greatest generation." And for his wife Christy, his children Paul, John, and Susan, and his grandchildren Erin, Tristan, Madeleine, Jack, Lauren, and Caroline, his spirit and legacy live on. The country he helped to preserve as the greatest beacon for freedom and opportunity in the world remains forever grateful. •

##### TRIBUTE TO MATTHEW J. WATTS

• Mr. MANCHIN. Mr. President, I wish to honor Pastor Matthew Watts, a dear friend and a truly inspiring West Virginian whose ministry career spans more than three decades.

I have personally known Reverend Watts for many years now, and he truly embodies what it means to be a great West Virginian. He is a man of deep conviction and unwavering passion for justice. He is an uplifting force to many and a role model to many more.

I have known Pastor Watts for many years, and as the former Governor, the reverend would visit often and bring me his thoughts, suggestions, and ideas. I always appreciated his sincere candor and genuine interest in improving our state.

As a native of Mount Hope, located in beautiful Fayette County, Pastor Watts currently serves as senior pastor of the Grace Bible Church of Charleston. He is a graduate of the West Vir-

ginia Institute of Technology with a bachelor of science in civil engineering, which led to a 20-year career with the Union Carbide Corporation. His theological study and training from the Moody Bible Institute of Chicago and the Christian Research and Development Center in Philadelphia, combined with his years of experience in corporate America, have blessed him with a vitally unique perspective on economic development.

In December of 1996, he left Union Carbide to pursue his ministry and focus on community service projects. A year later, he established the HOPE Community Development Corporation, a nonprofit organization with the mission of empowering inner-city communities through spiritual renewal, education, employment training and economic development.

With this perspective, he developed Kingdom Management Consultants, which assists minority owned businesses with startup and expansion, as well as provides supportive strategies to those seeking employment.

His active community involvement has truly set the standard in West Virginia throughout the years. Much of his community service is still done through the HOPE Community Development Corporation, which now has a branch specifically for youth.

Reverend Watts always amazes me with his unique ability to relate to strangers. While he is strong in stature and his voice is so commanding, his approach is dynamic, sincere, and composed.

His years of unwavering service and leadership have certainly not gone unrecognized. In 1996, he received the West Virginia Small Business Administration's Small Business Advocate of the Year Award. In 2002, Pastor Watts was awarded the Washington Times Foundation Leadership Award for Faith Based Organization of the Year. He was also the 2004 recipient of the Crown of Peace Award for Exemplary Leadership in Reconciliation and Peacemaking from the Inter-religious and International Peace Council.

Pastor Watts is a strong leader, mentor, and friend to so many within West Virginia. It takes a truly remarkable individual to accomplish so much in community service. Particularly now, having just celebrated Dr. Martin Luther King, Jr. Day and as we near Black History Month, it is fitting that we should celebrate such an inspiring individual as Pastor Watts. His community service programs have empowered countless minority groups within our State and are sure to continue the tradition of excellence for many years to come. •

##### MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Pate, one of his secretaries.

## EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

## MESSAGE FROM THE HOUSE

At 4:33 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 7. An act to prohibit taxpayer funded abortions.

The message also announced that pursuant to 15 U.S.C. 1024(a), and the order of the House of January 6, 2015, the Speaker appoints the following Members of the House of Representatives to the Joint Economic Committee: Mr. AMASH of Michigan, Mr. PAULSEN of Minnesota, Mr. HANNA of New York, Mr. SCHWEIKERT of Arizona, and Mr. GROTHMAN of Wisconsin.

## MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 7. An act to prohibit taxpayer funded abortions; to the Committee on Finance.

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-371. A communication from the Director, Office of Management and Budget, Executive Office of the President, transmitting, pursuant to law, a report entitled "OMB Final Sequestration Report to the President and Congress for Fiscal Year 2015"; to the Special Committee on Aging; Agriculture, Nutrition, and Forestry; Appropriations; Armed Services; Banking, Housing, and Urban Affairs; the Budget; Commerce, Science, and Transportation; Energy and Natural Resources; Environment and Public Works; Select Committee on Ethics; Finance; Foreign Relations; Health, Education, Labor, and Pensions; Homeland Security and Governmental Affairs; Indian Affairs; Select Committee on Intelligence; the Judiciary; Rules and Administration; Small Business and Entrepreneurship; and Veterans' Affairs.

EC-372. A communication from the Executive Analyst (Political), Office of the Secretary, Department of Health and Human Services, transmitting, pursuant to law, a report relative to a vacancy in the position of Assistant Secretary for Children and Families (Family Support), Department of Health and Human Services, received in the Office of the President of the Senate on January 22, 2015; to the Committee on Health, Education, Labor, and Pensions.

EC-373. A communication from the Deputy Bureau Chief, Wireline Competition Bureau, Federal Communications Commission, trans-

mitting, pursuant to law, the report of a rule entitled "Connect America Fund, ETC Annual Reports and Certifications, Petition of USTelecom for Forbearance Pursuant to 47 U.S.C. 160(c) from Obsolete ILEC Regulatory Obligations that Inhibit Deployment of Next-Generation Networks" ((RIN3060-AF85) (FCC 14-190)) received in the Office of the President of the Senate on January 21, 2015; to the Committee on Commerce, Science, and Transportation.

EC-374. A communication from the Acting Chief, Wireline Competition Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Rural Call Completion" ((RIN3060-AJ89) (FCC 14-175)) received in the Office of the President of the Senate on January 21, 2015; to the Committee on Commerce, Science, and Transportation.

EC-375. A communication from the Associate Bureau Chief, Wireline Competition Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Modernizing the E-rate Program for Schools and Libraries, Connect America Fund" ((RIN3060-AF85) (FCC 14-189)) received in the Office of the President of the Senate on January 21, 2015; to the Committee on Commerce, Science, and Transportation.

EC-376. A communication from the Management and Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Bombardier, Inc. Airplanes" ((RIN2120-AA64) (Docket No. FAA-2014-0567)) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Commerce, Science, and Transportation.

EC-377. A communication from the Acting Director, Office of Sustainable Fisheries, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer" (RIN0648-XD656) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Commerce, Science, and Transportation.

EC-378. A communication from the Deputy Assistant Administrator, Office of Sustainable Fisheries, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Framework Action to Modify the Commercial Annual Catch/Limit Annual Catch Target Regulations for Three Individual Fishing Quota Species Complexes" (RIN0648-BE23) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Commerce, Science, and Transportation.

EC-379. A communication from the Deputy Assistant Administrator, Office of Sustainable Fisheries, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Atlantic Highly Migratory Species; Transshipment, Port Inspection, and Vessel Identification" (RIN0648-BE12) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Commerce, Science, and Transportation.

EC-380. A communication from the Acting Director, Office of Sustainable Fisheries, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries of the Exclusive Economic Zone Off Alaska; Inseason Adjustment to the 2015 Gulf of Alaska Pollock and Pacific Cod Total Allowable Catch Amounts" (RIN0648-XD688) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Commerce, Science, and Transportation.

EC-381. A communication from the Chief of the Recovery and State Grants Branch, Fish

and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Endangered Status for the Mexican Wolf" (RIN1018-AY00) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-382. A communication from the Chief of the Recovery and State Grants Branch, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Revision to the Regulations for the Nonessential Experimental Population of the Mexican Wolf" (RIN1018-AY46) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-383. A communication from the Acting Chief of the Listing Branch, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Determination of Threatened Status for the Western Distinct Population Segment of the Yellow-billed Cuckoo (*Coccyzus americanus*)" (RIN1018-AY53) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-384. A communication from the Acting Chief of the Foreign Species Branch, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Listing the Straight-Horned Markhor as Threatened With a Rule Under Section 4(d) of the ESA" (RIN1018-AY42) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-385. A communication from the Wildlife Biologist, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Migratory Bird Hunting; Late Seasons and Bag and Possession Limits for Certain Migratory Game Birds" (RIN1018-AZ80) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-386. A communication from the Wildlife Biologist, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Migratory Bird Hunting; Final Frameworks for Late-Season Migratory Bird Hunting Regulations" (RIN1018-AZ80) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-387. A communication from the Wildlife Biologist, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Migratory Bird Hunting; Migratory Bird Hunting Regulations on Certain Federal Indian Reservations and Ceded Lands for the 2014-15 Late Season" (RIN1018-AZ80) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-388. A communication from the Chief of the Endangered Species Listing Branch, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for Gunnison Sagegrouse" (RIN1018-AX71) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

EC-389. A communication from the Chief of the Endangered Species Listing Branch, Fish

and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Threatened Status for Gunnison Sage-grouse" (RIN1018-AZ20) received in the Office of the President of the Senate on January 22, 2015; to the Committee on Environment and Public Works.

### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Ms. MURKOWSKI, from the Committee on Energy and Natural Resources, without amendment:

S. Res. 39. An original resolution authorizing expenditures by the Committee on Energy and Natural Resources.

### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. HATCH (for himself and Mrs. FEINSTEIN):

S. 250. A bill to amend title 18, United States Code, to prohibit threats against former Vice Presidents and members of their families, and for other purposes; to the Committee on the Judiciary.

By Mr. REED (for himself, Mr. GRASSLEY, Ms. STABENOW, Mr. MARKEY, and Ms. WARREN):

S. 251. A bill to aid and support pediatric involvement in reading and education; to the Committee on Health, Education, Labor, and Pensions.

By Mr. CORNYN:

S. 252. A bill to prohibit the consideration of any bill by Congress unless a statement on tax transparency is provided in the bill; to the Committee on Rules and Administration.

By Mr. HELLER:

S. 253. A bill to amend the Communications Act of 1934 to consolidate the reporting obligations of the Federal Communications Commission in order to improve congressional oversight and reduce reporting burdens; to the Committee on Commerce, Science, and Transportation.

By Mr. PORTMAN (for himself, Ms. AYOTTE, Mr. MCCAIN, and Mr. SCOTT):

S. 254. A bill to lower health premiums and increase choice for small businesses; to the Committee on Finance.

By Mr. PAUL:

S. 255. A bill to restore the integrity of the Fifth Amendment to the Constitution of the United States, and for other purposes; to the Committee on the Judiciary.

### SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Ms. MURKOWSKI:

S. Res. 39. An original resolution authorizing expenditures by the Committee on Energy and Natural Resources; from the Committee on Energy and Natural Resources; to the Committee on Rules and Administration.

By Mrs. FEINSTEIN (for herself, Mr. MURPHY, Mr. LEAHY, Mr. WHITEHOUSE, Mr. TESTER, Mr. CARPER, Mr. HEINRICH, Mr. FRANKEN, Mr. DURBIN, Mr. MERKLEY, and Mr. KING):

S. Res. 40. A resolution expressing the sense of the Senate regarding efforts by the

United States and others to prevent Iran from developing a nuclear weapon; to the Committee on Foreign Relations.

By Mr. HOEVEN (for himself and Ms. HEITKAMP):

S. Res. 41. A resolution congratulating the North Dakota State University football team for winning the 2014 National Collegiate Athletic Association Division I Football Championship Subdivision title; considered and agreed to.

### ADDITIONAL COSPONSORS

S. 11

At the request of Mr. BLUNT, the names of the Senator from Georgia (Mr. PERDUE) and the Senator from Idaho (Mr. RISCH) were added as cosponsors of S. 11, a bill to protect the separation of powers in the Constitution of the United States by ensuring that the President takes care that the laws be faithfully executed, and for other purposes.

S. 48

At the request of Mr. VITTER, the names of the Senator from Texas (Mr. CRUZ) and the Senator from South Dakota (Mr. THUNE) were added as cosponsors of S. 48, a bill to prohibit discrimination against the unborn on the basis of sex or gender, and for other purposes.

S. 73

At the request of Mr. VITTER, the names of the Senator from Texas (Mr. CRUZ) and the Senator from Montana (Mr. DAINES) were added as cosponsors of S. 73, a bill to prohibit the Federal Government from mandating, incentivizing, or coercing States to adopt the Common Core State Standards or any other specific academic standards, instructional content, curricula, assessments, or programs of instruction.

S. 85

At the request of Mr. BURR, the names of the Senator from New Hampshire (Ms. AYOTTE) and the Senator from West Virginia (Mrs. CAPITO) were added as cosponsors of S. 85, a bill to amend the Higher Education Act of 1965 to establish a simplified income-driven repayment plan, and for other purposes.

S. 108

At the request of Mr. ALEXANDER, the names of the Senator from Illinois (Mr. KIRK), the Senator from Utah (Mr. HATCH) and the Senator from Georgia (Mr. PERDUE) were added as cosponsors of S. 108, a bill to amend the Higher Education Act of 1965 to improve access for students to Federal grants and loans to help pay for postsecondary, graduate, and professional educational opportunities, and for other purposes.

S. 143

At the request of Mr. WICKER, the name of the Senator from Utah (Mr. HATCH) was added as a cosponsor of S. 143, a bill to allow for improvements to the United States Merchant Marine Academy and for other purposes.

S. 158

At the request of Mr. CASSIDY, the name of the Senator from West Vir-

ginia (Mrs. CAPITO) was added as a cosponsor of S. 158, a bill to authorize health insurance issuers to continue to offer for sale current group health insurance coverage in satisfaction of the minimum essential health insurance coverage requirement, and for other purposes.

S. 165

At the request of Ms. AYOTTE, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 165, a bill to extend and enhance prohibitions and limitations with respect to the transfer or release of individuals detained at United States Naval Station, Guantanamo Bay, Cuba, and for other purposes.

S. 167

At the request of Mr. BLUMENTHAL, the names of the Senator from Florida (Mr. NELSON) and the Senator from Delaware (Mr. COONS) were added as cosponsors of S. 167, a bill to direct the Secretary of Veterans Affairs to provide for the conduct of annual evaluations of mental health care and suicide prevention programs of the Department of Veterans Affairs, to require a pilot program on loan repayment for psychiatrists who agree to serve in the Veterans Health Administration of the Department of Veterans Affairs, and for other purposes.

S. 168

At the request of Mr. ROBERTS, the names of the Senator from Kansas (Mr. MORAN) and the Senator from Georgia (Mr. PERDUE) were added as cosponsors of S. 168, a bill to codify and modify regulatory requirements of Federal agencies.

S. 178

At the request of Mr. CORNYN, the names of the Senator from North Dakota (Ms. HEITKAMP) and the Senator from South Carolina (Mr. SCOTT) were added as cosponsors of S. 178, a bill to provide justice for the victims of trafficking.

S. 183

At the request of Mr. BARRASSO, the name of the Senator from Arizona (Mr. MCCAIN) was added as a cosponsor of S. 183, a bill to repeal the annual fee on health insurance providers enacted by the Patient Protection and Affordable Care Act.

S. 200

At the request of Mr. PORTMAN, the name of the Senator from Georgia (Mr. PERDUE) was added as a cosponsor of S. 200, a bill to amend the Congressional Budget Act of 1974 to provide for macroeconomic analysis of the impact of major revenue legislation.

S. 203

At the request of Mr. HATCH, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 203, a bill to restore Americans' individual liberty by striking the Federal mandate to purchase insurance.

S. 207

At the request of Mr. MORAN, the name of the Senator from Minnesota

(Ms. KLOBUCHAR) was added as a cosponsor of S. 207, a bill to require the Secretary of Veterans Affairs to use existing authorities to furnish health care at non-Department of Veterans Affairs facilities to veterans who live more than 40 miles driving distance from the closest medical facility of the Department that furnishes the care sought by the veteran, and for other purposes.

S.J. RES. 5

At the request of Mr. UDALL, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S.J. Res. 5, a joint resolution proposing an amendment to the Constitution of the United States relating to contributions and expenditures intended to affect elections.

S. RES. 35

At the request of Ms. MIKULSKI, the names of the Senator from New Hampshire (Mrs. SHAHEEN), the Senator from California (Mrs. BOXER), the Senator from New York (Mrs. GILLIBRAND), the Senator from Ohio (Mr. BROWN), the Senator from Idaho (Mr. RISCH), the Senator from Illinois (Mr. DURBIN), the Senator from South Dakota (Mr. ROUNDS), the Senator from New Jersey (Mr. BOOKER), the Senator from Delaware (Mr. COONS), the Senator from Kansas (Mr. MORAN), the Senator from Utah (Mr. HATCH), the Senator from Oregon (Mr. WYDEN), the Senator from Florida (Mr. NELSON) and the Senator from Hawaii (Mr. SCHATZ) were added as cosponsors of S. Res. 35, a resolution commemorating the 70th anniversary of the liberation of the Auschwitz extermination camp in Nazi-occupied Poland.

AMENDMENT NO. 48

At the request of Mrs. GILLIBRAND, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of amendment No. 48 intended to be proposed to S. 1, a bill to approve the Keystone XL Pipeline.

AMENDMENT NO. 92

At the request of Mr. BURR, the names of the Senator from Michigan (Mr. PETERS), the Senator from Delaware (Mr. COONS), the Senator from Washington (Mrs. MURRAY), the Senator from Montana (Mr. TESTER), the Senator from Connecticut (Mr. MURPHY) and the Senator from Indiana (Mr. DONNELLY) were added as cosponsors of amendment No. 92 intended to be proposed to S. 1, a bill to approve the Keystone XL Pipeline.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REED (for himself, Mr. GRASSLEY, Ms. STABENOW, Mr. MARKEY, and Ms. WARREN):

S. 251. A bill to aid and support pediatric involvement in reading and education; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, today I introduce with my colleague, Senator GRASSLEY, the Prescribe a Book Act I

thank Senators MARKEY, STABENOW, and WARREN for joining us as original cosponsors of this bipartisan bill.

Literacy skills are the foundation for success in school and in life. Developing and building these skills begins at home, with parents as the first teachers. Children who are read to frequently at home are more likely to become frequent readers themselves in later years. Indeed, according to Scholastic's Kids and Families Reading Report, among children ages 6–11, 60 percent of frequent readers, those who read 57 days per week for fun, were read to aloud by a parent 5–7 times per week before they entered kindergarten. This highlights the important role that parents play in building their children's literacy skills.

To help support the parental role in literacy, the Prescribe a Book Act would create a federal pediatric early literacy grant initiative based on the long-standing, successful Reach Out and Read program. The program would award grants on a competitive basis to high-quality nonprofit entities to train doctors and nurses to discuss with parents the importance of reading aloud to their children and to give books to children at pediatric check-ups from 6 months to 5 years of age, with a priority for children from low-income families. It builds on the relationship between parents and medical providers and helps families and communities encourage early literacy skills so children enter school prepared for success in reading.

I was pleased to see last year that the American Academy of Pediatrics, AAP, recognized the important role that pediatric providers play in enhancing children's literacy skills. In a policy statement, AAP recommended that pediatric providers promote early literacy development for children from birth to at least kindergarten entry, including by counseling parents on the importance of reading to their children and through providing age-appropriate books to high-risk, low-income young children.

Evidence shows that that the pediatric literacy model works. Research published in peer-reviewed, scientific journals has found that parents who have participated in the Reach out and Read program are significantly more likely to read to their children and include more children's books in their home, and that children served by the program show an increase of 4–8 points on vocabulary tests. I have seen up close the positive impact of this program on children and their families when visiting a number of Rhode Island's Reach Out and Read sites. Building on existing efforts, which in the past have been supported by Federal funding included in the appropriations process and distributed by the Department of Education, and matched by tens of millions of dollars from the private sector and State governments, the Prescribe a Book Act would establish a formal authorization modeled on this

type of successful public-private partnership. By so doing, it would leverage Federal dollars to expand pediatric literacy initiatives so that more young children reap the developmental benefits of having books at home and being read to by their parents.

I urge our colleagues to join us in cosponsoring the Prescribe a Book Act, and to work to include its provisions in the upcoming reauthorization of the Elementary and Secondary Education Act.

By Mr. CORNYN:

S. 252. A bill to prohibit the consideration of any bill by Congress unless a statement on tax transparency is provided in the bill; to the Committee on Rules and Administration.

Mr. CORNYN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 252

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Tax Transparency Act of 2015".

#### SEC. 2. TAX EFFECT TRANSPARENCY.

(a) IN GENERAL.—Chapter 2 of title 1, United States Code, is amended by inserting after section 102 the following:

##### "§ 102a. Tax effect transparency

"(a) IN GENERAL.—Each Act of Congress, bill, resolution, conference report thereon, or amendment there to, that modifies Federal tax law shall contain a statement describing the general effect of the modification on Federal tax law.

"(b) FAILURE TO COMPLY.—

"(1) IN GENERAL.—A failure to comply with subsection (a) shall give rise to a point of order in either House of Congress, which may be raised by any Senator during consideration in the Senate or any Member of the House of Representatives during consideration in the House of Representatives.

"(2) NONEXCLUSIVITY.—The availability of a point of order under this section shall not affect the availability of any other point of order.

"(c) DISPOSITION OF POINT OF ORDER IN THE SENATE.—

"(1) IN GENERAL.—Any Senator may raise a point of order that any matter is not in order under subsection (a).

"(2) WAIVER.—

"(A) IN GENERAL.—Any Senator may move to waive a point of order raised under paragraph (1) by an affirmative vote of three-fifths of the Senators duly chosen and sworn.

"(B) PROCEDURES.—For a motion to waive a point of order under subparagraph (A) as to a matter—

"(i) a motion to table the point of order shall not be in order;

"(ii) all motions to waive one or more points of order under this section as to the matter shall be debatable for a total of not more than 1 hour, equally divided between the Senator raising the point of order and the Senator moving to waive the point of order or their designees; and

"(iii) a motion to waive the point of order shall not be amendable.

"(d) DISPOSITION OF POINT OF ORDER IN THE HOUSE OF REPRESENTATIVES.—

"(1) IN GENERAL.—If a Member of the House of Representatives makes a point of order

under this section, the Chair shall put the question of consideration with respect to the proposition of whether any statement made under subsection (a) was adequate or, in the absence of such a statement, whether a statement is required under subsection (a).

“(2) CONSIDERATION.—For a point of order under this section made in the House of Representatives—

“(A) the question of consideration shall be debatable for 10 minutes, equally divided and controlled by the Member making the point of order and by an opponent, but shall otherwise be decided without intervening motion except one that the House of Representatives adjourn or that the Committee of the Whole rise, as the case may be;

“(B) in selecting the opponent, the Speaker of the House of Representatives should first recognize an opponent from the opposing party; and

“(C) the disposition of the question of consideration with respect to a measure shall be considered also to determine the question of consideration under this section with respect to an amendment made in order as original text.

“(e) RULEMAKING AUTHORITY.—The provisions of this section are enacted by the Congress—

“(1) as an exercise of the rulemaking power of the House of Representatives and the Senate, respectively, and as such they shall be considered as part of the rules of each House, respectively, or of that House to which they specifically apply, and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

“(2) with full recognition of the constitutional right of either House to change such rules (so far as relating to such House) at any time, in the same manner, and to the same extent as in the case of any other rule of such House.”.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 2 of title 1, United States Code, is amended by inserting after the item relating to section 102 the following new item:

“102a. Tax effect transparency.”.

## SUBMITTED RESOLUTIONS

### SENATE RESOLUTION 39—AUTHORIZING EXPENDITURES BY THE COMMITTEE ON ENERGY AND NATURAL RESOURCES

Ms. MURKOWSKI submitted the following resolution; from the Committee on Energy and Natural Resources; which was referred to the Committee on Rules and Administration:

S. RES. 39

*Resolved,*

#### SECTION 1. GENERAL AUTHORITY.

In carrying out its powers, duties, and functions under the Standing Rules of the Senate, in accordance with its jurisdiction under rule XXV of the Standing Rules of the Senate, including holding hearings, reporting such hearings, and making investigations as authorized by paragraphs 1 and 8 of rule XXVI of the Standing Rules of the Senate, the Committee on Energy and Natural Resources (in this resolution referred to as the “committee”) is authorized from March 1, 2015 through February 28, 2017, in its discretion, to—

(1) make expenditures from the contingent fund of the Senate;

(2) employ personnel; and

(3) with the prior consent of the Government department or agency concerned and

the Committee on Rules and Administration, use on a reimbursable or nonreimbursable basis the services of personnel of any such department or agency.

#### SEC. 2. EXPENSES.

(a) EXPENSES FOR PERIOD ENDING SEPTEMBER 30, 2015.—The expenses of the committee for the period March 1, 2015 through September 30, 2015 under this resolution shall not exceed \$3,219,522.

(b) EXPENSES FOR FISCAL YEAR 2016 PERIOD.—The expenses of the committee for the period October 1, 2015 through September 30, 2016 under this section shall not exceed \$5,519,181.

(c) EXPENSES FOR PERIOD ENDING FEBRUARY 28, 2017.—The expenses of the committee for the period October 1, 2016 through February 28, 2017 under this section shall not exceed \$2,299,659.

#### SEC. 3. REPORTING LEGISLATION.

The committee shall report its findings, together with such recommendations for legislation as it deems advisable, to the Senate at the earliest practicable date, but not later than February 28, 2017.

#### SEC. 4. EXPENSES AND AGENCY CONTRIBUTIONS.

(a) EXPENSES OF THE COMMITTEE.—

(1) IN GENERAL.—Except as provided in paragraph (2), expenses of the committee under this resolution shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman of the committee.

(2) VOUCHERS NOT REQUIRED.—Vouchers shall not be required for—

(A) the disbursement of salaries of employees paid at an annual rate;

(B) the payment of telecommunications provided by the Office of the Sergeant at Arms and Doorkeeper;

(C) the payment of stationery supplies purchased through the Keeper of the Stationery;

(D) payments to the Postmaster of the Senate;

(E) the payment of metered charges on copying equipment provided by the Office of the Sergeant at Arms and Doorkeeper;

(F) the payment of Senate Recording and Photographic Services; or

(G) the payment of franked and mass mail costs by the Sergeant at Arms and Doorkeeper.

(b) AGENCY CONTRIBUTIONS.—There are authorized to be paid from the appropriations account for “Expenses of Inquiries and Investigations” of the Senate such sums as may be necessary for agency contributions related to the compensation of employees of the committee—

(1) for the period March 1, 2015 through September 30, 2015;

(2) for the period October 1, 2015 through September 30, 2016; and

(3) for the period October 1, 2016 through February 28, 2017.

### SENATE RESOLUTION 40—EXPRESSING THE SENSE OF THE SENATE REGARDING EFFORTS BY THE UNITED STATES AND OTHERS TO PREVENT IRAN FROM DEVELOPING A NUCLEAR WEAPON

Mrs. FEINSTEIN (for herself, Mr. MURPHY, Mr. LEAHY, Mr. WHITEHOUSE, Mr. TESTER, Mr. CARPER, Mr. HEINRICH, Mr. FRANKEN, Mr. DURBIN, Mr. MERKLEY, and Mr. KING) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 40

Whereas any acquisition by the Government of the Islamic Republic of Iran of a nu-

clear weapon would pose a grave threat to international peace and stability and the national security of the United States and United States allies, including Israel;

Whereas the Government of the Islamic Republic of Iran is a leading state sponsor of terrorism, continues to materially support the regime of Bashar al-Assad, and is responsible for continuing and gross violations of the human rights of the people of Iran;

Whereas, since 2006, the United Nations Security Council has adopted multiple resolutions demanding an end to the Government of the Islamic Republic of Iran's illicit nuclear activities and Iran's full cooperation with the International Atomic Energy Agency (IAEA) regarding its nuclear program and international commitments;

Whereas the United States Government has led the international community in imposing costly economic sanctions against the Islamic Republic of Iran, which have contributed to the decision of the Government of the Islamic Republic of Iran to return to the negotiating table and provided leverage to press Iran's leaders to agree to end Iran's illicit nuclear activities;

Whereas the Government of the Islamic Republic of Iran entered the present negotiation with the five permanent Member States of the United Nations Security Council, plus Germany (the “P5+1”), having previously violated its commitments under the Treaty on the Non-Proliferation of Nuclear Weapons, done at Washington, London, and Moscow July 1, 1968, and not complied with multiple United Nations Security Council Resolutions;

Whereas the Joint Plan of Action, also known as the interim agreement, was entered into by the P5+1 and Iran on November 24, 2013, in order to facilitate good faith negotiations toward a final comprehensive agreement that prevents Iran from developing a nuclear weapon;

Whereas, under the Joint Plan of Action, the Government of the Islamic Republic of Iran has ceased enrichment of near-20 percent uranium gas, eliminated its stockpile of near-20 percent uranium gas, halted significant construction activities at the Arak nuclear reactor, halted the installation of additional centrifuges and not operated its most advanced centrifuges to accumulate enriched uranium, agreed to more intrusive international inspections of its enrichment sites and provided managed access to its centrifuge assembly workshops, centrifuge rotor production workshops and storage facilities, and uranium mines and mills;

Whereas the International Atomic Energy Agency concluded in a January 20, 2015, report that Iran has not enriched uranium above 5 percent at any of its declared facilities, has not made “any further advances” to its activities at the Natanz and Fordow fuel enrichment plants or the Arak reactor, and has continued to provide managed access to uranium mines and mills, daily access to the enrichment facilities at Natanz and Fordow, and managed access to centrifuge assembly workshops, rotor production workshops, and storage facilities;

Whereas the P5+1 and Iran have extended the terms of the Joint Plan of Action and have set a target date for reaching a political framework agreement by the end of March 2015 and a deadline of July 1, 2015, to reach a final comprehensive agreement, including relevant technical annexes;

Whereas, in a public speech on January 12, 2015, United States Permanent Representative to the United Nations Samantha Power stated that, “increasing sanctions would dramatically undermine our efforts to reach this shared goal . . . of getting Iran to give up its nuclear program”;

Whereas, during a press conference on January 16, 2015, Prime Minister David Cameron stated that, “it’s the opinion of the United Kingdom that further sanctions [against Iran] or further threat of sanctions at this point won’t actually help to bring the talks to a successful conclusion and they could fracture the international unity that there’s been, which has been so valuable in presenting a united front to Iran”;

Whereas, during a press conference on January 16, 2015, President Barack Obama stated, “On Iran, we remain absolutely committed to ensuring that Iran cannot develop a nuclear weapon. The best way to achieve that now is to create the space for negotiations to succeed. We should not impose further sanctions now; that would be counterproductive and it could put at risk the valuable international unity that has been so crucial to our approach.”;

Whereas any final comprehensive agreement with the Government of the Islamic Republic of Iran must prevent Iran from developing a nuclear weapon in any manner;

Whereas any final comprehensive agreement with the Government of the Islamic Republic of Iran must allow for the prompt reimposition of sanctions if the Government of the Islamic Republic of Iran fails to comply with the final comprehensive agreement; and

Whereas Congress retains the sole authority to repeal statutory sanctions against the Government of the Islamic Republic of Iran: Now, therefore, be it

*Resolved*, That it is the sense of the Senate that the Senate—

(1) reaffirms that it is the policy of the United States that the Government of the Islamic Republic of Iran will not be allowed to develop a nuclear weapon and that all instruments of United States power and influence must remain on the table to prevent this outcome;

(2) supports the ongoing diplomatic efforts of the United States Government and the members of the P5+1 countries to reach a comprehensive agreement with Iran that prevents Iran from acquiring a nuclear weapon;

(3) affirms that support for the prompt reimposition of suspended sanctions as well as the imposition of additional sanctions against Iran would be strong and widespread in the Senate in the event—

(A) negotiations fail to achieve a comprehensive agreement;

(B) Iran violates the Joint Plan of Action; or

(C) Iran violates any final comprehensive agreement on its nuclear program;

(4) agrees that future new sanctions against Iran may include measures further targeting Iran’s energy, financial, and strategic economic sectors, and its foreign currency transactions, as well as the designation of additional Government of the Islamic Republic of Iran officials linked to its illicit nuclear program and sanctions evasion; and

(5) supports the universal rights and democratic aspirations of the people of Iran.

#### SENATE RESOLUTION 41—CONGRATULATING THE NORTH DAKOTA STATE UNIVERSITY FOOTBALL TEAM FOR WINNING THE 2014 NATIONAL COLLEGIATE ATHLETIC ASSOCIATION DIVISION I FOOTBALL CHAMPIONSHIP SUBDIVISION TITLE

Mr. HOEVEN (for himself and Ms. HEITKAMP) submitted the following resolution; which was considered and agreed to:

#### S. RES. 41

Whereas the North Dakota State University (referred to in this preamble as “NDSU”) Bison won the 2014 National Collegiate Athletic Association (referred to in this preamble as the “NCAA”) Division I Football Championship Subdivision title game in Frisco, Texas, on January 10, 2015, in a hard-fought victory over the Illinois State Redbirds by a score of 29 to 27;

Whereas NDSU has won 12 NCAA Football Championships;

Whereas NDSU has now won 4 consecutive NCAA Football Championships since 2011, an unprecedented achievement in Football Championship Subdivision history;

Whereas the NDSU Bison have displayed tremendous resilience and skill over the past 4 seasons, with 58 wins to only 3 losses, including a streak of 33 consecutive winning games;

Whereas an estimated 17,000 Bison fans attended the Championship game, reflecting the tremendous spirit and dedication of Bison Nation that has helped propel the success of the team; and

Whereas the 2014 NCAA Division I Football Championship Subdivision title was a victory not only for the NDSU football team, but also for the entire State of North Dakota: Now, therefore, be it

*Resolved*, That the Senate—

(1) congratulates the North Dakota State University football team as the 2014 champion of the National Collegiate Athletic Association Division I Football Championship Subdivision;

(2) commends the North Dakota State University players, coaches, and staff for their hard work and dedication; and

(3) recognizes the students, alumni, and loyal fans that supported the Bison in their successful quest to capture another Division I trophy for North Dakota State University.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 144. Mrs. SHAHEEN submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table.

SA 145. Mr. MANCHIN submitted an amendment intended to be proposed by him to the bill S. 1, supra; which was ordered to lie on the table.

SA 146. Mr. MANCHIN submitted an amendment intended to be proposed by him to the bill S. 1, supra; which was ordered to lie on the table.

SA 147. Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 148. Mr. WHITEHOUSE (for himself, Mr. LEAHY, Mrs. BOXER, Mr. DURBIN, Mr. BROWN, Mr. UDALL, Mrs. SHAHEEN, Ms. BALDWIN, Mr. MURPHY, and Mr. HEINRICH) submitted an amendment intended to be proposed by him to the bill S. 1, supra; which was ordered to lie on the table.

SA 149. Mrs. GILLIBRAND submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 150. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1, supra; which was ordered to lie on the table.

SA 151. Mr. CARDIN submitted an amendment intended to be proposed to amendment

SA 75 proposed by Mr. CARDIN to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 152. Mr. WICKER submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 153. Mr. WICKER submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 154. Mr. LEAHY (for himself, Ms. CANTWELL, Mr. COONS, and Mrs. FEINSTEIN) submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 155. Mr. BOOKER submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 156. Mr. REED (for himself and Ms. COLLINS) submitted an amendment intended to be proposed by him to the bill S. 1, supra; which was ordered to lie on the table.

SA 157. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 158. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 159. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 160. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 161. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 162. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 163. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 164. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 165. Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 166. Ms. MURKOWSKI (for herself and Mr. SULLIVAN) submitted an amendment intended to be proposed by her to the bill S. 1, supra; which was ordered to lie on the table.

SA 200. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 82 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BAR-RASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr.

SA 227. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 7 submitted by Mr. SCHATZ and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANTHAN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO).

to the bill S. 1, supra; which was ordered to lie on the table.

SA 228. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 12 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 229. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 12 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 230. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 12 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 231. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 6 submitted by Mr. SCHATZ and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 232. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 6 submitted by Mr. SCHATZ and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 233. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 6 submitted by Mr. SCHATZ and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 234. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 115 submitted by Mr. COONS and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 235. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 145 submitted by Mr. MANCHIN and intended to be proposed to the bill S. 1, supra; which was ordered to lie on the table.

SA 236. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 145 submitted by Mr.

MANCHIN and intended to be proposed to the bill S. 1, supra; which was ordered to lie on the table.

SA 237. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 145 submitted by Mr. MANCHIN and intended to be proposed to the bill S. 1, supra; which was ordered to lie on the table.

SA 238. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 55 submitted by Mr. PETERS (for himself and Ms. STABENOW) and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 239. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 75 proposed by Mr. CARDIN to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, supra; which was ordered to lie on the table.

SA 240. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 59 submitted by Mr. SCHATZ and intended to be proposed to the bill S. 1, supra; which was ordered to lie on the table.

SA 241. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1, supra; which was ordered to lie on the table.

SA 242. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1, supra; which was ordered to lie on the table.

## TEXT OF AMENDMENTS

**SA 144.** Mr. SHAHEEN submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

### SEC. \_\_\_\_ FOREST CARBON INCENTIVES PROGRAM.

(a) DEFINITIONS.—In this section:

(1) CLIMATE MITIGATION CONTRACT; CONTRACT.—The term “climate mitigation contract” or “contract” means a 15-year contract that specifies—

(A) the eligible practices that will be undertaken;

(B) the acreage of eligible land on which the practices will be undertaken;

(C) the agreed rate of compensation per acre; and

(D) a schedule to verify that the terms of the contract have been fulfilled.

(2) CONSERVATION EASEMENT AGREEMENT; AGREEMENT.—The term “conservation easement agreement” or “agreement” means a permanent conservation easement that—

(A) covers eligible land that will not be converted for development;

(B) is enrolled under a climate mitigation contract; and

(C) is consistent with the guidelines for—

(i) the Forest Legacy Program established under section 7 of the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2103c); or

(ii) any other program approved by the Secretary for use under this section to provide consistency with Federal legal requirements for permanent conservation easements.

(3) ELIGIBLE LAND.—The term “eligible land” means forest land in the United States

that is privately owned at the time of initiation of a climate mitigation contract or conservation easement agreement.

(4) ELIGIBLE PRACTICE.—The term “eligible practice” means a forestry practice, including improved forest management that produces marketable forest products, that is determined by the Secretary to provide measurable increases in carbon sequestration and storage beyond customary practices on comparable land.

(5) FOREST CARBON INCENTIVES PROGRAM; PROGRAM.—The term “forest carbon incentives program” or “program” means the forest carbon incentives program established under subsection (b)(1).

(6) SECRETARY.—The term “Secretary” means the Secretary of Agriculture.

(b) SUPPLEMENTAL GREENHOUSE GAS EMISSION REDUCTIONS IN UNITED STATES.—

(1) IN GENERAL.—The Secretary shall establish a forest carbon incentives program to achieve supplemental greenhouse gas emission reductions and carbon sequestration on private forest land of the United States through—

(A) climate mitigation contracts; and

(B) conservation easement agreements.

(2) PRIORITY.—In selecting projects under this subsection, the Secretary shall provide a priority for contracts and agreements—

(A) that sequester the most carbon on a per acre basis; and

(B) that create forestry jobs or protect habitats and achieve significant other environmental, economic, and social benefits.

(3) ELIGIBILITY.—

(A) IN GENERAL.—To participate in the program, an owner of eligible land shall enter into a climate mitigation contract.

(B) RELATIONSHIP TO OTHER PROGRAMS.—An owner or operator shall not be prohibited from participating in the program due to participation of the owner or operator in other Federal or State conservation assistance programs.

(4) REVERSALS.—In developing regulations for climate mitigation contracts under this subsection, the Secretary shall specify requirements to address intentional or unintentional reversal of carbon sequestration during the contract and agreement period.

(c) INCENTIVE PAYMENTS.—

(1) IN GENERAL.—The Secretary shall provide to owners of eligible land financial incentive payments for—

(A) eligible practices that measurably increase carbon sequestration and storage over a designated period on eligible land, as specified through a climate mitigation contract; and

(B) subject to paragraph (2), conservation easements on eligible land covered under a conservation easement agreement.

(2) NO CONSERVATION EASEMENT AGREEMENT REQUIRED.—Eligibility for financial incentive payments under a climate mitigation contract described in paragraph (1)(A) shall not require a conservation easement agreement.

(d) REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue regulations that specify eligible practices and related compensation rates, standards, and guidelines as the basis for entering into the program with owners of eligible land.

(e) SET-ASIDE OF FUNDS FOR CERTAIN PURPOSES.—

(1) IN GENERAL.—At the discretion of the Secretary, a portion of program funds made available under this program for a fiscal year may be used—

(A) to develop forest carbon modeling and methodologies that will improve the projection of carbon gains for any forest practices made eligible under the program;

(B) to provide additional incentive payments for specified management activities

that increase the adaptive capacity of land under a climate mitigation contract; and

(C) for the Forest Inventory and Analysis Program of the Forest Service to develop improved measurement and monitoring of forest carbon stocks.

(2) PROGRAM COMPONENTS.—In establishing the program, the Secretary shall provide that funds provided under this section shall not be substituted for, or otherwise used as a basis for reducing, funding authorized or appropriated under other programs to compensate owners of eligible land for activities that are not covered under the program.

(f) PROGRAM MEASUREMENT, MONITORING, VERIFICATION, AND REPORTING.—

(1) MEASUREMENT, MONITORING, AND VERIFICATION.—The Secretary shall establish and implement protocols that provide monitoring and verification of compliance with the program, including both direct and indirect effects and any reversal of sequestration.

(2) REPORTING REQUIREMENT.—At least annually, the Secretary shall submit to Congress a report that contains—

(A) an estimate of annual and cumulative reductions achieved as a result of the program, determined using standardized measures, including measures of economic efficiency;

(B) a summary of any changes to the program that will be made as a result of program measurement, monitoring, and verification;

(C) the total number of acres enrolled in the program by method; and

(D) a State-by-State summary of the data.

(3) AVAILABILITY OF REPORT.—Each report required by this subsection shall be available to the public through the website of the Department of Agriculture.

(4) PROGRAM ADJUSTMENTS.—At least once every 2 years the Secretary shall adjust eligible practices and compensation rates for future climate mitigation contracts based on the results of monitoring under paragraph (1) and reporting under paragraph (2).

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as are necessary.

**SA 145.** Mr. MANCHIN submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS REGARDING CLIMATE CHANGE.**

It is the sense of Congress that—

(1) Congress is in agreement with the opinion of virtually the entire worldwide scientific community and a growing number of top national security experts, economists, and others that—

(A) climate change is real;

(B) human activities contribute to climate change; and

(C) climate change has already begun to cause problems in the United States and around the world;

(2) the Energy Information Administration projects that fossil fuels could continue to produce 68 percent of the electricity in the United States through 2040; and

(3) it is imperative that the United States invest in research and development for clean fossil fuel technology.

**SA 146.** Mr. MANCHIN submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

On page 2, line 3, insert “, on the condition that any steel purchased or used for the construction, operation, or maintenance of the pipeline and cross-border facilities after the date of enactment of this Act shall be manufactured in the United States, or, if the steel purchased or used is not manufactured in the United States, TransCanada Keystone Pipeline, L.P. shall certify that no such steel is available for purchase” before the period.

**SA 147.** Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

After section 2, insert the following:

**Section \_\_\_\_ . Sense of Congress Regarding Green Building Programs.**

(a) FINDINGS.—Congress finds that—

(1) The U.S. building sector consumes nearly 40 percent of the nation’s energy.

(2) Investments in building efficiency are among the most cost-effective, energy-saving measures the federal government can deploy to save money for taxpayers, families and businesses, grow the domestic economy, create jobs, reduce emissions and make the United States more energy secure.

i. The State Energy Program converts every dollar of federal finding into \$7.22 in energy cost savings, according to a study by Oak Ridge National Laboratory. The study also found that for every \$1 of State Energy Program federal funding, the program leverages \$10.71 in state and non-federal funds.

ii. The Weatherization Assistance Program saves low-income families up to 22.9 percent on their home energy costs.

iii. From 2009 to 2011, the Federal Energy Management Program arranged energy savings performance contracts that leveraged almost \$1.2 billion in private-sector investment to save the federal government and taxpayers more than \$3.5 billion in energy and water costs.

iv. A 2012 analysis of federal appliance and equipment efficiency standards prepared by the American Council for an Energy Efficient Economy and the Appliance Standards Awareness Project found that federal efficiency standards already established would save consumers about \$27 billion in 2010, increasing to \$61 billion in 2025.

(3) Federal building energy efficiency programs related to the construction and operations and maintenance of buildings play a key role in cost-effectively reducing energy and water waste in both the private and public sector.

(4) Reducing energy and water use in buildings requires a network of federal programs that strategically target different segments of the diverse building sector and use a variety of approaches.

(5) The Government Accountability Office report, entitled “2012 Annual Report: Opportunities to Reduce Duplication, Overlap and Fragmentation, Achieve Savings, and Enhance Revenue” recommends enhanced coordination between agencies to increase effectiveness of complimentary programs. This report did not find any specific instances of program duplication and it did not recommend the elimination of any green building programs.

(b) Sense of Congress—It is the sense of Congress that—

1. The federal government successfully employs a variety of federal green building pro-

grams to address the complex challenge of reducing energy and water waste in buildings.

2. Federal green building programs save U.S. families, taxpayers and businesses energy and money, boost domestic job creation and strengthen the U.S. economy.

3. The federal government should encourage enhanced coordination between agencies, State and local governments, tribes and the private-sector to increase continued effectiveness and avoid unnecessary duplication of federal green building programs.

**SA 148.** Mr. WHITEHOUSE (for himself, Mr. LEAHY, Mrs. BOXER, Mr. DURBIN, Mr. BROWN, Mr. UDALL, Mrs. SHAHEEN, Ms. BALDWIN, Mr. MURPHY, and Mr. HEINRICH) submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end, add the following:

**SEC. \_\_\_\_ . CAMPAIGN FINANCE DISCLOSURES BY THOSE PROFITING FROM TAR SANDS DEVELOPMENT.**

Section 304 of the Federal Election Campaign Act of 1974 (52 U.S.C. 30104) is amended by adding at the end the following new subsection:

“(j) DISCLOSURE BY TAR SANDS BENEFICIARIES.—

“(1) IN GENERAL.—

“(A) INITIAL DISCLOSURE.—Every covered entity which has made covered disbursements and received covered transfers in an aggregate amount in excess of \$10,000 during the period beginning on December 1, 2012, and ending on the date that is 165 days after the date of the enactment of this subsection shall file with the Commission a statement containing the information described in paragraph (2) not later than the date that is 180 days after the date of the enactment of this subsection.

“(B) SUBSEQUENT DISCLOSURES.—Every covered entity which makes covered disbursements (other than covered disbursement reported under subparagraph (A)) and received covered transfers (other than a covered transfer reported under subparagraph (A)) in an aggregate amount in excess of \$10,000 during any calendar year shall, within 48 hours of each disclosure date, file with the Commission a statement containing the information described in paragraph (2).

“(2) CONTENTS OF STATEMENT.—Each statement required to be filed under this subsection shall be made under penalty of perjury and shall contain the following information:

“(A) The identification of the person making the disbursement or receiving the transfer, of any person sharing or exercising direction or control over the activities of such person, and of the custodian of the books and accounts of the person making the disbursement or receiving the transfer.

“(B) The principal place of business of the person making the disbursement or receiving the transfer, if not an individual.

“(C) The amount of each disbursement or transfer of more than \$200 during the period covered by the statement and the identification of the person to whom the disbursement was made or from whom the transfer was received.

“(D) The elections to which the disbursements or transfers pertain and the names (if known) of the candidates involved.

“(E) If the disbursements were paid out of a segregated bank account which consists of funds contributed solely by individuals who are United States citizens or nationals or lawfully admitted for permanent residence

(as defined in section 101(a)(20) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(20))) directly to this account for electioneering communications, the names and addresses of all contributors who contributed an aggregate amount of \$1,000 or more to that account during—

“(i) in the case of a statement under paragraph (1)(A), during the period described in such paragraph, and

“(ii) in the case of a statement under paragraph (1)(B), the period beginning on the first day of the preceding calendar year and ending on the disclosure date.

Nothing in this subparagraph is to be construed as a prohibition on the use of funds in such a segregated account for a purpose other than covered disbursements.

“(F) If the disbursements were paid out of funds not described in subparagraph (E), the names and addresses of all contributors who contributed an aggregate amount of \$1,000 or more to the person making the disbursement during—

“(i) in the case of a statement under paragraph (1)(A), during the period described in such paragraph, and

“(ii) in the case of a statement under paragraph (1)(B), the period beginning on the first day of the preceding calendar year and ending on the disclosure date.

“(3) COVERED ENTITY.—For purposes of this subsection—

“(A) IN GENERAL.—The term ‘covered entity’ means—

“(i) any person who is described in subparagraph (B), and

“(ii) any person who owns 5 percent or more of any person described in subparagraph (B).

“(B) PERSON DESCRIBED.—A person is described in this subparagraph if such person—

“(i) holds one or more tar sands leases, or

“(ii) has received revenues or stands to receive revenues of \$1,000,000 or greater from tar sands production, including revenues received in connection with—

“(I) exploration of tar sands;

“(II) extraction of tar sands;

“(III) processing of tar sands;

“(IV) building, maintaining, and upgrading the Keystone XL pipeline and other related pipelines used in connection with tar sands;

“(V) expanding refinery capacity or building, expanding, and retrofitting import and export terminals in connection with tar sands;

“(VI) transportation by pipeline, rail, and barge of tar sands;

“(VII) refinement of tar sands;

“(VIII) importing crude, refined oil, or byproducts derived from tar sands crude;

“(IX) exporting crude, byproducts, or refined oil derived from tar sands crude; and

“(X) use of production byproducts from tar sands, such as petroleum coke for energy generation.

“(C) TAR SANDS.—For purposes of this paragraph, the term ‘tar sands’ means bitumen from the West Canadian Sedimentary Basin.

“(4) COVERED DISBURSEMENT.—For purposes of this subsection, the term ‘covered disbursement’ means a disbursement for any of the following:

“(A) An independent expenditure.

“(B) A broadcast, cable, or satellite communication (other than a communication described in subsection (f)(3)(B)) which—

“(i) refers to a clearly identified candidate for Federal office;

“(ii) is made—

“(I) in the case of a communication which refers to a candidate for an office other than President or Vice President, during the period beginning on January 1 of the calendar year in which a general or runoff election is held and ending on the date of the general or

runoff election (or in the case of a special election, during the period beginning on the date on which the announcement with respect to such election is made and ending on the date of the special election); or

“(II) in the case of a communication which refers to a candidate for the office of President or Vice President, is made in any State during the period beginning 120 days before the first primary election, caucus, or preference election held for the selection of delegates to a national nominating convention of a political party is held in any State (or, if no such election or caucus is held in any State, the first convention or caucus of a political party which has the authority to nominate a candidate for the office of President or Vice President) and ending on the date of the general election; and

“(iii) in the case of a communication which refers to a candidate for an office other than President or Vice President, is targeted to the relevant electorate (within the meaning of subsection (f)(3)(C)).

“(C) A transfer to another person for the purposes of making a disbursement described in subparagraph (A) or (B).

“(5) COVERED TRANSFER.—For purposes of this subsection, the term ‘covered transfer’ means any amount received by a covered entity for the purposes of making a covered disbursement.

“(6) DISCLOSURE DATE.—For purposes of this subsection, the term ‘disclosure date’ means—

“(A) the first date during any calendar year by which a person has made covered disbursements and received covered transfers aggregating in excess of \$10,000; and

“(B) any other date during such calendar year by which a person has made covered disbursements and received covered transfers aggregating in excess of \$10,000 since the most recent disclosure date for such calendar year.

“(7) CONTRACTS TO DISBURSE; COORDINATION WITH OTHER REQUIREMENTS; ETC.—Rules similar to the rules of paragraphs (5), (6), and (7) of subsection (f) shall apply for purposes of this subsection.”.

**SA 149.** Mrs. GILLIBRAND submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

#### SEC. \_\_\_\_ . EFFECTIVE DATE.

This Act shall not take effect until the date that, pursuant to an Act of Congress, the limit on liability for oil spills at onshore facilities is modified to be unlimited.

**SA 150.** Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

#### SEC. \_\_\_\_ . COMMUNITY RIGHT TO PROTECT LOCAL WATER SUPPLIES.

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act and prior to construction of the pipeline described in section 2(a), the President, or the designee of the President, shall provide to each municipality or county that relies on drinking water from a source that may be affected by a tar sands spill from the pipeline an analysis based on the Final Supplemental Environmental Impact Statement referred to in section 2(b) of the potential risks to public health and the environment from a leak or rupture of that pipeline.

(b) NOTIFICATION TO GOVERNORS.—The President shall provide a copy of the analysis described in subsection (a) to the Governor of each State in which an affected municipality or county is located.

(c) EFFECT ON CONSTRUCTION.—Construction of the pipeline described in section 2(a) may not begin if the Governor of a State with an affected municipality or county submits, not later than 30 days after receiving an analysis under subsection (b), a petition to the President requesting that the pipeline not be located in the affected municipality or county.

(d) WITHDRAWAL.—A petitioner may withdraw a petition submitted by that petitioner under subsection (c) at any time.

**SA 151.** Mr. CARDIN submitted an amendment intended to be proposed to amendment SA 75 proposed by Mr. CARDIN to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

Strike all after the first word and, insert the following:

#### \_\_\_\_ . COMMUNITY RIGHT TO PROTECT LOCAL WATER SUPPLIES.

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act and prior to construction of the pipeline described in section 2(a), the President, or the designee of the President, shall provide to each municipality or county that relies on drinking water from a source that may be affected by a tar sands spill from the pipeline an analysis based on the Final Supplemental Environmental Impact Statement referred to in section 2(b) of the potential risks to public health and the environment from a leak or rupture of that pipeline.

(b) NOTIFICATION TO GOVERNORS.—The President shall provide a copy of the analysis described in subsection (a) to the Governor of each State in which an affected municipality or county is located.

(c) EFFECT ON CONSTRUCTION.—Construction of the pipeline described in section 2(a) may not begin if the Governor of a State with an affected municipality or county submits, not later than 30 days after receiving an analysis under subsection (b), a petition to the President requesting that the pipeline not be located in the affected municipality or county.

(d) WITHDRAWAL.—A petitioner may withdraw a petition submitted by that petitioner under subsection (c) at any time.

**SA 152.** Mr. WICKER submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

#### SEC. \_\_\_\_ . THIRD-PARTY CERTIFICATION UNDER ENERGY STAR PROGRAM.

Section 324A of the Energy Policy and Conservation Act (42 U.S.C. 6294a) is amended by adding at the end the following:

“(e) THIRD-PARTY CERTIFICATION.—

“(1) IN GENERAL.—Subject to paragraph (2), not later than 180 days after the date of enactment of this subsection, the Administrator shall revise the certification requirements for the labeling of consumer, home, and office electronic products for program partners that have complied with all requirements of the Energy Star program for a period of at least 18 months.

“(2) ADMINISTRATION.—In the case of a program partner described in paragraph (1), the new requirements under paragraph (1)—

“(A) shall not require third-party certification for a product to be listed; but

“(B) may require that test data and other product information be submitted to facilitate product listing and performance verification for a sample of products.

“(3) THIRD PARTIES.—Nothing in this subsection prevents the Administrator from using third parties in the course of the administration of the Energy Star program.

“(4) TERMINATION.—

“(A) IN GENERAL.—Subject to subparagraph (B), an exemption from third-party certification provided to a program partner under paragraph (1) shall terminate if the program partner is found to have violated program requirements with respect to at least 2 separate models during a 2-year period.

“(B) RESUMPTION.—A termination for a program partner under subparagraph (A) shall cease if the program partner complies with all Energy Star program requirements for a period of at least 3 years.”.

**SA 153.** Mr. WICKER submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . FEDERAL BUILDING ENERGY EFFICIENCY PERFORMANCE STANDARDS.**

Section 305(a)(3)(D) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)(3)(D)) is amended—

(1) in clause (i), by striking subclause (III) and inserting the following:

“(III) SUSTAINABLE DESIGN PRINCIPLES.—

“(aa) IN GENERAL.—Sustainable design principles shall be applied to the siting, design, and construction of buildings covered by this clause.

“(bb) SELECTION OF CERTIFICATION SYSTEMS.—The Secretary, after reviewing the findings of the Federal Director under section 436(h) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17092(h)), in consultation with the Administrator of General Services, and in consultation with the Secretary of Defense relating to those facilities under the custody and control of the Department of Defense, shall determine those certification systems for green commercial and residential buildings that the Secretary determines to be the most likely to encourage a comprehensive and environmentally sound approach to certification of green buildings.

“(cc) BASIS FOR SELECTION.—The determination of the certification systems shall be based on ongoing review of the findings of the Federal Director under section 436(h) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17092(h)) and the criteria described in clause (iii).

“(dd) ADMINISTRATION.—In determining certification systems under this subclause, the Secretary shall—

“(AA) make a separate determination for all or part of each system;

“(BB) use criteria that does not prohibit, disfavor, or discriminate against any specific technology, brand, product, or material based on a hazard characteristic or other arbitrary measure and is based on an objective assessment of relevant technical data; and

“(CC) use environmental and health criteria that are based on risk assessment methodology that is generally accepted by the applicable scientific disciplines.”;

(2) in clause (iii), by striking “identifying the green building certification system and level” and inserting “determining the green building certification systems”;

(3) by redesignating clauses (vi) and (vii) as clauses (vii) and (viii), respectively;

(4) by striking clauses (iv) and (v) and inserting the following:

“(iv) REVIEW.—The Secretary shall conduct an ongoing review to evaluate and compare private sector green building certification systems, taking into account—

“(I) the criteria described in clause (iii); and

“(II) the identification made by the Federal Director under section 436(h) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17092(h)).

“(v) EXCLUSIONS.—

“(I) IN GENERAL.—Subject to subclause (II), if a certification system fails to meet the review requirements of clause (i)(III), the Secretary shall—

“(aa) identify the portions of the system, whether prerequisites, credits, points, or otherwise, that meet the review criteria of clause (i)(III);

“(bb) determine the portions of the system that are suitable for use; and

“(cc) exclude all other portions of the system from identification and use.

“(II) ENTIRE SYSTEMS.—The Secretary shall exclude an entire system from use if an exclusion under subclause (I)—

“(aa) impedes the integrated use of the system;

“(bb) creates disparate review criteria or unequal point access for competing materials; or

“(cc) increases agency costs of the use.

“(vi) INTERNAL CERTIFICATION PROCESSES.—The Secretary may by rule allow Federal agencies to develop internal certification processes, using certified professionals, in lieu of certification by certification entities identified under clause (i)(III).”; and

(5) by adding at the end the following:

“(ix) EFFECTIVE DATE.—

“(I) DETERMINATIONS MADE AFTER DECEMBER 31, 2015.—The amendments made by section \_\_\_\_ of the Keystone XL Pipeline Approval Act shall apply to any determination made by a Federal agency after December 31, 2015.

“(II) DETERMINATIONS MADE ON OR BEFORE DECEMBER 31, 2015.—This subparagraph (as in effect on the day before the date of enactment of the Keystone XL Pipeline Approval Act) shall apply to any determination made by a Federal agency on or before December 31, 2015.”.

**SEC. \_\_\_\_ . HIGH-PERFORMANCE GREEN FEDERAL BUILDINGS.**

Section 436(h) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17092(h)) is amended—

(1) in the subsection heading, by striking “SYSTEM” and inserting “SYSTEMS”;

(2) by striking paragraph (1) and inserting the following:

“(1) IN GENERAL.—Based on an ongoing review, the Federal Director shall identify and shall provide to the Secretary pursuant to section 305(a)(3)(D) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)(3)(D)), a list of those certification

systems that the Director identifies as the most likely to encourage a comprehensive and environmentally sound approach to certification of green buildings.”; and

(3) in paragraph (2)—

(A) in the matter preceding subparagraph (A), by striking “system” and inserting “systems”;

(B) by striking subparagraph (A) and inserting the following:

“(A) an ongoing review provided to the Secretary pursuant to section 305(a)(3)(D) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)(3)(D)), which shall—

“(i) be carried out by the Federal Director to compare and evaluate standards; and

“(ii) allow any developer or administrator of a rating system or certification system to be included in the review.”;

(C) in subparagraph (E)(v), by striking “and” after the semicolon at the end;

(D) in subparagraph (F), by striking the period at the end and inserting a semicolon; and

(E) by adding at the end the following:

“(G) a finding that, for all credits addressing grown, harvested, or mined materials, the system promotes the use of domestic products that have obtained certifications of responsible sourcing; and

“(H) a finding that the system incorporates life-cycle assessment as a credit pathway.”.

**SA 154.** Mr. LEAHY (for himself, Ms. CANTWELL, Mr. COONS, and Mrs. FEINSTEIN) submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

On page 2, strike line 24 and all that follows through page 3, line 9, and insert the following:

(d) JUDICIAL REVIEW.—Nothing in this Act shall be construed to affect—

(1) the availability or scope of judicial review under chapter 7 of title 5, United States Code, or any other provision of law, of any agency action relating to—

(A) the pipeline or cross-border facilities described in subsection (a); or

(B) any related facility in the United States; or

(2) the form or venue of any proceeding for, or the court with jurisdiction of an action seeking, judicial review of an agency action described in paragraph (1).

**SA 155.** Mr. BOOKER submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of section 2, add the following:

(f) ENVIRONMENTAL IMPACT STATEMENT SAVINGS CLAUSE.—Nothing in subsection (b) relieves any Federal agency of the obligation of the Federal agency to comply with the National Environmental Policy Act of 1969

(42 U.S.C. 4321 et seq.), including the obligation of the Federal agency to prepare a supplement to the Final Supplemental Environmental Impact Statement described in subsection (b) in connection with the issuance of any permit or authorization needed to construct, connect, operate, or maintain the pipeline and cross-border facilities described in subsection (a) if there are significant new circumstances or information relevant to environmental concerns and bearing on the environmental impacts resulting from the construction, connection, operation, and maintenance of the pipeline and cross-border facilities, including from greenhouse gas emissions associated with the crude oil being transported by the pipeline.

**SA 156.** Mr. REED (for himself and Ms. COLLINS) submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . FINDINGS AND SENSE OF THE SENATE.**

(a) FINDINGS.—The Senate finds the following:

(1) The Low-Income Home Energy Assistance Program (referred to in this section as “LIHEAP”) is the main Federal program that helps low-income households and senior citizens with their energy bills, providing vital assistance during both the cold winter and hot summer months.

(2) Recipients of LIHEAP assistance are among the most vulnerable individuals in the country, with about 90 percent of LIHEAP households having at least one member who is a child, a senior citizen, or disabled, and approximately 20 percent of LIHEAP households including at least one veteran.

(3) The number of households eligible for LIHEAP assistance continues to exceed available funding, with current funding reaching just 20 percent of the eligible population.

(4) The average LIHEAP grant covers just a fraction of home energy costs, leaving many low-income families and senior citizens struggling to pay their energy bills and with fewer resources available to meet other essential needs.

(5) Access to affordable home energy is a matter of health and safety for many low-income households, children, senior citizens, individuals with disabilities, and veterans.

(6) Funding LIHEAP at \$4,700,000,000 annually would ensure that more low-income households, households with children, senior citizens, individuals with disabilities, and veterans can meet basic home energy needs.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that LIHEAP should be funded at not less than \$4,700,000,000 annually.

(c) DATE OF ENACTMENT.—This section takes effect on the day after the date of enactment of this Act.

**SA 157.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . REPORT ON ENERGY SECURITY.**

Not later than 1 year after the date on which the pipeline and cross-border facilities described in section 2(a) begin operating and annually thereafter for the next 10 years, the Secretary of Energy shall submit to the appropriate committees of Congress a report on the effect of the pipeline and cross-border fa-

cilities with respect to the energy matters of the United States considered in section 1.4 of the Final Supplemental Environmental Impact Statement for the Keystone XL Pipeline project.

**SA 158.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . REPORT ON FEDERAL PERMITTING EFFICIENCY.**

Not later than 30 days after the date of enactment of this Act, the President shall submit to the appropriate committees of Congress a report that identifies—

(1) whether the more than 2,300-day process associated with the approval of the application described in section 2(a) meets the goal of Executive Order 13337 (3 U.S.C. 301 note; relating to issuance of permits with respect to certain energy-related facilities and land transportation crossings on the international boundaries of the United States) to “expedite reviews of permits as necessary to accelerate the completion of energy and transmission projects”; and

(2) a full accounting for the hours of Federal employees, and all associated costs to taxpayers, that were devoted to the review of the cross-border permit application for the Keystone XL Pipeline during the period beginning on September 19, 2008, and ending on the date of enactment of this Act.

**SA 159.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of section 2 of the amendment, add the following:

(f) REPORT ON THE MOST ENVIRONMENTALLY BENEFICIAL MODE OF TRANSPORTING OIL BETWEEN THE UNITED STATES AND CANADA.—Not later than 30 days after the date of enactment of this Act, the President shall, based on a review of the final environmental impact statement described in subsection (b), submit to the appropriate committees of Congress a report that identifies the mode of transportation for oil between the United States and Canada that is estimated to result in—

(1) the lowest number of injuries and fatalities;

(2) the lowest volume of oil spilled; and

(3) the lowest transportation-related greenhouse gas emissions.

**SA 160.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of section 2 of the amendment, add the following:

(f) PROHIBITION OF ADDITIONAL FEDERAL MITIGATION MEASURES FOR CONNECTED ACTIONS.—

(1) IN GENERAL.—No Federal agency shall require mitigation measures with respect to any of the specific projects identified in section 4.8.5 of the final environmental statement described in subsection (b) that are in addition to the mitigation measures described in that subsection.

(2) SAVINGS CLAUSE.—Nothing in paragraph (1) prevents a State or local agency from requiring mitigation measures with respect to the projects referred to in that paragraph under applicable State or local law.

**SA 161.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In section 2 of the amendment, strike subsection (c) and insert the following:

(c) PERMITS.—

(1) IN GENERAL.—Any Federal permit or authorization issued before the date of enactment of this Act for the pipeline and cross-border facilities referred to in subsection (a) shall remain in effect.

(2) PERMITTING CERTAINTY.—On the completion of the permitting process with respect to the pipeline and cross-border facilities described in subsection (a), the Administrator of the Environmental Protection Agency shall not restrict activities allowed under a permit issued under section 404(c) of the Federal Water Pollution Control Act (33 U.S.C. 1344(c)) with respect to the pipeline.

**SA 162.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . GOVERNMENT ACCOUNTABILITY OFFICE STUDY.**

Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct a study that determines the number of construction jobs and permanent jobs that are projected to be associated with—

(1) the project for the pipeline and cross-border facilities described in section 2(a);

(2) the renewable energy and transmission projects that have been approved by the Secretary of the Interior as of the date of enactment of this Act; and

(3) the renewable energy and transmission projects provided assistance under the temporary loan guarantee program of the Department of Energy under section 1705 of the Energy Policy Act of 2005 (42 U.S.C. 16516).

**SA 163.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . REPORT ON THE DEPENDENCE OF THE UNITED STATES ON OIL AND NATURAL GAS PRODUCED IN CERTAIN FOREIGN COUNTRIES.**

Not later than 60 days after the date of enactment of this Act, the Administrator of the Energy Information Administration, in coordination with the Director of National Intelligence, shall submit to the appropriate committees of Congress a report that assesses—

(1) whether potential, continued, or growing instability in Yemen, Venezuela, Iraq, Saudi Arabia, and other energy-producing countries is likely to impact world oil and natural gas production during the 20-year period beginning on the date of enactment of this Act; and

(2) whether the construction of the Keystone XL Pipeline would reduce the projected dependence of the United States on oil and natural gas from any of the countries described in paragraph (1) or the regions in which those countries are located.

**SA 164.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the

Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS ACKNOWLEDGING THE ENVIRONMENTAL IMPACT FINDINGS OF THE KEYSTONE XL PIPELINE PROJECT.**

It is the sense of Congress that Congress is in agreement with the following findings of the Final Supplemental Environmental Impact Statement issued by the Secretary of State for the Keystone XL Project (referred to in this section as the “FSEIS”):

(1) “The analyses of potential impacts associated with construction and normal operation of the proposed Project suggest that significant impacts to most resources are not expected along the proposed Project route” (FSEIS page 4.16-1, section 4.16).

(2) “The total annual GHG [greenhouse gas] emissions (direct and indirect) attributed to the No Action scenarios range from 28 to 42 percent greater than for the proposed Project” (FSEIS page ES-34, section ES.5.4.2).

(3) “. . . approval or denial of any one crude oil transport project, including the proposed Project, is unlikely to significantly impact the rate of extraction in the oil sands or the continued demand for heavy crude oil at refineries in the United States based on expected oil prices, oil-sands supply costs, transport costs, and supply-demand scenarios” (FSEIS page ES-16, section ES.4.1.1).

**SA 165.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . SENSE OF THE SENATE ON ENERGY COSTS AND SUPPLIES.**

It is the sense of the Senate that Congress should—

(1) reject efforts to impose economy-wide taxes, fees, mandates, or regulations that will—

(A) increase the cost of energy for families and businesses of the United States; or

(B) destroy jobs; and

(2) prioritize policies that encourage and enable innovation in the United States that might lead to energy supplies that are more abundant, affordable, clean, diverse, and secure.

**SA 166.** Ms. MURKOWSKI (for herself and Mr. SULLIVAN) submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . RELEASE OF CERTAIN WILDERNESS STUDY AREAS.**

(a) **BUREAU OF LAND MANAGEMENT LAND.**—With respect to Bureau of Land Management land identified as a wilderness study area and recommended for a wilderness designation under section 603(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1782(a)), if, within 1 year of receiving the recommendation, Congress has not designated the wilderness study area as wilderness, the area shall no longer be subject to—

(1) section 603(c) of that Act; or

(2) Secretarial Order No. 3310 issued by the Secretary of the Interior on December 22, 2010.

(b) **FISH AND WILDLIFE SERVICE LAND.**—With respect to land administered by the

United States Fish and Wildlife Service that has been recommended by the President or the Secretary of the Interior for designation as wilderness under the Wilderness Act (16 U.S.C. 1331 et seq.), if, within 1 year of receiving the recommendation, Congress has not designated the land as wilderness, the land shall no longer be managed in a manner that protects the wilderness character of the land.

**SA 167.** Ms. MURKOWSKI (for herself and Mr. SULLIVAN) submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . ARCTIC NATIONAL WILDLIFE REFUGE.**

No area of the coastal plain (as defined in section 1002 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3142)) shall be managed as a wilderness study area without the express authorization of Congress.

**SA 168.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

Beginning on page 2, strike line 7 and all that follows through line 23 on page 3 and insert the following:

cross-border facilities described in the application filed on May 4, 2012, by TransCanada Corporation to the Department of State (including any subsequent revision to the pipeline route within the State of Nebraska required or authorized by the State of Nebraska).

(b) **PERMITS.**—Any Federal permit or authorization issued before the date of enactment of this Act for the cross-border facilities referred to in subsection (a) shall remain in effect.

(c) **JUDICIAL REVIEW.**—Except for review in the Supreme Court of the United States, the United States Court of Appeals for the District of Columbia Circuit shall have original and exclusive jurisdiction over any civil action for the review of an order or action of a Federal agency regarding the cross-border facilities described in subsection (a), and the related facilities in the United States, that are approved by this Act (including any order granting a permit or right-of-way, or any other agency action taken to construct or complete the project pursuant to Federal law).

(d) **PRIVATE PROPERTY SAVINGS CLAUSE.**—Nothing in this Act alters any Federal, State, or local process or condition in effect on the date of enactment of this Act that is necessary to secure access from an owner of private property to construct the cross-border facilities described in subsection (a).

**SA 169.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

Beginning on page 1, strike line 9 and all that follows through the end of the amendment and insert the following:

cross-border facilities described in the application filed on May 4, 2012, by Trans-

Canada Corporation to the Department of State (including any subsequent revision to the pipeline route within the State of Nebraska required or authorized by the State of Nebraska).

(b) **PERMITS.**—Any Federal permit or authorization issued before the date of enactment of this Act for the cross-border facilities referred to in subsection (a) shall remain in effect.

(c) **JUDICIAL REVIEW.**—Except for review in the Supreme Court of the United States, the United States Court of Appeals for the District of Columbia Circuit shall have original and exclusive jurisdiction over any civil action for the review of an order or action of a Federal agency regarding the cross-border facilities described in subsection (a), and the related facilities in the United States, that are approved by this Act (including any order granting a permit or right-of-way, or any other agency action taken to construct or complete the project pursuant to Federal law).

(d) **PRIVATE PROPERTY SAVINGS CLAUSE.**—Nothing in this Act alters any Federal, State, or local process or condition in effect on the date of enactment of this Act that is necessary to secure access from an owner of private property to construct the cross-border facilities described in subsection (a).

**SA 170.** Mr. MARKEY submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of section 2, add the following:

(f) **LIMITATION.**—

(1) **IN GENERAL.**—Subject to paragraph (2), none of the crude oil and bitumen transported into the United States by the operation of the Keystone XL pipeline under the authority provided by subsection (a), and none of the refined petroleum fuel products originating from that crude oil or bitumen, may be exported from the United States.

(2) **WAIVERS AUTHORIZED.**—The President may waive the limitation described in paragraph (1) if—

(A) the President determines that a waiver is in the national interest because it—

(i) will not lead to an increase in domestic consumption of crude oil or refined petroleum products obtained from countries hostile to the interests of the United States or with political and economic instability that compromises energy supply security; and

(ii) will not lead to higher gasoline costs to consumers than consumers would pay in the absence of the waiver;

(B) an exchange of crude oil or refined product provides for no net loss of crude oil or refined product consumed domestically; or

(C) a waiver is necessary under the Constitution, a law, or an international agreement.

**SA 171.** Mrs. BOXER submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS.**

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) Congress supports the permanent protection of public land as National Monuments and other appropriate designations for the preservation and benefit of future generations;

(2) National Monuments should focus on historic and natural features and cultural

sites on Federal land deserving of protection; and

(3) public input from local communities, bipartisan elected leaders, and interested stakeholders, existing land use rights, and existing criteria enumerated in established law should be considered in making recommendations for potential National Monuments.

**SA 172.** Mrs. BOXER submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ ENVIRONMENTAL PROTECTION AGENCY LAW ENFORCEMENT OFFICERS.**

(a) FINDINGS.—The Senate finds that—

(1) Federal law enforcement officers protect the public and put their lives at risk every day;

(2) it is necessary for officers to carry firearms to protect themselves in dangerous situations;

(3) Federal law enforcement officers are required to follow detailed guidelines on the use of their firearms; and

(4) Environmental Protection Agency law enforcement officers are required to—

(A) follow guidelines originally established by the attorney general of President George H.W. Bush; and

(B) complete the same training as all other Federal law enforcement officers, including officers for the Secret Service, Immigrations and Customs Enforcement, the Federal Protective Service, and the United States Marshals Service.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) Environmental Protection Agency law enforcement officers should follow all applicable Federal laws (including regulations), policies, and practices; and

(2) if an Environmental Protection Agency law enforcement officer fails to follow applicable laws (including regulations), policies, and practices, or is found to engage in illegal or improper conduct, the officer should be held fully accountable under applicable laws.

**SA 173.** Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 98 proposed by Ms. MURKOWSKI to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

On page 1, strike line 3 and all that follows through the end of the amendment and insert the following:

It is the sense of Congress that—

(1) President Obama has committed \$3,000,000,000 from the United States to the Green Climate Fund, with the objective of helping developing countries deal with the impacts of climate change and advancing mitigation efforts;

(2) many communities in the United States, including many rural and indigenous communities, face social and economic challenges that rival those in developing countries and are also being impacted by climate change;

(3) these communities include indigenous and traditional communities in the Arctic region of the United States;

(4) similar opportunities for adaptation projects exist across rural and other vulnerable communities in the United States; and

(5) the United States should prioritize and fund adaptation projects in vulnerable communities in the United States, including rural and indigenous communities, while also helping to fund climate change adaptation and mitigation in developing countries.

**SA 174.** Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ SENSE OF CONGRESS REGARDING FUNDING OF CLIMATE CHANGE ADAPTATION PROGRAMS.**

It is the sense of Congress that—

(1) President Obama has committed \$3,000,000,000 from the United States to the Green Climate Fund, with the objective of helping developing countries deal with the impacts of climate change and advancing mitigation efforts;

(2) many communities in the United States, including many rural and indigenous communities, face social and economic challenges that rival those in developing countries and are also being impacted by climate change;

(3) these communities include indigenous and traditional communities in the Arctic region of the United States;

(4) similar opportunities for adaptation projects exist across rural and other vulnerable communities in the United States; and

(5) the United States should prioritize and fund adaptation projects in vulnerable communities in the United States, including rural and indigenous communities, while also helping to fund climate change adaptation and mitigation in developing countries.

**SA 175.** Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ CERTIFICATION REGARDING USE OF FIREARMS BY EPA EMPLOYEES.**

Section 3063 of title 18, United States Code, is amended—

(1) in subsection (a), in the matter preceding paragraph (1), by inserting “certification under subsection (c) and” after “Upon”; and

(2) by adding at the end the following:

“(c) Prior to authorizing a law enforcement officer of the Environmental Protection Agency to carry firearms under subsection (a), the Administrator of the Environmental Protection Agency shall certify that—

“(1) the officer has been trained in the proper use of a firearm; and

“(2) carrying a firearm is necessary for the officer to carry out the duties of the officer under paragraphs (2) and (3) of subsection (a).”.

**SA 176.** Mr. DAINES submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In section 2 of the amendment, strike subsection (b) and insert the following:

(b) ENVIRONMENTAL IMPACT STATEMENT.—The Final Supplemental Environmental Impact Statement issued by the Secretary of State in January 2014, regarding the pipeline referred to in subsection (a), and the environmental analysis, consultation, and review described in that document (including appendices)—

(1) shall be considered to fully satisfy—

(A) all requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(B) any other provision of law that requires Federal agency consultation or review (including the consultation or review required under section 7(a) of the Endangered Species Act of 1973 (16 U.S.C. 1536(a))) with respect to the pipeline and facilities referred to in subsection (a); and

(2) shall be modified to include a provision requiring that the designation of National Monuments in any States in which the pipeline or cross-border facilities described in subsection (a) is to be located shall be subject to—

(A) consultation with each unit of local government within the boundaries of which the proposed National Monument is to be located; and

(B) the approval by the Governor and legislature of each State within the boundaries of which the proposed National Monument is to be located.

**SA 177.** Ms. MURKOWSKI submitted an amendment intended to be proposed by her to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ REPORT ON FEDERAL PERMITTING EFFICIENCY.**

Not later than 30 days after the date of enactment of this Act, the President shall submit to the appropriate committees of Congress a report that identifies whether the more than 2,300-day process associated with the approval of the application described in section 2(a) meets the goal of Executive Order 13337 (3 U.S.C. 301 note; relating to issuance of permits with respect to certain energy-related facilities and land transportation crossings on the international boundaries of the United States) to “expedite reviews of permits as necessary to accelerate the completion of energy and transmission projects”.

**SA 178.** Mr. MARKEY submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ INCLUSION OF OIL DERIVED FROM TAR SANDS AS CRUDE OIL.**

This Act shall not take effect prior to 10 days following the date that diluted bitumen and other bituminous mixtures derived from

tar sands or oil sands are treated as crude oil for purposes of section 4612(a)(1) of the Internal Revenue Code of 1986.

**SA 179.** Mr. DAINES submitted an amendment intended to be proposed to amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . PIPELINE INSPECTIONS.**

Notwithstanding any other provision of law, no activities may restrict the pipeline safety inspections described in the prevention and mitigation measures section of the Executive Summary to the Final Supplemental Environmental Impact Statement issued by the Secretary of State in January 2014, including aerial surveillance and integrated sensors within the pipeline.

**SA 180.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 142 submitted by Mr. MARKEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 181.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 146 submitted by Mr. MANCHIN and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 182.** Ms. MURKOWSKI submitted an amendment intended to be proposed

to amendment SA 149 submitted by Mrs. GILLIBRAND and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 183.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 170 submitted by Mr. MARKEY and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 184.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 178 submitted by Mr. MARKEY and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 185.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 141 submitted by Mr. MARKEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 186.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 140 submitted by Mr. MARKEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 187.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 139 submitted by Mr. MARKEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 188.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 138 submitted by Mr. MARKEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN,

**SA 197.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 54 submitted by Mr.

MARKEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 198.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 55 submitted by Mr. PETERS (for himself and Ms. STABENOW) and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 199.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 57 submitted by Mrs. BOXER and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 200.** Ms. MURKOWSKI submitted an amendment intended to be proposed

to amendment SA 82 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 201.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 81 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 202.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 70 submitted by Mr. PETERS (for himself and Ms. STABENOW) and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 203.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 131 submitted by Ms. CANTWELL (for herself and Mrs. BOXER) and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the end of the section, add the following:

( ) APPLICATION.—This section shall not apply until the date the Secretary of Energy certifies to Congress that—

(1) at least 12 consecutive editions of the Monthly Energy Review of the Energy Information Administration report that domestic crude oil production has exceeded domestic crude oil consumption for the applicable month; and

(2) the Reference Case of the Annual Energy Outlook for the applicable year projects that domestic crude oil production will exceed domestic crude oil consumption during the subsequent 10-year period.

**SA 204.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 59 submitted by Mr. SCHATZ and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF THE SENATE ON ENERGY COSTS AND SUPPLIES.**

It is the sense of the Senate that Congress should—

(1) reject efforts to impose economy-wide taxes, fees, mandates, or regulations that will—

(A) increase the cost of energy for families and businesses of the United States; or

(B) destroy jobs; and

(2) prioritize policies that encourage and enable innovation in the United States that might lead to energy supplies that are more abundant, affordable, clean, diverse, and secure.

**SA 205.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 59 submitted by Mr. SCHATZ and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS.**

It is the sense of Congress that—

(1) President Obama has committed \$3,000,000,000 from the United States to the Green Climate Fund of the United Nations Framework Convention on Climate Change;

(2) any payments the United States ultimately makes to the Green Climate Fund will be redistributed to finance adaptation and mitigation efforts in developing countries that are parties to the Convention;

(3) none of the eligible developing country parties to the Convention is an Arctic nation;

(4) the residents of the Arctic, many of whom represent vibrant indigenous and traditional cultures, too often face social and economic challenges that rival those in developing countries;

(5) despite the fact that the United States is an Arctic nation, President Obama has made no similar effort to provide financial assistance to the residents of the United States Arctic region, even though many of those communities have opportunities for adaptation projects;

(6) similar opportunities for adaptation projects exist across rural communities in the United States;

(7) the United States should prioritize adaptation projects in the United States Arctic region and rural communities before allocating any taxpayer dollars to the Green Climate Fund; and

(8) to the extent that Congress appropriates any taxpayer dollars for adaptation, those funds should first be applied to known and anticipated adaptation needs of communities within the United States.

**SA 206.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 59 submitted by Mr. SCHATZ and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS ACKNOWLEDGING THE ENVIRONMENTAL IMPACT FINDINGS OF THE KEYSTONE XL PIPELINE PROJECT.**

It is the sense of Congress that Congress is in agreement with the following findings of the Final Supplemental Environmental Impact Statement issued by the Secretary of State for the Keystone XL Project (referred to in this section as the "FSEIS"):

(1) "The analyses of potential impacts associated with construction and normal operation of the proposed Project suggest that significant impacts to most resources are not expected along the proposed Project route" (FSEIS page 4.16-1, section 4.16).

(2) "The total annual GHG [greenhouse gas] emissions (direct and indirect) attributed to the No Action scenarios range from 28 to 42 percent greater than for the proposed Project" (FSEIS page ES-34, section ES.5.4.2).

(3) "... approval or denial of any one crude oil transport project, including the proposed Project, is unlikely to significantly impact the rate of extraction in the oil sands or the continued demand for heavy crude oil at refineries in the United States based on expected oil prices, oil-sands supply costs, transport costs, and supply-demand scenarios" (FSEIS page ES-16, section ES.4.1.1).

**SA 207.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 116 submitted by Mr. COONS and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF THE SENATE ON ENERGY COSTS AND SUPPLIES.**

It is the sense of the Senate that Congress should—

(1) reject efforts to impose economy-wide taxes, fees, mandates, or regulations that will—

(A) increase the cost of energy for families and businesses of the United States; or

(B) destroy jobs; and

(2) prioritize policies that encourage and enable innovation in the United States that might lead to energy supplies that are more abundant, affordable, clean, diverse, and secure.

**SA 208.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 60 submitted by Mr. MENENDEZ and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF THE SENATE ON ENERGY COSTS AND SUPPLIES.**

It is the sense of the Senate that Congress should—

continued demand for heavy crude oil at refineries in the United States based on expected oil prices, oil-sands supply costs, transport costs, and supply-demand scenarios" (FSEIS page ES-16, section ES.4.1.1).

**SA 210.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 60 submitted by Mr. MENENDEZ and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS.**

It is the sense of Congress that—

(1) President Obama has committed \$3,000,000,000 from the United States to the Green Climate Fund of the United Nations Framework Convention on Climate Change;

(2) any payments the United States ultimately makes to the Green Climate Fund will be redistributed to finance adaptation and mitigation efforts in developing countries that are parties to the Convention;

(3) none of the eligible developing country parties to the Convention is an Arctic nation;

(4) the residents of the Arctic, many of whom represent vibrant indigenous and traditional cultures, too often face social and economic challenges that rival those in developing countries;

(5) despite the fact that the United States is an Arctic nation, President Obama has made no similar effort to provide financial assistance to the residents of the United States Arctic region, even though many of those communities have opportunities for adaptation projects;

(6) similar opportunities for adaptation projects exist across rural communities in the United States;

(7) the United States should prioritize adaptation projects in the United States Arctic region and rural communities before allocating any taxpayer dollars to the Green Climate Fund; and

(8) to the extent that Congress appropriates any taxpayer dollars for adaptation, those funds should first be applied to known and anticipated adaptation needs of communities within the United States.

**SA 211.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 31 submitted by Mr. KAINE and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS ACKNOWLEDGING THE ENVIRONMENTAL IMPACT FINDINGS OF THE KEYSTONE XL PIPELINE PROJECT.**

(2) “The total annual GHG [greenhouse gas] emissions (direct and indirect) attributed to the No Action scenarios range from 28 to 42 percent greater than for the proposed Project” (FSEIS page ES-34, section ES.5.4.2).

(3) “. . . approval or denial of any one crude oil transport project, including the proposed Project, is unlikely to significantly impact the rate of extraction in the oil sands or the continued demand for heavy crude oil at refineries in the United States based on expected oil prices, oil-sands supply costs, transport costs, and supply-demand scenarios” (FSEIS page ES-16, section ES.4.1.1).

**SA 228.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 12 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_\_. SENSE OF THE SENATE ON ENERGY COSTS AND SUPPLIES.**

It is the sense of the Senate that Congress should—

(1) reject efforts to impose economy-wide taxes, fees, mandates, or regulations that will—

(A) increase the cost of energy for families and businesses of the United States; or

(B) destroy jobs; and

(2) prioritize policies that encourage and enable innovation in the United States that might lead to energy supplies that are more abundant, affordable, clean, diverse, and secure.

**SA 229.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 12 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_\_. SENSE OF CONGRESS.**

It is the sense of Congress that—

(1) President Obama has committed \$3,000,000,000 from the United States to the Green Climate Fund of the United Nations Framework Convention on Climate Change;

(2) any payments the United States ultimately makes to the Green Climate Fund will be redistributed to finance adaptation and mitigation efforts in developing countries that are parties to the Convention;

(3) none of the eligible developing country parties to the Convention is an Arctic nation;

(4) the residents of the Arctic, many of whom represent vibrant indigenous and traditional cultures, too often face social and economic challenges that rival those in developing countries;

(5) despite the fact that the United States is an Arctic nation, President Obama has made no similar effort to provide financial assistance to the residents of the United States Arctic region, even though many of those communities have opportunities for adaptation projects;

(6) similar opportunities for adaptation projects exist across rural communities in the United States;

(7) the United States should prioritize adaptation projects in the United States Arctic region and rural communities before allocating any taxpayer dollars to the Green Climate Fund; and

(8) to the extent that Congress appropriates any taxpayer dollars for adaptation, those funds should first be applied to known and anticipated adaptation needs of communities within the United States.

**SA 230.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 12 submitted by Mr. MERKLEY and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS ACKNOWLEDGING THE ENVIRONMENTAL IMPACT FINDINGS OF THE KEYSTONE XL PIPELINE PROJECT.**

It is the sense of Congress that Congress is in agreement with the following findings of the Final Supplemental Environmental Impact Statement issued by the Secretary of State for the Keystone XL Project (referred to in this section as the "FSEIS"):

(1) "The analyses of potential impacts associated with construction and normal operation of the proposed Project suggest that significant impacts to most resources are not expected along the proposed Project route" (FSEIS page 4.16-1, section 4.16).

(2) "The total annual GHG [greenhouse gas] emissions (direct and indirect) attributed to the No Action scenarios range from 28 to 42 percent greater than for the proposed Project" (FSEIS page ES-34, section ES.5.4.2).

(3) "... approval or denial of any one crude oil transport project, including the proposed Project, is unlikely to significantly impact the rate of extraction in the oil sands or the continued demand for heavy crude oil at refineries in the United States based on expected oil prices, oil-sands supply costs, transport costs, and supply-demand scenarios" (FSEIS page ES-16, section ES.4.1.1).

**SA 231.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 6 submitted by Mr. SCHATZ and intended to be proposed to the amendment SA 2 proposed by Ms.

MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF THE SENATE ON ENERGY COSTS AND SUPPLIES.**

It is the sense of the Senate that Congress should—

(1) reject efforts to impose economy-wide taxes, fees, mandates, or regulations that will—

(A) increase the cost of energy for families and businesses of the United States; or

(B) destroy jobs; and

(2) prioritize policies that encourage and enable innovation in the United States that might lead to energy supplies that are more abundant, affordable, clean, diverse, and secure.

**SA 232.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 6 submitted by Mr. SCHATZ and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS.**

It is the sense of Congress that—

(1) President Obama has committed \$3,000,000,000 from the United States to the Green Climate Fund of the United Nations Framework Convention on Climate Change;

(2) any payments the United States ultimately makes to the Green Climate Fund will be redistributed to finance adaptation and mitigation efforts in developing countries that are parties to the Convention;

**SA 237.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 145 submitted by Mr. MANCHIN and intended to be proposed to the bill S. 1, to approve the Key-

stone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . SENSE OF CONGRESS ACKNOWLEDGING THE ENVIRONMENTAL IMPACT FINDINGS OF THE KEYSTONE XL PIPELINE PROJECT.**

It is the sense of Congress that Congress is in agreement with the following findings of the Final Supplemental Environmental Impact Statement issued by the Secretary of State for the Keystone XL Project (referred to in this section as the "FSEIS"):

(1) "The analyses of potential impacts associated with construction and normal operation of the proposed Project suggest that significant impacts to most resources are not expected along the proposed Project route" (FSEIS page 4.16-1, section 4.16).

(2) "The total annual GHG [greenhouse gas] emissions (direct and indirect) attributed to the No Action scenarios range from 28 to 42 percent greater than for the proposed Project" (FSEIS page ES-34, section ES.5.4.2).

(3) "... approval or denial of any one crude oil transport project, including the proposed Project, is unlikely to significantly impact the rate of extraction in the oil sands or the continued demand for heavy crude oil at refineries in the United States based on expected oil prices, oil-sands supply costs, transport costs, and supply-demand scenarios" (FSEIS page ES-16, section ES.4.1.1).

**SA 238.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 55 submitted by Mr. PETERS (for himself and Ms. STABENOW) and intended to be proposed to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

Beginning on page 1 of the amendment, strike line 4 and all that follows through page 2, line 6, and insert the following:

Not later than 90 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency and the Secretary of Energy shall compile and make available to the public on the Internet third party studies assessing the potential environmental, energy, and economic impacts of by-products generated from the refining of oil transported through the pipeline referred to in section 2(a), including petroleum coke.

**SA 239.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 75 proposed by Mr. CARDIN to the amendment SA 2 proposed by Ms. MURKOWSKI (for herself, Mr. HOEVEN, Mr. BARRASSO, Mr. RISCH, Mr. LEE, Mr. FLAKE, Mr. DAINES, Mr. MANCHIN, Mr. CASSIDY, Mr. GARDNER, Mr. PORTMAN, Mr. ALEXANDER, and Mrs. CAPITO) to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

Beginning on page 2 of the amendment, strike line 24 and all that follows through page 4, line 13, and insert the following:

(b) ANALYSIS OF LOCAL WATER SUPPLIES.—Not later than 60 days after the date of enactment of this Act, the President, or the designee of the President, shall provide to

each municipality or county that relies on drinking water from a source that may be affected by a tar sands spill from the pipeline an analysis of the potential risks to public health and the environment from a leak or rupture of that pipeline.

**SA 240.** Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 59 submitted by Mr. SCHATZ and intended to be proposed to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

On page 2 of the amendment, line 2, insert before the period the following: " , recognizing that the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) requires only a 'hard look' at alternatives and that the factual basis for the referenced recommendations are subject to change".

**SA 241.** Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . COMMUNITY RIGHT TO PROTECT LOCAL WATER SUPPLIES.**

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act and prior to construction of the pipeline described in section 2(a), the President, or the designee of the President, shall provide to each municipality or county that relies on drinking water from a source that may be affected by a tar sands spill from the pipeline, and to the Governors of each State in which an affected municipality or county is located, an analysis based on the Final Supplemental Environmental Impact Statement described in section 2(b) of the potential risks to public health and the environment from a leak or rupture of that pipeline.

(b) EFFECT ON CONSTRUCTION.—Construction of the pipeline described in section 2(a) may not begin if the Governor of a State with an affected municipality or county submits, not later than 30 days after receiving an analysis under subsection (a), a petition to the President requesting additional review of the pipeline.

(c) WITHDRAWAL.—A Governor may withdraw a petition submitted under subsection (b) at any time.

**SA 242.** Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . COMMUNITY RIGHT TO PROTECT LOCAL WATER SUPPLIES.**

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act and prior to construction of the pipeline described in section 2(a), the President, or the designee of the President, shall provide to each municipality or county that relies on drinking water from a source that may be affected by a tar sands spill from the pipeline, and to the Governors of each State in which an affected municipality or county is located, an analysis based on the Final Supplemental Environmental Impact Statement described in section 2(b) of the potential risks to public health and the environment from a leak or rupture of that pipeline.

(b) EFFECT ON CONSTRUCTION.—Construction of the pipeline described in section 2(a) may not begin if the Governor of a State

with an affected municipality or county submits, not later than 30 days after receiving an analysis under subsection (a), a petition to the President requesting additional review of the pipeline.

(c) **WITHDRAWAL.**—A petitioner may withdraw a petition submitted by that petitioner under subsection (b) at any time.

#### CONGRATULATING THE NORTH DAKOTA STATE UNIVERSITY FOOTBALL TEAM FOR WINNING THE 2014 NATIONAL COLLEGIATE ATHLETIC ASSOCIATION DIVISION I FOOTBALL CHAMPIONSHIP SUBDIVISION TITLE

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 41, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 41) congratulating the North Dakota State University football team for winning the 2014 National Collegiate Athletic Association Division I Football Championship Subdivision title.

There being no objection, the Senate proceeded to consider the resolution.

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 41) was agreed to.

The preamble was agreed to.

(The resolution, with its preamble, is printed in today's RECORD under "Submitted Resolutions.")

#### APPOINTMENTS

The PRESIDING OFFICER. The Chair announces, on behalf of the Committee on Finance, pursuant to section 8002 of title 26, U.S. Code, the designation of the following Senators as members of the Joint Committee on Taxation: the Senator from Utah, Mr. HATCH, the Senator from Iowa, Mr. GRASSLEY, the Senator from Idaho, Mr. CRAPO, the Senator from Oregon, Mr. WYDEN, and the Senator from Michigan, Ms. STABENOW.

#### ORDERS FOR TUESDAY, JANUARY 27, 2015

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 11 a.m., Tuesday, January 27; that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, and the time for the two leaders be reserved for their use later in the day; and the Senate resume consideration of S. 1. I ask that the time until 12:30 p.m. be equally divided, with the Democrats controlling the

first half and the Republicans controlling the final half. I further ask that the Senate recess from 12:30 p.m. until 2:15 p.m. to allow for the weekly conference meetings.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PROGRAM

Ms. MURKOWSKI. Mr. President, we continue to talk to Members on both sides of the aisle to set up a path toward passage on this bill that will include some amendment votes on pending amendments and others that are waiting in the queue. We will look to set some of those votes tomorrow after lunch.

#### ORDER FOR ADJOURNMENT

Ms. MURKOWSKI. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order, following the remarks of Senator COONS.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Delaware.

#### KEYSTONE XL PIPELINE

Mr. COONS. Mr. President, I come to the floor this evening to speak about our ongoing debate about the Keystone XL Pipeline and the need for this debate to shift to a much larger conversation.

Tonight, as we are continuing in what has been 1½ weeks of debate in our Senate about this single, foreign-owned pipeline, it is my hope that we will begin a larger, broader conversation about America's energy and climate needs.

We have so far voted on amendments confirming that climate change is real, on the future of natural gas and oil exports, on energy efficiency provisions, on rules to ensure that we buy American, and on funding for the Land and Water Conservation Fund and the oil-spill fund.

I, myself, have an amendment, No. 115, that I am hoping we will have a chance to take up, debate, vote on, and pass—one that recognizes that given that the Senate has acknowledged the reality of climate change, we must now move forward to take action to prepare to adapt to those changes—changes that have already begun.

I come from the State of Delaware, the lowest mean-elevation State in America, where our Governor, Jack Markell, has led a community-driven process of preparing for adapting to the coming impact on our infrastructure—our public, private, State, local, and Federal infrastructure in Delaware.

We have to recognize that our Federal Government will have financial liabilities to help State, local, and tribal governments prepare for the impacts of climate change on their infrastructure

and to prepare for the impacts of climate change on our Federal infrastructure.

My amendment, I hope, will be taken up, debated, and passed, but the larger point I want to make is this is just the beginning of the much larger debate we need to have about our Nation's energy and climate future.

Energy has long been and will remain central to a strong, diverse, and vibrant economy for our Nation. Throughout our history, Americans have benefited greatly from abundant sources of energy at home. From coal to oil to natural gas, we have been blessed by natural resources that have powered our economy. But new challenges today require new approaches. As human-generated greenhouse gas pollution wreaks havoc on our global climate, we need to come together to create a cleaner and lower-carbon energy future.

There is no single pathway to stop climate change or to deal with it, but there are a number of approaches we need to look at and that I hope we will consider taking.

Tonight I wish to briefly mention four different areas where there were bipartisan bills in the last Congress—areas that I hope, in the spirit of comity and debate in the Senate, we could reconsider and make them part of this broader energy and climate debate.

First, we could start by establishing and implementing a national quadrennial energy review which would ensure that every administration, current and future, takes a hard look at our Nation's energy landscape, the challenges that we face, and to build a blue print for how we will deal with these challenges and overcome them.

Today we already conduct these kinds of quadrennial reviews for the Pentagon, for the State Department, and for the Department of Homeland Security. They allow us to take a big picture and strategic look at our policies, our challenges, and to chart a predictable, longer term path forward.

It is time we did the same for our country's energy challenges. This administration is already at work doing this, but Congress needs to act to ensure that future administrations will continue this practice.

Second, we can invest in clean and renewable energy and in energy efficiency technology so that we can out-innovate the rest of the world and lay the groundwork for job creation, not only for today but for tomorrow. We can do this through sustained, annual program funding and through smart and innovative financing models that lower the cost of clean energy, such as expanded master limited partnerships.

Third, we can improve the way our national labs collaborate with the private sector so that the innovation pipeline that takes ideas from the lab to the market is smooth, efficient, and predictable so that today's discoveries are tomorrow's world-changing products.

And, fourth, we can improve STEM education and skills training throughout America so that every day we are training tomorrow's future energy innovators.

We can do this. We need to do these things.

I will admit that at times it can seem quite daunting. But in this country we should have no doubt that if we focus our greatest minds on these challenges, there is no limit to what we can achieve. The bottom line to all this is that we don't have a choice. Pretending otherwise is an exercise in denial.

We need to curb emissions from transportation. We need to reduce pollution from powerplants. We need to better finance clean energy solutions. We need to strengthen our infrastructure so we are more resilient in the face of coming climate challenges. We need to address the real challenges of energy and water demand. We need to improve our regulations so that we do more to protect and conserve our land. And we need to invest in research, development, and the demonstration of new and innovative technologies. Overall, we can and should institute smart and market-based regional and national policies that will lower carbon pollution and send businesses and households the signal that the future is in cleaner not in dirtier energy technology.

We need to do all this and bring the rest of the world along as well because our national energy and climate challenges are not just ours, they are the world's, and we need to come together around the world to get this done. The administration's clean power plan rules and the recently announced accord with China are all great initial steps in this direction. It is my hope as we continue this debate that we will come together in the Senate to show we are willing to rise to these challenges as a nation as well.

Mr. President, for me, all of this ultimately comes down to our obligations—yes, of course, to our Nation, to our constituents, to our home States, but particularly as parents to our children and to future generations. Every day when I get to return home from the train station after taking what is often a late-evening train from Washington to Delaware, I get to see my family, and it is my children who leave me most concerned about the question of whether I will be leaving them a safer and healthier world than we received.

My daughter Maggie in particular is passionate about the environment and is concerned about whether what we do here is not just helping to create jobs today—although that is an important issue for us to turn to—but whether we are helping to preserve our world for tomorrow. Maggie helps keep me focused not just on this quarter, this month, this election, or this term, but on the next 50 years and on whether what we do here leaves to our children

and their children a cleaner and a better and brighter future. That is what our focus should be—on the future, on what we are doing not just for today but for tomorrow and all the days after that.

I hope when the debate about this one pipeline is over we will refocus our energies on the bigger picture and on the great and big challenges we face together. That is what we get elected to do, and that is what our time demands.

#### AFRICAN GROWTH AND OPPORTUNITY ACT REAUTHORIZATION

Mr. COONS. Mr. President, I would like to speak for a few minutes about our Nation's economic relationship with Africa and one area of concern I have as we work toward further strengthening our ties.

Since its passage under President Clinton, the African Growth and Opportunity Act, known as AGOA, has been a powerful tool for increasing trade and boosting economies across the African Continent, and no country has taken greater advantage of the opportunities provided through AGOA than South Africa.

Over the past 4 years, as the chairman of the African Affairs Subcommittee of the Committee on Foreign Relations, I have worked closely with African leaders and know the importance of AGOA to their economies and to their growing middle classes. Just last week I met with a group of African trade ministers who emphasized to me how important prompt reauthorization of AGOA is to them, to their nations, and to tens of thousands of men and women who work in reliance upon AGOA.

AGO is not a partisan issue. I have worked closely with my Republican colleague and friend from Georgia Senator ISAKSON on its reauthorization. But, as I have also long believed, trade must be fair, and with increased trade comes a responsibility by both parties to play by the same set of rules.

I am concerned because I fear that South Africa's refusal to drop its antidumping duties that prevent American poultry from having free and fair access to the South African market will have negative repercussions for our relationship and South Africa's economy.

Much of the time, nations will use antidumping duties to prevent other countries from exporting artificially cheap goods into their economies, putting their own businesses at an unfair disadvantage. But what South Africa has done for years in this area lacks any merit. They are using the same justification that China has used to ban American poultry imports. They claim our poultry is being sold below market value. Not only is this claim false, the World Trade Organization recently deemed China's nearly identical ban to be illegal.

American companies want the chance to sell healthy, affordable, and safe poultry to South Africa and at a fair

market value. So during the Africa leaders summit last August, which brought the heads of state of more than 50 African nations here to Washington and to our Capitol, I had the opportunity to meet with President Zuma of South Africa as well as other South African senior officials. During our meeting we discussed their country's policies toward our country, the importance of renewing AGOA, and also my concerns about their unfair practices with regard to our poultry industry. I was optimistic that following our constructive conversations, we could work together with them and with South Africa's poultry industry to get rid of this inappropriate trade barrier. In September we also had constructive meetings where our Ambassador and their Ambassador were present, and leaders of both poultry sectors began constructive conversation. But soon thereafter their willingness to engage abruptly stopped. They apparently think they can continue to benefit from AGOA and shirk their most basic trade responsibilities.

In my home State of Delaware the poultry industry supports more than 13,000 jobs and has long been the backbone of our agriculture sector. I have made clear to our friends and partners in South Africa that although I deeply believe in their nation's promise and future, my first responsibility is and always will be to my home State and my constituents. Across the country—and Senator ISAKSON's State of Georgia is the single biggest poultry-growing State in the country—the United States supports 1.8 million American jobs, contributing more than \$470 billion to our Nation's economy.

So I want to be clear about this tonight, as I have been before. I support AGOA's reauthorization, and I hope we can negotiate a fair path forward. But South Africa cannot expect to continue to reap the benefits of increased trade without following fair trade rules. They can't expect us to open up our markets wide to duty-free and quota-free access for South African goods if they will not fairly open theirs. If they insist on maintaining their longstanding and illegal antidumping duties on American poultry, I will do everything in my power to ensure they do not continue to benefit from AGOA. The choice is theirs.

Senator ISAKSON of Georgia and I communicated this concern to President Zuma back in December in writing, and this week we will write to the Senate Finance Committee with the same message. We only have a short period of time where we can get a long-term extension of AGOA done, and I will work hard to reauthorize and improve AGOA so its benefits are even more widely felt on the continent of Africa, but I won't allow it to include countries that violate fair trade rules, which means an important ally and partner of the United States—South Africa—won't be included if they are not willing to play by the rules. There

are too many jobs at stake, too much work to do to allow a critical trading partner such as South Africa to continue its unfair treatment of American industry.

I hope and pray we can still resolve this needless impasse, but if we don't, my commitment and my path forward is clear.

Mr. President, I yield the floor.

## ADJOURNMENT UNTIL 11 A.M. TOMORROW

The PRESIDING OFFICER. Under the previous order, the Senate stands adjourned until 11 a.m. tomorrow.

Thereupon, the Senate, at 7:29 p.m., adjourned until Tuesday, January 27, 2015, at 11 a.m.
