PROCEEDINGS AND DEBATES OF THE 107th CONGRESS, SECOND SESSION

Vol. 148

WASHINGTON, MONDAY, JULY 8, 2002

No. 90

Senate

The Senate met at 2 p.m. and was called to order by the President pro tempore [Mr. BYRD].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious, liberating God, who has created us as free women and men to love You and serve You by working to assure the personal, spiritual, religious, political, and economic freedom of all people, today we celebrate the anniversary of the first public reading of the Declaration of Independence by Colonel John Nixon, and the ringing of the Liberty Bell. We remember the words of Leviticus 25:10 inscribed on the bell: "Proclaim liberty throughout all the land unto the inhabitants thereof." We seek to do that today. You have revealed to us Your mandate that all Your people should be free to worship You. Help us to maintain this strong fabric of our Republic. You have placed a liberty bell in all our hearts that rings this afternoon calling us on in the battle for justice, righteousness, and freedom for all Americans and, through our world mission, for the world. You are our Lord and Saviour. Amen.

PLEDGE OF ALLEGIANCE

The PRESIDENT pro tempore led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RESERVATION OF LEADER TIME

The PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The Senator from Nevada is recognized.

Mr. REID. Thank you very much, Mr. President.

MEASURE PLACED ON THE CALENDAR—H.R. 4231

Mr. REID. It is my understanding H.R. 4231 is at the desk and due for its second reading.

The PRESIDENT pro tempore. The Senator is correct.

Mr. REID. I ask that H.R. 4231 be read for a second time, and I would then object to any further proceedings on this matter.

The PRESIDENT pro tempore. The clerk will read the title of the bill for the second time.

The assistant legislative clerk read as follows:

A bill (H.R. 4231) to improve small business advocacy, and for other purposes.

The PRESIDENT pro tempore. Objection having been heard, the bill will be placed on the calendar.

PUBLIC COMPANY ACCOUNTING REFORM AND INVESTOR PROTECTION ACT OF 2002

The PRESIDENT pro tempore. Under the previous order, the Senate will now proceed to the consideration of S. 2673, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 2673) to improve quality and transparency in financial reporting and independent audits and accounting services for public companies, to create a Public Company Accounting Oversight Board, to enhance the standard setting process for accounting practices, to strengthen the independence of firms that audit public companies, to increase corporate responsibility and the usefulness of corporate financial disclosure, to protect the objectivity and independence of securities analysts, to improve Securities and Exchange Commission resources and oversight, and for other purposes.

The PRESIDENT pro tempore. The Senator from Maryland, Mr. SARBANES, the manager of the bill, is recognized.

Mr. SARBANES. I thank the Chair.

Mr. President, today the Senate turns its attention to S. 2673, the Public Company Accounting Reform and Investor Protection Act of 2002, which was reported from the Senate Committee on Banking, Housing, and Urban Affairs on June 18 on a strong 17-to-4 vote.

A unanimous consent agreement was entered into with respect to this legislation prior to the Fourth of July recess, which provided that at 2 p.m. today, Monday, July 8, the Senate would proceed, for debate only, to the consideration of this legislation.

I hope to take a fair amount of time to set out the process through which the committee worked and to discuss the provisions of this legislation.

As I understand it, upon convening tomorrow and going back to this legislation, amendments will be in order. There are a couple of technical amendments that I am hopeful we can approve today by unanimous consent. I will be discussing that with the distinguished ranking Republican member of the committee in the course of the afternoon.

Mr. President, I rise in very strong support of this legislation. This legislation is intended to address systemic and structural weaknesses that I think have been revealed in recent months and that show failures of audit effectiveness and a breakdown in corporate financial and broker-dealer responsibility. In fact, it is very clear that much of this has been happening over the last few years.

Hopefully, we have experienced the brunt of it. Who can guarantee that, however, when every day you come to read in the morning paper yet another story, as witnessed this morning with respect to one of the most respected pharmaceutical companies in the country.

I believe this bill is urgently needed. I hope my colleagues will agree with that and will support its swift passage.

The House, earlier this year, passed legislation on this subject, but I think it is fair to say that the legislation we are bringing to the floor of the Senate is more comprehensive, more thorough, and, I believe, more effective. But, of course, once we complete our work here, we will have the challenge of going to conference with our colleagues on the other side of the Capitol to work out the differences between the two versions of the legislation.

Let me discuss for a few minutes the backdrop against which this bill was crafted. Our financial markets have long been regarded as the fairest, the most transparent, and the most efficient in the world. In fact, I think it is fair to say—and many of us have said it time and time again—that the American capital markets are one of the great economic assets of this country and a very important source of our economic strength.

It is becoming increasingly clear that something has gone wrong, seriously wrong, with respect to our capital markets. We confront an increasing crisis of confidence that is eroding the public's trust in those markets. I frankly believe that, if it continues, this erosion of trust poses a real threat to our economic health.

Let me begin with one of the most obvious symptoms of this problem: the extraordinary increase in restatements of corporate earnings. The Wall Street Journal, citing a study last year by the research arm of Financial Executives International, the organization of the chief financial officers of corporations, reported that there were 157 financial restatements by companies in 2000, 207 in 1999, and 100 in 1998. The 3-year total of 464 was higher than the previous 10 years combined, during which the average number of restatements was 46 each year. This is a dramatic increase in the number of restatements.

Last month's revelation by WorldCom is only one example of a problem that is becoming increasingly disturbing. In a recent article titled "Tweaking Numbers To Meet Goals Comes Back To Haunt Executives," the New York Times described a series of recent corporate failures or near-failures that were characterized by accounting improprieties: Adelphia Communications, "\$3 billion in loans to its founding family" had been concealed; Computer Associates was investigated "on suspicion of inflating sales and profits by booking revenue on contracts many years before it was paid"—you raise your revenues, there is no offsetting cost, you boost your profits. Global Crossing is being investigated "on suspicion of inflating sales and profits by making sham transactions with other telecom companies"; Enron, "hiding losses and loans with partnerships that were supposedly independent but were actually guaranteed by the company"—Enron filed for bankruptcy last December—Rite Aid had "four former top executives indicted . . . in what regulators called a securities and

accounting fraud that led to a \$1.6 billion restatement of earnings"; Tyco International is under investigation "on suspicion of hiding payments and loans to its top executives . . . and its 'shares have plunged 75 percent this year as investigators question whether it inflated its earnings and cashflow'; WorldCom, under investigation for "hiding \$4 billion in expenses by wrongly classifying short-term costs as long-term investments."

Commentators have made much of the fact that while Enron had very complicated dealings, off-balance-sheet special entities and a host of other things, WorldCom simply took expenses that should have been treated as short-term costs and set them up as capital investments to be amortized over a period of time. Of course, that was a very substantial reduction in WorldCom's costs. As a consequence, its profits were boosted by \$4 billion. The SEC asked them to come clean, and now we think there is probably another billion of faulty accounting with respect to their statement.

Can you imagine—the company went from showing a substantial profit to actually having a loss. People are out in the marketplace making decisions about whether to purchase this stock. Pension plans are making decisions on behalf of their members. And they are making the decision in the belief that this company is making a good profit. Instead, it is losing money.

I read one story where competitors of WorldCom were apparently debating within their own corporate ranks: How do they do it? How are these people producing this profit record? We can't do it. We are competing against them. We think we are doing everything we ought to be doing, and we just can't produce the same kind of performance. How are they doing it? What is the secret they have discovered?

The secret they had discovered was to hide their expenses by wrongly classifying short-term costs as long-term investments.

The Xerox Corporation, one of the pillars of our economic system, paid a \$10 million fine to the SEC in April, the largest in an enforcement case. They reclassified \$6.4 billion in revenue and restated financial results for the last 5 years. I could go on and on with other companies: Cendant, MicroStrategy, Waste Management.

What has led to this increase in restatements? The practice of "backing into" the forecast earnings has certainly contributed. The New York Times described this practice as follows:

Some companies do whatever they have to do to make sure they do not miss a consensus earnings estimate. They start with the profit that investors are expecting and manipulate their sales and expenses to make sure the numbers come out right. During the last decade's boom, as executive pay was increasingly based on how the company's stock performed, backing in became more widespread and more aggressive. Just how much so is only now becoming clear.

The distinguished Columbia Law School Professor John Coffee, noted, in summarizing the trend:

During the 1990s, the quality of financial reporting and analysis appears to have declined. While an earnings restatement is not necessarily proof of fraud, this increase strongly implies that auditors have deferred excessively to their clients.

Jack Ehnes, the chief executive of the California State Teachers Retirement System, which oversees \$100 billion in investments, put it this way:

This looks like the year of the restatement. It's certainly disturbing for investors who expect financial statements to be accurate.

Clearly, what is transpiring is having a very severe impact on hard-working American families. Corporate wrongdoing is being felt not just at the boardroom table, but it is now being felt at the kitchen table as well.

First of all, there have been tremendous job losses. The Washington Post reported that WorldCom was laying off 17,000 employees. The companies that are going into bankruptcy are shedding employees left and right. Enron laid off 7,000 people after it filed for bankruptcy. Global Crossing laid off 9,300 employees in the last year. Employment at Xerox is down 13,000 from 2 years ago. So there is a direct impact on many working families, simply through the layoffs, as the companies for which they work encounter difficult financial times.

In other words, the company is crashing down, and the workers, amongst others, are paying the price.

Second, the adverse impact on employees clearly extends to the impact of these corporate failures on employee pension funds, an impact that has led many workers to question the security of their retirement. A quick look at the numbers demonstrates how badly public pension funds have been hit.

It is reported that 21 States have combined losses of just under \$2 billion from their WorldCom investments. The California public retirement system reported a loss of \$565 million. And the numbers go on from there. I won't cite them all, but all across the country there are tremendous losses being incurred. It is said that the loss of value of both WorldCom and Enron has cost public State pension funds \$2.7 billion.

Of course, in addition to their impact on workers and pension funds, these revelations have had a negative effect on shareholders generally. Average investors are watching their portfolios plummet and their retirement prospects decline. WorldCom's market capitalization has gone from \$180 billion at its peak 3 years ago—this is just WorldCom—to \$177 million last week. Tyco lost \$90 billion in market capitalization between January 2001 and June 2002, and on and on.

The bond markets have also been affected. WorldCom, for example, has \$28 billion in outstanding bonds that are due between now and 2025. Investors, including banks and insurance companies, stand to lose much of this sum.

So you are being hit not only if you have a direct connection with WorldCom, but also if you have an equity interest in a bank or insurance company that owns WorldCom bonds. The current market value of these bonds is 15 cents on the dollar.

The same week that WorldCom's auditing irregularities became public, Morgan Stanley observed that the spread between corporate bonds and comparable Treasury bonds had widened by 15 basis points. As the Wall Street Journal wrote on June 27:

That is a dramatic move that will boost the borrowing costs for all kinds of companies.

Now, the problems that I have described did not develop overnight. In many ways, they reflect failures on the part of every actor in our system of disclosure and oversight. Auditors who are supposed to be independent of the company whose books they are reviewing are too often compromised by the fact that they provide consulting services to their public company audit clients. Securities analysts are not in a position, according to observers, to warn investors or direct them to other investments.

As the New York Times reported in an article earlier this year entitled "A Bubble No One Wanted to Pop":

Eager to help their firms generate business selling securities to investors and reap their own rewards and bonuses, Wall Street analysts have made a habit of missing corporate misdeeds altogether.

I will come back to these issues later. But for the moment I simply want to note that the problems leading to such dramatic lapses are widespread and seem to be built into the system of accounting and financial reporting. That is what this legislation seeks to address. Our committee did not engage in an exercise in finger-pointing and placing blame but we held a series of hearings—I will discuss them in a minute—directed toward the future; in other words, we focused on the changes we can make that will help to clear up this situation. It is serious.

The Wall Street Journal, in a recent comment, said:

The scope and scale of the corporate transgressions of the late 1990s now coming to light exceed anything the U.S. has witnessed since the years preceding the Great Depression.

One can run through the figures and find some support for that. Between its peak in 1929 and 1931, the Dow fell 79 percent. Over the same period since its peak in March 2000, the Nasdaq has fallen 73 percent. But rather than work through these figures, let me simply close this part of my statement with a comment from Benjamin Graham's classic textbook on "security analysis":

Prior to the SEC legislation . . . it was by no means unusual to encounter semi-fraudulent distortions of corporate accounts . . . almost always for the purpose of making the results look better than they were, and it was generally associated with some scheme of stock-market manipulation in which the management was participating.

He was writing about the year 1929. Regrettably, that description fits some of today's events. Now, I am certainly not suggesting that this is the practice of a majority of our business people. In fact, most of them, I think, try very hard to play by the rules, and to be honest and straightforward in their dealings, and they recognize how important trust is.

But it is clear, from the number of departures we have witnessed from that standard, that what is involved is more than just a few bad apples. Those bad apples ought to be punished, and punished very severely. I certainly agree with the President when he makes that statement. But it seems to me we have to move beyond that in order to address the incredible loss of investor confidence that is now taking place.

I have been reading the newspaper articles carefully, and sometimes the most apt comments come not from the experts but from ordinary citizens. My colleague from Texas knows that very well because we have a noted citizen of his State, Dicky Flatt, who is constantly cited.

Karl Graf, a financial planner and accountant in Wayne, NJ, is quoted in the Bergen Record as saying:

The integrity of the game is in question for now, and that's a much bigger thing than if the stock market does poorly for two years. You have to have faith in the numbers the companies are reporting, and if you don't or can't, it makes it seem more like gambling all the time. It makes me more cynical, and I'm very discouraged. It's going to take a lot to make people feel confident.

Bob Friend, an aerospace engineer from Redondo Beach, CA, a stock investor for 20 years, was quoted in the L.A. Times as saying:

There's a complete lack of trust in corporate leadership. I think the lack of ethical behavior has destroyed investor confidence.

Morris Hollander, a specialist in financial disclosure accounting with a Miami firm, was quoted in the Miami Herald as saying:

We always had the strongest financial markets in the world, and that was because of credible accounting standards. When you see that confidence eroding, it is not good. It is a real serious credibility crisis.

A recent poll demonstrates that these views are not unique or unusual. When asked this question: "when it comes to financial information the major stock brokerage firms and corporations provide to you, do you or do you not have confidence that the information is straightforward and an honest analysis," only 29 percent of Americans said they had confidence the information was straightforward and an honest analysis. A majority, 57 percent, did not have confidence in the basic information that undergirds our equities market.

The Washington Post, on June 26, reported:

According to economists and market analysts, these still-unfolding corporate and accounting scandals have begun to weigh heavily on the stock market, the dollar, and the

U.S. economy. And the effects are likely to linger at least through the end of the year.

The same article quoted the chief economist for one of Wall Street's major firms as saying:

The economy and markets right now are in the midst of a full-blown corporate governance shock. . . . To presume somehow that it's over or that the worst is behind us is naive.

Furthermore, it is not only American investors who are losing confidence in our markets. A recent New York Times article entitled "U.S. Businesses Dim as Models for Foreigners" quoted Wolfram Gerdes, the chief investment officer for global equities at Dresdner Investment Trust in Frankfurt, as saying:

There is unanimous agreement that the United States is not the best place to invest anymore.

According to the Federal Reserve Board, foreign direct investment in corporate equities has fallen by 45 percent from 2001 to 2002. And according to a new OECD report, foreign inflows from cross-border mergers and acquisitions, which in 2001 were greater than direct foreign investment into the United States, have fallen sharply in 2002.

The Wall Street Journal said:

The loss of faith by American and overseas investors in U.S. corporate books is churning global financial markets: Share prices are plunging in America and the dollar is losing value, setting off stock-market plunges in Asia, Europe and Latin America. If the flow of foreign capital to the United States is disrupted as a result, the world economy could be jeopardized, because the U.S. relies on overseas money to finance its huge current-account deficit, and Asia and Europe rely on America to buy imports.

As I draw this preliminary overview of the context in which we are working to a close, I want to speak for a moment about the potential loss of world economic leadership for the United States. The Wall Street Journal had an article entitled "U.S. Loses Sparkle as Icon of Marketplace." It says:

The wave of scandals in corporate America is roiling world stock markets. But the controversy may have an even greater impact in the marketplace of ideas, where the U.S. economic model is coming under attack.

One area of particular importance and now debate is adoption of accounting principles. The European Union—and I do not think many people yet in this country have focused on this matter—has indicated that the rules adopted by the International Accounting Standards Board will become mandatory for all companies throughout the European Union in 2005.

Traditionally, the U.S. has been pre-eminent in the accounting field. We have by far the largest economy. We have a reputation for high standards for transparency. So generally the American argument on behalf of its standards carried great influence. Now we have the European Union, comparable in economic size to the United States, moving to adopt a uniform set

of accounting standards, to be promulgated by the International Accounting Standards Board, for all of the European Union countries. So there is a potential for real challenge to American preeminence in this area, given what is happening over here.

In fact, the New York Times reported on June 27:

There is a groundswell among executives in Europe against the American system of corporate accounting—the so-called generally accepted accounting principles—that was supposed to be the gold standard in disclosure.

Before Enron, Global Crossing and WorldCom, America had been winning the argument on accounting standards. But now, a growing number of Europeans are convinced that the American system is both too complex and too easy to manipulate.

Regrettably, in my view, unless we come to grips with this current crisis in accounting and corporate governance, we run the risk of seriously undermining our long-term world economic leadership. Why do countries look to us? They look to our capital markets. They say: your capital markets are the most transparent; they have the greatest integrity; we can rely upon them; we can make rational business decisions using the information that is provided through your system. If that is no longer the case, we can expect growing difficulties as we continue to argue for our preeminence.

The Wall Street Journal gave this summary of the problem, after which I will move onto the bill itself:

The institutions that were created to check such abuses failed. The remnants of a professional ethos in accounting, law and securities analysis gave way to the maximum revenue per partner. The auditor's signature on a corporate report didn't testify that the report was an accurate snapshot, said [Treasury Secretary Paul] O'Neill. He says it too often meant only that a company had "cooked the books to generally accepted standards."

I want to be very clear about this. I believe the vast majority of our business leaders and of those in the accounting industry are decent, hard-working, and honorable men and women. They are, in a sense, tarnished by the burden of these scandals. But trust in markets and in the quality of investor protection, once shaken, is not easily restored, and I believe that this body must act decisively to reaffirm the standards of honesty and industry that have made the American economy the most powerful in the world. That is what this legislation does, and that is why I urge its adoption by my colleagues.

Let me now turn to the hearings and to the bill. I know others are waiting to speak, and I will try to summarize my remarks. We have been working on this for a long time, so obviously I could go on at some length.

First, we sought to do a very thorough and careful job in developing this legislation. The committee held a total of 10 substantive hearings and heard from a broad range of experts, as well as interested parties. I am not going to

name all our witnesses, but, for example, we heard from five past Chairmen of the SEC; three former SEC chief accountants; former Federal Reserve Board Chairman, Paul Volcker; former Comptroller General and chairman of the Public Oversight Board, Charles Bowsher; the present Comptroller General, David Walker; a number of distinguished academics who have been studying these issues throughout their careers; leaders of commissions that studied the accounting industry and corporate governance; representatives of the accounting industry; representatives of the public interest community; representatives of the corporate community, and SEC Chairman Pitt.

It was a very thorough effort to gather the best thinking on these issues and to give all interested parties a chance to be heard. My colleagues on the committee, and the ranking member, Senator GRAMM, participated in this effort seriously and with commitment. Senators DODD and CORZINE early on introduced a bill dealing with oversight of accounting and auditor independence. Many of that bill's provisions are reflected in this legislation. Senator ENZI, of course, took a particular interest. He is the only certified public accountant in the Senate. Many other Members made important contributions as we moved along the way.

I will now turn to each title. Title I of the bill creates a strong independent board to oversee the auditors of public companies. Title II strengthens auditor independence from corporate management by limiting the scope of consulting services that auditors can offer their public company audit clients. This bill applies only to public companies that are required to report to the SEC. It says plainly that State regulatory authorities should make independent determinations of the proper standards and should not presume that the bill's standards apply to small- and medium-sized accounting firms that do not audit public companies.

Titles III and IV of the bill enhance the responsibility of public company directors and senior managers for the quality of the financial reporting and disclosure made by their companies. Title V seeks to limit and expose to public view possible conflicts of interest affecting securities analysts. Title VI increases the SEC's annual authorization from \$481 million to \$776 million and extends the SEC's enforcement authority. Title VII of the bill mandates studies of accounting firm concentration and the role of credit rating agencies.

It is my intention to go through the bill title by title in a summary fashion, but I will pause for a moment and ask my colleague whether he has any time pressures.

Mr. GRAMM. I don't have a time preference as such. My suggestion is whenever the Senator gets tired of talking and would like me to speak a while, I can speak, and then he can come back to it. But I have no objec-

tion if you want to go through your whole presentation. You certainly have that right. If you think it will work better doing it that way, that is fine. If you want to break at some point and have me speak, that would be fine.

Mr. SARBANES. Why don't I move ahead, and I will try to compress it a bit.

Title I creates a public company accounting oversight board. This board is subject to SEC review and will establish auditing, quality control, ethics, and independence standards for public company auditors and will inspect accounting firms that conduct those audits. It will investigate potential violations of applicable rules and impose sanctions if those violations are established.

Heretofore we have relied on self-policing of the audit process, private auditing and accounting standards setting, and, for the most part, private disciplinary measures. But questionable accounting practices and corporate failures have raised serious questions, obviously, about this private oversight system. Paul Volcker stated:

Over the years there have also been repeated efforts to provide oversight by industry or industry/public member boards. By and large, I think we have to conclude that those efforts at self-regulation have been unsatisfactory.

That is obviously one of the reasons we are moving, in this legislation, to an independent public company accounting oversight board. We heard extensive testimony in favor of such a board.

The board would have five full-time members. Two of the members will have an accounting background. All will have to have a demonstrated commitment to the interests of investors, as well as an understanding of the financial disclosures required by our securities law. The board members would be appointed by the SEC after consultation with the Federal Reserve and the Department of the Treasury and would serve staggered 5-year terms. They could not engage in other business while they were doing this work.

Of course, the board will have a staff. We would expect staff salaries to be fully competitive with comparable private-sector positions in order to ensure a high-quality staff.

The bill requires that accounting firms that audit public companies must register with the board. Failure to register or loss of registration would render a firm unable to continue its public company audit practice. Upon registering, a company would consent to comply with requests by the board for documents or testimony made in the course of the board's operations.

The board would possess plenary authority to establish or adopt auditing, quality control, ethics, and independence standards for the auditing of public companies. But this grant of authority is not intended to exclude accountants or other interested parties from participating in the standard-setting process. So the board may adopt

rules that are proposed by professional groups of accountants or by one or more advisory groups created by the board.

These provisions reflect an effort to respond to the argument that you need the experts to either set the standards or help to set the standards. The experts in the industry can make these proposals, but the board will have the authority to adopt or to modify such proposals or to act of its own volition.

We provide for the inspection of registered accounting firms by the board. Firms that audit more than 100 public companies are to be inspected by staff of the board each year. Firms that audit less than that are inspected every 3 years, although the board has the power to adjust these inspection schedules.

The board also has investigative and disciplinary authority. Former SEC Chairman Arthur Levitt told the committee:

We need a truly independent oversight body that has the power not only to set the standards by which audits are performed but also to conduct timely investigations that cannot be deferred for any reason and to discipline accountants.

If the board finds that a registered firm, or one or more of its associated persons, has violated the rules or standards, it will have the full range of sanctions available.

The board also has the power to sanction a registered accounting firm for failure reasonably to supervise a partner or employee, but we allow an accounting firm to defend itself from any supervisory liability by showing that its quality control and related internal procedures were reasonable and were operating fully in the situation at issue. I am mentioning this item, even though it may not seem that important in the context of a bill this complex, to point again to the effort that was made in the committee to balance competing concerns.

In effect, we say the firms have this supervisory responsibility. They should not duck this responsibility. Otherwise, how are we going to assure the people working for accounting firms are meeting high standards? On the other hand, we realize it is extremely difficult in large organizations to control right down to the last person. So we provided that if accounting firms have quality control and related internal procedures in place that are reasonable and that are operating fully, the operation of those procedures can serve as a defense.

The bill applies to foreign public accounting firms that audit financial statements of companies that come under the U.S. securities laws. The board is subject to SEC oversight, which is important. Finally, we formalize the role of the Financial Accounting Standards Board in setting accounting standards accounting standards are different than auditing standards, which the new oversight board will set. The bill provides for

guaranteed funding of the new oversight board and the FASB by public companies, something I think we all agree is extremely important.

Some have asked, why do we need a statutory board? Why not let the SEC do something of this sort by regulation? But others have raised questions about the adequacy of the authority the SEC has to accomplish all of this by regulation alone. Clearly, a firmer base would be established, a stronger reference point, if the board were established by statute, and the potential of litigation that might arise with respect to some of these disciplinary and fee-imposing powers if they were created solely by the SEC by regulation would be avoided by a clear statutory underpinning.

Furthermore, I believe, frankly, that we need to establish this oversight board in statute in order to provide an extra guarantee of its independence and its plenary authority to deal with this important situation.

Let me turn to title II on auditor independence. This is a very important issue. Each of the country's Federal securities laws requires comprehensive financial statements. That is what is now required under the securities laws for public companies. They have to have comprehensive financial statements that must be prepared—and I now quote from the statute—"by an independent public or certified accountant."

The statutory requirement of an independent audit has two sides to it. It is a private franchise, and it is also a public trust.

The franchise given to the Nation's public accountants is clear. Their services must be secured before an issuer of securities can go to market, have its securities listed on the Nation's stock exchanges, or comply with the reporting requirements of the securities law. In other words, the accountants have been handed by mandate a major piece of business because the statute says to these public companies that they must have comprehensive financial statements prepared by an independent public or certified accountant.

So in effect we have directed to them a significant amount of business. But the franchise, in a way, is conditional. It comes in return for the certified public accountant's assumption of a public duty and obligation.

The Supreme Court stated this well in a decision almost 20 years ago:

In certifying the public reports that collectively depict a corporation's financial status, the independent auditor assumes a public responsibility. . . . [That auditor] owes ultimate allegiance to the corporation's creditors and stockholders, as well as to the investing public. This public watchdog function demands that the accountant maintain total independence from the client at all times and requires complete fidelity to the public trust.

Richard Breeden, former chairman of the SEC from 1989 to 1993, under the previous President Bush, said in his testimony before the committee:

While companies in the U.S. do not have to employ a law firm, an underwriter, or other types of professionals, Federal law requires a publicly-traded company to hire an independent accounting firm to perform an annual audit. In addition to this shared Federal monopoly, more than 100 million investors in the U.S. depend on audited financial statements to make investment decisions. That imbues accounting firms with a high level of public trust, and also explains why there is a strong Federal interest in how well the accounting system functions.

What has happened in recent years is that a rapid growth in management consulting services offered by the major accounting firms has created a conflict in the independence that an auditor must bring to the audit function. According to the SEC, in 1988, 55 percent of the average revenue of the big five accounting firms came from accounting and auditing services; 22 percent came from management consulting services.

By 1999, 10 years later, these figures had fallen to 31 percent for accounting and auditing services, and 50 percent for management consulting services.

In fact, a number of experts argue that the growth in the non-audit consulting business done by the large accounting firms for their audit clients has so compromised the independence of audits that a complete prohibition on the provision of consulting services by accounting firms to their public audit clients is required—a complete prohibition. According to James E. Burton, the CEO of the California Public Employees' Retirement System, CalPERS, which manages pension and health benefits for more than 1.3 million members and has aggregate holdings of \$150 billion:

The inherent conflicts created when an external auditor is simultaneously receiving fees from a company for non-audit work cannot be remedied by anything less than a bright line ban. An accounting firm should be an auditor or a consultant, but not both to the same client.

John Biggs, CEO of Teachers Insurance and Annuity Association—College Retirement Equities Fund, TIAA-CREF, the largest private pension system in the world, which manages approximately \$275 billion in pension assets for over 2 million participants in the education and research communities, told the Committee:

Because auditors owe their primary duty to the shareholders, questions about the primacy of that duty are raised if the audit firm provides other, potentially more lucrative, consulting services to the company. The board and the public auditor should both see to it that, in fact as well as in appearance, the auditor reports to the independent board audit committee and acts on behalf of shareholders. The key reason why awarding consulting contracts and other non-audit work to the audit firm is troubling is because it results in conflicting loyalties. While the board's audit committee is formally responsible for hiring and firing the outside auditor, management controls virtually all the other types of non-audit work the audit firm may do for the company. Those contracts with management blur the reporting relationship it is difficult to believe that auditors do not feel pressure for

the overall success of their firm with the client. Even their own compensation packages may be tied to consulting and non-audit services being provided by their firm to the company....

By requiring public companies to use different accounting firms for their audit and consulting services, and by establishing an independent board with real authority to oversee the accounting profession you will be taking important steps toward reversing the crisis in confidence in financial markets that exists today.

We looked at this carefully. We had testimony on the other side. In the end, we took the approach that is outlined in the bill. The bill contains a short list, nine items, of non-audit services that an accounting firm doing the audit of a public company cannot provide to that company. These include, for example, bookkeeping or other services related to the accounting records or financial statements of the audit client, financial information systems design, appraisal or valuation services, actuarial services, management functions or human resources, broker or dealer or investment adviser services, and legal services.

The thinking behind drawing this line around a limited list of non-audit services, is that provision of those services to a public company audit client creates a fundamental conflict of interest for the accounting firm in carrying out its audit responsibility. If the accounting firm is not the auditor for the company, it can do any of these consulting services—it can do any consulting service it wants. But if it is the auditor—so there is a conflict of interest problem—then we take certain services and say: those services you can't do. And the reason is, first of all, in order to be independent, the auditor should not audit its own work, as it would do if it did financial information system design or appraisal evaluation services or actuarial services. It should not function as part of the management or as an employee of the audit company, as it would if it were doing human resources services, and it should not act as an advocate of the audit client, as it would do if it were providing legal and expert services. Nor should it be the promoter of the audit client's stock or other financial interest, as it would be if it were the broker-dealer or the investment adviser.

They are the public company's auditors. They have a very defined responsibility as the auditors. The bill doesn't bar accounting firms from offering consulting services. It simply says that if a firm wants to audit the company, there are certain services it cannot perform. And even in that case, the bill provides the board authority to grant case-by-case exceptions, so if a case could be made why an auditor's performing a consulting service ought to be permitted, there is some flexibility to permit it.

David Walker, the Comptroller General of the United States, in a statement on June 18 said:

I believe that legislation that will provide a framework and guidance for the SEC to use

in setting independence standards for public company audits is needed. History has shown that the AICPA and the SEC have failed to update their independence standards in a timely fashion and that past updates have not adequately protected the public's interests. In addition, the accounting profession has placed too much emphasis on growing non-audit fees and not enough emphasis on modernizing the auditing profession for the 21st century environment. Congress is the proper body to promulgate a framework [on this important issue].

There are a lot of other auditing services, other than the nine I mentioned, that an auditor may want to provide and whose provision we did not preclude. In other words, the statutory system that we are establishing lists certain consulting services that, if you are the auditor, you cannot perform for the public company that is your audit client, unless you can get one of these case-by-case exemptions from the board. And those consulting services were the ones which, upon examination, seemed clearly to raise the most difficult conflict of interest questions that could result in undermining the auditor's fulfillment of his auditing responsibility.

The public company auditor can provide other non-audit services; that is, any but those on the proscribed list, if it clears them with the audit committee of the public company's board of directors. We seek to strengthen the audit committee in very substantial ways, including, as I will mention later, that they should be the ones to hire and fire the auditors—that the auditors really work through the audit committee for the board of directors and that the auditors do not work for the management. I think it is very clear, to some extent, and in some instances, it is management working with the auditors that have done these clever schemes for which we are now paying the price.

We had the issue of auditor rotation before us. Many witnesses thought the audit firm itself should have to rotate every 5 years, periodically. We did not go that far. We recommend here that the lead partner and the review partner on audits must rotate every 5 years—not the audit firm itself. But we do provide that audit firm rotation should be further studied and direct the General Accounting Office to undertake such a study with respect to the mandatory rotation of the audit firm.

I will move more quickly and skip over some sections, but I can always, of course, come back to them if there are any questions.

We were concerned about the movement of personnel from audit firms to the public company audit clients. There we put a 1-year cooling off period with respect to the top positions in the company, so that you can't hold out to the audit team the immediate prospect of an important position in the company. Again, we are trying to protect the independence of the audit.

The next two titles, III and IV, deal with corporate responsibility and en-

hanced financial disclosure. As I said, we provide for a strong public company audit committee that would be directly responsible for the appointment, compensation, and oversight of the work of the public company auditors, which makes it clear that the primary duty of the auditors is to the public company's board of directors and the investing public, and not to the managers. We provide that the audit committee members must be independent from company management.

We require that the audit committee develop procedures for addressing complaints concerning auditing issues and also that they put in place procedures for employee whistleblowers to submit their concerns regarding accounting.

Where does an employee go when he sees a problem and is fearful of taking it up with management because his perception is that management is involved with the problem? We specifically provide that they should be protected in going to the audit committee.

We have a provision prohibiting the coercion of auditors. Some have asserted that officers and directors have sought to coerce their auditors or to fraudulently influence them to provide misleading information. Obviously, the auditors ought to be protected from that as well.

We have a provision that the CEO and the CFO who make large profits by selling company stock or receiving company bonuses while management is misleading the public about the financial health of the company would have to forfeit their profits and bonuses realized after the publication of a misleading report.

We also address the question of remedies against officers and directors who violate securities laws, something in which the SEC is very interested.

We have a provision on insider trades during pension fund blackout periods. We prohibit the insider trades. So you can't have officers and directors free to sell their shares while the majority of the employees of the company are required to hold theirs—as, of course, has happened in some instances.

On enhanced financial disclosures, we require that public companies must disclose all off-balance-sheet transactions and conflicts. We require that pro forma disclosures be done in a way that is not misleading and be reconciled with a presentation based on generally accepted accounting principles. More companies are doing these pro forma disclosures. They really are not accurately reflecting the financial conditions of the company.

We require very prompt disclosure of insider trades—actually, to be reported by the second day following any transactions.

We require the reporting of loans to insiders. There have been some enormous loans made. At a minimum, those need to be disclosed. Some argue they ought to be prohibited. We didn't go that far. Some testified there are some good reasons on occasion that a company ought to make a loan to one of its

officers. But, at a minimum, they ought to be disclosed.

This is a small item, but it may have a good benefit. We require public companies to disclose to the investors whether they have adopted a code of ethics for senior financial officers and whether their audit committee has among it a member who is a financial expert. We don't require them to have a code of ethics, although we think they should. We just require that they disclose whether they have one or not.

Title V deals with analyst conflicts of interest. We have had this incredible situation that was brought to the public attention by the efforts of the Attorney General of the State of New York, Eliot Spitzer, in which research reports and stock trades of companies that were potential banking clients of a major broker-dealer were often distorted to assist the firm in obtaining investment banking business. There was one document that actually acknowledged the conflict and, as a result, stated:

We are off base on how we rate stocks and how much we bend over backwards to accommodate banking.

These analysts would recommend a buy rating on the stock essentially to help out the investment banking firm which was trying to get the company's investment banking business. So they get the analysts to say good things about the company, which will then lead the company to be far more favorably inclined and take on that firm in order to do their investment banking business.

In some instances, they were actually recommending buys and then they were saying to one another what a turkey the company was, but the poor investor was being taken at the time.

We set out a number of provisions in this regard. I will not go through all of them.

We prevent investment banking staff from supervising research analysts or clearing their reports.

We prohibit analysts from distributing research reports about a company they are underwriting.

We have a provision to protect analysts from retaliation for making unfavorable stock recommendations.

We heard moving testimony from someone who said: If you make an unfavorable recommendation, who knows what is going to happen to you?

We also provide—the bill here focuses on disclosure instead of prohibition—that an analyst would have to disclose if he owned the company stock. If you are doing an analysis and if you are doing a report and a recommendation, you ought to disclose whether you own the company stocks or bonds, whether you have received compensation from the company, whether your firm has a client relationship with the company, and whether you are receiving compensation based on investment banking revenues from the company. These are not prohibitions, they are just disclosures.

The thought behind this is, if you are an investor and an analyst is making a recommendation and he puts up front in his analysis that he owns the company stock, or that he is receiving compensation from the company, or that his firm has a client relationship with the company, or that he is receiving compensation based on investment banking revenues received from the company, someone is going to look at this and say: wait a second. I have to take his recommendation in the context of his involvement.

Finally, of major importance is the increase we have provided for the budget of the SEC to, No. 1, provide pay parity for SEC employees; No. 2, enhance information technology and security enhancement; and, No. 3, fund more professionals to help carry out the important investigative and disciplinary efforts of the SEC.

We provide for two studies. One concerns the consolidation of public accounting firms. Senator AKAKA was very interested in this. There has been a constant consolidation trend. We have asked the Comptroller General to do the study. And the other is by Senator BUNNING directing the SEC to conduct a study of the role of credit rating agencies in the operation of the securities markets.

In closing, there has been broad support for this legislation. Just a few days ago, the Business Roundtable came out in favor of it. The Financial Executives International early on in the process was supportive, as well as the Council of Institutional Investors.

We have tried hard to listen to the concerns people raised.

The procedure here was that before the Memorial Day recess—in fact, in early May, we put out a committee print. As we approached markup shortly before the Memorial Day recess, a number of amendments were proposed. It was urged that we put the markup over. We agreed to do that. We took all the amendments that had been put forward, and other suggestions that were being received with respect to the committee print, and went back and reworked it.

I have to say to you that, in all candor, many of those suggestions were meritorious and in fact are now reflected in the legislation that is before the Senate.

So we tried very hard to listen to people at every step of the way. We then reworked the print. We came back with another committee print. We went to markup on June 18. We made a limited number of amendments in markup and brought the bill out to the floor of the Senate by a 17-to-4 vote.

I simply close by saying how strongly I believe that financial irresponsibility and deception of the sort that we have seen in all of the instances that keep appearing on the front pages of our newspapers are a real threat to our economic recovery. We cannot afford to wait for the next corporate deception, followed by the next round of lay-

offs, followed by the next collapse of a company's pension fund.

We need to take action to restore public trust in our financial markets, and that really begins with restoring public confidence in the accuracy of financial information. That is what this legislation seeks to accomplish. I urge my colleagues to support this critical legislation.

Mr. President, I yield the floor.
The PRESIDING OFFICER (Mr. BINGAMAN). The Senator from Texas is recognized.

Mr. GRAMM. Mr. President, I begin by thanking Senator SARBANES for working with me as we have considered this bill. I congratulate him on this day that we are considering the bill in the Senate.

We had a series of hearings that I wish every Member of the Senate could have attended. I am not surprised that at the end of those hearings good people with the same facts, as Jefferson said so long ago, were prone to disagree.

I find myself in a position where Senator SARBANES and I agree on many of the key issues of this bill; we differ on others. It is not the first time in managing a bill that we have been on opposite sides.

I reminded Senator SARBANES this morning that it might very well be this will be the last bill we will ever manage together. Since I am leaving the Senate, and we have something like 40 legislative days left, I do not know whether, after this bill is dealt with, the Banking Committee will warrant any of those 40 days.

But I would like to say for the record that no one can object to the hearings we had, the approach the chairman has taken. Whether you agree with him or whether you do not, I think his approach has been reasoned and reasonable.

It is clear this issue has attracted a great deal of attention. It is clear that there is a mind in the Congress, if not in the country—Congress is not always reflective of the thinking of the country—but there is a sort of collective mind that we need to do something, even if it is wrong.

I lament, as we have gotten into this debate, that the media has decided that the tougher bill is the bill with more mandates; that if you decided to set up a stronger committee, a stronger board with broader powers so they might decide to go beyond the legislative mandates, that that is a weaker proposal than having Congress actually write auditing standards or conflict of interest standards.

I would submit to my colleagues—and I guess I would have to say at this point, I do not know that we will follow this adage—but I suggest this is a very important bill. I urge my colleagues, as you look at this bill, to realize we are not just talking about accounting. If this bill were just about accounting, it could do some good, it could do some harm, but it could not do too much of either.

But this bill is far more than just a bill about accounting. This is a bill that has profound effects on the American economy; therefore, I think it is very important that we try to look at the problem and that we try to come up with a solution that will be good not just for today, not just that will bring forth a positive editorial in a newspaper tomorrow, but I submit we want to try to find one that meets the front porch of the nursing home test. That is the test where, when we are all sitting around in rocking chairs in a nursing home, and we look back at what has happened under this bill, that we will be proud of what we did and how we did it.

I want to touch on several things. I want to go through and make several points, some related to what the distinguished chairman said, some just because I want to say them. I want to talk about what I believe the problem is. And I want to make it clear that I do not know how to fix it. I do not know that this bill fixes it. I do not believe it does. I do not believe my substitute I offered fixes it either. But I think somebody needs to talk a little bit about it. Then I want to talk about the bill that we have before us, and where I agree with it and where I differ, and what those differences are.

I think the good news is—from the point of view of if consensus is a good thing—there is a consensus, and has been from the very beginning, that we need to pass a law. What this President cannot do is provide an independent funding source and a legal foundation for this independent board.

I personally believe the President's 10-point program was a good program. What the Chairman of the SEC cannot do is provide an independent funding source and provide a legislative foundation for the board. The Chairman and I agree on that.

There have been people who have reached a conclusion that if you differed from Senator SARBANES, you did not really want a bill. I believe those of us who have differed do want a bill. And the one thing that we agree on, which I think is at the heart of this whole debate, is a strong, independent board to make determinations about conflict of interest and about ethics.

Now, let me touch on the things that I wanted to touch on.

I personally thank Senator SARBANES for the approach he took in focusing on the problem and on the future. Everybody knows this has now become a political issue. We know that people are either trying to go back and pin this problem on past Presidents or SEC Directors or they are trying to pin the problem on the current President and the current SEC Chairman. I think it is a testament to Senator SARBANES' leadership that he has had nothing to do with that.

The plain truth is we have had a succession of great SEC Chairmen. Arthur Levitt and I disagreed on many things, but I do not think anybody could argue

that he was not an effective SEC Chairman. It is true that he had the ability, under existing law, to go back and change GAAP accounting to set up a board, to do anything he wanted to do, and he did not do it. But it is always so easy to see these things when you are looking with that wonderful hindsight.

Anybody has to give Arthur Levitt credit that he was the first to raise an issue about auditor independence. Whether you agreed when he raised it or not that it was a problem, that it was proven, it is clear that he saw a problem which may or may not be the source of our problem today, but many people believe it is. You have to give him credit. And I don't believe anybody else in his position would have done a much better job than he did.

Let me also say that I think Harvey Pitt has done an outstanding job in the short period of time he has been at the SEC. Much is made of the fact that he did legal work for accounting firms. I continue to be struck by this approach that somehow knowledge is corruption, that somehow the perfect regulator is a guy who just came in off a turnip truck and who knows absolutely nothing.

It reminds me of Senator MCCAIN was once telling a story about talking to a journalist who was covering the Vietnam War and asking the journalist if he had ever read this seminal work about the history of Vietnam. And the journalist said: No, he had never read it because he wanted to approach the subject with a totally unbiased mind.

There is a big difference, I submit, between an open mind and an empty mind. We make a grave mistake when we discount knowledge. Everybody today, when they are criticizing Harvey Pitt, talks about the fact that he represented accounting firms and security firms. I guess if he were being more aggressive than is the public mood, people would remember that he was probably the most rigorous chief counsel at the SEC in its history and, in that process, brought cases against numerous major companies. They would be saying that that experience had tainted him for his current work.

The point is, the man has broad experience as chief counsel to the SEC, where he prosecuted major firms, and he has vast experience as probably the Nation's premier security lawyer where he defended associations and businesses. And quite frankly, when in doubt, I will go with knowledge. When in doubt, I will take experience. I do not believe that experience taints you.

Let me also say that there is this current mood that anything having anything to do with accountants is somehow bad. Having just praised Harvey Pitt, let me point out an area where I disagree with him. When he set up his board to oversee accounting ethics and to look at issues such as the independence issue, on ethics issues, he does not allow people with an accounting background to vote.

Now I would have to say that I strongly disagree with that for two

reasons: No. 1, since when is a person's background a source of corruption? I will address that a little more in a minute. Secondly, when you are looking at what is and what is not ethical practice, I am not saying it is absolutely essential, but it is helpful to have somebody who knows something about what practice is.

I submit that in all of these approaches, from the SEC approach to the approach of this bill, we are probably going too far in putting people in positions where they are going to have massive unchecked authority and they have no real expertise in the subject area.

Anybody who thinks this board is just going to slap around a few accountants does not understand this bill. This board is going to have massive power, unchecked power, by design. I would have to say the board that Senator ENZI and I set up in our bill has massive unchecked power as well. I mean, that is the nature of what we are trying to do here. I am not criticizing Senator SARBANES. I am just reminding people that there are two edges of this sword. We are setting up a board with massive power that is going to make decisions that affect all accountants and everybody they work for, which directly or indirectly is every breathing person in the country. They are going to have massive unchecked powers.

We need to give some more thought to who is going to be on this board and is it going to be something that is attractive enough to make people want to serve.

In the proposal Senator ENZI and I put together, I thought we could enhance its prestige by making it a little more independent of the SEC. Under the committee bill, which is before us, the SEC would appoint the members of the board. I thought that given the broad nature of its power, which goes far beyond just accounting and far beyond just securities, it would be helpful to have the SEC appoint two members—Senator ENZI and I suggested that one have an accounting background and one not—have the Federal Reserve Board appoint two; have the CFTC appoint two; and then have the President appoint the chairman. I think that board would have a higher profile. With a Presidential appointee as chairman, it would raise the prestige of the board, and we would get better people to serve on the board.

I urge my colleagues, think long and hard when you think about this board exerting tremendous, unbridled, unchecked power, about how many people you want on the board who know something about the subject matter. Today, in an environment where accountants are the evil people of the world, the enemies of the people, having no accountants on this board or relatively few and not letting them vote when ethics matters are being dealt with, I assert that kind of approach means you are not going to have first-rate people who are going to want to serve.

Let me finally get it out of my system by saying: I don't know a whole bunch of accountants. I taught at a public university. About a third of my students in economics were accounting majors. I would have to say that I have a pretty high opinion of accountants. If I had to trust the safety and sanctity of my children and my wife today, after all these revelations about bad accounting, to a politician, a preacher, a lawyer, or an accountant drawn at random in America today, without any pause I would choose an accountant.

I am not saying that there are not bad people in accounting. I am not saying there has not been abuse. But I think we have to separate people from professions.

One of my concerns is, we have already had a decline in the number of people majoring in accounting. I am wondering, I don't care what kind of law you write, I don't care what kind of board you set up, if we don't attract smart young people into accounting, people who understand it is not talent, it is not personality, it is not cool, it is character that ultimately counts, then none of these systems are going to work very well.

Now, I don't buy the idea that legislating something instead of setting up a reasoned system to make decisions is a tougher approach; and if it is, I don't want it. But what we have today is an approach that is largely taken in the media that the more mandates you have, that the more things chiseled inflexibly into law, that the more it is one-size-fits-all, whether it has any rhyme, reason, or responsibility, that that is tougher, and therefore it is better, that in today's environment is obviously appealing.

I hope this doesn't happen, but it would not shock me if we have a series of amendments offered tomorrow when we start dealing with the bill, where people try to out-tough each other—maybe one to kill all the accountants and start all over and train new ones. Well, nobody would offer such an amendment, but I think we could very easily get into this oneupsmanship that we can end up regretting. I hope that will not happen. I want to discourage that.

Let me give you an example of where Senator SARBANES and I differ in our opinions. Who is right, I don't know. I think maybe being in this business for a while convinces you that nobody has a lock on wisdom and nobody knows in each and every case what is right and responsible, but I want you to understand the difference of our approach. Let me just go right to the heart of the matter.

The substitute that I offered in committee with Senator ENZI has an independent board. I think it is better, but you can argue that the two boards are pretty similar. Ours is a little more independent of the SEC; though, in the end, to meet the constitutional test, the SEC has to have authority over it. We went a little further in terms of

independence and appointing members, and I have already talked about that. But the whole heart of the difference—let's pick one issue—comes down to auditor independence. If you ask me today, should the same company that does an external audit for a firm be able to do internal audits—and I argue today I don't have the knowledge to say this—I would argue today that I really don't know enough about accounting practice and how the process works, not just at General Motors but at the smallest corporation in America, to make that decision. The bill before us sets out the law. It is written in the law that if you do an external audit, you cannot do any one of these nine different things. I don't know, it may well be that after a reasoned analysis a competent board would decide they ought to do those things. My guess is that if I had to decide today, and you forced me to make a decision that was going to be binding on the country, which is a little frightening to me, I might well agree with most, and in some cases all, of these things. But I don't believe we ought to be writing that into law. I don't think anything is gained by writing it into law, and I think a lot is lost by writing it into law.

Having read editorials, I know this makes the bill tougher, but I don't think it makes it better. What I believe we should do is set up the best and strongest board we can, make it independent, give it independent funding, and put competent people on it. The way Senator ENZI and I did it, and there is nothing magic about it other than that we did it, we decided to have the SEC, the Fed, and the CFTC appoint two members, one with an accounting background and one without, and then have the President appoint the chairman, and he could decide.

I personally think that having more accountants rather than fewer is a plus, not a minus. I don't think they all ought to have an accounting background. I don't necessarily say a majority have to have an accounting background, but I believe that day in and day out, 20 years from now when we have all left the Senate and we are not paying attention to these things, it would help to have people who know what they are doing. I don't buy the idea that people who don't know what they are doing are more moral, other things being the same, than people who do know what they are doing. In any case, I believe that rather than writing out these nine things by law that you cannot do while you are doing an external audit, we ought to set up the strongest board we can, and we ought to give them external funding and plenty of power, and we ought to say to them: you need to look at these nine things and do a reasoned analysis. You need to talk to lots of people, such as smart theorists who are accounting professors at our best universities, and you probably ought to talk to the bookkeeper in Muleshoe who is actu-

ally doing bookkeeping work, look at the practical, the theoretical, and make a determination.

Should you be able to do an external audit and do any one of these nine things? You make a decision and set it out in regulation. Why is that better than writing it into law? It seems to me it is better for two reasons: One, if you are wrong, or if accounting practices change, or if your perception of the problem changes, you can go back and change it by regulation. The problem with writing it into law is that Congress then has to come back and change the law. As we know from Glass-Steagall, it took us 60 years to fix something that had it been written in regulation by the 1940s, it would have changed. But we didn't change it until 1999.

The second reason, which I think is equally important, if not more important, is the way the bill is now written might very well make sense for General Motors. That is, it might make perfectly good sense to have a process whereby General Motors might have three or four different CPA firms—maybe more—but they are operating all over the country and all over the world. That is perfectly feasible. But the last time I looked—and I don't know, but some of these may have gone out of business and, God willing, maybe some new companies have come into business—the last time my trusty staff looked, there were 16,254 publicly held companies in America. I don't care how smart you are, I don't care how good your intentions are, you cannot write a mandate, if you get too far in the detail, that fits General Motors and also fits the 16,254th largest company in America. It just doesn't work.

One of the advantages of setting up an independent board, giving them a mandate to look at these areas, but not chiseling it into stone in legislation, is because they can then say, well, here is the principle and if you are General Motors, here is how it applies, but if you are XYZ Paint Company in Montana, or Wyoming, or wherever, you might only have one accounting firm operating in the town that you are domiciled in. I am not saying you cannot hire accountants to come from the Capital City, or wherever, to your town to do work for you, and maybe you ought not to be operating in a little town in a small State; but people choose that, and people who represent small States seem to like these companies being there. I am just saying that giving the board the ability to set a principle and apply it in one way to General Motors and in another way to a small company in a small town makes eminently good sense in practice.

Now, I know it is not a mandate in the same sense as writing it into law, but I think the result would end up being better.

One of the amendments that I will offer—and I thank Senator SARBANES for trying—and one thing I have to say

is that nobody on our committee can say that Senator SARBANES did not listen. Nobody can say he failed to try to hear them out on their concerns and that, in many cases, he didn't change the bill to try to respond to their concerns.

One of the changes that I support is giving the board, with the concurrence of the SEC, the ability to grant waivers to these rules and, in fact, to the law. The problem with waivers on an individual company basis is a practical problem, and that is, if 16,254 companies are trying to get waivers under their special conditions—they all come to Washington and hire lawyers and lobbyists; they all petition the board and the SEC—if that board has 16,254 petitions in 1 year, and it could have many times that if people are petitioning for different kinds of waivers, we are going to shut it down for any other purpose except waivers.

What will happen, not because anybody wants it to happen but because of the very nature of Government, the people who will get the waivers will not in general be the most deserving people. They will be the people who hired the best lawyers, who had the best contacts, who knew how to go about it, and who had the money to spend getting the waiver.

My guess is the smallest companies that need the waiver the most will not get them. Surely at some point we are going to fix the bill so that the accounting board, with the concurrence of the SEC, can say: OK, look, in applying this, if you fall into these categories, you have these circumstances, you have a waiver to do things in this way. Clearly, something like that has to make sense.

One of the things we have to come to recognize, and I think we all recognize it, is that having a beautiful law in a law book does not make good law. It has to be practical, and it has to take into account the 1,001—in this case, the 16,254 different circumstances that can apply.

What is the problem? I guess there are as many theories about the problem as there are people. I have my own theory about the problem, and I will share it with my colleagues and anybody else who is interested.

Why is all of this happening now? I believe it is happening because of the problems in GAAP accounting. There are other extenuating circumstances, and I want to touch on them, but here is the problem in GAAP accounting. Senator SARBANES used a perfect example of it, and I will just take his example. He talked about how WorldCom saw its market capitalization fall from \$100 billion to \$100 million. How is that possible? I remember when Enron went bankrupt. People said: Where are the assets? When a company goes from \$100 billion to \$100 million, what happened to the assets?

Here is the problem. Increasingly, the asset is a combination of know-how, credibility, and a belief by the

public that you are carrying out your business in an efficient and ethical way. Increasingly, the modern corporation does not have 12 steel mills. They do not own massive physical assets. Many companies have tried, basically, to get out of the asset business into the information business. The value of WorldCom was a discounted present value of what the public believed its revenue stream was relative to its cost. It never had \$100 billion worth of physical assets, anything like it. That is what the value of the ideal was as the public perceived it in a period where our wise friend, Alan Greenspan, talked about irrational exuberance. That is what they thought that company was worth, but it never had assets that were anything near \$100 billion. What it had was know-how, knowledge of a market, and it had credibility.

Enron was like a bank in the 19th century before FDIC insurance. Their reputation was the source of their value, and when they made stupid business decisions that called that reputation into question, they collapsed.

I have a great sympathy for accounting because I used to be an economist, and in economics, we have something called *ceteris paribus*. It means "other things being the same." So when we do not know what those other things are, we just utter this Latin phrase and pretend they do not exist—literally pretend they do not exist.

That is valuable in physics where you talked about force equals mass times acceleration, or for every action there is equal but opposite reaction. That is an assumption. That is a simplification because it leaves out friction, and it leaves out gravity. There is nothing wrong with it, but the problem is, accounting cannot do those things.

I had a famous and great accounting professor named David McCord Wright. Nobody remembers him anymore. I can visualize him today easily defining WorldCom. He would have talked about the discounted stream of earnings, and he would have talked about the value of their equity or market capitalization and would have plotted out a projection of revenues and a projection of costs and integrating that area to add it up, and that is where the \$100 million was.

I doubt if WorldCom's physical assets ever totaled \$50 million, probably not \$20 million. You are an accountant and you have the job with the directions that are available through GAAP, generally accepted accounting principles. You have the job of trying to model, for accounting purposes, what WorldCom looks like. You do not have the ability to utter a Latin phrase and wish away things you do not understand. Our problem today is that our GAAP accounting has not kept pace with the world in which we live.

In this world where knowledge is power, in this world where know-how is wealth, it is very hard to model with GAAP accounting. In the decade of the 1990s, when this new model was used on

a massive basis in the American economy, accountants had to figure up how much all this stuff was worth.

GAAP accounting has not kept pace with our changing economy. Our accounting is based on the old steel mill of the 1940s where you had how much you paid for the furnaces, and you had them a certain period of time, and you have depreciated them.

How do you depreciate an idea? How do you book having brilliant young people who are committed to the future in your company because they own your stock? How do you put that down in value terms?

So when we are pointing the finger at these people who call themselves accountants, when we are blaming them for every problem in the world, accountants did not put WorldCom into bankruptcy. Accountants did not put Enron into bankruptcy. Enron put Enron into bankruptcy by making bad business decisions. The accounting was a problem because it was slow to show it, but it was there. WorldCom's problems were there. The problem was not accounting. The problem was accounting did not show the problem soon enough.

So if anyone is listening to this debate and thinks some investment is going to be more valuable because we have better accounting, in the long run that is true; in the short run, I am not sure that is true. In fact, I argue these companies would have gone broke anyway. Clearly, they would have gone broke, and they would have gone broke quicker had the accounting system been better. It should have been better. It needs to be better.

The point I am trying to make is the following: When you are trying to model a company using GAAP accounting, it is hard. It is something nobody has ever done before.

We are learning how to do this, and we will—using concepts like goodwill to try to be a proxy for things like intellectual capital and know-how. That is the source of our problems.

I think the fact this came at the end of a financial bubble in the 1990s exacerbated the problem. The problem, in my opinion, is accounting was easier—maybe it was not easier initially. We figured out how to do it on the old model. We will figure out how to do it on the new model.

There is some smart accountant, probably at Texas A&M right now, studying accounting, who will probably get an MBA, who will figure out how to get all this goodwill off our books—which is a silly concept in my opinion, but it is the only one we have—and come up with models of intellectual capital that will have meaning, just as that steel furnace in the 1940s and the write-down of it that made sense, but that is not the world in which we live. That has to be dealt with.

Something the chairman's bill does, something that I very much am in favor of, is it gives independent funding to FASB. The two things that have to

be done and only Congress can do them effectively, in my opinion, are: No. 1, we have to have an independent, self-funded accounting standards board, FASB, and we have to have accountants setting accounting standards. No. 2, we need to set up this board to oversee ethics in accounting.

I do not think it matters whether it has a majority of accountants or not, but it needs to have a reasonable number of people who have a background in accounting so they know what they are doing and so they have an intellectual stake in it being done right. It is a dangerous thing when there are people with massive power who do not have any kind of intellectual stake in the application of that power, and it concerns me.

So to conclude, let me say this: Senator SARBANES and I, when we were at this point on the financial services modernization bill, were on opposite sides. I was for the bill. I saw it as the epitome of all wisdom. He was opposed to the bill and saw it in less glowing terms. By the time we got out of conference, it was our bill. We were together on it and 90 Members of the Senate voted for it. It passed the Senate initially on a very close vote, a very narrow margin.

I do not think that will be the case here. I think this bill will pass by a very large margin. I also think it is possible that by the time we have reconciled this bill with the House, that we can have a bill that will be very broadly supported. At that point, I hope I will be in a position of supporting it.

There are many good things in the Sarbanes bill. There certainly has not been a bill, since I have been in the Senate, that was better intended than this bill. I do think it can be improved. I think it legislates too much. I think it does one-size-fits-all mandates. It takes them a little bit too far. That, to some guy outside government, does not sound very important, but it is very important when one starts talking about application. If we do this thing right, and if we build a consensus and it works well, that will be the final monument of the bill.

I hope we can offer germane amendments. As of right now, I think there will probably be two amendments I will offer. One will have to do with this issue about granting waivers on a blanket basis so that rather than making every individual company that has specific kinds of problems come in and ask for an individual waiver, that the SEC and the board, when they agree, could simply issue a set of principles, and if you qualify you would get the waiver. If you do not, you do not. Pretty straightforward amendment.

The second amendment I believe I will offer will have to do with appeals. Under British common law, we have always taken a very strong position in affecting the right of a person to earn a living. We have set very high standards when it comes to taking some-

body's livelihood. I believe there are people who are practicing accounting, or veterinarians or economists or any profession, there is somebody in it who ought not to be in it. I think when this board, which is a private entity—and again this is not a problem with the Sarbanes bill. This is a problem of our substitute as well. It is a strange kind of entity. We want it to be private, but we want it to have governmental powers. We have tried to structure it in ways to try to accommodate this.

The bottom line is, when this board is taking away somebody's livelihood and that person believes they have been wronged, they ought to have a right to go to the Federal district courthouse. They ought to have a right to say: I do not think that was right, and I want my day in court.

They ought to have to pay for it, and at that point I think all the material involved has to be made public, but that is a right I think people have to have. Those two amendments are very narrowly drawn, and they go to the very heart of the bill. I know some of our colleagues are thinking about offering a whole bunch of other amendments. I submit that trying to work out a compromise with the House is going to be difficult. I think we will succeed at it, but I think if we get a whole bunch of other issues involved, we are making the mountain higher. I believe we are ready to legislate in this area, and I think if we can limit what we are doing to this area that we can pass this bill, we can go to conference, and we can come back and have a bill signed into law before we leave. I think if we get into a lot of other areas, I am not saying the world comes to an end if you put an amendment on here—having us write accounting standards with regard to stock options, for example, that is a tax issue. I would probably want to make the death tax permanent as a second-degree amendment, but I am not saying the world comes to an end if we do that.

I am saying if we get off into those kind of issues, where you have strong feelings on both sides of the aisle—and that would not be any kind of partisan vote—I think it is harder for our chairman and for the members of this committee to get their job done. I hope we will have a limited number of amendments. I hope they will be germane to the bill.

Finally, at some point we are going to take up Yucca Mountain. I am not up high enough in the pecking order to have gotten the word as to exactly when that is going to be. Other things being the same, I would rather finish this bill first and then go to Yucca Mountain than to stop in the middle of it. But it is a highly privileged motion. Any Member can make it. It is not debatable. I assume at some point sometime tomorrow that motion will be made. As I figure the time limit under that privileged motion, it would take about a day.

I don't see any reason this bill should not be finished this week, and maybe

much sooner if we can stay on the bill, if we don't drift on into these other areas. When people who are for the bill in its current form want to stay pretty close to the bill and people who are against it in its current form want to stay pretty close to the bill, we ought to stay pretty close to the bill.

I thank my colleagues for their indulgence. I look forward to working on this issue. I yield the floor.

The PRESIDING OFFICER (Mr. DORGAN). The Senator from Wyoming.

Mr. ENZI. Mr. President, these are interesting times. I hope colleagues have been listening. The two presentations that preceded me were outstanding explanations of both the bill and the financial problems facing the world today. I don't think you can get a clearer explanation of the problems than those given by Senators GRAMM and SARBANES. They are very detailed and very much to the point and lay the groundwork for what we are about to do.

Usually in this Chamber, we have a solution and we are looking for a problem. Today, we have a problem and we are looking for a solution. We have a problem before the Senate. The way this process works, is that we try to place the solution in the best possible form. Under our form of government, the Senate will work on its bill; the House works on another bill on the same topic. When those two bills have been completed, there will be a conference committee and we will work out the differences. Through every one of those processes, there will be changes to the legislation. We get 100 different opinions from 100 different backgrounds on any piece of legislation. That is what makes our form of government work. At the other end of the building, there are 435 people from different backgrounds. They all lend their opinion issues that come before the House.

It is sometimes a slow process, but it is the best process in the world. It will work on this problem for which we are looking for a solution.

If the economy were different today, we would not have this problem. When there are changes in the economy, we realize accounting problems—or at least that is when the accounting problems become apparent. That is where we are today.

I am the lone accountant in the Senate. There is a good reason for that. Accountants are out there doing very detailed work. When you listen to what is in this bill, you are going to hear details that you do not hear with other legislation. It is the nature of the occupation, of the profession of accounting. In the last 6 months, there has been an increased interest in the accounting profession. Kids in colleges have been asking the Deans about this phenomenon called accounting that nobody has talked about for a long time. It is a tremendous opportunity for accountants to finally explain what they do.

Some of the kids are looking into accounting for the wrong reasons. They want to be one of the green eyeshade people bringing down huge corporations. That is not what it is about. It is an opportunity to make sure everyone understands business in America. Accountants are the people with the very basis who both know it and can explain it. That is their job.

Somewhere along the line, it is possible for people to get distracted from that main goal. We are trying to bring them back to that main goal—providing a basis where everyone can understand the value of the companies in which they are investing.

Today we are addressing accounting legislation that has been reported out of the Banking Committee. It has been through initial scrutiny. It has been through the process that leads us to the floor. I have talked about the floor process, but so far this has only been through the hearings process. We had 13 hearings in the Banking Committee. They were on very diverse topics and a very diverse bunch of people who understood each of those topics testified. I commend Senator SARBANES for the way he conducted the process of the hearings, and then the process of negotiations that led up to the committee vote. That happened over the last several months. On this issue, I can think of no other Chairman in either the House or Senate who did a more thorough job in conducting hearings. The Banking Committee stayed on the substance and did not allow enormous outside pressures on this issue to interfere with trying to get to the bottom of the real problem. The hearings were not finger-pointing. The hearings were an attempt to get valuable information to arrive at the best possible solution.

In addition, the witnesses at the hearings presented objective views. Had it been my choice to call the witnesses, I would have chosen nearly every person who testified. That shows the care and concern that went into choosing the individuals who provided this basic information. The witnesses offered several different views, and they came from diverse backgrounds.

I also thank the Chairman for the way he and his staff conducted themselves through the endless negotiations we had during that same timeframe.

Right now, it seems as if everyone is writing an accounting bill—including myself. In fact, I got calls as soon as Enron occurred from some of the House Members who said they would really like to work on a bill with me. Of course, the first question I had to ask them was, What did you find really happened with Enron? Usually the answer was, We don't know yet. Their response was, but we want to get ahead of the curve.

I am glad we had the patience to wait, to hold the hearings, and then to negotiate through a number of different bills to come up with the one before the Senate today. Those negotiations by Senator SARBANES and his

staff were both honest and fair. Although we were not able to agree on everything, which is the basis of negotiation, I believe all negotiations took place in good faith. I thank the Chairman for that. I do think we have a bill that is a good basis for finishing the process and going to conference.

Enron, Global Crossing, WorldCom, and the other numerous restatements that are occurring have caused a ripple effect on the trust of corporate executives and their auditors by the public. These executives, the persons in whom shareholders put their trust, have stained the entire corporate community. A few bad apples have spoiled the bunch. As a result, the legislation we will be debating this week will restructure the way executives operate by increasing accountability and making it easier to discipline fraudulent behavior while at the same time increasing penalties for illegal activity.

This legislation will force the management of companies to be accountable to their shareholders by requiring that they certify the accuracy of their financial statements. In addition, the legislation will require that members of corporate audit committees are independent directors. We provide the audit committee the ability to engage outside consultants and advisers and provide them the resources they need to determine whether the accounting techniques being used are in the best interests of the shareholders.

In addition, all employees should be subject to the same rules when selling company stock. In this regard, the bill prevents officers and directors of a company from purchasing or selling stock when other employees are restricted. And when these officers or directors do sell stock in the companies in which they work, they should report the transaction on the next business day.

However, the cornerstone of this legislation will be to change the way in which a company's auditors interact with their clients, and also to force them to be more accountable. While I believe that accountants have extremely high ethics and standards, I do believe the current environment has highlighted a number of problems inherent in the current oversight structure of the accounting industry.

I do believe it is an awesome task to be the accountant trying to explain this to everybody else. I do need to explain a little bit why there are not more accountants in legislatures or in the Senate or in the House. That is because if you pick up experience in legislating, most of that is done during the tax season and we need the accountants during the tax season. And they need the business during the tax season. If they don't earn at least 70 percent of their revenue during that time, they are out of business, which precludes them from picking up legislative experience. There is no requirement that you have to have legislative experience before you come here. There

is no requirement that you have any kind of experience. But that is why there are fewer accountants here than there are a number of other professions—it is a matter of timing.

While I am hesitant to move forward with the number of changes included in the bill, I do believe the legislation is necessary given the current lack of faith in accountants.

Make no mistake about it, this legislation is federalization of the accounting industry. This bill places a Federal Government bureaucracy at the helm of accounting regulation. While the legislation doesn't prevent the State accountancy boards from continuing to regulate accountants registered in their States, it does establish an overlord regulator to oversee the firms which audit publicly traded companies. My hope is that this new oversight structure will renew the faith the public has in auditors and the financial statements which they help prepare.

In addition to my own proposal, over the past several months I have seen a lot of different proposals. I have also spoken to and met with many of my colleagues about this issue. I have spoken with groups from different industries; I have talked to scholars, consumer advocates, and regulators. All the groups agree that steps need to be taken to enhance the oversight of accountants.

I have examined several existing models of quasi-public regulators such as the New York Stock Exchange and the National Association of Securities Dealers. One point is clear: When these organizations were established, there was a desire to appoint the most informed individuals, those who actually deal with the industry on a day-to-day basis, as majority members of the boards that oversee the industry.

For instance, the National Association of Securities Dealers, NASD, has a large board which must consist of anywhere between 17 and 27 members. Nowhere in the NASD rules does it state their board members may not serve if they have previously been involved in the securities industry. As such, the majority of the NASD board members have worked within the industry.

Why should the accounting industry be treated so differently? Why would we create a board which oversees the accounting industry and then require that a minority of its members have ever practiced accounting? The NASD plays just as important a role in the protection of investors as the accounting oversight board will, so why shouldn't the persons who sit on this board have the best possible knowledge of the accounting industry?

I do want to thank Senator SARBANES for the change he made in the legislation. Originally it said there could be no more than two accountants on this five-person board. He made the change so that two will be accountants. It is a very significant change so that accountants are represented on the board. Previously it would have been

possible to have no accountants regulating the accounting profession.

Every piece of legislation has its handful of unintended consequences, despite how well-meaning Congress can be. I fear the way in which the accounting industry will change when a group of non-accountants set the standards which accountants must follow. Lawyers do not have non-lawyers setting ethical and professional standards which they must follow, yet I would argue that those standards are as important as accounting standards and ethics.

I don't want my message to be misconstrued. I do believe that a board should be established to oversee the accounting industry. I also agree the board members should have all the tools necessary to effectively oversee the industry. I agree that the board members should be full-time and independent from the accounting firms. I agree that they should be appointed by government and not by industry. But I do not agree that the members of the board should be excluded just because they may have passed a CPA exam 25 years ago.

To the contrary, because I believe this board should be as effective as possible, I believe the board members should know how an audit engagement works and they should know the pressures that are applied to an auditor from a client. I believe with this knowledge the board may in fact apply stricter standards than a board of non-accountants.

As I said, I believe accounting firms should be subject to strict scrutiny. However, I do not believe this legislation should pave the road for the trial bar to open frivolous lawsuits against accounting firms. Arthur Andersen no longer exists. Can we really afford to lose another one or two of the final four firms? We used to call them the big five. Now we call them the final four.

It was mentioned earlier that there are 16,254 SEC-filed corporations. That is 16,254 to be reviewed, primarily by four accounting firms. If the trial lawyers pick off one after another after another of the firms because the Board provides information and because they are handed that information, how will we have those 16,254 audited at all?

I am hoping there are a lot of young people listening who are going into accounting who may start firms and grow the firm themselves so they can handle an audit of a Fortune 500 company. But it doesn't happen overnight. And we have to make sure that there is auditing, and not just consulting, which some people will point out is where most of the money is these days.

It makes me nervous to know that essentially only four accounting firms now have the resources and expertise to audit the world's largest companies. We rely on these firms to verify the books of diverse and complex companies because they are the only firms that can provide this service. If we sub-

ject them to the will of the trial bar, they will surely continue to be driven from existence, one firm at a time.

Instead, we should punish the wrongdoers to the fullest extent possible and rely on good managers of companies to do their jobs effectively. In the end, we are going to end up making the audit committee members full-time employees, and then there will not be any independence—another problem about which we have to worry.

Having said this, I do believe this legislation is needed at this time. Congress must produce a remedy to help restore investor confidence. We have seen that real penalties, or at least a threat of strong penalties, need to be hung over the heads of corporate executives to assure they maintain their obligations and responsibilities. The moral and ethical breakdown among some of those executives is disgraceful, and investors must know these executives will be punished severely when they make selfish judgments.

A major concern, as we have gone through this legislation, trying to put the bill in its present form, has been the relationship to small business. As I mentioned 16,254 companies are the ones that are registered with the SEC. There are thousands of companies out there that are not SEC registered businesses. There are thousands of entities out there that hire auditors to give confidence in the financial statements they have that are not SEC filed.

One of our concerns has been that we not change business so drastically that these small businesses will no longer be able to afford auditors. So we built in protections for the small businesses. Our intent with this bill is not to have the same principles that apply to the Fortune 500 companies apply to the mom-and-pop business. When they hire an auditor, they want that auditor to give them every bit of information they possibly can so the information they get improves their business and doesn't hide anything from investors. Mom and pop are the investors.

We have taken a lot of care to be sure we are not cascading the provisions down into small business. We will look at additional ways, I am sure, to make sure that does not happen. This is not a license to States to do the same thing that we are doing on a Federal basis. There is recognition that on a Federal basis there is a bigger problem than on a State-by-State basis.

I also want to point out there is also a responsibility by the individual investor. They have to learn to diversify and not to keep all of their eggs in one basket. I hope we can turn this situation into a chance to educate small investors as to how best to manage and invest their money. Nothing will bring back the billions of dollars employees of some of these companies have lost. But hopefully the collapse in confidence will ensure that individuals will never again lose their life savings because of a lack of diversification or knowledge of finance.

What will this legislation provide? It will provide a strong oversight body to watch the accounting industry. It will provide a set of corporate governance laws that will require corporate executives to become accountable for their financial statements. It will provide assurances that corporate boards watch the management of the company with a more critical eye—no longer will board memberships be cushy jobs with no responsibility.

It will also provide assurances to the American people that Congress will not allow these millionaire and billionaire executives to steamroll their obligations to the shareholders. It will also ensure that research analysts aren't being told what to say by the investment bankers.

To a great extent, I believe the marketplace has made remarkable changes to address a number of the issues which were highlighted by these corporate failures. First and foremost, corporate boards and audit committees will no longer turn their head when management wants to engage in questionable ethical engagements. Also, credit rating agencies will impose much more scrutiny on the companies they rate to protect financial institutions and other lenders. Lenders themselves will require more information about the stability of the companies in which they invest. Research analysts will ask more questions about the company, and more importantly, they will demand more answers from executives. But perhaps, most important of all, is the fact that investors, both institutional and individual, will be more critical.

Shareholders will wake up and learn about the power of their votes on corporate actions. We've already seen great strides from some institutional investors in that they plan to use their votes in shareholder meeting to keep executives honest and accountable. They also plan to use their votes to impact executive compensation packages. These private sector solutions will be more effective than any legislation which can be passed out of Washington.

One of our country's greatest strengths rests in the dominance of our capital markets. But the strength of our markets is only as strong as the underlying confidence in the listed companies. When these companies build facades instead of standing on principle, it shatters the entire system. Congress and the SEC must find a middle ground where we allow the marketplace to continue to operate in the capital markets to the greatest extent possible but also assures investors, both domestic and internationally, that the U.S. capital markets will continue to be worthy of their investments. We must continue to convince investors, that at the core of the American capital markets, there must be a high level of integrity and ethics by all players.

I want to reiterate another message that has been prevalent this afternoon.

As we get into this bill, there are virtually no limits on what amendments can be put on—at least unless there is a cloture motion.

I hope people will recognize the need to have something done, the need to get it done quickly, and not try and make this a vehicle for everything they ever thought needed to be done with corporations.

The purpose of this bill is not to solve the international problems of business for everything that we ever thought of.

I hope my colleagues will constrain their amendments, keep them to the corporate governance and accounting area we are working on, and help us to get this bill finished as quickly as possible.

Again, I thank Chairman SARBANES and Senator GRAMM for their tremendous efforts and insight which they provided in the previous explanation of this, and for the hours of work they have put into the solution that is before us today. I hope we can keep it to a limited solution, take care of the problems that are recognizable, and reach agreement so we can get this to conference and get a bill to the President for his signature.

Thank you, Mr. President. I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. SARBANES. Mr. President, I ask unanimous consent that it be in order to send an amendment to the desk and have it immediately considered. This amendment makes two simple changes to the bill. One is a technical change to conform to the budget rules, and a conforming change involving the definition of "issuers." We have discussed this. It has been cleared. I would like to go ahead and take care of that business, if I could.

The PRESIDING OFFICER. Is there objection?

Mr. GRAMM. Mr. President, there isn't any objection. I think this clarifies the bill. I think it is something that both sides are for, even though we had a previous agreement not to do any amendments today. It is simply so technical that I don't think anybody would have any concerns.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 4173

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Maryland [Mr. SARBANES] proposes an amendment numbered 4173.

Mr. SARBANES. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To make technical and conforming amendments)

On page 65, line 11, strike "All" and insert "Subject to the availability in advance in an

appropriations Act, and notwithstanding subsection (h), all".

On page 76, between lines 16 and 17, insert the following:

(d) CONFORMING AMENDMENT.—Section 10A(f) of the Securities Exchange Act of 1934 (15 U.S.C. 78k(f)) is amended—

(1) by striking "DEFINITION" and inserting "DEFINITIONS"; and

(2) by adding at the end the following: "As used in this section, the term 'issuer' means an issuer (as defined in section 3), the securities of which are registered under section 12, or that is required to file reports pursuant to section 15(d), or that will be required to file such reports at the end of a fiscal year of the issuer in which a registration statement filed by such issuer has become effective pursuant to the Securities Act of 1933 (15 U.S.C. 77a et. seq.), unless its securities are registered under section 12 of this title on or before the end of such fiscal year."

The PRESIDING OFFICER. If there is no further debate, without objection, the amendment is agreed to.

The amendment (No. 4173) was agreed to.

Mr. SARBANES. Mr. President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SARBANES. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I first want to extend my appreciation to the Senator from Maryland for this bill. It is really well timed and well done.

I received a letter today from the Secretary of State of the State of Nevada, a Republican.

By the way—the Senator from Connecticut is in the Chamber—the Secretary of State worked very closely with the Senator from Connecticut. As the Senator will recall, he is a very fine man. I wish he were a member of the Democratic Party. He is not. But he is an outstanding public servant.

He wrote me a letter, which said:

DEAR SENATOR REID: Investor confidence in the integrity of U.S. securities markets has been badly shaken as a result of Enron, Global Crossing, WorldCom, and other alleged wrongdoing. The failure of several large corporations to police themselves cries out for reform before the negative impact on our markets damages our National economy.

The Senate is to begin consideration of S. 2673, The Public Company Accounting Reform and Investor Protection Act of 2002, on Monday, July 8. I fully support S. 2673 and oppose any efforts to weaken its provisions.

If I could have the attention of the Senator from Maryland, the manager of this bill, I have here a letter from the secretary of state of the State of Nevada, who says:

I fully support S. 2673 and oppose any efforts to weaken its provisions.

I say to the Senator, one of the things the Secretary of State of Ne-

vada is worried about is someone attempting to weaken the bill that you have brought forward to prevent State securities agencies from looking at wrongdoings in the State of Nevada.

As the Senator from Maryland knows, the attorney general from New York, who has been here, is very concerned about this. It is my understanding this bill does nothing to weaken that; is that true?

Mr. SARBANES. If the Senator would yield.

Mr. REID. I would be happy to yield.

Mr. SARBANES. That is correct. At one point there was talk of an amendment floating around but—

Mr. REID. But the point is, it is not in the bill?

Mr. SARBANES. No, it is not in the bill.

Mr. REID. On behalf of the secretary of state of Nevada, who I indicated earlier worked closely with the Senator from Connecticut in bringing forward a very good election reform bill—he is very progressive, and a fine secretary of state—throughout this letter, he acknowledges how important this legislation is. I wanted this to be spread on the RECORD before my friend's attention was diverted.

Mr. SARBANES. I appreciate the Senator's comments.

Mr. REID. My friend, secretary of state Heller, goes on to say:

As Nevada's chief securities regulator, I believe there is an immediate need to restore investor confidence in our securities markets.

I stand with my fellow state securities regulators in endorsing Title V, Analyst Conflicts of Interest, in its current form and strongly oppose any amendment to this title that would reduce our ability to investigate wrongdoing and take appropriate enforcement actions against securities analysts. However, an industry amendment has been circulated that would prohibit state securities regulators from imposing remedies upon firms that commit fraud if it involves securities analysts and perhaps even broker-dealers that serve individual investors. If Nevada's investigative and enforcement authority in this area are weakened, so too will the confidence of Nevada investors.

He certainly opposes this.

Mr. President, I ask unanimous consent that the letter from our secretary of state be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

OFFICE OF THE SECRETARY OF STATE,

July 8, 2002.

Hon. HARRY REID,
U.S. Senator, Hart Senate Office Building,
Washington, DC

DEAR SENATOR REID: Investor confidence in the integrity of U.S. securities markets has been badly shaken as a result of Enron, Global Crossing, WorldCom, and other alleged wrongdoing. The failure of several large corporations to police themselves cries out for reform before the negative impact on our markets damages our national economy.

The Senate is to begin consideration of S. 2673, The Public Company Accounting Reform and Investor Protection Act of 2002, on Monday, July 8. I fully support S. 2673 and oppose any efforts to weaken its provisions. As Nevada's chief securities regulator, I believe there is an immediate need to restore

investor confidence in our securities markets.

I stand with my fellow state securities regulators in endorsing Title V, Analyst Conflicts of Interest, in its current form and strongly oppose any amendment to this title that would reduce our ability to investigate wrongdoing and take appropriate enforcement actions against securities analysts. However, an industry amendment has been circulated that will prohibit state securities regulators from imposing remedies upon firms that commit fraud if it involves securities analysts and perhaps even broker-dealers that serve individual investors. If Nevada's investigative and enforcement authority in this area are weakened, so too will the confidence of Nevada investors.

An amendment may be offered on the Senate floor under the guise of creating national uniform standards for securities analysts. Its real intent, I fear, is to eliminate remedies that state securities regulators may impose on firms should fraudulent activity be unearthed in an investigation. This approach is clearly ill-advised in today's climate of investor uncertainty.

As Nevada's Secretary of State, my office is charged with administering the Nevada Uniform Securities Act. My office is in current negotiations with Merrill Lynch regarding a possible settlement of analyst conflicts discovered in a lengthy investigation by the New York Attorney General's office. My staff is also participating in a task force investigation of UBS Paine Webber/UBS Warburg. This amendment would greatly hamper our ability to investigate analyst conflicts and would have a detrimental effect on Nevada investors.

I urge you to support S. 2673 and to vote against any amendment to weaken the enforcement powers of state securities regulators. The result of an amendment such as this could be that virtually every one of the thousands of actions brought by state securities regulators every year would be preempted, as well as all civil suits and arbitrations under state law. In light of the recent Enron and WorldCom debacles, it simply does not make sense to limit or preempt the state's ability to bring enforcement actions against analysts who lie to Nevada investors. The public is looking for elected officials to help them regain their confidence in corporate America.

As Nevada's Secretary of State, I have a duty to protect our state's investors. Any measure that dilutes my authority as the state's chief securities regulator is counter to the mission of my office and to state securities regulators nationwide. Accordingly, I again urge you to vote against any amendment to S. 2673 that would weaken the enforcement powers of state securities regulators.

Please call me at (775) 684-5709 if you have any questions or need additional information. Sincerely,

DEAN HELLER,
Secretary of State.

Mr. REID. Mr. President, our Nation is experiencing a crisis in confidence among the investing public. Americans hear on the news and read in the papers every day more and more cases of corporate executives bilking employees and investors, and of auditors who looked the other way, of boards of directors failing to provide the oversight expected of them, and of well-connected investors buying and selling stock based on insider information. Investors do not know who they can trust.

We have been in a mad rush the last many years to make sure that the

quarter you are involved in has a good financial statement. People go to whatever ends they can to make sure that that quarterly statement looks good to keep the stock price up. That is all that matters. It does not matter whether the company is losing money. It does not matter if their employees are being laid off. It does not matter, as long as they do everything they can to do what can be done to make sure that stock price stays the same or goes up.

I have spoken previously on efforts of Senators to secure the future for American families. In fact, Senate Democrats are using that as a theme: to secure the future for all American families. Securing our future means not only making sure our borders are safe but also securing educational opportunities for all our children and access to affordable prescription drugs and affordable health care.

We must also provide pension protection for American families. In part, that means extending pension coverage. There will be an opportunity, before this legislative year ends, where we can have a good debate.

The vast majority of workers in Nevada have no pensions. As a consequence, they face their retirement years with inadequate resources. Senator BINGAMAN, chairman of a task force, has raised awareness of the lack of pension coverage for American workers and is working on legislation to address that problem.

My colleagues have also led the way with other legislative initiatives to restore investor confidence and provide safeguards to secure Americans' investments, pensions, and retirement savings.

Chairman SARBANES has introduced important legislation that will create a strong, independent oversight board to oversee the conduct of auditors of public companies, and he has done this on a bipartisan basis. That bill was reported out of committee, as I recall, by a vote of 17 to 4, with overwhelming bipartisan support.

This legislation would establish guidelines and procedures to assure that auditors of public companies do not engage in activities that could undermine the integrity of the audit. It ensures greater corporate responsibility by setting standards for audit committees and for corporate executives, but it would, we would hope, impose penalties when standards are violated. It would establish additional criteria for financial statements and require enhanced disclosures regarding conflicts of interest.

This legislation also directs the Securities and Exchange Commission to adopt rules to improve the independence or research and disclose potential conflicts of interest. It also would provide a significant boost in funding for the SEC, the Securities and Exchange Commission, to help it carry out its responsibilities in a fashion that would help restore investors' confidence in the markets.

This legislation goes a tremendous distance in addressing some of the major concerns I have heard from people in Nevada. And I am pleased this bill has gained, as I have indicated, bipartisan support.

Indeed, it seems that after staying silent for so long, and after allowing a permissive atmosphere where businesses could do no wrong, the President, our President, and Republicans in Congress, quite frankly, are now reversing course. Some are falling all over themselves to jump on the bandwagon and support this legislation. They have done it after hearing from an outraged public. And that is good.

Tomorrow I will be eager to hear what the President has to say in New York. I hope that he does not say we are going to have to enforce the law that we have, because the law we have has not been enforced, especially by the people who surround this President and his administration.

For him to go to New York and say we need to enforce the law more strongly will not do the trick. He needs to jump on the bandwagon with this legislation. We need additional legislation.

The President ran a campaign based on themes such as responsibility and accountability, but recent news reports suggest that both have been lacking in his explanations of his past dealings in the business world.

Prior to holding public office, our President has parlayed his connections as a member of a wealthy and powerful family to arrange a number of, some would call, sweetheart deals. In editorials they have been referred to that way for the past several days. Despite a string of business failures, our President always seemed to land on his feet and seemed to profit.

Now there are disturbing indicators that he has played fast and loose with some of the rules that he is now being asked, through his administration, to enforce. When asked about his business dealings, the President has not accepted personal responsibility, instead shifting blame to accountants and lawyers or implying that he was just doing business as usual.

I would have to say there are questions not only about the Harken business dealings but about the business and accounting practices of Halliburton, where Vice President CHENEY enriched himself, walking away with tens of millions of dollars.

So the problems we have heard go far beyond Enron and the President's friend, as he referred to him, "Kenny boy," Kenny Lay. They are not limited to the handful of companies getting most of the media coverage in recent weeks. Instead, there are fundamental and systematic problems that have to be corrected. That is what this legislation is all about.

I applaud the chairman and the committee for reporting out this bipartisan legislation.

I hope, I repeat, that the President will join in supporting this legislation.

We need to make sure that those who serve as corporate executives and on boards accept the responsibility of their roles when they sign their name on a financial report. The American people need to be able to trust corporate leaders.

Likewise, the President, and those in his administration who came to office from the corporate world, need to show more transparency in letting the American people know how they are making policy decisions, who has access to them, who is influencing them, who is meeting with them.

I joined in an amicus brief with the General Accounting Office to have the Vice President disclose who he met with to come up with energy policy that this administration enumerated. We need to know with whom he met, when he met with them, and why he met with them. They refused to give us that information. That is why I joined in that litigation.

This administration must set aside what I believe and agree with some—again, it is replete in the editorials of the last few days—is their arrogance and secrecy and instead be open and forthcoming public servants.

This legislation is timely. The Banking Committee jumped right on it. Most of us thought the Enron thing was something that was a rare dealing in corporate America. We have come to find out it is not a rare dealing in corporate America. It has happened since then time and time again. We have only seen the beginning of it, I am sure.

The Banking Committee is to be applauded for moving this legislation forward on a bipartisan basis. By a vote of 17 to 4, it was reported out of committee. I would hope we can get this bill out of the Senate as quickly as possible. It is good legislation. It is legislation that the American people need to reestablish confidence in corporate America and those people they rely on so that they feel better about having their pensions supplemented with investments made in the stock market.

The stock market is an indication, as far as I am concerned, of how people feel about what is going on in business. As we know from recent days, people have not felt very good about it. We have had tremendous losses. I heard the chairman of the committee, Senator SARBANES, speak about the Nasdaq losing some 74 percent of its value. That is a significant loss to our country.

I know the Members of the Senate understand the importance of this legislation. I hope that they understand why it is important to move it as quickly as possible. We have a few short weeks to complete lots of extremely important legislation prior to the August recess. As I have said on four separate occasions, this legislation is as important as anything we could do, and it is very timely.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Mr. President, let me begin my remarks by commending the distinguished chairman of the Banking Committee. I have said on other occasions and in other places that for students of the Congress who wish to find a good example of how to prepare a committee and ultimately the Chamber for a moment such as this, a good model to use would be the hearings conducted by the chairman of the committee on this very question.

There were 10 hearings—there may have been more, certainly 10 full hearings—to which were invited virtually everyone from across the spectrum on this question. This was hardly a set of hearings where we heard from one side. We literally invited the best experts in the country; they came and shared with us their views and thoughts on what sort of steps we should be taking to reform the accounting profession, to reform the rules affecting the accounting profession.

I begin by extending my compliments to the chairman and his staff for the tremendous job done to lay the groundwork. Oftentimes we will see, particularly in light of a crisis that occurs, there is a rush to judgment. We will come very quickly to the floor with a sort of a cut-and-paste job with the legislation. I am not suggesting intentions are not good, but that is oftentimes how we react.

This set of hearings did, very deliberately, with a great deal of patience and thought, lay out the foundation for the legislation now before the Senate.

Certainly, while there will be ideas offered to improve the legislation, we think the committee has produced a very fine product. The best evidence of that is the fact that 17 of us in the committee found this proposal to be worthy of our support. There were four dissenters. I think even among dissenters, there was a sense that we were heading in the right direction. Some may have fundamentally disagreed, but if there were one in the four, I don't know which one it would have been. Most thought we were doing the right thing, either that we went a little too far or didn't go far enough possibly, but this is a very balanced approach.

I urge our colleagues to be careful of two potential actions in the coming days. One would be to dilute this product in some way. We are not suggesting we have written perfection here, but we think this is a well-balanced proposal.

Senator SARBANES has worked closely with our colleague from Wyoming, Senator ENZI, who is the only Member of this body who is actually a former member of the accounting profession. He brings a wealth of personal knowledge and awareness to the issue. He worked very closely with him and other members of the minority, as well as with those of us on the majority side, to finally bring this product to the Chamber. It already has involved some compromise.

At this hour, when investor confidence is going to be absolutely crit-

ical and the steps that we take and the language we use will in no small measure contribute to the restoration of confidence, it can just as easily do the opposite, if we are not careful. This is a critical moment in the economic history of our country.

The steps taken by those who are in significant positions to affect the outcome of the course we are on are going to be critically important.

The second caution I express is that we don't try to also overburden this bill to say that this is the only opportunity for us to deal with every other issue affecting corporate business life in America. I am not suggesting the ideas Members will want to bring to the table are bad. But we can so load down a good bill that we can sink this effort if we are not careful. I urge my colleagues as well to be restrained in the temptation to bring up every other idea and incorporate it as part of an accounting reform proposal. Those are the two cautionary notes I have.

Let me also add my voice to those who have expressed theirs earlier today. Tomorrow I know the President of the United States is going to give a very important speech on Wall Street in New York, the financial capital of our country. I commend him for doing so. I think it is extremely important that he actually go to Wall Street to share his views.

My hope would be that this evening, as he makes the final preparations for his remarks, he would come out four square and endorse this proposal that we have brought out of our committee by a vote of 17 to 4. I can't think of anything more the President could do in the next 24 hours, aside from the rhetoric he will offer, than to endorse this bill and to say this was a good effort and to talk about the laborious hearings we have held to learn exactly what was necessary to incorporate in this legislation.

Lastly, I would hope we would get this bill done fairly soon and not let this go on too long. We would love to be able to not only finish our work here but to go to conference with the House, which has another proposal. It is a weaker proposal, in my view, but nonetheless we will have to work with them to resolve our differences and to send a bill to the President for his signature.

I would hope that before we leave for our August break less than 3 weeks from today we would actually be able to give to the President a bill for his signature and not let it drag on over into September and October. It is important we act in a timely fashion.

With those background thoughts, I would like to share some general comments about the bill itself. The importance of this issue cannot be overstated. Anyone who has read a paper or turned on the news or flipped on their computer is aware of the crisis in our financial markets and, in fact, beyond that, in our Nation. No rule or regulation is enough to address this fundamental problem.

The issue causing all of this turmoil is about the simple word of "trust." The question that the world is asking is not whether our companies or corporations or the workers who toil in them or the products and services are competitive, but simply whether we are telling the truth. Are we telling the truth?

The reason people of the world so often have come here and invested their hard-earned resources is not because there is a better deal to be made financially speaking. It is because there is a sense that our structures are sound, transparent, and they are fair. You may end up losing your investment; you may make money on your investment. That is always a risk when you make a financial investment. But the one thing you could always say about the United States, as opposed to almost any other place around the globe, is that when you come to America and invest your money, there is a sense of fairness and trust and soundness to our financial institutions and the structures that we created to protect them.

That trust has been fractured by the events that have occurred over the last 9 months. And it continues to be fractured with daily reports. So it is vitally important that we respond in an appropriate and thoughtful manner as the Congress of the United States. We have done so, in my view, with the proposal the chairman has brought to our attention. The very integrity of our markets is being questioned, and the Congress must respond cautiously, prudently, and also expeditiously.

Enron's collapse in December was, of course, an enormous shock to all of us. Seven or eight months later, we have seen that Enron was not an isolated incident. There have been a whole host of corporate accounting scandals and collapses—names such as WorldCom, Global Crossing, Tyco, Adelphia, the list goes on and on. I fear, as my colleagues do, that the latest corporate accounting scandal with WorldCom will not be the last. I hope it will be, but my fear is it will not be.

The Congress should address the critical issue of accounting reforms as quickly as we can. America's financial engine does not need a tuneup, it needs an overhaul. We must disassemble it in some ways, examine every nut, bolt, and working part, and reassemble it to reflect the days in which we live.

The fact is, if we fail to act on serious reforms, America will see a continuation of the dangerous and discredited corporate accounting practices that have, in the past 7 months alone, cost American shareholders and workers billions of dollars in their savings and pensions. This has deeply shaken investor confidence, and that serves as a cornerstone of our economic system.

It is important to note that in the dozens of hearings surrounding Enron's collapse, no committee has engaged in a more nonpartisan examination, focused not just on what went wrong

with Enron but, far more important, what Congress can do to prevent future Enrons from occurring in the days ahead.

On March 8 of this year, Senator JON CORZINE and I introduced legislation, S. 2004, that addressed what we thought were some of the tough issues on improving regulatory oversight of the accounting profession and restoring investor confidence. I worked closely with the chairman, as did Senator CORZINE, to incorporate some of the language and spirit of S. 2004 in the legislation before us today.

I thank the chairman for including in the product before us much of what we wrote in S. 2004. I thank his staff, and I also thank my colleague from Wyoming.

Congress must act quickly. If nothing else, we must address the most prominent cause of the recent corporate scandals, the practices inherent and common to the accounting profession, and particularly the ability to audit a company's books while simultaneously providing other services to that same corporation. We saw this with Enron and Andersen. Now we see it with WorldCom and the pending investigations that have greatly contributed to the public's loss of confidence in our financial marketplace.

Since the beginning of the year, while our economy has been rebounding from last year's economic downturn and most economic indicators point to a bull market, the Nasdaq is down more than 20 percent, the Dow is down more than 3 percent, and trading volume has declined. One reason may be investor skepticism that companies are not as financially healthy as they have said they were. More restatements on corporate earnings have been filed in the past 7 months than in the last 10 years combined. Most of these restatements dramatically downgrade the financial health of the companies in question.

Not surprisingly, the public is quickly losing trust in disclosed corporate financial information. Although the investing public may be reacting to the bad behavior of a few, the possibility of conflicts of interest between accounting firms and the companies they audit creates a perception that this aggressive accounting is commonplace, even when it may not be. This perception, which takes on its own sense of reality, has led to a very dangerous, least-common-denominator thinking in which the estimated worth of all public companies may become undervalued because some are proven to be seriously overvalued.

The fact is, a few key reforms included in this bill can go a very long way toward shoring up the public's confidence in the integrity of America's financial marketplace.

Most importantly, to enhance auditor independence, the legislation restricts the ability of accounting firms to audit a company's books while simultaneously providing other services.

It also addresses the revolving door through which executives from one firm leave to work for the companies they audit.

This reform legislation includes the creation of an independent body to oversee the accounting profession, with substantial authority to ensure auditor discipline and improve audit quality. The Securities and Exchange Commission will also be given the resources to hire more accounting "cops" to handle increasingly complex oversight responsibilities and improve the agency's investigative and disciplinary capabilities. The Government must be able to assure the public that audits meet the high standards of independence and objectivity that have been the hallmark of America's accounting profession.

The accounting profession is a great profession. There are thousands of highly qualified, talented, ethical people in the accounting profession. I feel for them at this hour. Because of the malfeasance and fraud committed by some, the many who work in this profession feel tainted by it. I regret that. The best way I know to recover the confidence people have in this profession is to provide some regulatory framework that would allow for auditor independence and for professionalism to be restored at a time when it has been so badly damaged.

Investors are depending upon us to act on this issue and set aside partisan conflicts. As I said, we should not dilute this legislation and make it far less important, less meaningful, or overburden it by trying to add too much to the bill. It is not an easy path to walk down. I urge my colleagues to listen to those of us who worked on this bill, particularly the chairman, as we try to balance the particular needs of our members and the desire to come up with a good, competent, bipartisan piece of legislation. This is not an easy path to walk down, but it is critically important if we are going to contribute to the restoration of investor confidence as part of our responsibilities as members of this historic Chamber.

The purpose of the original securities laws of the 1930s was to increase public trust in America's financial markets, the reliability of disclosed corporate financial information. The resulting openness and accuracy of corporate disclosures to the investing public paved the very way for America's rise as the unrivaled economic superpower that we had achieved. The collapses of Enron, WorldCom, and other corporations, and the accounting scandals have ended any question about whether these laws need reexamination. They do. We know that reforms are mostly needed to protect and strengthen the public trust in America's financial markets, and the time to enact them is now. I am confident and hopeful that we will do just that in the ensuing days.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland is recognized.

Mr. SARBANES. Mr. President, I thank the very able Senator from Connecticut for his kind remarks about our work together on the committee as we tried to move this legislation forward. I particularly want to underscore the very substantial and significant contribution that the Senator from Connecticut and his colleague from New Jersey, Senator CORZINE, made when they came forward fairly early on in the process with S. 2004.

Much of that legislation is included in this legislation, and it was a seminal contribution early on in our consideration and it helped us to move ahead. I am grateful to him for that and for his efforts and support throughout this process as we have tried to move this legislation forward.

The Senator from Connecticut, of course, is a chairman of one of our subcommittees and has been enormously effective within the committee in his efforts on this legislation, and I appreciate that. I am very hopeful that we are going to get a good product at the end of the path—of course, we are not there yet—which the President will sign and which will make a substantial difference.

It is a tragedy, in a sense. The founder of the accounting firm Arthur Andersen was a man of great rectitude and very high principles. He had the slogan “think straight and talk straight” to guide him.

His successor, Leonard Spacek, also was a man of very high principle. For that company with those origins, in that tradition, to in effect have happen what has happened to it is a tragedy, there is no question about it.

We are anxious to reassure accountants all across the country that we think this legislation will help bring the profession back to the standards that marked it at an earlier time and which standards more thoughtful and more responsible members hope will mark it once again.

The point the Senator from Connecticut made in that regard is an interesting and important one.

Mr. DODD. I thank the chairman.

Mr. SARBANES. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. DODD). Without objection, it is so ordered. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I begin by saying the Senator from Maryland has done this Senate and this country a great service, along with his colleagues, including the Presiding Officer, by writing legislation that addresses a critically important topic at a very important time in this country.

As much as I appreciate the work done on this bill, I would still like to speak about a few ways in which we

can strengthen it. I listened with some attention in the last hour or so as I presided in the Senate to the suggestion that we ought not change it much. I do not disagree with that assessment, but we ought to change it some, in my judgment. There are some areas we can strengthen, and I hope we can strengthen this legislation and send it on to the President and have the expectation the President will sign it.

This Chamber has long been the site of debates about excesses and abuses, especially in America's poverty programs. We have heard over a couple of decades, and appropriately so, anecdotal stories about the Cadillac welfare queen who spends food stamp money to buy cigarettes. Congress has clamped down on all of that and said: Shame on you, you cannot do that, that is abusing the public trust. And it is. So we have taken aggressive action as we have seen these abuses.

Today this discussion is not about the abuse of the poverty program or the abuse at the bottom, this is about fraud in the boardroom; it is about abuse at the top. It is important for all of us to understand that accountability and responsibility do not just apply to poor people in this country, accountability and responsibility apply to everyone, and that includes the people at the top of the corporate structure.

I wish to talk about fraud in the boardroom, about deceiving investors, about cooking the books, about accounting firms that cannot account, about law firms that turn a blind eye. I wish to talk about the situations the country has seen in recent weeks and months that we have not seen for many decades in this country.

The victims, of course, are the people in this country who have invested in stocks, who believed in the certification of financial statements by some of the biggest accounting firms in the country that these were good corporations, that they had good income, that they were moving in the right direction, taking steps so that the funds in corporations were accounted for properly. And now we discover that was not necessarily the case in all too many instances.

Of course, there are a lot of wonderful corporations in this country, wonderful companies with terrific top executive officers who do the right thing, always do the right thing. Yes, they take some risks, but they do it in anticipation of gain for the stockholders. We ought not tarnish with the same brush all American corporations, but we ought to determine what is happening within some of these corporations that has caused the collapse and the devastation of a lifetime of savings for many Americans.

Let me use Enron as an example. We spent a fair amount of time with Enron hearings in the Commerce Committee. We had top executives of that company who had been cashing out prior to Enron going bankrupt. I have a chart that shows the way in which the top

management of Enron made fortunes on the sale of Enron stock, from 1998 to the present, at the same time that they were driving their company into the ground.

Contrast this with a call I received from a fellow in North Dakota one day who said: I worked for Enron for a good number of years. I had a retirement plan, and all my retirement plan was in Enron stock. Mr. Lay and others repeatedly encouraged us to do that. My retirement plan was in Enron stock. It was worth \$330,000. Now it is worth \$1,700. He said: That is what happened to my life savings—\$330,000 to \$1,700.

What happened to the folks at the top of the ladder in Enron? Mr. Lay, the chairman of Enron, from 1998 to the present, sold \$101 million worth of stock. That is what he received. Mr. Rice, \$72.7 million; Mr. Skilling, \$66.9 million; Mr. Fastow, \$30 million.

Mr. Fastow was able to have an equity role in the special purpose entities, the off-the-books partnerships, and in one of them he actually invested \$25,000 of his own money. He invested \$25,000, and 2 months later paid himself \$4.5 million. I do not know anybody who gets returns like that anywhere in America, except by cheating.

In the year 2001 in American corporations, the average pay for top CEOs increased by 7 percent, despite falling profits and stock values. Is there a relationship at the top between people who run the companies and the performance of the companies themselves? It does not look like it, does it?

In 1981, the average executive compensation of the top 10 highest paid CEOs was \$3.5 million. In the year 2001, the average was \$155 million. So we can see what has happened in this country at the top in the boardroom.

Let's look at the number of times that CEO pay exceeds average worker pay: In 1980, they made 42 times the pay of the average worker in the company. In 1990, they made 85 times the pay of the average worker in the company. But in the year 2000, it was 531 times. So forty-two-fold to five hundred and thirty-one-fold. That is what has happened to executive compensation at the top of the corporate ladder.

We have seen story after story about what is happening in some of the boardrooms. There are a lot of wonderful companies, and I do not think this ought to tarnish all American corporations, but we ought to be very concerned about what is happening inside some publicly traded corporations and why the safeguards have not been able to provide early warning to investors and others.

Adelphia: The drop in their stock value is 99 percent. The question is whether it failed to properly disclose \$3.1 billion in loans and guarantees to the family of the founder.

Dynegy: Whether the Project Alpha transactions served primarily to cut taxes and artificially increase cashflow, 67 percent of their value lost.

Enron lost 99.8 percent of its value. In fact, as I have mentioned before, the

Enron board of directors commissioned a report called the Powers Report which looked at only three partnerships, and they described what was happening inside this company was "appalling." The board of directors of the company itself said what was happening inside the company was appalling. They said that in one year they reported \$1 billion of income they did not have.

Global Crossing: Whether it sold its telecom capacity in a way that artificially boosted 2001 cash revenue, 99.8 percent loss in value.

Halliburton: Whether it improperly recorded revenue from cost overruns on big construction jobs.

The list, of course, goes on.

Qwest: Whether it inflated revenue for 2000 and 2001 through capacity swaps and equipment sales.

On the weekend talk shows, I heard a panel discussion about this, and one of the panelists who is kind of an academician said the market is just adjusting. That is an antiseptic way, by an economist I suppose, to ignore the fact that families are losing their life savings.

Sure, the market is adjusting, but it means families are losing everything they have. It means investors with 401(k)s see that 401(k) shrink so their life savings are disappearing right before their eyes.

The question with all of these issues is: What has changed? Why, with big accounting firms taking a look at what is going on—and today there is a hearing on WorldCom in the House of Representatives—why, with big accounting firms looking over their shoulder, has this sort of thing occurred?

With Arthur Andersen and Enron, they had a \$25 million relationship by which Arthur Andersen audited the Enron Corporation, and Arthur Andersen was also paid \$27 million by the Enron Corporation for consulting services. That is one of the things that is at the root of this bill: Is that not a clear conflict of interest? Is there not enormous pressure on the accounting firm then to become an enabler for that corporation? The answer clearly is yes, and that is why this legislation takes action to deal with some of those issues.

I was driving in the car over the weekend in North Dakota and saw that the Xerox Corporation had a substantial restatement of earnings. It indicated that the SEC had previously taken a look at it and fined Xerox \$10 million, which seems to me like pretty much a slap on the wrist when you consider the billions of dollars involved in the restatement. Then we hear this big story this weekend about yet another restatement. So what we have is a restatement, and then a restatement of the restatement of earnings.

What is the cause of all of this, and what is enabling it? With Enron, for example, it was an accounting firm that became an enabler; it was a law firm that became an enabler; it was CEOs

who became greedy, officers of the corporation who did not pay much attention, who also, incidentally, were making a great deal of money selling stock, board members selling stock. It all became a carnival of greed.

I indicated, after having spent a lot of time looking at Enron, that there was a culture of corruption inside that corporation. The CEO of Enron took great exception to that, but it is clear every passing day, with more and more evidence of what happened inside that company, that there was in fact a culture of corruption.

How do we respond to that, and how do we deal with that? I think that, first of all, the rules have to be changed some, and that is what this legislation attempts to do. Second, even if there are changes in the rules, there must be an effective referee, a regulator. In this system of ours, we have to have effective regulation. And frankly, that has been lacking.

Mr. Pitt, who is the head of the SEC, I know has taken great exception to statements that have been made by my colleagues and myself. But the fact is that a system like this cannot work unless there is effective oversight and regulation, and that has been lacking.

Consider some of the statements that Mr. Pitt has made. This is Mr. Pitt speaking at the AICPA, which represents the accounting industry:

For the past two decades, I have been privileged to represent this fine organization and each of the big five accounting firms that are among its members. Somewhere along the way, accountants became afraid to talk to the SEC. Those days are ended.

That was to the American Institute of Certified Public Accountants.

Then Mr. Pitt, who is, again, the head of the SEC, said:

The agency I am privileged to lead has not, of late, always been a kinder and gentler place for accountants; and the audit profession, in turn, has not always had nice things to say about it.

So Mr. Pitt was concerned about ensuring a "kinder and gentler" SEC.

The New York Times did a story as a result of the initial speeches Mr. Pitt gave when coming to the SEC. It noted that Pitt "spoke favorably of pro forma earnings reports in ways that no doubt heartened accountants who have worked so hard to find ways to make even the worst profit figures look pretty."

It also noted that "A major embarrassment for accountants is having the SEC force a client to restate its numbers. Mr. Pitt and his chief accountant, Robert Herdman, are sending signals that fewer such demands will be made."

We can change the law, but if we do not have a tough, no-nonsense regulator, then it will not work.

We all watch basketball games, and we see referees. They are the ones who enforce the rules in basketball. We see a game from time to time where it is quite clear right at the start the referees are not going to call them close,

and then pretty much it is "Katy bar the door," and things get out of hand. Then we see other games in which it is quite clear they are going to call up close, and nothing gets out of hand. The same is true with the attitude and mindset of Federal regulators. We have regulatory agencies for a purpose. That purpose is to enforce the rules. Fairly, yes, but also aggressively.

If someone who comes from that industry and says, I represented all of you, and suggests it will be a kinder and gentler place, I wonder whether that is the regulator we ought to have.

No matter who is heading the SEC, I want that person to be a fierce advocate on behalf of the rules that protect investors. I want someone that can make this system work and require everyone to own up to their responsibilities. So people who never enter a corporate office or know nothing about a corporation but who want to invest in American business, can buy a share of stock, having never met an officer of the company, having never visited the company, and can have confidence that what the accounting firm has said about that company, what the financial statements represent about that company, are absolutely fair and accurate.

That is the only way in which the American people can participate in the raising of capital for America's business. If we do not do that and do that quickly, we undermine the entire system by which we raise capital in this country. We undermine the entire system. That is why this piece of legislation is important and timely.

There are several amendments I would like to have considered, some I hope will be accepted, and some, perhaps, we will discuss at some length, and I may or may not prevail. There are some amendments that can strengthen and improve this legislation.

One of the provisions in the legislation calls for CEOs to return profits and bonuses they wrongfully reaped in the 12 months following a published earnings report that require a restatement. I would propose that this provision apply when a company goes bankrupt, as well. This idea has been endorsed by former SEC Chairman Richard Breeden, Goldman Sachs CEO Henry Paulson, and others.

There also ought to be some provision with respect to loans to CEOs by corporate boards of directors. I don't know what that limit ought to be, but I mentioned one corporation where over \$3 billion was loaned to one family of the founder. This is a publicly traded corporation. I believe we ought to discuss that.

I may offer a provision dealing with something called inversion, a mechanism whereby some American corporations have decided they want to renounce their American citizenship and move their official headquarters to another country—Bermuda, for example. I want to be certain that CEOs of such

companies cannot escape the requirement of this bill that they certify the accuracy of their financial statements. I do not think that, in addition to avoiding their fair share of U.S. taxes, these companies ought to be held to a lesser standard of reporting accuracy than U.S.-based firms. So I will offer an amendment, if needed, and visit with the chairman and the ranking member about that subject.

Another issue, one requiring disciplinary proceedings to be open to the public was discussed in committee. Transparency and having those hearings open to the public are important. I hope we can consider an amendment on that.

The other issue that was discussed in the committee at great length: What is the definition of the division of responsibilities between auditing and consulting? That definition, determined by the SEC or the Congress, is critical to determining whether there is a conflict.

Having said all that, let me say to the Senator from Maryland, we are in the Senate the first week after the Fourth of July. I listened to the Senators from Texas and Wyoming and Connecticut and others speak about this bill. This is a good start. If this legislation passed without one word changed, it would make a magnificent contribution to a problem we face, a gripping problem in this country.

Having said that, I do not subscribe to those on the committee who say not to change anything. That is not what the chairman said. There are some suggestions that will come from other parts of the Senate that can strengthen and improve this legislation, a couple of which I suggested. When it goes to conference with the House, we will have something we can be proud of.

The most important thing is to show to the investors in this country who have lost, in many cases, their life savings, that we are taking action to respond to the conditions that caused this to happen.

When we talk about the people at the top getting rich and the people at the bottom losing their life savings, the American people have every right to ask: By whose authority can this happen in this kind of economy? It cannot happen if the rules are fair. It cannot happen if the rules are enforced.

The American people have a right to expect the regulators, the SEC, and the Congress to take action now to address these issues.

I yield the floor.

The PRESIDING OFFICER (Mr. WELLSTONE). The Senator from Missouri is recognized.

Mr. BOND. Mr. President, I initially came to the floor to talk about this bill and another issue. The Water and Power Subcommittee of the Energy and Natural Resources Committee is holding a hearing on Wednesday, and I asked to testify about the views of Missouri on the Missouri River issue. Initially, the staff said I was not going to

be able to testify, and I was going to therefore have to share my testimony with the entire body. However, I have now been advised by the chairman of the committee I will have an opportunity to testify, so I will save my comments for the committee hearing.

I thank the chairman for giving me that opportunity.

Mr. DORGAN. Will the Senator yield?

Mr. BOND. I am happy to yield.

Mr. DORGAN. Let me explain to the Senator what my hope was. The Senator asked to testify, quite properly. The Missouri River manual issue is a highly controversial issue. The Senator has been involved with it for some long while. We are having a hearings. The Corps of Engineers and many others are testifying. My hope had been we could hold a hearing with all of those groups, then have a separate meeting, hearing from all Members of Congress who want to testify. It appears that that will not be the case.

We will hear from Senators at the front end of that hearing. I assume it will take some time. As the Senator from Missouri knows, having indicated, yes, we would entertain his testimony, there are a number of other Senators who have already gotten in line saying, if that is the case, please hear my statement, as well. Of course we will.

It was never a case where we would not hear testimony. The question was whether we would have a separate hearing and hear Members of the Senate. I understand the Senator's concern. Senators DASCHLE, JOHNSON, CONRAD, CARNAHAN, and many, many other Senators have great concerns about this issue.

I will lose some sleep Tuesday night with great anticipation hearing your testimony on Wednesday morning.

Mr. BOND. I thank my good friend from North Dakota and assure him I hope to be brief and to the point. I am somewhat disappointed I will not share all that testimony with my colleagues, but there will be another opportunity.

I thank the chairman of the subcommittee for his kind indulgence.

Today I rise to join in expressing my concern about recent accounting practices in publicly held companies and their auditors. As a former State auditor, I have an interest in that profession being performed properly. Obviously, something is seriously broken. We hear about Enron, Global Crossing, WorldCom, and Arthur Andersen. The people of America are very concerned. We have seen millions of families with their investments diminished or even wiped out. That is not acceptable. The vast majority of investments were not in the volatile sectors, or not what we thought were the volatile sectors of the stock market. They were invested in the so-called blue chip companies. The families who made those investments on their strong belief in the integrity of our financial markets and accounting industry now find that because of corporate shams, accounting gim-

micks, and inadequate auditing, they have lost significantly the investments they planned for education or retirement—for their families.

As far as we know, overall the overwhelming majority of publicly traded companies are in full compliance with corporate accounting standards. But the fact that there has been a significant deception by a handful of companies raises suspicions of all companies. In addition, we don't know how many others will come forward in coming weeks.

We must restore the public's confidence in the market. Without this, the economic recovery which should be beginning will remain elusive.

While much of the focus in the debate here and in the news media is on the auditing problems of the big conglomerate companies, unfortunately little attention has been paid in this bill to how the impact will fall on small publicly traded companies and small auditing firms. As the ranking member on the Committee on Small Business and Entrepreneurship, I have some concerns, after reviewing this bill, that we may be pushing ahead without considering the serious effect and the unintended consequences the bill could have on smaller firms—both small auditing firms and small publicly traded companies.

The bill is clearly targeted towards abuses in extremely large businesses, which we all think should be dealt with. I personally hope it will result in prison sentences for people who are proven to have committed criminal acts in their accounting activities.

But the SEC is not even aware of how many small auditing firms there are auditing small, publicly traded companies. There are some 2,500 small companies, and we believe many of them are audited by small- and medium-size auditing firms. For small auditors, the bill will require many new elements including registration, annual filing requirements, as well as partnership rotation of lead auditors. In addition, the bill would codify a list of banned services or nonauditing services that an auditing company might conduct for a company that it audits.

While some of these elements clearly are necessary to restore confidence, and I think are going to be dealt with by regulatory action and maybe even by the industry itself, no one knows how these requirements will affect the small firms. It has been argued that the bill allows for a case-by-case exemption, but that exemption process itself could be extremely costly and untimely for small firms and lead to inconsistent results.

I fear that some of these small auditing firms will not have the resources to implement these requirements and will stop auditing services or just go out of business. The result may be that small, publicly traded companies may not be able to obtain auditing services at reasonable cost. As a result, the bill might be setting up a hurdle for small companies to reach the public markets, one

that is too expensive and too great to overcome.

Clearly, when we deal with the major problems we ought not cause significant problems for the smaller, growing entrepreneurial sector of our country.

As for publicly traded companies, the bill also places new requirements for auditing committees and for corporate responsibility. Again, many of these may be necessary. However, we need to look at how these requirements will affect the small, publicly traded companies.

The entrepreneurial spirit of our country is really the envy of the world. People know that entrepreneurship works in America. That is where we get the new ideas. That is where we get the growth. That is where we get the new services and the products. We should be careful as we adopt reforms not to put a disproportionate burden on these companies, dampening the entrepreneurial spirit or impeding access to the public markets.

I fully support accounting reform and the taking of steps necessary to restore investor confidence in the market. I think we should pass a balanced bill that will not overburden small firms and not create additional hurdles that will impede them from growing. We don't want an incidental consequence of this bill to be a monopoly of large accounting firms when it comes to corporate audits.

I agree with the other speakers that the American public is looking to us for answers. I intend to work to see that the needs of the small businesses, publicly traded small companies, and small auditing firms are protected. I am committed, and I think we all are committed, to restoring the public's confidence in the markets so families can feel safe once again in investing in America and in America's future.

I look forward to working with my colleagues to secure a balanced bill which will do that without bringing unnecessary hardship on the entrepreneurial sector of our economy.

I thank my colleague from Wyoming for the courtesy in allowing me to go ahead. I yield the floor.

Mr. ENZI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, during the course of the Fourth of July recess, I traveled through Pennsylvania holding some 16 town meetings, and I found many concerns among my constituents: The issue of prescription drugs; the concern about what is happening with respect to Iraq; the issue of terrorism, which confronts the United States; the concern about what might happen on July 4; concern about the suicide bombers from the Palestinians terrorizing Israel.

But high on the list of public concern was what has happened with Enron, WorldCom, and many other companies

on the stock exchange, where so many of my constituents in Pennsylvania—like tens of millions of Americans, really, and even more—have had their savings decimated in their retirement accounts of a variety of sorts. The issue that was raised consistently was: What happens next?

I think it is very good that the Senate is now considering legislation to deal with the fraudulent conduct that has plagued so many companies in corporate America. There is no doubt that there is a clear-cut conflict of interest for an accounting firm to be both an adviser and an auditor. An adviser has a close relationship with a company—call it cozy, or intimate, or friendly—but that is very different from the function of an auditor, which ought to be at arm's length, scrutinizing what the company has done. That kind of a conflict should certainly be prohibited in the future. If the accounting firms do not have enough understanding of the ethics, then laws have to be enacted, with very tough penalties to follow. When you find companies having so much debt off the books, subsidiary corporations, that is a matter of fraud. Fraud is a misrepresentation of a fact where someone relies to their detriment, and that is a crime. When you have companies putting expenses in, say, a capital account that shows billions of dollars in additional income or assets of the corporation, that too is fraud.

A good part of my career has been as an assistant DA and then as district attorney. I believe this kind of white-collar crime is certainly susceptible of deterrence, providing that standards are established and penalties are provided for a breach. It is my hope that from the Senate's current consideration, some very tough legislation will follow.

(Mr. DAYTON assumed the Chair.)

LOW MEDICARE REIMBURSEMENTS

Mr. SPECTER. Mr. President, for a considerable period of time, there have been a number of counties in Pennsylvania that have been suffering from low Medicare reimbursements, which have caused them great disadvantage because their nurses, their medical personnel, are moving to surrounding areas. I refer specifically to Luzerne County, Lackawanna County, Wyoming County, Lycoming County, Mercer County, and Columbia County in northeastern Pennsylvania. Those counties are surrounded by MSAs—metropolitan statistical areas—in Newport, New York, to the north; in Allentown to the southeast; and to the Harrisburg MSA to the southwest.

When these counties are so surrounded by—and a similar situation exists in Mercer County, which has higher rates in immediately adjacent areas—there has been a flight of very necessary medical personnel. Last year, in the conference on the appropriations bill covering the Depart-

ments of Labor, Health and Human Services, and Education, the conferees were in agreement that there should be relief for these areas in Pennsylvania that were surrounded by areas that had higher MSA ratings. At the last minute, word came from the chairman of the Appropriations Committee that there would be an objection to including language in our conference report because it was not included in either bill—in the House or in the Senate. That does make it subject to a point of order, so we had a discussion. I went to the office of the chairman of the Appropriations Committee, Senator BYRD, and did my best to persuade him to make an exception in this case because of the extraordinary hardship. Senator BYRD, understandably, declined.

We then talked about bringing the matter forward in the supplemental appropriations bill. I thought it highly likely that, given the immediate history, we could accomplish this accommodation, this correction, in this appropriations bill. The House of Representatives came forward, and the House leadership on the Ways and Means Committee and the House leadership generally agreed with Congressman SHERWOOD, who represents these counties in northeastern Pennsylvania in the House of Representatives, and also Congressman PHIL ENGLISH, who represents Mercer County, that these were indeed meritorious—not that there were not other counties that had similar problems, but these counties were meritorious and should have a change in the MSA.

When the matter reached the Senate floor and I filed an amendment to have a similar result, there was resistance because, after all, it was in the House bill and it could be taken up in conference. It is custom on a matter that a colloquy was entered into between Senator BYRD and myself, and Senator BYRD said he would give every consideration to it in the conference.

It is true that there are other places in the United States that have problems, but I believe none is so pressing as what is occurring in these counties in Pennsylvania, as is evidenced by the fact that the leadership in the House of Representatives—as I say, the Ways and Means Committee chairman and the leadership of the House—agreed to these changes.

A week ago today, on July 1, I visited in Wilkes-Barre, PA, at the Gossinger Clinic, with representatives of the hospitals and went over with them the situation that had occurred and asked that they submit memoranda, which showed the extreme plight, which I could then share with my colleagues in the Senate, which I am now doing, and it will be in the CONGRESSIONAL RECORD for everyone to see.

A memorandum prepared by Bernard C. Rudegear of the Greater Hazleton Health Alliance pointed out the following:

With competing institutions located within a 30- to 60-minute drive from our front

doors—and able to pay up to \$4 per hour more to attract staff—the Greater Hazleton Health Alliance has experienced an outmigration of clinical staff to those areas.

In the last 18 months, 52 employees—including registered nurses, licensed practical nurses, pharmacists, radiology technologists and physical therapists—have resigned.

Then he goes on to say:

Nearly three-quarters of our inpatient population are Medicare recipients. It is often difficult for them to find reliable transportation to out-of-town healthcare facilities.

So they are serviced at Greater Hazleton causing these hardships and losses.

The senior vice president of operations at Geisinger Wyoming Valley Medical Center, Conrad W. Schintz, wrote on July 3 as follows:

There are 10 vacancies in the support departments, such as laboratory and radiology. A significant factor in these vacancies is the higher wages and benefits that are paid in the Philadelphia and New York metropolitan areas that are within a 2.5 hour drive from our hospital.

Similar concerns were noted by the Community Medical Health Care System of Scranton, PA, where Dr. C. Richard Hartman, president and CEO, wrote a detailed memorandum, a part of which is as follows:

Community Medical Center Healthcare System's exit interviews with employees indicate greater opportunities outside the MSA.

The hospital currently has 67 openings, 45 full-time-equivalent positions, and further noted the problems with retaining nurses there.

Similar concerns were expressed in a memorandum from Mr. William Roe, vice president of finance for the Moses Taylor Health Care System, pointing out that "while 30 percent of all hospitals in Pennsylvania had negative total margins for the 3-year period between 1999 to 2001, nine (9) of the thirteen (13) hospitals located in this MSA have had negative total margins."

Then the memorandum from Mr. Roe goes on to point out the difficulties which have occurred as a result of outmigration of medical personnel.

Similar comments were made by Vice President William J. Schoen of Allied Services from Clarks Summit who points out:

Pocono and Allentown area hospitals are recruiting [our] workers by offering more generous wage and benefit packages.

Of course, that is made possible by the higher reimbursement because the MSA area is different.

A similar note was offered by Mr. James E. May, president and chief executive officer of Mercy Health Partners who pointed out:

The Scranton/Wilkes-Barre/Hazleton MSA is surrounded by facilities with significantly higher Medicare reimbursements.

The balance of his memo, which I will ask be printed in the RECORD, details further the difficulties which his hospital system faces.

The Wyoming Valley Health Care System, in a letter dated July 5 from Dr. William Host and Mr. Michael

Scherneck, the president and chief executive officer and the senior vice president and chief financial officer point out the problems in retaining registered nurses because of the lower MSA which the Wyoming Valley Health Care System has.

CEO Robert Spinelli from Bloomsburg Hospital wrote to my executive director in Harrisburg, Andrew M. Wallace, dated July 3:

The current wage index rates have contributed to three years of deficit income, which has resulted in the inability to recruit qualified staff.

The Wayne Memorial Hospital, which is in the Newburgh, NY, area in a letter from director of finance, Michael J. Clifford, dated July 3 made the same point:

The increase in Medicare payments that would result from this change in MSA to Newburgh, New York, would mean approximately \$450,000 of additional Medicare reimbursement for Wayne Memorial.

Tyler Memorial Hospital in Tunkhannock, PA, sent a memorandum expressing the same basic point.

A similar letter has been submitted by the Marian Community Hospital by Chief Financial Officer Thomas L. Heron from Carbondale, PA.

Mr. President, I ask unanimous consent that these memoranda and letters all be printed in the RECORD following my statement.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. SPECTER. These letters set forth in some detail, Mr. President, which I will not take the time to read now, but the theme is the same. These are hospitals in great financial distress. These are hospitals which are serving an aging population in northeastern Pennsylvania. Similar circumstances exist in Mercer County. The way to correct this is to make the adjustment which is present in the House bill which can be accomplished by the Senate receding to the House position.

As I say, last year on our conference report, we had agreed among the conferees to make the adjustment, and then did not proceed in that way because there was a technical problem with the provision not having been included in either bill. But this year, the leadership of the House of Representatives has included these corrections for these areas, and now I call upon my colleagues on the Appropriations Committee to recede and I call upon my colleagues in the full Senate to approve a conference report which will include these very important corrections for these six counties in Pennsylvania which perform great service. But because of their being surrounded by other hospitals with MSAs, metropolitan statistical areas giving greater reimbursement, they cannot compete with nurses and other medical personnel.

I thank the Chair. I yield the floor.

EXHIBIT 1

POINTS FOR CONFERENCE COMMITTEE ON WAGE INDEX—BERNARD C. RUDEGEHR, GREATER HAZLETON HEALTH ALLIANCE

With competing institutions located within a 30- to 60-minute drive from our front doors—and able to pay up to \$4 per hour more to attract staff—GHHA has experienced an outmigration of clinical staff to those areas.

In the last 18 months, 52 employees—including registered nurses, licensed practical nurses, pharmacists, radiology technologists and physical therapists—have resigned. More than half of them cited the opportunity to earn higher wages at other hospitals as the reason for their departure.

And though our staff is mobile and may be willing to commute up to an hour for a more lucrative position, our patient base is not.

Nearly three-quarters of our inpatient population are Medicare recipients. It is often difficult for them to find reliable transportation to out-of-town healthcare facilities.

As of July 1st, our malpractice insurance increased nearly 50 percent. Staff continues to find opportunities elsewhere, driven by higher wages and attractive sign-on bonuses. We have been forced to adjust salaries to stay competitive. That has had a significant impact on our bottom line—a \$3.2 million loss in fiscal year 2000.

In this new age of domestic security awareness, our hospitals have become even more important fixtures in our communities. In the event of a tragedy or terrorist event (a nuclear power plant is located just miles away), our communities would look to our hospitals, not only as sources of emergency medical care, but as places of refuge, information and comfort.

Our elderly patients are the ones who need us most. Many of them toiled in the local coal mines and served our country in foreign wars. Their strong work ethic and love of country has often led to illness and injury that will plague them for the rest of their lives. This is a proud population that we are committed to caring for far into the future.

GEISINGER HEALTH SYSTEM,
Wilkes Barre, PA, July 8, 2002.

Senator ARLEN SPECTER,
Scranton, PA.

DEAR SENATOR SPECTER: Thank you very much for your continued work on the Metropolitan Statistical Area (MSA) Amendment Issue. This is a most important topic for the future well-being of hospitals in Northeastern Pennsylvania, including Geisinger Wyoming Valley Medical Center.

There are a number of ways in which Geisinger Wyoming Valley Medical Center is currently disadvantaged due to our region's rural designation for Medicare reimbursement.

Our area is losing a tremendous amount of health care professional talent to neighboring areas with urban classifications and higher wage and salary structures. RNs R Us advertised in the Wilkes-Barre last week specifically to transport nurses to both the Allentown and Philadelphia areas. Geisinger Wyoming Valley Medical Center recently lost one registered nurse to the Philadelphia area and two registered nurses to Sacred Heart Hospital in Bethlehem for better wages.

Despite our intensive recruitment efforts over the past 6-12 months, it is obvious that we cannot recruit nurses from the Allentown/Bethlehem area due to the higher wages offered in that area.

Geisinger Wyoming Valley Medical Center and other local hospitals have lost numerous nurses over the years to Philadelphia hospitals—where the nurses work two, 16 hours

weekend shifts, receive full time wages and full time benefits.

Geisinger Wyoming Valley experienced a 47% increase in insurance costs from the previous year (\$1.8 to \$2.7 million).

Uncompensated Care for fiscal year 2002 (annualized May) at Geisinger Wyoming Valley Medical Center is approximately \$2.4 million. This includes charity care, bad debt and community services.

Reclassification of the MSA would result in an approximately \$2 million Geisinger Wyoming Valley Medical Center. Such an improvement to our bottom line would allow us to further invest in providing excellent health care for the people of Northeastern Pennsylvania. Once again, thank you for your efforts on our behalf.

Sincerely,

CONRAD W. SCHINTZ,
Senior Vice President/Operations.

COMMUNITY MEDICAL CENTER
HEALTHCARE SYSTEM,
Scranton, PA, July 3, 2002.

Re Wage Index (Medicare), Scranton/Wilkes Barre/Hazleton MSA, Financial Condition of Hospitals.

Senator ARLEN SPECTER,
Hart Senate Office Building,
Washington, DC.

DEAR SENATOR SPECTER: I want to thank you for your commitment expressed July 1, 2002 and your efforts on behalf of the hospitals in the Scranton/Wilkes Barre/Hazleton MSA relative to rectifying the Medicare Wage Index issue. As requested, and knowing of your active interest and efforts in attempting to find solutions to restoring the financial viability to the hospitals of Northeastern Pennsylvania, I am writing to you on the issue and request your continued assistance and support. The events of September 11 and bioterrorism threat have reinforced the need to ensure that the healthcare delivery system's infrastructure of Northeastern Pennsylvania, by virtue of its location to multiple major metropolitan areas, remains intact.

Nationally, operating margins of hospitals continue to exceed that of Northeastern Pennsylvania. The Voluntary Hospital Association's (VHA) HBS International benchmarking system is reporting a 3.7% operating return nationally and a 2.6% Mid-Atlantic Region for 2001. Pennsylvania continues to be viewed negatively on Wall Street, thus placing access to capital in jeopardy. Moody's short term forecast cites risk and uncertainty arising from the sector.

Healthcare providers here in Northeastern Pennsylvania have not received adequate, fair reimbursement under the Medicare Program. Our facilities have been and continue to be penalized for managing the costs of delivering healthcare in light of this. The May 2002 release from the Pennsylvania Health Care Cost Containment Council's Annual Report on the Financial Health of Pennsylvania's Hospitals regarding the Fiscal Year 2001 financial performance confirms this. According to the report, Pennsylvania's average operating margin is 2.1%. Region 6 facilities, which include Northeastern Pennsylvania and the majority of Scranton/Wilkes Barre/Hazleton MSA hospitals, collectively produced an average negative 1.51% operating margin, the worst in the Commonwealth.

As requested, I am providing you some specific information relative to Community Medical Center, Scranton, PA, and my concerns despite CMC's ability to continue to provide access to vital services to our community as of this date. CMC provides many tertiary and secondary services including being the Regional Trauma Center, and Car-

diac Surgery, Neurosurgery, Neonatal Intensive Care Program, etc. CMC incurred a \$3.1 Million operating loss during Fiscal Year 2001 and will be posting another year of operating losses this year. CMC's Net Patient Service Revenue Per Adjusted Discharge, when compared against similar facilities, is approximately \$1,200 per adjusted discharge less. (Note: CMC's annual adjusted discharges approximates 20,000.) With respect to Medicare reimbursement above, CMC receives significantly less than others providing the same services in surrounding MSAs. The need to retain our talent critical to these highly specialized services cannot be underestimated.

Medicare—Base Rate: CMC's current Medicare Base Rate is \$3,708; July 1, 1984's Medicare Base Rate was \$3,421.

Net increase over 18 years to CMC: \$287; 8.4% change over 18 years.

Re: Not kept pace with inflation, wage increases, technology etc. A comparison of all MSA's Base Rates (today vs 1984) would demonstrate Northeastern Pennsylvania's dilemma. In the material attached, you will find a graphical representation of CMC's Medicare Base Rate vs the Market Basket Increase. A lot has happened in healthcare since 1984.

In addition, the uncertainty surrounding the further regulations (HIPAA) effects of the new Outpatient Prospective Payment System and proposed less than Market Basket increases for FY 2003 make this initiative critical for NEPA.

I am disappointed to learn that without this "area adjustment", based on the Preliminary regulations (Federal Register Vol. 67, No. 90) and despite the collective efforts of the fiscal intermediary, and the hospitals in the Scranton/Wilkes Barre/Hazleton MSA, our Medicare Regional Wage Index, a critical variable in calculating Medicare reimbursements to provides in projected to not exceed the rural wage index for all of Pennsylvania (.8525).

The issues facing Northeastern Pennsylvania hospitals include:

Immediate financial pressures on "core operations", medical malpractice crisis. CMC's medical malpractice increase alone on the primary layer went from \$512K to \$1.2 Million on 9/1/01 and our carrier has exited writing medical professional liability insurance in our Commonwealth. In addition, number of our physicians (OB) have retired or left the state to practice elsewhere (e.g., Neurosurgery) as a result of the increases. We are concerned with what we face I just over 2 months (anticipate > 100% increase) in addition to the continued exportation of talent.

Labor/Wage pressures as a result of shortages, retention needs, and an industry need to attract talent. CMC's exit interviews with employees indicate greater opportunities outside the MSA. For example, a significant number of vacancies exist at CMC. Currently CMC has 67 openings (45 FTEs). CMC's RN vacancy rate is 18%. Recruitment activity from outside the MSA is commonplace. CMC has seen a 15% RN turnover rate.

Dramatic reductions (greater than 2x anticipated) in Medicare reimbursement along the delivery continuum as a result of the Balance Budget Act ("BBA") of 1997 with a partial return of the excess reduction retrieved through the Balanced Budget Refinement Act and BIPA.

Managed Care ("cost") pressures on operating margins through a variety of techniques including the domination of few payers, utilization management, and further reimbursement pressures.

Soaring pharmaceutical expenditures and new technological introductions at a rate far in advance of appropriate reimbursement recognition with little supply side pricing constraints.

An increase in uncompensated care being provided by our hospitals, in particular our Trauma Center. In addition, access to services such as CMC's trauma services, given the malpractice crisis, for our community is threatened. CMC has incurred in excess of \$5 Million in uncompensated care year-to-date.

Employer Health Insurance premium cost are increasing in the double digit ranges (Financing Side of the System) with limited or no relief to hospitals (Delivery System) as providers of care for such cost exigency.

The financial market's performance that its effect on earnings and cash reserves of the organization directly limiting our ability to plan for and reinvest in facilities, etc.

In closing, thank you for the opportunity to express my concerns for our delivery system and allowing the expression of the desire that a fair, adequate return be provided to hospitals, specifically here in Northeastern Pennsylvania, which have served the residents of Northeastern Pennsylvania with quality, cost effective healthcare. The economic impact of the healthcare system on Northeastern Pennsylvania is significant.

As you have seen day in and day out, our healthcare delivery system in Northeastern Pennsylvania is undergoing rapid change and challenges. As such, time is of the essence within this marketplace. I look forward to your support and successful outcome in the Conference Committee. Feel free to contact me should you require further information.

Sincerely,

C. RICHARD HARTMAN,
President/CEO.

MEMO

ReMSA Amendment

Senator ARLEN SPECTER.

Several important factors highlight why the thirteen hospitals located in the Wilkes-Barre Scranton Hazleton-MSA need relief. Reports produced by the Pennsylvania Health Care Cost Containment Council (PCH4) and the American Hospital Association indicate that all of the hospitals are very efficient and effective healthcare institutions. Despite that fact this region has suffered losses substantially above both the state and national level.

The Financial Analysis of all Pennsylvania Hospitals is a report produced by PHC4. The most recent report shows that while thirty (30) percent of all hospitals in Pennsylvania had negative total margins for the three year period between 1999-2001, nine (9) of the thirteen (13) hospitals located in this MSA have had negative total margins.

Every hospital in the MSA has had a negative operating margin over that period. These losses are causing a significant reduction in the capital base of the institutions in this MSA. An MSA where over 45% of the Net Patient Revenues are provided by Medicare patients.

In the AHA Hospital Statistics guide from 2001, the efficiency of the Hospitals in this MSA is apparent.

In terms of the total labor expense per adjusted inpatient day, the MSA is 25% below the national average and 22% below the state average. (MSA—\$826.92, United States—\$1,102.61, Pennsylvania—\$1,052.53).

In terms of total full time equivalent personnel compared to volume the MSA also compares favorably. The MSA utilizes 15% less FTE's than the nation and 12% less than the state. (MSA—4.01 fte's per adjusted occupied bed, United States 4.61, Pennsylvania 4.52).

This MSA has very efficient, very effective hospitals (see the Hospital Performance report published by PHC4) that are losing significant amounts of money while serving the Medicare population.

In addition to losing significant amounts of capital, the MSA like the nation is undergoing a nursing shortage. Every institution in the MSA has a number of open nursing positions, especially RN's. The situation is exacerbated by the fact that most if not all of the adjacent MSA's advertise locally for nurses. Ads appear on a regular basis from Allentown, Philadelphia, Harrisburg, and Monroe County each extolling the fact that they can offer higher wages. This has forced the local hospitals to use agency nurses at considerable expense.

As I am sure, you are aware CMS recognizes that there are issues with the data used for the wage index. For one example most if not all hospitals in our MSA, employ their own dietary and housekeeping personnel and provide benefits to these positions. This decision actually hurts our wage index number as many other areas of the country now contract for those services. Quoting from the Federal Register of May 9th page 31433, "Therefore, excluding the costs and hours of these services if they are provided under contract, while including them if the services are provided directly by the Hospital, creates an incentive for hospitals to contract for these services in order to increase their hourly wage for wage index purposes." I do not believe that the Congress intended the wage index to drive low hourly rate employees off hospital payrolls.

There are other examples including the amount and type of administrative personnel that affect the wage index. We believe that several of the proposed alterations to the data collection process for the wage index will help to address some of those concerns. However, our MSA cannot wait for these measures to take effect, the wage index currently lags 3 to 4 years behind the current data. Any substantive change will take at least 5 to 7 years to make an impact on the payments to our MSA. We need help now.

Thank you for your efforts in this regard.

WILLIAM ROE,

Vice President of Finance.

ALLIED SERVICES,

Clarks Summit, PA, July 1, 2002.

Hon. ARLEN SPECTER,
*Hart Senate Office Building,
Washington, DC.*

SENATOR SPECTER: The following are some information points regarding the wage index and how a re-classification would aid Allied Services:

As northeastern Pennsylvania's largest rehabilitation medicine provider, Allied experiences a high volume of patients covered under Medicare. This, coupled with a low wage index rate, impacts Allied's ability to recruit and retain healthcare workers. Re-classification to the Newburg, NY, MSA would provide over \$6 million in additional funds while re-classification to Allentown adds over \$3 million for use in employee recruitment/retention programs.

Pocono and Allentown area hospitals are recruiting NEPA workers by offering more generous wage and benefit packages. This is being promoted through ads in local newspapers, on radio stations and on billboards. This impacts our workers as recruitment for healthcare workers is extremely difficult. This problem is further exacerbated when competing providers recruit away workers thanks to their higher wage rate reimbursements.

Despite staff shortages, the need to provide services continues to be high. This is particularly so given the large elderly popu-

lation in northeastern Pennsylvania. A wage rate re-classification is a fair way to "level the playing field" for healthcare providers.

In 2001, Allied Services provided \$2,751,610 in charity care/uncompensated care and governmental subsidy. Services are provided without regard to patients' abilities to pay. This impacts Allied's financial health.

Hopefully, this helps outline some important points regarding the wage index issue. All of us here thank you for your work on this issue and stand ready to assist in helping you achieve a successful conclusion.

Sincerely,

WILLIAM J. SCHOEN,
Vice President.

MERCY HEALTH PARTNERS,
Scranton, PA, July 3, 2002.

Hon. ARLEN SPECTER,

*U.S. Senate, Hart Senate Office Building,
Washington, DC.*

DEAR SENATOR SPECTER: I want to thank you and Congressman Sherwood for meeting with the representatives of all the hospitals in Northeastern Pennsylvania on June 1, 2002. Your continual efforts in seeking a resolution to our Medicare wage index problem, and in particular your support of Congressman Sherwood's amendment to the 2002 Supplemental Appropriations Bill, is critical for the survival of our hospitals.

The Scranton/Wilkes-Barre/Hazleton MSA is surrounded by facilities with significantly higher Medicare reimbursement. Our hospitals have struggled for many years now with an unfair Medicare reimbursement rate. We at Mercy have continued to lose health professionals to other regions around us. On a weekly basis our local newspapers carry employment ads recruiting these individuals from our facilities as well as local colleges and universities outside our area. An example of these ads are attached for your review. Even billboards have sprung up within our MSA such as the one discussed in the November 11, 2001 Times Leader. I have attached this as well to illustrate our point.

Our problem will further deteriorate when the proposed Fiscal Year 2003 wage indexes based on our 1999 fiscal year that we were published in the May 2002 Federal Register are finalized in September 2002. Our MSA has once again fallen below the Pennsylvania rural rate. This has occurred from 1999 through 2001, a period when employment expenses have risen 14%.

This will put even greater pressure on our institutions which in turn jeopardizes the quality of care that our institutions provide to our communities in general and our large Medicare age population in particular.

This reduction could not come at a worse time. Per the most recent Pennsylvania Cost Containment Council Financial Analysis. Our region, Region 6-Northeastern Pennsylvania, had the worst operating margin of all Pennsylvania Hospitals—1.51% and a total margin at -0.23%. I have attached this report for your review as well.

These statistics are even more eye-opening when you compare them to national averages. The average total margin for hospitals across the country is 4.5% based on the latest American Hospital Association data in conjunction with the Center for Medicare Services.

In closing, I would like to once again emphasize the importance of this legislation and its impact on the Mercy Health System. Listed below is our Net Operating Income for our last three fiscal years and the first five months of 2002.

FY 1999 (\$1,827,000).

FY 2000 (\$7,071,000).

FY 2001 (\$6,001,000).

May 2002 (\$2,582,000).

These net operating losses couples with competition in recruitment from sur-

rounding areas make it imperative that this legislation be passed.

Thank you again. I hope this information will be helpful as you work on our behalf.

Sincerely,

JAMES E. MAY,
President and Chief Executive Officer.

WYOMING VALLEY, HEALTH CARE
SYSTEM, WILKES-BARRE GENERAL
HOSPITAL,

Wilkes-Barre, PA, July 5, 2002.

Hon. ARLEN SPECTER,

*U.S. Senate, Hart Senate Office Building,
Washington, DC.*

DEAR SENATOR SPECTER: On behalf of Wyoming Valley Health Care System, Its Board of Directors, and the entire Wilkes-Barre/Scranton community, we would like to thank you for the efforts that you, Representative Sherwood, and your respective staffs have committed to addressing the disparity caused by the Medicare wage index.

While you certainly have developed an appreciation for the challenges facing the hospitals in our region, we would like to share with you the following points that we believe are relevant to our situation:

WVHCS-Hospital (comprised of Wilkes-Barre General Hospital and Nesbitt memorial Hospital), the largest provider in both the Scranton/Wilkes-Barre Metropolitan Statistical Area and the Northeastern Pennsylvania region (Region 6) as defined by the Pennsylvania Health Care Cost Containment Council (HC⁴), has suffered operating deficits in each of the fiscal years since the year ended June 30, 1998. The smallest operating deficit was \$5,542,000 in 1998, and the operating loss for the year just ended is expected to exceed \$10,000,000.

In the face of adversity, our Hospital has done everything possible to manage the extent of those losses, including numerous staff reductions. The total number of paid full time equivalents (FTE's) for 1998 was 2,708 FTE's As of May 31, 2002, that figure had dropped to just over 1,809 FTE's, a reduction of almost 900 FTE positions.

Medicare beneficiaries account for almost 2/3's of the inpatient days within our Hospital. Furthermore, the Medicare payment program has become the basis for several other payment programs in the Commonwealth of Pennsylvania, including auto insurance and workers compensation services. There is no opportunity for a shortfall in Medicare payments to be absorbed by other payers, which had lead to our significant operating deficits.

Luzerne and Lackawanna counties have the highest concentration of Medicare beneficiaries of all counties throughout the Commonwealth of Pennsylvania with populations of 200,000 residents or greater. And, the proportion of Medicare beneficiaries within those counties are among the highest of any major county throughout the country.

Based upon data presented by the HC⁴ for the 2001 fiscal year, seven of nine regions within Pennsylvania enjoyed positive operating results ranging from 0.81% (Northwestern Pennsylvania) to 3.75% (Lehigh Valley). Altoona area hospitals experienced a slight operating deficit of -0.27%. Most notable in the most recent HC⁴ release was the fact that hospitals in Northeastern Pennsylvania were faced with operating deficits averaging -1.51% of revenue.

Of the 13 hospitals within our metropolitan statistical area, the four largest providers experienced operating deficits ranging between -2.56% and -4.81%. Five of the remaining nine hospitals also experienced significant operating deficits.

As the largest hospital in Luzerne County, and sponsor of a very active family practice residency program, WVHCS-Hospital provides a significant amount of free care. For

the year just ended, it is estimated that WVHCS-Hospital provided uncompensated care valued at over \$6,000,000. In addition, there were almost 18,000 patient encounters within our family practice residency program, the majority of which were to Medical Assistance or other uninsured/underinsured patients who otherwise would have ended up in emergency rooms.

Under the current rules, Medicare applies the wage index to about 71% of the average hospital's non-capital cost pool. Based upon our calculations, the portion of our costs to which that index should be applied is estimated to be far less, approximately 58%. The result is that areas like ours, where the wage index is less than 1.00, are paid less than cost for a portion of their supply expenses.

For the 2002 fiscal year, we have experienced registered nurse (RN) staffing turnover approximating 15% of our total RN pool. This is driven by the fact that the average wage rate which we can afford to offer for a registered nurse is \$20.28, well below other contiguous metropolitan statistical areas. In addition, the current vacancy rate for certified registered nurse anesthetists is 25%. Despite the fact we operate one of the largest and most successful schools of nurse anesthetists in the nation, surrounding areas are paying \$5 to \$6 per hour more than our region.

Registered nurses are not the only area of need with which we are faced. For example, radiology/imaging technologists are earning (an average hourly rate of \$14.88, again, well below other nearby metropolitan statistical areas). The result is that for the first half of 2002, we have experienced almost 20% turnover in imaging technicians, particularly in the areas of nuclear medicine, CT scanning, magnetic resonance imaging (MRI) and general radiology services.

Without additional relief, we are losing staff to surrounding communities!

In addition to these labor related pressures, we are faced with other issues affecting costs including the malpractice insurance crisis, bioterrorism preparedness, as well as, added regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA). While it is not our intention to redirect wage-related reimbursements to those areas, the fact remains that the amount of funds which we will have available to address our staffing needs will be even further limited.

Once again, we would like to thank you, Representative Sherwood, Representative Kanjorski, Senator Santorum and each of your respective staffs for all of the efforts which you have put into this important cause. In particular, we would like to thank you and Representative Sherwood for spending time with representatives from area hospitals on Monday, July 1, 2002.

We look forward to hearing from you as to when the conference committee hearings will be scheduled as we would like to be present to represent our community and this critical issue.

Sincerely,

WILLIAM R. HOST,
President and Chief
Executive Officer.
MICHAEL D. SCHERNECK,
Senior Vice President
and Chief Financial
Officer.

THE BLOOMSBURG HOSPITAL,
Bloomburg, PA, July 3, 2002.

Memo to: Andrew M. Wallace, Executive Director, Northeast Region.

From: Robert J. Spinelli, CEO, The Bloomsburg Hospital, Bloomsburg, PA.

The Medicare Reimbursement issue currently debated is extremely important for

The Bloomsburg Hospital. As a community hospital located in Northeast Pennsylvania, the current wage index rates have contributed to three years of deficit income, which has resulted in the inability to recruit qualified staff. In addition, our hospital has had to furlough individuals and not fill positions as vacancies become available.

Your help in this wage index change is greatly appreciated. Thank you.

I will be available to attend the Conference Committee meeting. Please contact me.

WAYNE MEMORIAL HOSPITAL,
Honesdale, PA, July 3, 2002.

Senator ARLEN SPECTER,
Scranton, PA.

DEAR SENATOR SPECTER: Thank you for holding the briefing on the Medicare reimbursement issues and the Wage Index issue in particular. We truly appreciate all your efforts on our behalf to assure that Medicare Reimbursements to providers of services are adequate.

I am summarizing a few of the issues facing us in our fiscal 2003, which began on Monday, July 1, 2002, the same day as your briefing.

We are anticipating an increase in our Medicare payment rate of approximately 3% effective with the beginning of the next federal fiscal year on 10-1-02. The increase is based on a Market Basket increase less .55%, as I recall has been the reduction factor over the last several years. Medicare is saying that, inflation is running 3.55% and we'll give you a 3.00% increase in rates. This makes it extremely difficult to keep net revenues above expenses when by definition, expenses are increasing faster than revenue or rates. Capital costs are included in this same methodology. Wayne Memorial is currently in a planning process that may well identify the need to spend capital dollars. Medicare reimbursement will not change as a result of this capital project and the proposed increase for fiscal 2003 will make it difficult to cover additional debt service on any new debt that may be required.

We have also recently absorbed an 80% increase in our annual General and Professional liability (malpractice) insurance premium that must be paid from this 3% increase from Medicare. We are facing serious physician recruitment issues related to the malpractice crisis here in Pennsylvania, as well. The increase in our malpractice premium will total over \$725,000 on an annual basis. The increase in Medicare payments that would result from this change in MSA to Newburg, New York would mean approximately \$450,000 of additional Medicare reimbursement for Wayne Memorial.

I want to thank you again for your hard work on these serious issues facing healthcare providers in Pennsylvania and hope that all of our efforts, together, can move us toward a Medicare payment system that is more adequate.

Sincerely,

MICHAEL J. CLIFFORD,
Director of Finance.

FOURTH OF JULY DEDICATION OF THE LOVELL VETERANS MEMORIAL CENTER

Mr. ENZI. Mr. President, all of us are just returning from the Fourth of July recess. It is a grand time, I am sure, across the United States. It was particularly a grand time in Wyoming. I get to go to a lot of parades and fairs and rodeos. It is really our only time outdoors to get a little bit of sun that, unfortunately, goes from the wrist to the tip of the fingers, and the neck up. But it is a grand time. I want to share with my colleagues one of the adventures of this Fourth of July recess.

I got to be in a place called Lovell, WY. It is in the northern part of Wyoming. They had a dedication of a veterans memorial center that features a huge mural that includes pictures from all of the wars in which we have participated. The mural goes down into a rocky beach that contains rocks from different wars that we have been in as well. They had a dedication of this veterans memorial center.

The dedication was also attended by Commander Lovell, whose town is now his namesake. That is the Lovell of Apollo 13 fame and ingenuity.

Of course, it reminded me of that time in 1957 when the United States realized that we were behind in all of the scientific races. It challenged many of us to improve education in the United States. I think that continues today. The United States met that challenge. I remember when Sputnik went up I was appalled and I immediately became one of those rocket boys, one who was anxious to learn as much about science and space as possible.

I am pleased to say the Explorer Post that I was in launched a rocket with electronic ignition the second time we did it. We also learned on the first one that you have to clear that with the FAA so you don't shoot down airplanes. There have been a lot changes in that.

I got to go to this parade and dedication of the mural. It was very patriotic. At the beginning, as they unfurled this new flag on a huge new pole, we did say the Pledge of Allegiance. There was a reaction to the previous Wednesday's Ninth Circuit announcement because when the words, "under God" were said, they were louder than the whole rest of the pledge, just as an affirmation that the people of Wyoming were upset with the decision that had

been made. But it was that kind of event that makes your heart swell and brings tears to your eyes.

There was a song about heroes sung by elementary students. It reminded me that community, and communities across this country, are made up of heroes. Heroes are just ordinary people who do extraordinary things. Fortunately, in America we have a lot of those.

We are in a rapidly changing world. In April, I had an opportunity to go over to Russia with three interpreters. We worked on an international agreement of cooperation on controlling weapons of mass destruction, on export controls. That meeting was a tremendous shock for me. All the time I was growing up, Russia was our enemy—the Soviet Union where the people were out to get us. I was sitting across the table from their equivalent of the Senate and House talking about cooperation.

I also had an opportunity to meet with some small businessmen while I was over there. I think it was an even bigger shock for them to be talking to a capitalist about free enterprise. I think we will learn a lot from each other as the world changes.

I have to tell you that the people in Russia today have a tremendous amount of respect for us. Part of it comes from the action the United States took in Afghanistan. We did in 1 month what Russia wasn't able to do in 7 years. That did get us some respect.

The rest of the world anticipates that the reason we are able to do things such as that is the tremendous technology we have, the inventions and weapons we have developed. Some people think it is because of this capitalism, of businesses—and businesses deserve tremendous applause for the role they have played.

Since there was a parade that day and a lot of Tootsie Rolls were thrown out to the kids along the streets, it reminded me that Tootsie Rolls had been a part of every war since World War II. That company has donated Tootsie Rolls. It is one of those chocolates that don't melt in the heat. For Afghanistan, they donated eight semis loaded with Tootsie Rolls. But I also heard about a little event that happened in Korea. They used to be able to call in the plane, and the plane would dump Tootsie Rolls on little parachutes. But one day, they got a little confused on the code word, and when a bombing run was called in on North Korea, they used Tootsie Rolls for the code word for it, and the North Koreans had Tootsie Rolls dropped on them.

We have businesses that participate in all kinds of ways in making sure our country is a better country. But what they usually miss in all of the discussions about why America is great doesn't have to do with technology. It doesn't have to do with capitalism. It has to do with the people. As a people, we have developed over the years of our existence the promotion to the rest of

the world of the kind of government that works, and that has worked better and longer than any other government. But it isn't the Government either. It is the people. We have people who have values, enthusiasm, ideas, and community.

That came out on September 11. On September 11, there were a lot of people around the world who were pretty sure there was a major tragedy which hit this country and that we would fall apart. Instead, what they saw was America coming together. We came together with a sense of community which they didn't expect, with patriotism that has been unequalled, I think, in our history, with voluntarism, and, most of all, faith. Those are the things that make us different from the other countries. Those are the things that have made us great.

It is exciting to have an opportunity to participate in ceremonies, such as the Lovell Veterans Memorial Center dedication.

I ask unanimous consent that the speech of MG Ed Boenisch, Adjutant General of the Wyoming Military Department, given at that dedication be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEDICATION—LOVELL VETERANS MEMORIAL CENTER, JUNE 29, 2002

SPEECH BY MAJ GEN ED BOENISCH, ADJUTANT GENERAL, WYOMING MILITARY DEPARTMENT

I'm honored to be here sharing the podium with an astronaut. I'm proud to be here with proud civic leaders, citizens and veterans who make dreams a reality.

Today renews my hope and faith in the spirit of America and in our great flag and the freedoms it represents. This spectacular memorial is a fitting honor to the men and women who sacrificed so we can be here today, free and safe.

Today is 29 June 2002. It's been 291 days since terrorists attacked our country. Remember all the innocent civilians who were killed that terrible day. It's been 265 days since we began our Global War on Terrorism. Remember the 51 U.S. military men and women who have died in that war. Remember all those who are deployed today, fighting our War on Terrorism so our country and our world can be safe for our children and our grandchildren.

I am so encouraged when I see the spirit of Americans manifested in displays of patriotism, respect and remembrance, especially with a beautiful and permanent display such as this Lovell Veterans Memorial Center.

Thank you for having such a grand and beautiful dream! Thank you for your financial contributions and hard work to make this a reality. Thank you for remembering!

May God bless you!

May God bless America!

Mr. ENZI. Mr. President, I ask unanimous consent that the speech which Commander Lovell gave at that ceremony be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEDICATION OF VETERANS MEMORIAL CENTER, JULY 29, 2002, LOVELL, WYOMING

LADIES AND GENTLEMEN: My son Jay and I want to thank the people of Lovell for the

wonderful hospitality we received during our visit—and it is an honor for me to say a few words in the dedication of Veterans Memorial Center honoring the men and women who served in our Armed Forces.

In 1944, Journalist Ernie Pyle wrote these words to describe the beginning of the Normandy invasion.

"Darkness enveloped the whole American armada. Not a pinpoint of light showed from those hundreds of ships as they surged on through the night toward their destiny, carrying across the ageless and indifferent sea tens of thousands of young men, fighting for . . . for, well, at least each other. For Americans, these words paint a picture of the fear and confusion surrounding soldiers on the eve of battle. Yet, they also impart the sense of determination those young men must have felt. Through his words, Ernie Pyle puts us in touch with our understanding of who we are and how we came to be a nation.

Even more, these words impel us to remember the cost of bringing America this far and also forces us to admit the price is not yet paid in full. This is what the dedication of the Veteran's Memorial symbolizes—when the people of Lovell can take a clear look at both your past and your future. And acknowledge the debt we owe to those men and women who—because they so cherished peace—chose to live as warriors.

Could anything be more contradictory than the lives of our servicemen? They love America, so they spend long years in foreign lands or at sea far from her shores. They revere freedom, so they sacrifice their own that we may be free. They defend our right to live as individuals, yet yield their individuality in that cause. Perhaps most paradoxically of all, they value life, and so bravely ready themselves to die in the service of our country.

For more than 220 years our military has provided a bastion against our enemies. In that time, our world has changed and our armed forces have changed with it, but the valor, dignity, and courage of the men and women in uniform remain the same. From Valley Forge to Enduring Freedom, from San Juan Hill to Pearl Harbor, the fighting spirit of the American Serviceman permeates the history of our nation.

The founders of the United States understood that the military would be the rampart from which America would guard its freedom. George Washington once stated, "By keeping up in Peace a well regulated and disciplined militia, we shall take the fairest and best method to preserve for a long time to come the happiness, dignity and Independence of our country." The prophecy of those words has been fulfilled time and again.

The cost of that vision has been tremendous, for the periods of peace our country has enjoyed are few. The longest time of complete tranquility for our armed forces was the 23 years between World Wars One and Two. Since the Revolutionary War, more than 42 million men and women have served in America's military. More than 600,000 of those dauntless, selfless warriors died in combat.

But why are we so seemingly willing to fight and, if need be, to die? The answer to that question is as simple—and yet as complex—as the soul of America itself. We fight because we believe. Not that war is good, but that sometimes it is necessary. Our soldiers fight and die not for the glory of war, but for the prize of freedom. And, the heart of America is freedom, for ourselves and all nations willing to fight for it. Yes, the price is high, but freedom is a wealth no debt can encumber.

But, what of the soldiers whose death has brought the liberty of our nation? Soldiers

who did not even enjoy the status of veteran? They were all different; yet share a sameness that is deeper than the uniform they wore. They were black, white, man, woman, Hispanic, Indian, Asian, Catholic, Jewish, Protestant, Buddhist, Muslim, and a hundred other variations and combinations. What is most important—regardless of race, creed, color, or gender—they were American.

These courageous men and women, each so different in heritage and background, shared the common bonds of the armed forces—duty and sacrifice. All of them reached a moment in their lives when race and religion, creed and color made no difference. What remained was the essence of America—the fighting spirit of a proud people. They are servicemen who paid the price for freedom.

As we dedicate this memorial to the brave veterans of the past, we must also look to the future. In today's world, of terrorism freedom comes cloaked in uncertainty. America still relies on her sons and daughters to defend her liberty. The cost of independence remains high, but we are willing to pay it. We do not pay it gladly, but we pay it with deep reverence and thanks to those who have sacrificed their lives for America. We know that in the years to come, more brave souls will sacrifice their lives for America. We should include them in our thoughts when we view this symbol of freedom.

Let me conclude my remarks by reading a few excerpts from a letter that exemplifies why we honor our people in uniform. It was written by Sullivan Ballou, a Major in the 2nd Rhode Island volunteers, to his wife Sarah a week before the battle of Bull Run.

Dear Sarah: The indications are very strong that we shall move in a few days—perhaps tomorrow. Lest I should not be able to write again, I feel impelled to write a few lines that may fall under your eye when I am no more. Our movements may be of a few days' duration and full of pleasure—and it may be one of some conflict and death to me. If it is necessary that I should fall on the battlefield for my Country, I am ready.

I have no misgivings about, or lack of confidence in the cause in which I am engaged, and my courage does not halt or falter. I know how American Civilization now leans on the triumph of the Government, and how great a debt we owe to those who went before us through the blood and sufferings of the Revolution. And I am willing—perfectly willing—to lay down all my joys in this life, to help maintain this Government, and to pay that debt.

Sarah my love for you is deathless, and yet my love of Country comes over me like a strong wind and burns me unresistably on to the battlefield.

The memories of the blissful moments I have enjoyed with you come crowding over me, and I feel most gratified to God and to you that I have enjoyed them so long. And it is hard for me to give them up and burn to ashes the hopes of future years, when God willing, we might still have lived and loved together, and seen our sons grown up to honorable manhood. If I do not return my dear Sarah, never forget how much I love you, and when my last breath escapes me on the battle field, it will whisper your name. Forgive my many faults, and the many pains I have caused you. How thoughtless and foolish I have often been.

But, O Sarah! If the dead can come back to this earth and flit unseen around those they loved, I shall always be near you; in the brightest days and in the darkest nights, always, and if a soft breeze falls upon your cheek, it shall be my breath, as the cool air fans your throbbing temple, it shall be my spirit passing by. Sarah do not mourn me dead; think I am gone and wait for me, for we shall meet again.

Sullivan Ballou was killed a week later at the First Battle of Bull Run.

That is why I am proud to be in Lovell, today to participate in the dedication of the Veteran's Memorial honoring the men and women who served our country.

Mr. ENZI. Mr. President, I know it was a great day across America when we celebrated the Fourth of July. I look forward to the future Fourth of July and the daily events when patriotism and community and faith are shown in our country.

TRIBUTE TO CAPTAIN (SELECT) BENNY G. GREEN, U.S. NAVY

Mr. LOTT. Mr. President, I wish to take this opportunity to recognize and say farewell to an outstanding Naval Officer, Captain Benny Green, upon his change of command from Special Boat Unit Twenty-Two. Throughout his career, Captain Green has served with distinction. It is my privilege to recognize his many accomplishments and to commend him for the superb service he has provided the Navy, the great State of Mississippi, and our Nation.

Captain Green enlisted in the Navy in September 1972. After an initial tour at the Aircraft Intermediate Maintenance Department at Barbers Point, Hawaii, he attended Basic Underwater Demolition/SEAL Training in Coronado, California, and graduated with class 83, for further assignment to SEAL Team One. Captain Green received a Bachelor of Science Degree from the University of Louisville in 1980, and was commissioned an Ensign in 1981. He attended flight school at Pensacola Naval Air Station and upon graduation was assigned to Fighter Squadron Eleven at Naval Air Station, Oceana, VA as a Radar Intercept Officer. He flew numerous combat missions over Lebanon in response to the 1983 terrorist bombing attack of the Marine Barracks in Beirut. In February 1985, Captain Green returned to the Special Forces and was assigned to SEAL Team Four, in Little Creek, VA, as the Platoon Commander of the newly formed Sixth Platoon. In his next assignment, Captain Green was a plank owner of SEAL Delivery Vehicle Team One Detachment Hawaii, on Ford Island, Oahu, HI, where he served as Dry Deck Shelter Platoon Commander. Other operational tours in Naval Special Warfare include: Dry Deck Shelter Department Head, SEAL Delivery Vehicle Team Two; Operations Officer, SEAL Delivery Vehicle Team Two; Maritime Special Purpose Force Commander for Central Command Amphibious Ready Group 3-91; Executive Officer, SEAL Delivery Vehicle Team Two; Naval Special Warfare Task Unit Commander for the Theodore Roosevelt Battle group 1-96; Operations Officer, Naval Special Warfare Group Two; Chief Staff Officer, Naval Special Warfare Group Two; and Requirements Officer for Naval Special Warfare Development Group. Captain Green also

completed a joint tour as the Counter-narcotics and Maritime Officer, Special Operations Command, Pacific.

As Commanding Officer, SBU-22, Captain Green's leadership firmly established his unit as the premier facility to train special operations forces in the riverine environment. His determination and oversight hastened the construction of new state-of-the-art facilities that provide for the training in the maintenance and repair of combatant craft, an armory, a supply building, a swim training tank, and a detachment building/administrative headquarters, with plans under development for a land-water range, a 30-unit housing facility, and a mini Navy Exchange/gas station. His rapport with senior military leadership was essential to theater commander exposure to SBU-22 capabilities in support of Special Operations Forces, SOF, throughout the world. During his tenure, SBU-22 hosted two major Joint Combined Exchange for Training, JCET, exercises, executed 13 counter-drug missions in South America, and trained over 450 foreign military personnel in all facets of riverine operations. His realignment of the Combatant Craft Training Curriculum fully addresses the requirements of the Naval Special Warfare Force-21 initiative and is typical of the exceptional foresight Captain Green demonstrated throughout his tour as Commanding Officer of SBU-22. His vast Special Operations experience proved to be a major resource in the identification, testing and implementation of the new Special Operations Craft-Riverine, SOC-R, that promises to revolutionize riverine tactics and capabilities.

Throughout his distinguished career, Captain Green has served the United States Navy and the Nation with pride and excellence. He has been an integral member of, and contributed greatly to, the best-trained, best-equipped, and best-prepared naval and special operations forces in the history of the world. Captain Green's superb leadership, integrity, and limitless energy have had a profound impact on SBU-22 and will continue to positively impact the United States Navy, our Special Operations Forces, and our Nation. Captain Green relinquishes his command on July 12, 2002 and reports as Director, Concept Development Directorate at Special Operations Command Joint Forces Command, in Norfolk, VA where he will continue his successful career. On behalf of my colleagues on both sides of the aisle, I wish Captain Green "Fair Winds and Following Seas."

COLONEL DOUGLAS JOHN WREATH OF THE UNITED STATES AIR FORCE RESERVE.

Mr. THURMOND. Mr. President, on March 29, 2002, Douglas John Wreath was promoted to the grade of Colonel in the United States Air Force Reserve. Major General Mike Hamel, USAF, administered the military oath of office

to Colonel Wreath on that date in a ceremony that was held in the Reserve Officers Association of the United States Building, in Washington. It is my pleasure to join those who are congratulating Colonel Wreath on this achievement.

Since 1997, Colonel Wreath has been an active duty Reservist, assigned to the United States Air Force Office of Congressional Affairs. During part of this time, Colonel Wreath served as the Acting Director of the United States Liaison Office in the Senate, where he became known to many Senators and members of their staffs. Colonel Wreath is currently assigned to the United States Air Force Headquarters, at The Pentagon, where he is implementing the recommendations of The Commission to Assess United States National Security Space Management and Organization, as well as serving as the Air Staff Legislative Liaison for Space Integration issues.

Colonel Wreath is a graduate of the United States Air Force Academy. He has also earned the degree of Master of Science in Systems Management from the University of Colorado.

Doug Wreath began his career in the United States Air Force as a Space Shuttle Navigation Analyst in 1984, leavings, as a Space Operations Officer in 1992, when he transferred into the Reserve. While on active duty, Doug Wreath performed a variety of command and support activities at three duty stations, and as the Personal Assistant to the Commander of the Air Force Space Command, he assisted in establishing the operational plans and policies of the Air Force National Space Program.

Colonel Wreath is an outstanding American who has developed an impressive record of achievement through his service to our Nation. I am pleased to commend Colonel Wreath on his promotion and I extend my best wishes to him for much continued success.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Mr. President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred January 25 in Washington, DC. Two minors attacked two gay men leaving a gay bar in Dupont Circle. Before attacking the victims, the assailants shouted derogatory, anti-homosexual slurs at them. Local police have arrested one of the perpetrators.

I believe that government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol

that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

CHRISTEN O'DONNELL EQUESTRIAN HELMET SAFETY ACT

Mr. DODD. Mr. President, last week my colleague from Rhode Island, Senator CHAFEE, and I introduced legislation to provide greater safety for children and adults who ride horses in the United States. Each year in our country, nearly 15 million people go horseback riding. Whether it be professionally or for pleasure, Americans of all ages and from all walks of life enjoy equestrian sports. And, while everyone acknowledges that horseback riding is a high-risk activity, there are serious safety issues related to equestrian sports that can and should be addressed.

I first became aware of the problem of equestrian helmets when Kemi O'Donnell, a constituent of mine in Connecticut, called my office to relate her family's tragic experience. The story she shared opened my eyes to the danger posed by certain equestrian helmets. In 1998, Kemi's daughter, Christen O'Donnell, was a young 12-year-old resident of Darien, Connecticut, and a 7th grader at New Canaan Country School. Active and sporty, Christen was a talented intermediate rider who had five years of riding experience under her belt when she mounted her horse on the morning of August 11. As always, Christen wore a helmet and was accompanied by her trainer when she began a slow walk through the ring. Suddenly, without warning, the horse she was riding shook its head, and Christen was thrown off onto 4 inches of sand. Even though her horse was only at a walk, and Christen was wearing a helmet, that helmet offered her little protection, and she sustained severe head injuries as a result of the fall. She was rushed to Stamford hospital where, despite efforts to save her, she died the next day. The magnitude of their loss has been compounded by the thought that, had Christen been wearing a better constructed helmet, it is possible she could have survived this accident.

My colleagues may be shocked to learn, as Christen's parents were, that there are no government standards in existence for the manufacturing of equestrian helmets. Some helmets are voluntarily constructed to meet strict American Society of Testing and Materials (ASTM) testing requirements, but the vast majority of helmets sold in the U.S. offer little or no real protection and are merely cosmetic hats—a form of apparel. Frequently, parents of young riders like Christen—and even more mature riders—do not know that they are buying an untested and unapproved item when they purchase a riding helmet. Indeed, most riders believe that when they buy a helmet at the store, they are purchasing a prod-

uct that meets standards designed to provide real and adequate head protection. Bike helmets are built to minimum safety requirements, as are motorcycle helmets.

Apparel helmets, like the one worn by Christen, offer little or no head protection, while ASTM-approved helmets are designed to significantly reduce head injury. The difference in aesthetic design between the two is minimal, but the underlying support structures of these types of helmet are substantial. ASTM-approved helmets offer a high degree of head protection, increase the survivability of equestrian accidents and, in my view, should be the standard for all equestrian helmets.

This lack of adequate safety standards in riding helmets is why USA Equestrian (USAEq), one of the largest equestrian organizations in the country, recently mandated that ASTM-approved helmets must be worn in all USAEq-sanctioned events. While this decision effectively eliminates the danger posed by "apparel helmets" at these events, each day many more students ride in lessons and in private shows that are not USAEq-sanctioned. For their safety, I believe that Congress should establish minimum safety standards for all equestrian helmets sold in the United States, so that all riders can obtain headgear that offers actual protection against head injury. This is not an unprecedented suggestion. As I stated before, Congress has already acted to similarly ensure the safety of bike helmets. The legislation that I and Senator Chafee introduce in Christen's memory today is modeled on this successful bike helmet law and would go a long way toward reducing the mortality of equestrian accidents.

The Christen O'Donnell Equestrian Helmet Safety Act would require that the Consumer Product Safety Commission establish minimum requirements, based on the already proven ASTM standard, for all equestrian helmets in the United States. Thus, there would be a uniform standard for all equestrian helmets, and riders could be confident that the helmet they buy offers real head protection. Let me be clear. This modest legislation does not mandate that riders wear helmets. That is a matter better left to individual states. But, it would take a significant step toward improving the survivability of equestrian accidents and would bring the United States in line with other industrialized countries with sizable riding populations. Countries like Australia and New Zealand have enacted similar safety legislation, and the European Union has set standards to make sure that helmets for equestrian activities meet continental standards. It is time for the United States to take similar steps.

This bill is supported by a wide-ranging coalition of equestrian, child safety, and medical groups. This bill has received the endorsement of the National SAFEKIDS coalition, an organization dedicated to preventing accidental injury to children, and the

Brain Trauma Foundation, a leading medical group dedicated to preventing and treating brain injury. Additionally, USAEq has passed a rule in support of the concept of the bill, requiring all children to wear ASTM approved helmets and strongly recommending that all adults do so as well. Further, in the *Chronicle of the Horse*, the trade publication for the Master of Foxhounds Association, the U.S. Equestrian Team, the U.S. Pony Clubs, The National Riding Commission, the Foxhound Club of North America, the National Beagle Club, the U.S. Dressage Foundation, the American Vaulting Association, and North American Riding for the Handicapped Association, and the Intercollegiate Horse Show Association, an article was published endorsing the ASTM rule. Given the wide range of organizations that endorse this bill, or have endorsed the ASTM rule, it is clear that riders, coaches, and medical professionals alike recognize the need for a standard, tested helmet design.

I would like to draw my colleague's attention to some alarming statistics that further demonstrate the importance and expediency of this bill. Emergency rooms all across America have to deal with an influx of horse-related injuries each year. Nationwide in 1999, an estimated 15,000 horse-related emergency department visits were made by youths under 15 years old. Of these injuries, head injuries were by far the most numerous and accounted for around 60 percent of equestrian-related deaths. These injuries occurred, and continue to occur, at all ages and at all levels of riding experience. That an inadequately protected fall from a horse can kill is not surprising when you examine the medical statistics. A human skull can be shattered by an impact of less than 6.2 miles per hour, while horses can gallop at approximately 40 miles per hour. A fall from two feet can cause permanent brain damage, and a horse elevates a rider to eight feet or more above the ground. These statistics make it evident that horseback riding is a high-risk sport. While all riders acknowledge this fact, reducing the risk of serious injury while horseback riding is attainable through the use of appropriate head protection. We should pass this bill, and pass it soon, to ensure that head protection for equestrian events is safe and effective.

American consumers deserve to be confident that their protective gear, should they choose to wear it, offers real protection. I urge my colleagues to support this bill.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated.

POM-262. A concurrent resolution adopted by the Senate of the Legislature of the State of Hawaii relative to Medicare coverage of oral cancer drugs; to the Committee on Finance.

SENATE CONCURRENT RESOLUTION No. 65

Whereas, cancer is a leading cause of morbidity and mortality in the State of Hawaii and throughout the Nation; and

Whereas, cancer is disproportionately a disease of the elderly, with more than half of all cancer diagnoses occurring in persons age 65 or older, who are thus dependent on the federal Medicare program for provision of cancer care; and

Whereas, treatment with anti-cancer drugs is the cornerstone of modern cancer care, elderly cancer patients must have access to potentially life-extending drug therapy, but the Medicare program's coverage of drugs is limited to injectable drugs or oral drugs that have an injectable version; and

Whereas, the nation's investment in biomedical research has begun to bear fruit with a compelling array of new oral anti-cancer drugs that are less toxic, more effective and more cost-effective than existing therapies, but, because such drugs do not have an injectable equivalent, they are not covered by Medicare; and

Whereas, non-coverage of these important new products leaves many Medicare beneficiaries confronting the choice of either substantial out-of-pocket personal costs or selection of more toxic, less effective treatments that are covered by the program; and

Whereas, Medicare's failure to cover oral anti-cancer drugs leaves at risk many beneficiaries suffering from blood-related cancers like leukemia, lymphoma, and myeloma, as well as cancers of the breast, lung, and prostate; and

Whereas, certain Members of the United States Congress have recognized the necessity of Medicare coverage for all oral anti-cancer drugs and introduced legislation in the 107th Congress to achieve that result (H.R. 1624; S. 913), now, therefore, be it

Resolved by the Senate of the Twenty-first Legislature of the State of Hawaii, Regular Session of 2002, the House of Representatives concurring, That the Congress of the United States in respectfully requested to enact legislation requiring the Medicare program to cover all oral anticancer drugs; and be it further,

Resolved, That certified copies of this Concurrent Resolution be transmitted to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, members of Hawaii's congressional delegation, the Secretary of Health and Human Services, and the Administrator of the Centers for Medicare and Medicaid Services.

POM-263. A resolution adopted by the Senate of the Legislature of the State of Michigan relative to the Federal Prison Industries Competition in Contracting Act; to the Committee on the Judiciary.

SENATE RESOLUTION No. 211

Whereas, In 1934, Federal Prison Industries (FPI) was created as a wholly owned government corporation. Today, FPI operates 103 factories, with over 21,000 inmate workers and annual sales of more than \$500 million per year. The operation offers over 150 products. FPI enjoys significant advantages over private manufacturers making similar products because of government procurement policies, including a "mandatory source" requirement for government agencies; and

Whereas, With obvious personnel and benefits advantages over private sector firms, there is a clear penalty to employers and workers under the current situation. Some of the most respected companies in many fields suffer significantly from the unfair competition from FPI; and

Whereas, In Michigan, the impact of current FPI policies has been strongly felt by many working families. Last year, Michigan lost thousands of manufacturing jobs; and

Whereas, Congress is presently considering a measure that would bring comprehensive reforms to the operations of FPI. The Federal Prison Industries Competition in Contracting Act would address directly the present unfair government purchasing policies. This legislation, H.R. 1577, includes specific requirements that FPI would have to follow to achieve fairness and promote the training of inmates. Under the Federal Prison Industries Competition in Contracting Act, FPI would compete for contracts in a manner that minimizes unfair advantages and ensures that government agencies get the best value for taxpayer dollars. The legislation also includes numerous accountability measures, increased emphasis on preparing inmates for a return to society, and enhanced restitution for victims of crime; and

Whereas, A more appropriate approach to prisoner-based manufacturing will not only bring fairness to the marketplace and thousands of America's working families, but it also will enhance the federal corrections system; now, therefore, be it

Resolved by the Senate, That we memorialize the Congress of the United States to enact the Federal Prison Industries Competition in Contracting Act; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

POM-264. A resolution adopted by the Senate of the Legislature of the State of Hawaii relative to veterans benefits to Filipino veterans of the United States Armed Forces; to the Committee on Veterans' Affairs.

SENATE RESOLUTION No. 26

Whereas, the Philippine Islands, as a result of the Spanish-American War, were a possession of the United States between 1898 and 1946; and

Whereas, in 1934, the Philippine Independence Act (P.L. 73-127) set a ten-year timetable for the eventual independence of the

Philippines and in the interim established a government of the Commonwealth of the Philippines with certain powers over its own internal affairs; and

Whereas, the granting of full independence ultimately was delayed for two years until 1946 because of the Japanese occupation of the islands from 1942 to 1945; and

Whereas, between 1934 and the final independence of the Philippine Islands in 1946, the United States retained certain sovereign powers over the Philippines, including the right, upon order of the President of the United States, to call into the service of the United States Armed Forces all military forces organized by the Commonwealth government; and

Whereas, President Franklin D. Roosevelt, by Executive order of July 26, 1941, brought the Philippine Commonwealth Army into the service of the United States Armed Forces of the Far East under the command of Lieutenant General Douglas MacArthur; and

Whereas, under the Executive Order of July 26, 1941, Filipinos were entitled to full veterans benefits; and

Whereas, approximately 200,000 Filipino soldiers, driven by a sense of honor and dignity, battled under the United States Command after 1941 to preserve our liberty; and

Whereas, the vast majority of American soldiers who opposed the Japanese invasion of the Philippines from December 1941, through March 1942, were Filipinos, who gallantly fought down the length of the Bataan peninsula, and endured unbearable hardships during the siege of Corregidor; and

Whereas, following the surrender of Corregidor, Filipino soldiers, isolated from the rest of the world with only the hope that American forces might someday return, courageously waged guerrilla warfare against the Japanese occupation; and

Whereas, Filipino soldiers fought bravely alongside returning Allied forces to liberate the Philippines and restore order in the war-torn islands until the official end of hostilities in 1947; and

Whereas, there are four groups of Filipino nationals who are entitled to all or some of the benefits to which United States veterans are entitled;

(1) Filipinos who served in the regular components of the United States Armed Forces;

(2) Regular Philippine Scouts, called "Old Scouts", who enlisted in Filipino-manned units of the United States Army prior to October 6, 1945; and prior to World War II, these troops assisted in the maintenance of domestic order in the Philippines and served as a combat-ready force to defend the islands against foreign invasion, and during the war, they participated in the defense and retaking of the islands from Japanese occupation;

(3) Special Philippine Scouts, called "New Scouts", who enlisted in the United States Armed Forces between October 6, 1945, and June 30, 1947, primarily to perform occupation duty in the Pacific following World War II; and

(4) Members of the Philippine Commonwealth Army who on July 26, 1941, were called into the service of the United States Armed Forces, including organized guerrilla resistance units that were recognized by the United States Army;

Whereas, the first two groups, Filipinos who served in the regular components of the United States Armed Forces and Old Scouts, are considered United States veterans and are generally entitled to the full range of United States veterans benefits; and

Whereas, the other two groups, New Scouts and members of the Philippine Commonwealth Army, are eligible for certain veterans benefits, some of which are lower than full veterans benefits; and

Whereas, United States veterans medical benefits for the four groups of Filipino veterans vary depending upon whether the person resides in the United States or the Philippines; and

Whereas, the eligibility of Old Scouts for benefits based on military service in the United States Armed Forces has long been established; and

Whereas, the federal Department of Veterans Affairs operates a comprehensive program of veterans benefits in the present government of the Republic of the Philippines, including the operation of a federal Department of Veterans Affairs office in Manila; and

Whereas, the federal Department of Veterans Affairs does not operate a program of this type in any other country; and

Whereas, the program in the Philippines evolved because the Philippine Islands were a United States possession during the period 1898–1946, and many Filipinos have served in the United States Armed Forces, and because the preindependence Philippine Commonwealth Army was called into the service of the United States Armed Forces during World War II (1941–1945); and

Whereas, our nation has failed to meet the promises made to those Filipino soldiers who fought as American soldiers during World War II; and

Whereas, Congress passed legislation in 1946 limiting and precluding Filipino veterans that fought in the service of the United States during World War II from receiving most veterans benefits that were available to them before 1946; and

Whereas, many Filipino veterans have been unfairly treated by the classification of their service as not being service rendered in the United States Armed Forces for purposes of benefits from the federal Department of Veterans Affairs; and

Whereas, other nationals who served in the United States Armed Forces have been recognized and granted full rights and benefits, but the Filipinos, American nationals at the time of service, are still denied recognition and singled out for exclusion, and this treatment is unfair and discriminatory; and

Whereas, on October 20, 1996, President Clinton issued a proclamation honoring the nearly 100,000 Filipino veterans of World War II, soldiers of the Philippine Commonwealth Army, who fought as a component of the United States Armed Forces alongside allied forces for four long years to defend and reclaim the Philippine Islands, and thousands more who joined the United States Armed Forces after the war; now, therefore, be it

Resolved by the Senate of the Twenty-First Legislature of the State of Hawaii, Regular Session of 2002, that the President and the Congress of the United States are respectfully requested in the 107th Congress to take action necessary to honor our country's moral obligation to provide these Filipino veterans with the military benefits that they deserve, including, but not limited to, holding related hearings, and acting favorably on legislation pertaining to granting full veterans benefits to Filipino veterans of the United States Armed Forces; and be it further

Resolved, that certified copies of this Resolution be transmitted to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of Hawaii's congressional delegation.

POM-265. A resolution adopted by the Senate of the State of Hawaii relative to the establishment of a sister-state relationship between the State of Hawaii of the United States of America and the Municipality of Tianjin in the People's Republic of China; to the Committee on Foreign Relations.

SENATE RESOLUTION NO. 99

Whereas, Tianjin, a city in northeastern China, is one of four municipalities under the direct control of the central government of the People's Republic of China, and in 2001 had a population slightly over 10,000,000; and

Whereas, the city is made up of 13 districts, five counties, 126 villages, 93 towns, and 133 street communities; and

Whereas, the history of Tianjin begins with the opening of the Sui Dynasty's Big Canal (581–617 AD). Beginning in the mid-Tang Dynasty (618–907 AD), Tianjin became the nexus for the transport of foodstuffs and silk between south and north China. During the Ming Dynasty (1404 AD), the city figured prominently as a military center. In 1860, its importance as a business and communications center began to grow; and

Whereas, Tianjin is known as the Bright Diamond of Bohai Gulf and is the gateway to China's capital of Beijing. Tianjin is one of China's biggest business and industrial port cities and, in north China, is the biggest port city. Tianjin now ranks second in importance and size in terms of industry, business, finance, and trade in the north. Its industrial production and trade volume is second only to Shanghai in the south; and

Whereas, the city's traditional industries include mining, metallurgy, machine-building, chemicals, power production, textiles, construction materials, paper-making, foodstuffs, shipbuilding, automobile manufacturing, petroleum exploitation and processing, tractor production, fertilizer and pesticide production, and watch, television, and camera manufacturing; and

Whereas, in 1994, Tianjin's economic goal was to double its gross national product by the year 2003. With its 1997 gross national product reaching RMB 124 billion yuan (about RMB 8.26 yuan to US\$ 1), Tianjin is poised to reach that goal. By the end of 1998, 12,065 foreign-owned companies were established in Tianjin that invested a total of RMB 21.017 billion yuan (about US\$ 2.5 billion). About RMB 9.291 billion yuan (about US\$ 1.1 billion) of that amount was used for development of Tianjin; and

Whereas, in the past, business and other forms of industrial enterprises were primarily state-owned throughout China. However, under on-going nationwide reform, the proportion of businesses that are state-owned is being reduced. In Tianjin, the percentage of state-owned enterprises in 1997 was 35.7 per cent versus 16.6 per cent for collective ownership, and 47.7 per cent for other forms, including private ownership. In the retail sector, the respective proportions were 23.7 per cent, 17.3 per cent, and 59 per cent, respectively; and

Whereas, Tianjin has a broad science and technology base upon which to build, for example, it is home to 161 independent research institutions (117 local and 44 national). Aside from its several universities and colleges, Tianjin has six national-level laboratories and 27 national and ministerial-level technological test centers and has plans to increase its science and technology educational goals; and

Whereas, in 1984, the State Council issued a directive to establish the Tianjin Economic-Technological Development Area (TEDA), situated some 35 miles from Tianjin. Recently, some 3,140 foreign-invested companies have located to TEDA with a total investment of over US\$ 11 billion; and

Whereas, at present, TEDA has developed four pillar industries: electronics and communications, automobile manufacturing and mechanization, food and beverages, and biopharmacy, and is promoting four new industries: information software, bioengineering, new energies, and environmental protection; and

Whereas, in 1996, TEDA began offering a technology incubator to help small and medium-sized enterprises with funding, tax breaks, personnel, etc. Within the TEDA high-tech park, Tianjin offers preferential treatment in the form of funding, land fees, taxes, and facilities (such as water, gas, and heating). Residential and other services, shopping, and educational and recreation facilities are either already in place or are being planned; and

Whereas, for the eleven months ending November 2001, total exports from TEDA was US\$ 3.53 billion, of which foreign-funded enterprises accounted for US\$ 3.49 billion while total foreign investment in TEDA amounted to US\$ 2.3 billion; and

Whereas, Hawaii has been, since its early days, the destination of many Chinese immigrants who have helped to develop the State and its economy; and

Whereas, compared to the rest of the country, Hawaii is advantageously situated in the Pacific to better establish and maintain cultural, educational, and economic relationships with countries in the Asia-Pacific region, especially the People's Republic of China; and

Whereas, the new century we have embarked upon has been described by some as the "century of Asia" or the "China's century"; and

Whereas, like Tianjin, Hawaii is also striving to diversify its economy by expanding into environmentally clean high-technology industries including medical services and research; and

Whereas, the State also emphasizes the importance of higher education in order to create a solid foundation and workforce to serve as the basis from which to launch initiatives in high-technology development; and

Whereas, both Hawaii and Tianjin share many common goals and values as both work towards achieving their economic and educational objectives in the new century, and the people of the State of Hawaii desire to form a mutually beneficial relationship between the State of Hawaii and the municipality of Tianjin to share our knowledge and experiences in order to better assist each other in reaching our goals; now, therefore, be it

Angeles Consulate General of the People's Republic of China.

POM-266. A Senate concurrent resolution adopted by the Legislature of the State of Hawaii relative to the establishment of a sister-state relationship between the State of Hawaii of the United States of America and the Municipality of Tianjin in the People's Republic of China; to the Committee on Foreign Relations.

SENATE CONCURRENT RESOLUTION NO. 161

Whereas, Tianjin, a city in northeastern China, is one of four municipalities under the direct control of the central government of the People's Republic of China, and in 2001 had a population slightly over 10,000,000; and

Whereas, the city is made up of 13 districts, five counties, 126 villages, 93 towns, and 133 street communities; and

Whereas, the history of Tianjin begins with the opening of the Sui Dynasty's Big Canal (581-617 AD). Beginning in the mid-Tang Dynasty (618-907 AD), Tianjin became the nexus for the transport of foodstuffs and silk between south and north China. During the Ming Dynasty (1404 AD), the city figured prominently as a military center. In 1860, its importance as a business and communications center began to grow; and

Whereas, Tianjin is known as the Bright Diamond of Bohai Gulf and is the gateway to China's capital of Beijing. Tianjin is one of China's biggest business and industrial port cities and, in north China, is the biggest port city. Tianjin now ranks second in importance and size in terms of industry, business, finance, and trade in the north. Its industrial production and trade volume is second only to Shanghai in the south; and

Whereas, the city's traditional industries include mining, metallurgy, machine-building, chemicals, power production, textiles, construction materials, paper-making, foodstuffs, shipbuilding, automobile manufacturing, petroleum exploitation and processing, tractor production, fertilizer and pesticide production, and watch, television, and camera manufacturing; and

Whereas, in 1994, Tianjin's economic goal was to double its gross national product by the year 2003. With its 1997 gross national product reaching RMB 124 billion yuan (about RMB 8.26 yuan to US\$ 1), Tianjin is poised to reach that goal. By the end of 1998, 12,065 foreign-owned companies were established in Tianjin that invested a total of RMB 21.017 billion yuan (about US\$ 2.5 billion). About RMB 9.291 billion yuan (about US\$ 1.1 billion) of that amount was used for development of Tianjin; and

Whereas, in the past, business and other forms of industrial enterprises were primarily state-owned throughout China. However, under on-going nationwide reform, the proportion of businesses that are state-owned is being reduced. In Tianjin, the percentage of state-owned enterprises in 1997 was 35.7 per cent versus 16.6 per cent for collective ownership, and 47.7 per cent for other forms, including private ownership. In the retail sector, the respective proportions were 23.7 per cent, 17.3 per cent, and 59 per cent, respectively; and

Whereas, Tianjin has a broad science and technology base upon which to build, for example, it is home to 161 independent research institutions (117 local and 44 national). Aside from its several universities and colleges, Tianjin has six national-level laboratories and 27 national and ministerial-level technological test centers and has plans to increase its science and technology educational goals; and

Whereas, in 1984, the State Council issued a directive to establish the Tianjin Economic-Technological Development Area

(TEDA), situated some 35 miles from Tianjin. Recently, some 3,140 foreign-invested companies have located to TEDA with a total investment of over US\$ 11 billion; and

Whereas, at present, TEDA has developed four pillar industries: electronics and communications, automobile manufacturing and mechanization, food and beverages, and biopharmacy, and is promoting four new industries: information software, bioengineering, new energies, and environmental protection; and

Whereas, in 1996, TEDA began offering a technology incubator to help small and medium-sized enterprises with funding, tax breaks, personnel, etc. Within the TEDA high-tech park, Tianjin offers preferential treatment in the form of funding, land fees, taxes, and facilities (such as water, gas, and heating). Residential and other services, shopping, and educational and recreation facilities are either already in place or are being planned; and

Whereas, for the eleven months ending November 2001, total exports from TEDA was US\$ 3.53 billion, of which foreign-funded enterprises accounted for US\$ 3.49 billion while total foreign investment in TEDA amounted to US\$ 2.3 billion; and

Whereas, Hawaii has been, since its early days, the destination of many Chinese immigrants who have helped to develop the State and its economy; and

Whereas, compared to the rest of the country, Hawaii is advantageously situated in the Pacific to better establish and maintain cultural, educational, and economic relationships with countries in the Asia-Pacific region, especially the People's Republic of China; and

Whereas, the new century we have embarked upon has been described by some as the "century of Asia" or the "China's century"; and

Whereas, like Tianjin, Hawaii is also striving to diversify its economy by expanding into environmentally clean high-technology industries including medical services and research; and

Whereas, the State also emphasizes the importance of higher education in order to create a solid foundation and workforce to serve as the basis from which to launch initiatives in high-technology development; and

Whereas, both Hawaii and Tianjin share many common goals and values as both work towards achieving their economic and educational objectives in the new century, and the people of the State of Hawaii desire to form a mutually beneficial relationship between the State of Hawaii and the municipality of Tianjin to share our knowledge and experiences in order to better assist each other in reaching our goals; now, therefore, be it

Resolved, by the Senate of the Twenty-First Legislature of the State of Hawaii, Regular Session of 2002, the House of Representatives concurring, That Governor Benjamin Cayetano, of the State of Hawaii, or his designee, be authorized and is requested to take all necessary actions to establish a sister-state affiliation with the municipality of Tianjin of the People's Republic of China; and be it further

Resolved, That the Governor or his designee is requested to keep the Legislature of the State of Hawaii fully informed of the process in establishing the relationship, and involved in its formalization to the extent practicable; and be it further

Resolved, That the municipality of Tianjin be afforded the privileges and honors that Hawaii extends to its sister-states and provinces; and be it further

Resolved, That if by June 30, 2007, the sister-state affiliation with the municipality of Tianjin of the People's Republic of China has

not reached a sustainable basis by providing mutual economic benefits through local community support, the sister-state affiliation shall be withdrawn; and be it further

Resolved, That certified copies of this Concurrent Resolution be transmitted to President of the United States, the Governor of the State of Hawaii, the President of the United States Senate, the Speaker of the United States House of Representatives, Hawaii's congressional delegation, and the President of the People's Republic of China and the Mayor of the municipality of Tianjin through the Los Angeles Consulate General of the People's Republic of China.

POM-267. A Senate concurrent resolution adopted by the Legislature of the State of Hawaii relative to the acquisition by the United States National Park Service of Kahuku Ranch for expansion of the Hawaii Volcanoes National Park and of Ki'ilaue Village for expansion of Pu'u'honua O Honaunau National Historical Park; to the Committee on Energy and Natural Resources.

SENATE CONCURRENT RESOLUTION NO. 36

Whereas, the Volcanoes National Park on the Big Island consists of 217,000 acres and is one of only two national parks in this State; and

Whereas, the Volcanoes National Park attracts about 1,500,000 visitors each year who enjoy the natural beauty of the lava fields, native forests, and ocean cliffs; and

Whereas, a large parcel of land lying to the south and west of the Volcanoes National Park known as Kahuku Range consisting of 117,000 acres has come up for sale; and

Whereas, the Kahuku Ranch parcel contains outstanding geological, biological, cultural, scenic, and recreational value, and is the sole habitat for at least four threatened and endangered bird species endemic to Hawaii; and

Whereas, the National Park Service since 1945 has recognized that the property contained nationally significant resources and in fact, in its 175 Master Plan, the National Park Service identified the property as a "potential addition to improve the geological, ecological, and scenic integrity of Hawaii Volcanoes National Park"; and

Whereas, the 181-acre Pu'u'honua O Honaunau National Historical Park was established in 1961 to save a sacred place of refuge that for centuries offered sanctuary to any who reached its walls; and

Whereas, adjacent to Pu'u'honua O Honaunau are the remains of Ki'ilaue, an ancient Hawaiian settlement dating back to the late 12th or early 13th centuries, and which remained active until about 1930, making it one of the last traditional Hawaiian villages to be abandoned; and

Whereas, significant portions of this ancient Hawaiian village remain outside of national park boundaries; and

Whereas, including these lands within the boundaries of Pu'u'honua O Honaunau National Historical Park has been a goal of park management for more than three decades; and

Whereas, the park's 1972 Master Plan identified Ki'ilaue Village as a proposed boundary extension and in 1992, a Boundary Expansion Study completed for the park called for adding the "balance of Ki'ilaue Village"; and

Whereas, within the Ki'ilaue lands the National Park Service is seeking to acquire, more than 800 archaeological sites, structures, and features have been identified, including at least twenty-five caves and ten heiau, more than twenty platforms, twenty-six enclosures, over forty burial features, residential compounds, a holua slide, canoe landing sites, a water well, numerous walls, and a wide range of agricultural features; and

Whereas, in June 2001; Senator Inouye and Senator Akaka introduced a bill to authorize the addition of the Ki'ilaue Village lands to Pu'u'honua O Honaunau National Historical Park and in October 2001, this bill passed the United States Senate and it is anticipated that the authorization bill will pass the House of Representatives as well; and

Whereas, these acquisitions offer an opportunity rarely imagined because they would give the National Park Service an excellent chance to expand and protect native plants and archaeological sites from destruction; and

Whereas, these opportunities can benefit current and future generations of residents and tourists, because expansion of Volcanoes National Park and Pu'u'honua O Honaunau National Historical Park will preserve more open space, add to the natural environment, protect affected native species, and preserve cultural and historical sites; and

Whereas, in January 2001, the National Park Service held a series of public meetings to receive comments from the public regarding possible purchase of Kahuku Ranch and Ki'ilaue Village, and the nearly 400 people in attendance at the meetings expressed overwhelming support and endorsement; now, therefore, be it

Resolved, by the Senate of the Twenty-First Legislature of the State of Hawaii, Regular Session of 2002, the House of Representatives concurring, That the Legislature supports the acquisition by the United States National Park Service of Kahuku Ranch for expansion of the Hawaii Volcanoes National Park and of Ki'ilaue Village for expansion of Pu'u'honua O Honaunau National Historical Park; and be it further

Resolved, That certified copies of this Concurrent Resolution be transmitted to the Director of the National Park Service, the President of the United States Senate, the Speaker of the United States House of Representatives, and to the members of Hawaii's congressional delegation.

POM-268. A Senate concurrent resolution adopted by the Legislature of the State of Hawaii relative to urging adequate financial impact assistance to providing services to citizens of the freely associated states who reside in the State of Hawaii; to the Committee on Energy and Natural Resources.

SENATE CONCURRENT RESOLUTION NO. 127

Whereas, the Compact of Free Association is an agreement established in 1986 between the United States and the Federated States of Micronesia and the Republic of the Marshall Islands, and in 1994 with the Republic of Palau; and

Whereas, under the Compact, the United States provides direct economic assistance, federal services, and military protection to these nations, in exchange for defense rights; and

Whereas, the U.S. State Department should consider the impact of Freely Associated States citizens on Hawaii during this year's renegotiation of the compacts; and

Whereas, citizens of these Freely Associated States (FAS) are also allowed to freely enter the United States without a visa or other immigration requirements; and

Whereas, drawn by the promise of better medical care and a better education for their children, over 6,000 Freely Associated States citizens have migrated to and are currently residing in Hawaii; and

Whereas, the Compact's enabling legislation authorizes federal compensation for impact costs incurred by United States areas, including Hawaii; and

Whereas, the 1996 federal welfare reform act cut off access to federal welfare and medical programs forcing citizens of these Freely Associated States to rely on state aid; and

Whereas, the cost of supporting FAS citizens, largely in healthcare and education, was \$86 million between 1996 and 2000; and

Whereas, FAS students have higher costs than other students due to poor language and other skills; and

Whereas, due to FAS students entering and leaving school a few times each year their integration into the school system difficult; and

Whereas, since the Compact went into effect in 1986 until 2001, the State spent over \$64 million to educate FAS citizens and their children in our public schools, \$10 million in 2000 alone; and

Whereas, FAS citizens continue to have a fast-growing impact on our public school system; and

Whereas, last year, the number of FAS students in our primary and secondary public schools increased by 28%, resulting in costs to the State of over \$13 million for the academic year, bringing the total cost since 1988 to about \$78 million; and

Whereas, during the academic school year 2001-2002, the University of Hawaii lost over \$1.2 million in tuition revenue as a result of students from the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau paying resident rather than non-resident tuition; and

Whereas, inadequate and delayed federal compensation to Hawaii's education system will be at a cost to our own children, and contributes to Hawaii being substantially below many other states in per pupil expenditures for its public school children in kindergarten through 12th grade; and

Whereas, state Medicaid payments for FAS citizens from 1998 to 2001 totaled \$12.4 million; and

Whereas, the financial stability and viability of private hospitals and medical providers is threatened by staggering debts and write-offs resulting from medical services to FAS citizens, in spite of state Medicaid reimbursements; and

Whereas, the Queen's Medical Center alone has incurred operating losses of \$16 million between 1995 and 1999, and is owed over \$11 million by Compact of FAS nations; and

Whereas, community health centers estimate an annual cost of \$420,000 for services to FAS residents; and

Whereas, the Department of Health has also been significantly impacted by the cost of public health services to FAS immigrants with \$967,000 spent on screening vaccination and treatment of communicable diseases and \$190,000 spent for immunization and outreach by public health nurses; and

Whereas, FAS citizens may face unfair criticism and refusal of medical services from medical providers; and

Whereas, inadequate and delayed federal compensation threaten to overwhelm Hawaii's health care systems, leading to potential cutbacks in services and personnel that would impact all of Hawaii's citizens; and

Whereas, it is imperative that Hawaii be granted immediate and substantial federal assistance to meet these mounting costs; and

Whereas, Guam has been asking for—and receiving—financial impact assistance for the last ten years; and

Whereas, the fact that Micronesians should qualify for federal benefits, while residing in Hawaii and the rest of the United States, can best be summed up by the resolution which was passed on September 9, 2001, in Washington, D.C., by a national group called Grassroots Organizing for Welfare Leadership supporting the insertion of language in all federal welfare, food, and housing legislation because Micronesians are eligible for these and other benefits as "qualified non-immigrants" residing in the United States; and

Whereas, the United States government is not owing up to its responsibility for what the United States did to the Micronesian people by refusing them food stamps and other federal benefits when they came to Hawaii and the rest of United States seeking help; and

Whereas, the excuse being used by the U.S. government to deny any aid to the Micronesians in the U.S. is the word "non-immigrant" used in the Compact of Free Association to describe Micronesians who move to Hawaii and the U.S.; and

Whereas, on Dec. 7, 1993, then President Bill Clinton formed an Advisory Committee on Human Radiation Experiments which documented human radiation experiments; and

Whereas, based on some of these documents, researchers indicate that all of Micronesia was affected, not just the Marshall Islands; and

Whereas, it is the intent of this Resolution to encourage the responsible entities to implement the provisions of the Compact of Freely Associated States, which authorizes compact impact funds to be made available to states that welcome and provide services to the people of the Federated States of Micronesia, Republic of the Marshall Islands, and Republic of Palau, because most of the FAS citizens that come to Hawaii do so for medical problems related the United States' military testing of nuclear bombs; and

Whereas, Micronesians are recruited to serve in the U.S. military and "aliens" are not similarly recruited into the U.S. military; now, therefore, be it

Resolved, by the Senate of the Twenty-First Legislature of the State of Hawaii, Regular Session of 2002, the House of Representatives concurring, That the Bush Administration and the U.S. Congress are requested to appropriate adequate financial impact assistance for health, education, and other social services for Hawaii's Freely Associated States citizens; and be it further

Resolved, That the Bush Administration and the U.S. Congress are requested to insert language in all federal welfare, food, and housing legislation which says that Micronesians are eligible for federal food stamps, welfare, public housing, and other federal benefits as "qualified nonimmigrants" residing in the United States; and be it further

Resolved, That the Bush Administration and the U.S. Congress are requested to restore FAS citizens' eligibility for federal public benefits, such as Medicaid, Medicare, and food stamps; and be it further

Resolved, That Hawaii's congressional delegates are requested to assure financial reimbursements, through the establishment of a trust, escrow, or set-aside account, to the State of Hawaii for educational, medical, and social services and to Hawaii's private medical providers who have provided services to Freely Associated States citizens; and be it further

Resolved, That certified copies of this Concurrent Resolution be transmitted to the President of the United States, United States State Department, President of the United States Senate, Speaker of the United States House of Representatives, members of Hawaii's congressional delegation, Governor, Attorney General, Superintendent of Education, Director of Health, Director of Agriculture, Director of Human Services, Grassroots Organizing for Welfare Leadership, Micronesians United, United Church of Christ, Hawaii Conference of Churches, United Methodist Church of Honolulu, national negotiating teams of the Compact of Free Association, and Presidents and Hawaii Consulates of the Federated States of Micronesia, Republic of the Marshall Islands, and Republic of Palau.

POM-270. A resolution adopted by the Legislature of the State of Alaska relative to the construction and operation of the Alaska Highway Natural Gas Pipeline route; to the Committee on Energy and Natural Resources.

LEGISLATIVE RESOLVE NO. 50

Whereas the Alaska North Slope (ANS) has the largest known, discovered natural gas resources, estimated to be 35 trillion cubic feet, in the United States and estimated, undiscovered gas resources in excess of 100 trillion cubic feet; and

Whereas demand for natural gas in the lower 48 states is expected to experience record growth, rising from approximately 22 trillion feet a year in 2000 to 30-35 trillion cubic feet a year in 2020, with some experts predicting demand to be as large as 50 trillion cubic feet a year in 2020; and

Whereas the lower 48 states have an inadequate resource base to meet this expected demand, and experts expect that more natural gas will have to be imported from Canada and from other countries in the form of liquefied natural gas (LNG); and

Whereas the near record drilling in the last two years in the lower 48 failed to provide any significant gas supply increase and many experts are questioning whether other United States frontier areas like the deep-water Gulf of Mexico will be able to deliver material new gas supplies and, therefore, more imports may be required than previously thought; and

Whereas it is important for the United States to have a reliable and affordable source of domestic natural gas for its citizens and businesses, and for national security, especially given the recent tragic events; and

Whereas energy supply disruptions have significant negative effect on the United States economy, including the losses of tens of millions of United States jobs; and

Whereas, if the United States imports significant amounts of LNG, it can be subjected to the market power of the exporting country through mechanisms such as embargoes and price making; and

Whereas ANS is one of the few known locations in the United States that can supply significant natural gas supplies to the lower 48 for years to come; and

Whereas, given these supply and demand projections, several companies and entities have studied different pipeline routes, including a "northern" route, running off the

shore of the Arctic National Wildlife Refuge in the Beaufort Sea to the Mackenzie Delta and south through Canada to the lower 48; a "southern" route along the Alaska Highway through Canada to the lower 48; and an "LNG" route adjacent to the Trans Alaska Pipeline System pipeline to Valdez and LNG tankers for delivery to California; and

Whereas, in 1976, Congress passed the Alaska Natural Gas Transportation Act of 1976 (ANGTA) authorizing the President to select a route to transport natural gas from ANS to the lower 48 and providing procedures to expedite the construction and operation of the selected route; and

Whereas, in 1977, following lengthy public hearings and negotiations with Canada, the President issued a decision ("President's Decision") choosing the southern route and selecting the predecessor of a consortium of pipeline companies headed by Foothills Pipe Lines, Ltd. (Pipeline Companies") to construct and operate the Alaska segment of the project; and

Whereas the Alaska Gas Producers Pipeline Team ("Producers") has proposed new federal enabling legislation that is currently being debated in the United States Senate; and

Whereas the Majority Leader of the United States Senate has introduced the Energy Policy Act of 2002, which contains the Alaska Natural Gas Pipeline Act of 2002 ("Pipeline Act"); and

Whereas the Pipeline Act is not opposed by the Pipeline Companies, and they desire certain amendments to the ANGTA to modernize it; and

Whereas ANGTA granted the State of Alaska "authoriz[ation]" to ship its royalty gas on the approved transportation system for use within Alaska and . . . to withdraw such gas from the interstate market for use within Alaska," which rights will be impaired if a northern route is followed; and

Whereas President Carter's decision in support of the southern route explicitly recognized that it could "supply the energy base required for long-term economic development" within Alaska and it could supply natural gas to communities within Alaska along the route as well as other Alaska communities through local distribution lines, and these potential benefits will be lost if a northern route is followed; and

Whereas the United States Senate has concurred with the United States House of Representatives to oppose the northern route and has expressed its support for the southern route; and

Whereas the southern route presents the United States with petrochemical extraction opportunities in the United States while the northern route does not; and

Whereas a northern route pipeline could not easily be expanded to increase the volume of gas when needed; and

Whereas the southern route provides petrochemical extraction opportunities in the United States and other marketing opportunities for ANS gas, including gas to liquids (GTL) and LNG, to the West Coast or Asia; and

Whereas it is widely recognized that maximum benefit to Alaskans from the commercialization of ANS natural gas lies in market exposure for that gas, opportunities for in-state use of the natural gas, and for participation by Alaskans in construction, maintenance, and operation of the gas pipeline transportation project, and the recovery of revenue by the state from the development, transport, and sale of ANS gas reserves; and

Whereas the Alaska State Legislature has expressed a preference for the expedited construction and operation of a natural gas pipeline along a southern route and has authorized funds to conduct various studies re-

garding a natural gas pipeline, including the study of in-state natural gas demand, natural gas supply, a natural gas fiscal system, and the effect of natural gas sales on the Prudhoe Bay reservoir; and

Whereas the Twenty-Second Alaska State Legislature established the Joint Committee on Natural Gas Pipeline ("Joint Committee") to take whatever action may be appropriate to ensure that the best interests of the state are protected; and

Whereas it is vital for the continued exploration and development of natural gas resources on the ANS that oil and gas companies that do not have an ownership interest in the pipeline ("Explorers") have access to it on fair and reasonable terms and have the ability to seek expansion of the pipeline when economically and technically feasible; and the Joint Committee adopted recommendations supporting enactment of these provisions in federal law; and

Whereas it is vital for the economic development of Alaska that Alaskans and Alaska businesses have access to gas from the pipeline on a fair and reasonable basis, and that the Regulatory Commission of Alaska participate with the Federal Energy Regulatory Commission to develop methods to provide for such access; and the Joint Committee adopted recommendations supporting enactment of these provisions in federal law; and

Whereas the Joint Committee has issued various recommendations requesting that Congress reaffirm the validity of ANGTA and modernize it; and

Whereas natural gas prices in the lower 48 states periodically fluctuate below those required to adequately cover investment; and

Whereas governmental involvement, including tax incentives, is essential and quite common on major projects to enable private enterprises to undertake the risks; be it

Resolved, That the Alaska State Legislature strongly urges the President of the United States, the United States Congress, and appropriate federal officials to actively support the expeditious construction and operation of a natural gas pipeline through Alaska along a southern route; and be it further

Resolved, That the Alaska State Legislature strongly urges passage during the first half of 2002 of the Alaska Gas Producers Pipeline Team's federal enabling legislation, so long as it contains a provision similar to that in H.R. 4 banning the over-the-top route and the following amendments:

(1) provisions for Alaskans and Alaska businesses that ensure they have access to the pipeline for in-state consumption and value-added manufacture on a fair and reasonable basis and that the Regulatory Commission of Alaska is part of the process in determining that access;

(2) provisions for access to the pipeline by Explorers on a fair and reasonable basis, including a proper open season with fair and reasonable tariffs, and that provide that they and the State have the ability to obtain expansion of the pipeline if economically and technologically feasible;

(3) provisions for the reaffirmation of the validity of the Alaska Natural Gas Transportation Act of 1976 and the modernization of that Act as necessary;

(4) provisions for federal financial incentives, including accelerated depreciation and an income tax credit that is designed to provide mitigation of long-term natural gas price risks and the risks associated with funding the large capital costs of the project; the amount of any tax credit should be limited in operation to periods when natural gas prices are extremely low and recovered when natural gas prices are high; and

(5) specific provisions declaring that the content of amendments (1)–(4) is not in-

tended to exclude supply of Alaska North Slope natural gas to markets in the form of LNG or GTL.

POM-271. A resolution adopted by the Senate of the General Assembly of the Commonwealth of Pennsylvania regarding the Valley Forge National Historical Park; to the Committee on Energy and Natural Resources.

SENATE RESOLUTION NO. 155

Whereas, in the winter of 1777-1778 General George Washington and the Continental Army camped at Valley Forge to be close to the British Army occupying the City of Philadelphia; and

Whereas, during this encampment the volunteer citizen soldiers endured great hardships such as cold, hunger, disease and poor lodging, and they were badly equipped and supplied; and

Whereas, about 2,000 soldiers died from pneumonia, typhoid, dysentery and other diseases; and

Whereas, at Valley Forge the leadership of General George Washington helped hold together this group of citizen soldiers; and

Whereas, through the training of General Washington and Baron von Steuben these ill-equipped volunteers were marshaled into an effective fighting force which helped defeat a military power, the British, at Yorktown in 1783; and

Whereas, the first State park was founded at Valley Forge in 1893; and

Whereas, Governor Samuel Pennypacker of Pennsylvania compared a visit to Valley Forge to a pilgrimage and urged every American to visit the site; and

Whereas, Valley Forge has been visited by Presidents of the United States and numerous dignitaries from around the world; and

Whereas, in 1975, as part of the United States Bicentennial Celebration, the Commonwealth of Pennsylvania conveyed the Valley Forge State Park to the United States Government; and

Whereas, Act 1975-53 authorizing the conveyance said the land was to be used for "historical purposes"; and

Whereas, the development of land privately owned within Valley Forge National Historical Park boundaries would violate the spirit of the conveyance from the Commonwealth to the United States Government; and

Whereas, the Secretary of the Interior has the authority to acquire privately held property within the boundaries of the Park; therefore be it

Resolved, That it is the sense of the Senate of the Commonwealth of Pennsylvania that locating a large housing development within the boundaries of the Valley Forge National Historical Park is against the spirit of the original conveyance to the Federal Government approved by the Commonwealth; and be it further

Resolved, That the Senate of the Commonwealth of Pennsylvania strongly urge the Secretary of the Interior to exercise authority under Public Law 94-337 and acquire the land to be developed; and be it further

Resolved, That the Senate of the Commonwealth of Pennsylvania urge the Congress of the United States to appropriate moneys sufficient for the purchase of this property; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States, to the presiding officers of each house of Congress and each member of Congress from Pennsylvania and to the Secretary of the Interior.

POM-272. A Senate joint resolution adopted by the Legislature of the State of Maine regarding Acadia National Park; to the Committee on Energy and Natural Resources.

JOINT RESOLUTION

We, your Memorialists, the Members of the One Hundred and Twentieth Legislature of the State of Maine now assembled in the Second Regular Session, most respectfully present and petition the President of the United States and the Congress of the United States, as follows:

Whereas, Acadia National Park is Maine's most visited natural destination, with approximately 3 million annual visits, and is one of the most heavily used parks in the National Park System; and

Whereas, Acadia National Park is among the most beautiful places in Maine and its Atlantic shore represents 25% of the Maine coastline that is available for public use and enjoyment; and

Whereas, Acadia National Park generates \$132,000,000 in direct economic benefits to the Mount Desert Island region and many additional millions of dollars in indirect benefits throughout Maine, making the park's 45,000 acres of land and easements among the most economically productive natural assets in the State; and

Whereas, Acadia National Park has conducted a rigorous financial analysis leading to a business plan that demonstrates an average operating annual budget that supplies only 47% of what is needed to operate the park in compliance with laws and regulations; and

Whereas, Acadia National Park's annual operating budget shortfall is the 3rd largest calculated to date in the 40 national parks that have undertaken business plans; and

Whereas, Acadia National Park's total annual operating budget need is approximately \$14,000,000, and additional millions of dollars are needed for anticipated park operations at Schoodic Point; and

Whereas, Acadia National Park has 121 full-time equivalent employees but needs 230 full-time equivalent employees to execute the park's mission in accordance with laws and regulations: Now, therefore, be it

Resolved, That We, your Memorialists, respectfully urge the President of the United States and the Congress of the United States to increase the annual budget of Acadia National Park to amounts that will meet the park's full operational needs, including the needs of Schoodic Point; and be it further

Resolved, That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the President of the United States, the President of the Senate of the United States, the Speaker of the House of Representatives of the United States and to each Member of the Maine Congressional Delegation.

POM-273. A joint resolution adopted by the Legislature of the State of Maine relative to Cuba; to the Committee on Banking, Housing, and Urban Affairs.

JOINT RESOLUTION

We, your Memorialists, the Members of the One Hundred and Twentieth Legislature of the State of Maine now assembled in the Second Regular Session, most respectfully present and petition the Congress of the United States as follows:

Whereas, the relationship between the United States and Cuba has long been marked by tension and confrontation, and further heightening this hostility is the 40-year-old United States trade embargo against the island nation that remains the longest-standing embargo in modern history; and

Whereas, there has been significant change in relations between Cuba and the United States since 1962, when the prohibitive trade sanctions were imposed; and

Whereas, the export ban was imposed during a period of much fear caused by the

threat of nuclear attack due to the Cold War between the former Soviet Union and other communist regimes and the United States; and

Whereas, that threat no longer exists and it is no longer United States policy to prohibit trade with a communist country, as we already have heavy trade with China and are establishing trade with countries like Vietnam; and

Whereas, with complete normalization of trade relations, Cuba could become a \$1 billion market for United States agricultural producers within 5 years, making it our 3rd largest market in the Americas after Mexico and Canada; and

Whereas, agriculture in Maine has developed into a diverse industry and could greatly benefit from the market opportunities that free trade with Cuba would provide. Maine is the largest producer of brown eggs and wild blueberries in the world and ranks 8th in the nation in the production of potatoes and 2nd in the production of maple syrup. It ranks 2nd in New England in milk and livestock production; and

Whereas, rather than depriving Cuba of agricultural products, the United States trade embargo succeeds only in driving Cuba's purchasers to competitors in other countries that have no trade restrictions; and

Whereas, the United States has much to gain by trading with Cuba, not only in agriculture but also in many other sectors of the economy and culture; and

Whereas, the Cuban people also have much to gain and are more likely to move toward liberty as they see our way of life and the success of our free market system: Now, therefore, be it

Resolved, That We, your Memorialists, urge the Congress of the United States to lift trade sanctions and establish permanent, normal trade relations with Cuba; and be it further

Resolved, That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Honorable George W. Bush, President of the United States, and to the President of the United States Senate, the Speaker of the House of Representatives of the United States and each Member of the Maine Congressional Delegation.

(B) any other similar programs, as designated by the Secretary of Defense, to address critical emerging proliferation threats in the states of the former Soviet Union that jeopardize United States national security.

(2) Cooperative Threat Reduction funds, for a fiscal year, are the funds authorized to be appropriated for Cooperative Threat Reduction programs for that fiscal year.

(b) AUTHORIZATION OF USE OF CTR FUNDS FOR THREAT REDUCTION ACTIVITIES OUTSIDE THE FORMER SOVIET UNION.—(1) Notwithstanding any other provision of law and subject to the succeeding provisions of this section, the Secretary of Defense may obligate and expend Cooperative Threat Reduction funds for fiscal year 2003, or Cooperative Threat Reduction funds for a fiscal year before fiscal year 2003 that remain available for obligation as of the date of the enactment of this Act, for proliferation threat reduction projects and activities outside the states of the former Soviet Union if the Secretary determines that such projects and activities will—

(A) assist the United States in the resolution of critical emerging proliferation threats; or

(B) permit the United States to take advantage of opportunities to achieve long-standing United States nonproliferation goals.

(2) The amount that may be obligated under paragraph (1) in any fiscal year for projects and activities described in that paragraph may not exceed \$50,000,000.

(c) AUTHORIZED USES OF FUNDS.—The authority under subsection (b) to obligate and expend Cooperative Threat Reduction funds for a project or activity includes authority to provide equipment, goods, and services for the project or activity, but does not include authority to provide cash directly to the project or activity.

(d) SOURCE AND REPLACEMENT OF FUNDS USED.—(1) The Secretary shall, to the maximum extent practicable, ensure that funds for projects and activities under subsection (b) are derived from funds that would otherwise be obligated for a range of Cooperative Threat Reduction programs, so that no particular Cooperative Threat Reduction program is the exclusive or predominant source of funds for such projects and activities.

(2) If the Secretary obligates Cooperative Threat Reduction funds under subsection (b) in a fiscal year, the first budget of the President that is submitted under section 1105(a) of title 31, United States Code, after such fiscal year shall set forth, in addition to any other amounts requested for Cooperative Threat Reduction programs in the fiscal year

covered by such budget, a request for Cooperative Threat Reduction funds in the fiscal year covered by such budget in an amount equal to the amount so obligated. The request shall also set forth the Cooperative Threat Reduction program or programs for which such funds would otherwise have been obligated, but for obligation under subsection (b).

(e) LIMITATION ON OBLIGATION OF FUNDS.—Except as provided in subsection (f), the Secretary may not obligate and expend Cooperative Threat Reduction funds for a project or activity under subsection (b) until 30 days after the date on which the Secretary submits a report on the purpose for which the funds will be obligated and expended, and the amount of the funds to be obligated and expended.

(f) EXCEPTION.—(1) The Secretary may obligate and expend Cooperative Threat Reduction funds for a project or activity under subsection (b) without regard to subsection (e) if the Secretary determines that a critical emerging proliferation threat warrants immediate obligation and expenditure of such funds.

(2) Not later than 72 hours after first obligating funds for a project or activity under paragraph (1), the Secretary shall submit to the congressional defense committees a report containing a detailed justification for the obligation of funds. The report on a project or activity shall include the following:

(C) A description of the contracting process, if any, that will be used in the implementation of the project or activity.

(D) An analysis of the effect of the obligation of funds for the project or activity on ongoing Cooperative Threat Reduction programs.

(F) A description of the mechanisms to be used by the Secretary to assure that proper audits and examinations of the project or activity are carried out.

(g) REPORT ON ESTABLISHMENT OF NEW COOPERATIVE THREAT REDUCTION PROGRAMS.—

(1) If the Secretary employs the authority in subsection (b) in any two fiscal years, the Secretary shall submit to Congress a report on the advisability of establishing one or more new cooperative threat reduction programs to account for projects and activities funded using such authority.

(2) The report required by paragraph (1) shall be submitted along with the budget justification materials in support of the Department of Defense budget (as submitted with the budget of the President under section 1105(a) of title 31, United States Code) in the first budget submitted after the end of the two consecutive fiscal years referred to in that paragraph.

(c) ELIGIBILITY REQUIREMENTS UNDER FREEDOM SUPPORT ACT.—Section 502 of the FREEDOM Support Act (Public Law 102-511; 106 Stat. 3338; 22 U.S.C. 5852) is amended—

(1) by striking “Funds” and inserting “(a) ELIGIBILITY.—Except as provided in subsection (b), funds”; and

SEC. 1205. RUSSIAN TACTICAL NUCLEAR WEAPONS.

(a) FINDINGS.—The Congress makes the following findings:

(1) Al Qaeda and other terrorist organizations, in addition to rogue states, are known to be working to acquire weapons of mass destruction, and particularly nuclear warheads.

(2) The largest and least secure potential source of nuclear warheads for terrorists or rogue states is Russia's arsenal of nonstrategic or "tactical" nuclear warheads, which according to unclassified estimates numbers from 7,000 to 12,000 warheads. Security at Russian nuclear weapon storage sites is insufficient, and tactical nuclear warheads are more vulnerable to terrorist or rogue state acquisition due to their smaller size, greater portability, and greater numbers compared to Russian strategic nuclear weapons.

(3) Russia's tactical nuclear warheads were not covered by the START treaties or the recent Moscow Treaty. Russia is not legally bound to reduce its tactical nuclear stockpile and the United States has no inspection rights regarding Russia's tactical nuclear arsenal.

(b) SENSE OF THE SENATE.—(1) One of the most likely nuclear weapon attack scenarios against the United States would involve detonation of a stolen Russian tactical nuclear warhead smuggled into the country.

(2) It is a top national security priority of the United States to accelerate efforts to account for, secure, and reduce Russia's stockpile of tactical nuclear warheads and associated fissile material.

(3) This imminent threat warrants a special nonproliferation initiative.

(c) REPORT.—Not later than 30 days after enactment of this Act, the President shall report to Congress on efforts to reduce the particular threats associated with Russia's tactical nuclear arsenal and the outlines of a special initiative related to reducing the threat from Russia's tactical nuclear stockpile.

Subtitle F—Disposition of Weapons-Usable Plutonium at Savannah River, South Carolina

SEC. 3181. FINDINGS.

Congress makes the following findings:

(1) In September 2000, the United States and the Russian Federation signed a Plutonium Management and Disposition Agreement by which each agreed to dispose of 34 metric tons of weapons-grade plutonium.

(2) The agreement with Russia is a significant step toward safeguarding nuclear materials and preventing their diversion to rogue states and terrorists.

(3) The Department of Energy plans to dispose of 34 metric tons of weapons-grade plutonium in the United States before the end of 2019 by converting the plutonium to a mixed-oxide fuel to be used in commercial nuclear power reactors.

(4) The Department has formulated a plan for implementing the agreement with Russia through construction of a mixed-oxide fuel fabrication facility, the so-called MOX facility, and a pit disassembly and conversion facility at the Savannah River Site, Aiken, South Carolina.

(5) The United States and the State of South Carolina have a compelling interest in the safe, proper, and efficient operation of the plutonium disposition facilities at the Savannah River Site. The MOX facility will also be economically beneficial to the State of South Carolina, and that economic benefit will not be fully realized unless the MOX facility is built.

(6) The State of South Carolina desires to ensure that all plutonium transferred to the State of South Carolina is stored safely; that the full benefits of the MOX facility are realized as soon as possible; and, specifically, that all defense plutonium or defense plutonium materials transferred to the Savannah River Site either be processed or be removed expeditiously.

SEC. 3182. DISPOSITION OF WEAPONS-USABLE PLUTONIUM AT SAVANNAH RIVER SITE.

(a) PLAN FOR CONSTRUCTION AND OPERATION OF MOX FACILITY.—(1) Not later than February 1, 2003, the Secretary of Energy shall submit to Congress a plan for the construction and operation of the MOX facility at the Savannah River Site, Aiken, South Carolina.

(2) The plan under paragraph (1) shall include—

(A) a schedule for construction and operations so as to achieve, as of January 1, 2009, and thereafter, the MOX production objective, and to produce 1 metric ton of mixed oxide fuel by December 31, 2009; and

(B) a schedule of operations of the MOX facility designed so that 34 metric tons of defense plutonium and defense plutonium materials at the Savannah River Site will be processed into mixed oxide fuel by January 1, 2019.

(3)(A) Not later than February 15 each year, beginning in 2004 and continuing for as long as the MOX facility is in use, the Secretary shall submit to Congress a report on the implementation of the plan required by paragraph (1).

(B) Each report under subparagraph (A) for years before 2010 shall include—

(i) an assessment of compliance with the schedules included with the plan under paragraph (2); and

(ii) a certification by the Secretary whether or not the MOX production objective can be met by January 2009.

(C) Each report under subparagraph (A) for years after 2009 shall—

(i) address whether the MOX production objective has been met; and

(ii) assess progress toward meeting the obligations of the United States under the Plutonium Management and Disposition Agreement.

(D) For years after 2017, each report under subparagraph (A) shall also include an assessment of compliance with the MOX production objective and, if not in compliance, the plan of the Secretary for achieving one of the following:

(i) Compliance with such objective.

(ii) Removal of all remaining defense plutonium and defense plutonium materials from the State of South Carolina.

(b) CORRECTIVE ACTIONS.—(1) If a report under subsection (a)(3) indicates that construction or operation of the MOX facility is behind the applicable schedule under subsection (a)(2) by 12 months or more, the Secretary shall submit to Congress, not later than August 15 of the year in which such report is submitted, a plan for corrective actions to be implemented by the Secretary to ensure that the MOX facility project is capable of meeting the MOX production objective by January 1, 2009.

(2) If a plan is submitted under paragraph (1) in any year after 2008, the plan shall include corrective actions to be implemented by the Secretary to ensure that the MOX production objective is met.

(3) Any plan for corrective actions under paragraph (1) or (2) shall include established milestones under such plan for achieving compliance with the MOX production objective.

(4) If, before January 1, 2009, the Secretary determines that there is a substantial and material risk that the MOX production objective will not be achieved by 2009 because of a failure to achieve milestones set forth in the most recent corrective action plan under this subsection, the Secretary shall suspend further transfers of defense plutonium and defense plutonium materials to be processed by the MOX facility until such risk is addressed and the Secretary certifies that the MOX production objective can be met by 2009.

(5) If, after January 1, 2009, the Secretary determines that the MOX production objective has not been achieved because of a failure to achieve milestones set forth in the most recent corrective action plan under this subsection, the Secretary shall suspend further transfers of defense plutonium and defense plutonium materials to be processed by the MOX facility until the Secretary certifies that the MOX production objective can be met by 2009.

(6)(A) Upon making a determination under paragraph (4) or (5), the Secretary shall submit to Congress a report on the options for removing from the State of South Carolina an amount of defense plutonium or defense plutonium materials equal to the amount of defense plutonium or defense plutonium materials transferred to the State of South Carolina after April 15, 2002.

(B) Each report under subparagraph (A) shall include an analysis of each option set forth in the report, including the cost and schedule for implementation of such option, and any requirements under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) relating to consideration or selection of such option.

(C) Upon submittal of a report under paragraph (A), the Secretary shall commence any

analysis that may be required under the National Environmental Policy Act of 1969 in order to select among the options set forth in the report.

(C) CONTINGENT REQUIREMENT FOR REMOVAL OF PLUTONIUM AND MATERIALS FROM SAVANNAH RIVER SITE.—If the MOX production objective is not achieved as of January 1, 2009, the Secretary shall, consistent with the National Environmental Policy Act of 1969 and other applicable laws, remove from the State of South Carolina, for storage or disposal elsewhere—

(1) not later than January 1, 2011, not less than 1 metric ton of defense plutonium or defense plutonium materials; and

(2) not later than January 1, 2017, an amount of defense plutonium or defense plutonium materials equal to the amount of defense plutonium or defense plutonium materials transferred to the Savannah River Site between April 15, 2002 and January 1, 2017, but not processed by the MOX facility.

(d) ECONOMIC AND IMPACT ASSISTANCE.—(1) If the MOX production objective is not achieved as of January 1, 2011, the Secretary shall pay to the State of South Carolina each year beginning on or after that date through 2016 for economic and impact assistance an amount equal to \$1,000,000 per day until the later of—

(A) the passage of 100 days in such year;

(B) the MOX production objective is achieved in such year; or

(C) the Secretary has removed from the State of South Carolina in such year at least 1 metric ton of defense plutonium or defense plutonium materials.

(2)(A) If the MOX production objective is not achieved as of January 1, 2017, the Secretary shall pay to the State of South Carolina each year beginning on or after that date through 2024 for economic and impact assistance an amount equal to \$1,000,000 per day until the later of—

(i) the passage of 100 days in such year;

(ii) the MOX production objective is achieved in such year; or

(iii) the Secretary has removed from the State of South Carolina an amount of defense plutonium or defense plutonium materials equal to the amount of defense plutonium or defense plutonium materials transferred to the Savannah River Site between April 15, 2002 and January 1, 2017, but not processed by the MOX facility.

(B) Nothing in this paragraph may be construed to terminate, supersede, or otherwise affect any other requirements of this section.

(3) The Secretary shall make payments, if any, under this subsection, from amounts authorized to be appropriated to the Department of Energy.

(4) If the State of South Carolina obtains an injunction that prohibits the Department from taking any action necessary for the Department to meet any deadline specified by this subsection, that deadline shall be extended for a period of time equal to the period of time during which the injunction is in effect.

(e) FAILURE TO COMPLETE PLANNED DISPOSITION PROGRAM.—If on July 1 each year beginning in 2020 and continuing for as long as the MOX facility is in use, less than 34 metric tons of defense plutonium or defense plutonium materials have been processed by the MOX facility, the Secretary shall submit to Congress a plan for—

(1) completing the processing of 34 metric tons of defense plutonium and defense plutonium material by the MOX facility; or

(2) removing from the State of South Carolina an amount of defense plutonium or defense plutonium materials equal to the amount of defense plutonium or defense plutonium materials transferred to the Savan-

nah River Site after April 15, 2002, but not processed by the MOX facility.

(f) REMOVAL OF MIXED-OXIDE FUEL UPON COMPLETION OF OPERATIONS OF MOX FACILITY.—If, one year after the date on which operation of the MOX facility permanently ceases any mixed-oxide fuel remains at the Savannah River Site, the Secretary shall submit to Congress—

(1) a report on when such fuel will be transferred for use in commercial nuclear reactors; or

(2) a plan for removing such fuel from the State of South Carolina.

(g) DEFINITIONS.—In this section:

(1) MOX PRODUCTION OBJECTIVE.—The term “MOX production objective” means production at the MOX facility of mixed-oxide fuel from defense plutonium and defense plutonium materials at an average rate equivalent to not less than one metric ton of mixed-oxide fuel per year. The average rate shall be determined by measuring production at the MOX facility from the date the facility is declared operational to the Nuclear Regulatory Commission through the date of assessment.

(2) MOX FACILITY.—The term “MOX facility” means the mixed-oxide fuel fabrication facility at the Savannah River Site, Aiken, South Carolina.

(3) DEFENSE PLUTONIUM; DEFENSE PLUTONIUM MATERIALS.—The terms “defense plutonium” and “defense plutonium materials” mean weapons-usable plutonium.

AUTHORIZING TESTIMONY, DOCUMENT PRODUCTION, AND LEGAL REPRESENTATION

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 299 submitted earlier today by the majority and the Republican leaders.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 299) to authorize testimony, document production and legal representation in City of Columbus versus Jacqueline Downing, et al. and City of Columbus versus Vincent Ramos.

There being no objection, the Senate proceeded to consider the resolution.

Mr. DASCHLE. Mr. President, this resolution concerns requests for testimony in criminal actions in Franklin County Municipal Court in Ohio. In the cases of City of Columbus v. Jacqueline Downing, et al. and City of Columbus v. Vincent Ramos, the city prosecutor has charged the defendants with criminal trespass for refusing to leave Senator DEWINE's Columbus office after the building was closed for the night, and with resisting arrest. Pursuant to subpoenas issued on behalf of the city prosecutor, this resolution authorizes an employee in Senator DEWINE's office who witnessed the events giving rise to the trespass charges, and any other employee in the Senator's office from whom testimony may be required, to testify and produce documents at trial in these cases, with representation by the Senate legal counsel.

Mr. REID. I ask unanimous consent that the resolution and preamble be agreed to en bloc, the motion to reconsider be laid upon the table, and that a statement by the majority leader be printed in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 299) was agreed to.

The preamble was agreed to.

The resolution (S. Res. 299), with its preamble, reads as follows:

S. RES. 299

Whereas, in the cases of City of Columbus v. Jacqueline Downing, et al., Nos. 2002 CR B 01082-25, 010835-37 and City of Columbus v. Vincent Ramos, No. 2002 CR B 010835-37 pend-

ing in the Franklin County Municipal Court in the State of Ohio, testimony has been requested from Michael Dawson, an employee in the office of Senator Mike DeWine;

Whereas, pursuant to sections 703(a) and 704(a)(2) of the Ethics in Government Act of 1978, 2 U.S.C. §§288b(a) and 288c(a)(2), the Senate may direct its counsel to represent employees of the Senate with respect to any subpoena, order, or request for testimony relating to their official responsibilities;

Whereas, by the privileges of the Senate of the United States and Rule XI of the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate may, by the judicial or administrative process, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that evidence under the control or in the possession of the Senate may promote the administration of justice, the Senate will take such action as will promote the ends of justice consistent with the privileges of the Senate: Now, therefore, be it

Resolved, That Michael Dawson and any other employee of Senator DeWine's office from whom testimony may be required are authorized to testify and produce documents in the cases of City of Columbus v. Jacqueline Downing, et al., and City of Columbus v. Vincent Ramos, except concerning matters for which a privilege should be asserted.

SEC. 2. The Senate Legal Counsel is authorized to represent Michael Dawson and any other employee of Senator DeWine's office in connection with the testimony and document production authorized in section one of this resolution.

EXPRESSING SENSE OF SENATE THAT SMALL BUSINESS PARTICIPATION IS VITAL TO DEFENSE OF OUR NATION

Mr. REID. Mr. President, I ask unanimous consent that the Small Business and Entrepreneurship Committee be discharged from further consideration of S. Res. 264 and the Senate now proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 264) expressing the sense of the Senate that small business participation is vital to the defense of our Nation, and that Federal, State, and local governments should aggressively seek out and purchase innovative technologies and services from American small businesses to help in homeland defense and the fight against terrorism.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. I ask unanimous consent that the resolution and preamble be agreed to en bloc; the motion to reconsider be laid upon the table; that any statements relating thereto be printed in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 299) was agreed to.

The preamble was agreed to.

The resolution (S. Res. 299), with its preamble, reads as follows:

S. RES. 264

Whereas on September 11, 2001, the people of the United States were subject to the worst terrorist attack in American history;

Whereas in October 2001, the Pentagon's Technical Support Working Group, which is responsible for seeking new technologies to assist the military, sent an urgent plea, seeking ideas on how to fight terrorism;

Whereas in just 2 months, over 12,500 ideas were submitted to the Technical Support Working Group, most of them from small businesses;

Whereas small businesses remain the most innovative sector of the United States economy, accounting for the vast majority of new product ideas and technological innovations; and

Whereas despite their achievements, small businesses often have difficulty marketing and supplying goods and services to Federal, State, and local governments: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) small business participation is vital to the defense of the United States and should play an active role in assisting the United States military, Federal intelligence and law enforcement agencies, and State and local police forces to combat terrorism through the design and development of innovative products; and

(2) Federal, State, and local governments should aggressively seek out and purchase innovative technologies and services from, and promote research opportunities for, American small businesses to help in homeland defense and the fight against terrorism.

ORDERS FOR TUESDAY, JULY 9, 2002

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m., Tuesday, July 9; that following the prayer and the pledge, the Journal of Proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and there be a period for morning business until 10:15 a.m., with Senators permitted to speak for up to 10 minutes each, with the first half of the time under the control of the Republican leader or his designee, and the second half of the time under the control of the Republican leader or his designee; that at 10:15 a.m., the Senate resume consideration of the accounting reform bill.

The PRESIDING OFFICER. Without objection, it is so ordered.
